NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

Handwritten calculations:

$$\begin{array}{r} 120.88 \\ 72 \overline{) 11121} \\ \underline{92} \\ 192 \\ \underline{184} \\ 810 \\ 736 \\ \underline{740} \\ 736 \\ \underline{736} \\ 4 \end{array}$$

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

1.

INDIAN RESIDENTIAL SCHOOL QUARTERLY RETURN

I HEREBY CERTIFY that the within Return is a true and faithful statement of the attendance and tuition at the Beauval Indian Residential School for the Quarter ended Dec. 31 19 49.

Principal F. X. Gagnon O.M.I.

Dated Jan. 3 19 50

I have carefully examined the within Return and hereby certify that it is correctly made out in accordance with the instructions of the Department.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

3.

INDIAN RESIDENTIAL SCHOOL QUARTERLY RETURN

I HEREBY CERTIFY that the within Return is a true and faithful statement of the attendance and tuition at the Beauval Ind. Res. School for the Quarter

ended March 31 1950

F. X. Gagnon

Principal.....

Dated April 1 1950

I have carefully examined the within Return and hereby certify that it is correctly made out in accordance with the instructions of the Department.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

INDIAN RESIDENTIAL SCHOOL QUARTERLY RETURN

I HEREBY CERTIFY that the within Return is a true and faithful statement of the attendance and tuition at the Beauval Ind. Res. School for the Quarter ended Sept. 1950.

Principal F. X. Gagnon o.m.i.

Dated October 2 1950.

I have carefully examined the within Return and hereby certify that it is correctly made out in accordance with the instructions of the Department.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.
2. The columns of the Return should be correctly added and the totals placed at the foot thereof.
3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.
4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.
5. No Quarterly Grant will be paid until Returns have been received by the Department.
6. The total number of days in quarter means every day in the quarter, including Saturdays, Sundays and holidays.
7. The aggregate number of days pupils in residence during quarter means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".
8. The average attendance of pupils during quarter is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".
9. The amount per capita grant due for quarter is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

INDIAN RESIDENTIAL SCHOOL QUARTERLY RETURN

I HEREBY CERTIFY that the within Return is a true and faithful statement of the attendance and tuition at the Beauval Ind. Res. School for the Quarter ended December 31 1950
Principal F. X. Gagnon O.M.I.
Dated Jan. 2 1951

I have carefully examined the within Return and hereby certify that it is correctly made out in accordance with the instructions of the Department.

DEPARTMENT OF INDIAN AFFAIRS

CANADA

Ottawa, Feb. 15, 1924.

Memorandum:

Mr. Scott.

Approved
Del

A letter has been received from Reverend Father Guy asking that material be supplied by the Department for the painting of the Beauval School. He states that the Principal of the School could have the work done if the materials were supplied by the Department. The cost of the materials bought in Winnipeg would be approximately \$275.00. The Schools Branch state that funds are available.

If you approve of supplying the paint instructions will be sent to Mr. Bunn to make the purchase in Winnipeg, after obtaining competitive prices, and have same shipped to the school.

Ottawa, Feb. 18, 1924.

Sir:-

I beg to advise you that you may purchase the enclosed list of piping, etc. required for the Beauval School.

In purchasing this material you should consult with Mr. Inspector Bunn of Winnipeg, and competitive prices should be obtained in Winnipeg, before the purchase is made. All accounts should be duly certified to by you, and forwarded to Mr. Bunn, who will send them to the Department for payment.

Your obedient servant,

J. D. McLean

Sir:-

For your information I am enclosing herewith a copy of a letter addressed today to the Reverend Brother Gauthier, with reference to some piping that is required at the Beauval School. The Reverend Brother called at the office today, and he was instructed to consult with you in making the purchase of this piping.

Competitive prices should be obtained in Winnipeg and the materials purchased to the best advantage.

You should also note that Brother Gauthier has been requested to forward the accounts to you, and I would ask you to submit them to the Department.

Your obedient servant,

J.D. McLean

R

Duncan C. Scott.
Deputy Supt. General of
Indian Affairs.

Dear Sir,

In reply to yours Oct. 4th. 1923.
No 132-1-5; beg leave to say that the desks
have been received in good condition, and
that the prices are fair and just.

You may be sure they are duly ap-
preciated by both teachers and pupils,
and is also quite an improvement in the
class-rooms. We thank you very much.

Extra note
You also tell me in this same letter
that an order had been placed with the
Government Stationery Office to forward
us 2 hy's plate blackboards 10' x 3 $\frac{1}{2}$ ' each.
I beg to inform you that we have received
only one. It is now too late to send the
other one as the freighting will be over
before you would have time to send it.

I am,

Dear Sir

Yours truly,

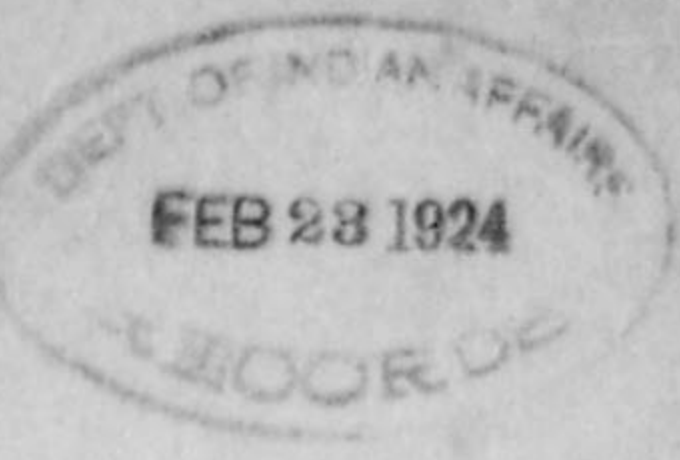

Martin Lapeere

F. H. Paget, Esq.,

Acct. and Purchasing Agent,

Dept. of Indian Affairs,

OTTAWA, ONT.

Dear Sir:

We are in receipt of yours of February 12th re our invoice No. 7896 for Desks supplied to Beauval Residential School.

We would advise that the receipted bill for freight charges was attached to the invoices sent to, Rev. Martin Lajeunesse, Big River, Sask. Evidently he has neglected to forward this with the other invoices. Our record shows quite clearly that this bill was mailed as stated above.

Yours very truly,

WESTERN SCHOOL SUPPLY LTD.

Ottawa, February 25th, 1924.

Gentlemen:

I have your letter of the 20th instant, regarding the receipted bill for freight charges on the desks shipped by your firm to Rev. Martin Lajeunesse, Big River, Sask.

The reverend gentleman has returned the account properly certified for the desks, but has neglected to attach the receipted bill for the freight charges. Owing to the mail facilities it would take considerable time to obtain this receipted bill, and I shall be pleased if you will obtain from the freight office in Regina a certified duplicate copy of the receipted bill for the freight charges paid on the desks shipped to Big River. It will greatly oblige if you can forward a duplicate bill for the freight charges, upon receipt of which your account will be paid.

Yours very truly,

F. H. Paget

Dear Sir:-

Your Department has been good enough
to favor us with an order for two #405 (42"x8")
Leonard Portable Firebox boilers, which we hope
to have completed and ready to ship by the end of
this week.

We are enclosing a marked print off our
drawing D-7574 showing the over all dimensions of
this boiler, which you will find marked in Yellow
ink on the drawing in question. We trust that
this drawing will enable you to install the grates
and pipe the water column without difficulty. If
however, there are any further particulars you
require, please let us know.

We are also enclosing a blue print off our
drawing D-7760. which shows the steam and return
headers, that we are also supplying with your boilers.
We trust that the information on this blue print will
enable you to assemble these headers without difficulty.

Yours truly,

E. LEONARD & SONS LTD.,

Ibbotson Leonard.

R

Ref. No.
re Letter 132-1-5.
Feb 18th, 1924.
Beauval Indian School.

Lake Winnipeg Inspectorate
Inspector's Office

Winnipeg, 11th, March, 1923.

The Assistant Deputy & Secretary,
Department of Indian Affairs,
Ottawa, Ont.-

Sir,-

I duly received your letter, number and date as given above, also the enclosure the same being the copy of a letter to Rev'd. Brother Gautier, all with reference to the purchase of certain materials for Beauval Indian Boarding School.

The Rev'd. Brother Gautier called at my office in the afternoon of the 3rd instant, and he handed me the list of said materials.

I immediately got busy on the lists in order to get competitive prices, I specified that these prices should be in my hands by noon of the 6th instant, and they were, I then figured them and made an abstract to find out who were the successful parties, I then got Rev'd. Brother Gautier to look over some lines in order that he would be satisfied with the quality, as soon as this was completed I placed the orders on the morning of the 8th instant for immediate shipment.

I had just made inquiry this morning when the goods would be shipped and was informed that the paints were all ready, I told them to ship at once. The other materials will be ready today and will be shipped tomorrow the 12th inst.

I have kept right after these orders as I was aware of the difficulties of transportation that might arise at this time of the year.

I have the honor to be,
your obedient servant,

Inspector of Indian Agencies.

Note. Just after writing this letter, I received your telegram of the 10th instant and I again urged immediate shipment.

Indian Affairs. (RG 10, Volume 6301, file 650-5, part 2)

Dear Sirs,-

Referring to your letter of the 19th instant, inclosing statement for \$1780.00 for two boilers shipped to Rev. M. Lajeunesse, Big River, Sask., for the Beauval Indian Boarding School, I beg to state that your account, which you were requested in my letter of the 11th January to send to the Principal, has not yet been returned certified by him. If, however, you can furnish me with a copy of the bill of lading with evidence that the boilers were delivered at Big River in good order and condition, I will endeavour to hasten the payment of your account.

Yours truly,

F.H. Paget

Dear Sirs:-

Attention Mr. F. H. Paget.

Your favor of the 26th instant to hand,
regarding two boilers we supplied to the Reserve
at Big River, Saskatchewan.

We are enclosing herewith a copy of a
wire received from the Canadian National Railway
at Winnipeg, stating that the car arrived at Big River
on March 13th. We are also enclosing herewith a
copy of our bill of lading, and trust with those
documents you may be able to hasten payment of our
account.

Thanking you in advance, we are.

Mr. J. D. McLean,
Secretary, Department of Indian Affairs,
Ottawa.

ATTENTION OF THE ARCHITECT

Dear Sir:-

Reverend Father Martin-Lajeunesse, Principal of Beauval Indian Boarding School, has forwarded me the following information:

"I have been obliged to return the dynamo bought for us by the Department from Jones & More, Toronto. This firm has sent us a generator of 110 volts, though Reverend Brother Gauthier had asked for one of 125. The invoice of the Firm states that a generator of 125 volts has been sent and as above mentioned one of 110 has been received. A generator of that strength would not be sufficient for the lights which we would be obliged to change, nor for the motor which is of 125 volts. Moreover, I claim from this Company a sum of \$20.00 which I was obliged to pay for the freighting of the dynamo from Big River to Beauval.

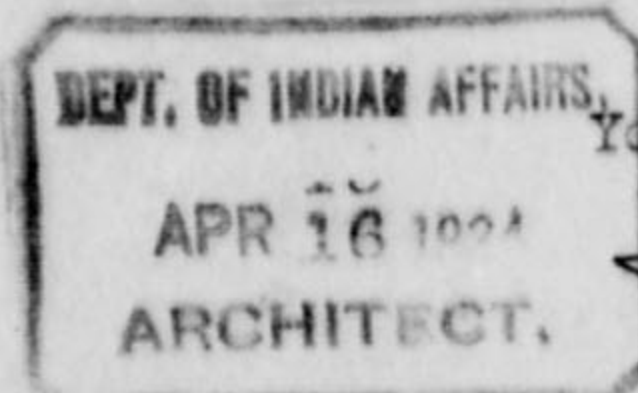

Kindly advise the Department and oblige

Yours truly

(Sgd) Martin Lajeunesse".

Hoping that you will take up this matter with Jones & More,

I remain

Yours truly,

Joseph E. ...

Dear Sir,-

In reply to your letter of the 7th instant, in which you request payment of your account rendered at \$1780.00 for a boiler shipped to the Beauval Indian Residential School, I beg to say that the matter of payment cannot receive attention until your account, which was sent to the Principal of the Institution to be certified, has been returned. It went forward to the Principal on the 3rd April.

I may add that a letter is being written to him in the matter.

Yours truly,

E.H. Paget
Accountant and Purchasing Agent.

Dear Sir,-

On the 3rd ultimo the Department sent you an invoice for a boiler shipped to the Beauval Indian Residential School by Messrs. E. Leonard & Sons, of London. This firm is requesting payment of their account of \$1780.00. I shall be glad to have you certify the account (if the boiler reached you in good order) and return the same without delay in order that the matter of payment may be given consideration.

Yours truly,

F.H. Paget
Accountant and Purchasing Agent.

Department of Indian Affairs,
Ottawa, Ontario.

Dear Sirs:-

We are enclosing herewith an invoice in triplicate covering heaters and boilers supplied to the Beauval Indian School, Big River, Sask. The original invoice was sent to Rev. M. Lajeunesse at the time shipment was made and we presume that he has sent the invoice on to you for settlement.

This account now is almost two months old and we would like to obtain settlement as soon as possible and we would be pleased to receive your cheque just as soon as you can have it made out for us.

Yours truly,

CRANE LIMITED.

Sir,-

In reply to your letter of the 6th instant, I beg to say the Department is writing to the Principal of the Indian Residential School at Beauval, Sask., regarding your account of the 16th February amounting to \$246.50. Payment, I may say, cannot be made until the account has been certified by the Principal. I observe you state that you sent your account to him about two months ago, but I may say it did not reach the Department.

Your obedient servant,

J.D. McLean
Asst. Deputy and Secretary.

Sir,-
(Incl.)

I beg to say that the Department has received a letter from Crane, Limited, of Winnipeg, making inquiry regarding payment of their account of \$246.50 for boilers, etc., supplied for the Beauval Indian School. It appears that the original of this account was sent by the said firm to you but it has not reached the Department. Inclosed herewith you will find two copies of the account in question. If the articles charged for were received in good condition, kindly certify this account and return it to the Department with a view to payment.

Your obedient servant,

J.D. McLean
Asst. Deputy and Secretary.

Reverend Sir,-

I beg to say the Department is in receipt of a letter from Crane, Limited, of Montreal, requesting payment of their account of \$265.00 for supplies shipped to the Beauval Residential School. The supplies in question were forwarded in January last, but the Department has not received the account for the same from you, and it is assumed that it was forwarded to you. Payment, I may say, cannot be made until you have certified with regard to the correctness of the account. I shall be glad to have you give attention to this matter without delay.

Yours truly.

Dear Sirs,-

In reply to your letter of the 15th instant, I have to say that your contract called for delivery, F.O.B. Big River and until the Department has evidence that delivery was made there in good order, payment of your account, I regret, cannot be made. It is customary to have such accounts certified by the official of the Department to whom shipment was made and therefore you were requested to render your account to him. I wrote the Principal of the School on the 11th ultimo, inquiring as to the delay in our not having received your account from him, and I expect to hear from him shortly. I may say that he resides some distance from Big River in a rather remote place and there is a mail only once a month or so, I understand. I regret the delay.

Yours truly,

F.H. Paget

Department of Indians Affairs,
Ottawa, Ontario.,

Gentlemen:-

We beg to enclose herewith copy of invoice dated January 26th, for \$200.00 for dynamo supplied to your department and shipped to Reverend M. Legeunesse.

We are giving you the order number but if you require any further information as to this account please advise by return mail as we are very anxious to receive payment of the account in order that we may have the necessary funds to take care of our own obligations.

We hope therefore that you will assist us by either sending cheque or arranging so that the account will be paid at an early date and oblige,

Yours very truly,

Jones & Moore Electric Co., Limited.,

CHB:AMG.

Encl.1..

Ottawa, June 5th., 1924.

Rev. Sir,-

I beg to inform you that Messrs. Jones & Moore Electric Co. Ltd., Toronto, are asking why their account amounting to \$200.00 for generator shipped you in January last has not been paid. Kindly therefore inform me the cause of the delay in returning this account to the Department, which I understand was sent to you together with the shipping bill.

With reference to your letter of the 17th May stating that you had to pay \$41.17 freight on wash bowls shipped by the Stephen Manufacturing Co., Toronto, I beg to ask why the account, duly certified by you, has not been forwarded to the Department. If you will forward this account together with the freight bill, the charges paid by you will be deducted therefrom and remitted to you.

Yours truly,

F.H. Paget
Accountant and Purchasing Agent.

Dear Sirs,-

Replying to yours of the 30th ultimo, respecting your account for \$200.00, I beg to say that the reason payment has not been made is owing to the account not having been returned to the Department duly certified by the Principal, as we require all accounts to be certified by our officials before payment can be made. I am writing the Principal asking him what is causing the delay in returning the account, and as soon as I hear from him, I will communicate with you again. I may say that the Principal lives in a very remote district where there is a mail only once a month and even not so often as that during the winter.

Yours truly,

F.H. Paget
Accountant and Purchasing Agent.

Dear Sirs:- With further reference to our letter of May 15th, and
your reply of the 16th with regard to our account amounting to \$265.00,
covering goods shipped to the Beauval Residential Indian Schools.

We wish to advise that we have not yet received settlement of this account,
and we would be obliged if the matter would receive your early attention.

Yours truly,

Ottawa, June 25th., 1924.

Dear Sir,-

Referring to your letter of the 19th instant, relative to your account amounting to \$265.00 for goods shipped to Beauval Residential Indian School, I regret to state that your certified account has not yet been returned by the Principal, but it is expected at any time now, and as soon as it comes to hand payment will promptly be made.

I may say that in a letter received from the Principal on the 4th instant he refers to having to pay \$41.17 C.N.R. freight on "25 wash bowls" received from Stephen Mfg. Co., Toronto. Has this any connection with your order for the 25 enam. Basins.

Yours truly,

F.H. Paget
Accountant and Purchasing Agent.

Department Of Indian Affairs.
Ottawa.

of Mr. F. H. Paget, Accountant.

Dear Sir:-

I am in receipt of a letter from Jones & Moore Electric Co, Toronto, re a Generator bought by the Department for our School and asking me to certify the invoice "correct" and forward to the Department. Before doing so I want to explain the facts about that Generator.

The Generator ordered by the Dep. was a 125 volts Generator- And the invoice shows, 125 volts also. Now the Generator they sent here was marked 110 volts and the only instructions sent with same was a diagram marked also "110 volts Generator".

Then I took advice from electricians and was told that this Generator would not do for our motor which is 125 volts as well as for our lamps which are 125 volts also. I was told too that it would be dangerous to raise the voltage of a 110 volts Generator to 125 volts by accelerating the speed as the machine would be overcharged. Consequently as it was late in the season it was the last chance I had to send the Generator back on account of bad roads I returned it to Jones & Moore Co, explaining their mistake of 110 volts.

These Gentlemen stooped the Generator in Winnipeg claiming that this Generator was specially built and could be raised to 125 volts by accelerating the speed without any danger for the Machine, and acknowledge "that" the Generator was marked 110 by "mistake." Why did they not explain this when they sent the Generator, if they had I would not have returned it. But as I received no instructions, I could not possibly undertake to put it into use, on a 125 voltage. Now these Gentlemen expect me to pay the freight occasioned by their mistake. The best I can do is to pay the freight from Big River to Beauval and back-

over.

Indian Affairs. (RG 10, Volume 6301, file 650-5, part 2)

**PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA**

But I think that it would only fair to make them pay the freight
on ~~the~~ railroad, at least, as the mistake is all at their account.
Just now I cannot say if the Generator is still in Winnipeg or if
it has been sent to Big River. Hoping you will use your influence
to settle this case in the right way-and thanking you in anticipation

I remain

Yours truly.

Yours of the 5th instant at hand.

1/ Re; Messrs. Jones & Moore Electric Co. Toronto, I beg to say I think you must have received my letter of June 14th, by this time, explaining the cause of my delay- I am waiting for your answer. I am informed that the generator has been sent back to Big River, but I cannot say how Mr. Olson had to pay for the freight, as he has charge of it. I have informed him to let you know how much he paid, as I told you in my previous letter I expect Messrs Jones & Moor to pay the freight by their mistake. However I will certify the invoice and inclose it to you. Very sorry to have given you so much trouble, and trust you will assist me in having them pay their expenses.

2/ Re; Stephen Co- I must tell you I have not received any invoice nor shipping bill. But I can ascertain I did receive 25 wash-bowls on which I had to pay \$41.17, for freight to C.N.R.

Yours truly.

R

Gentlemen:-

We have your favor of the 20th. inst., regarding the deduction of \$20.10 being freight charges for returning the generator from Winnipeg to Beauvel Residential School via Big River Saskatchewan. We cannot consent to this deduction from our account as it was caused from inexperience and incompetence entirely on the part of the Rev. M. Legeunesse who shipped the generator back intending it to be returned to Toronto, when we stopped it in transit at Winnipeg and when we advised him that the 110 volt and 125 volt pressure was equivalent to the same, he instructed us to return the generator to him which we did and we presume that he is operating it successfully at this time. Now not having done anything in connection with the generator there is consequently no fault on our part and we therefor feel that we are justified in asking you to forward cheque for \$20.10 in settlement of the account.

In the mean time we are,

Yours very truly,

Jones & Moore Electric Co., Limited.

EXD

Ottawa, Sept. 24, 1924.

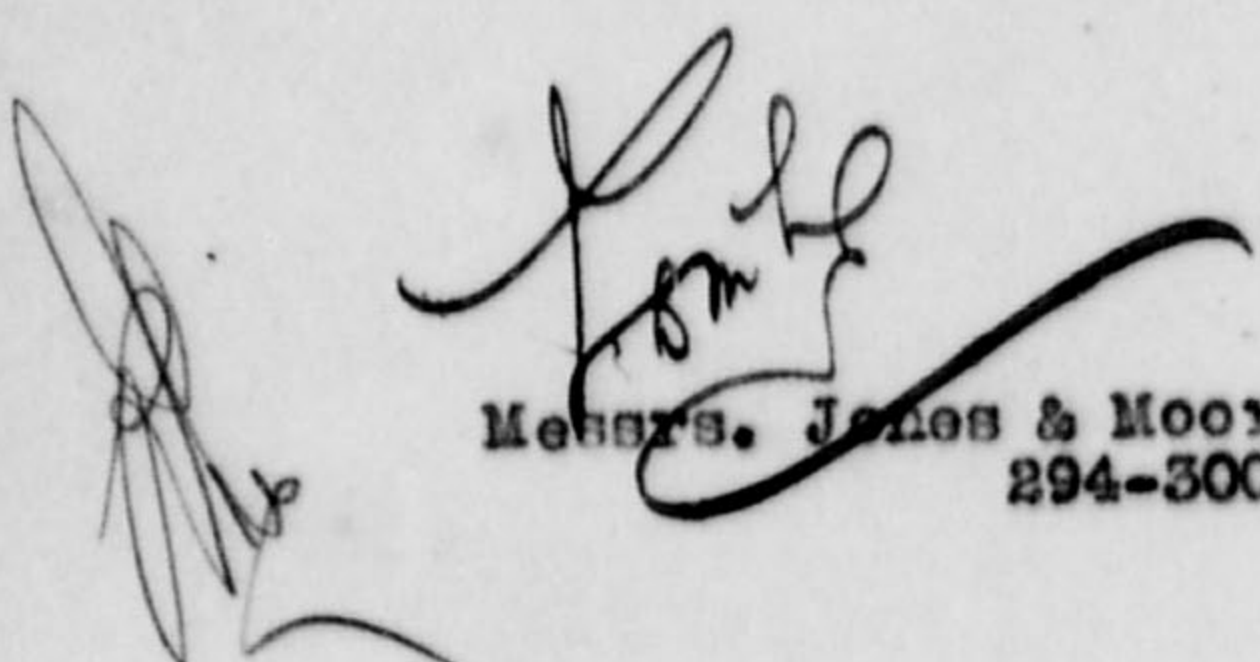

Sir:

Replying to your letter of the 17th instant with reference to the generator shipped to the Beauval Indian Boarding School, Big River, Sask. I beg to say that the amount of \$20.10 was deducted from your account as this was the cost of the freight paid for by the Principal due to the error on your part in shipping a generator of 110 volts when 125 volts was specified.

Your obedient servant,

J. D. McLean.
Assistant Deputy and Secretary.

Att. Mr. J. D. McLean.
Asst. Deputy & Sec.

Dear Sirs:-

In further reference to your favor of September 24th last, reference 132-1-5, would say that you are entirely in error in your statement that the error was on our part in regards to the generator furnished to the Beauval Indian Boarding School, Big River, Sask., as it was entirely a case of want of knowledge of electrical terms and voltages on the part of the Rev. M. Legeunesse, who is in charge of the generator there.

In our letter of July 24th-'24 we explained this fully and as you are not entitled to deduct from the amount of our invoice without our consent or knowledge, we must ask for remittance of \$20.10 to close this matter out, in the mean time, we are

Ottawa, Nov. 22nd, 1924.

Gentlemen:

Your quotation of the 18th instant for the school equipment required for delivery at Big River, Sask., for the use of the Beauval Indian Residential School is accepted.

I have, therefore, to request that you will ship as soon as possible addressed to Rev. M. Lajeunesse, O.M.I., c/o Mr. Martin Olson, Big River, Sask., the following, viz: -

- 2 Teacher's Sanitary Desks, No. 11,
- 2 " Arm Chairs, No. 21,
- 3 No. 2 Preston Double Desks, with divided seats,
- 1 No. 2 Preston Double Rear, with divided seat,
- 1 Bookcase and Cupboard, No. 1.

The above equipment should be supplied at the aggregate price quoted, viz. \$156.75 f.o.b. Big River, Sask., Government sales tax included. When shipment has been made, please forward your account, in duplicate, to Rev. M. Lajeunesse, O.M.I., Principal, Indian Residential School, Beauval, Sask., who is being informed of the order having been placed with you, and requested, upon receipt of these supplies, if in good condition, to certify the account and forward it to the department when payment will be made.

The above equipment should be securely packed in order to prevent damage in transit to the school.

I shall be pleased to have an acknowledgment of this order and the date when shipment will go forward.

Rev. Sir:

I have your letter of the 23rd ultimo, enclosing a requisition for school supplies for the Beauval Indian Residential School, and requesting that a chair for each of the two teachers, and also a drinking water tank, be supplied.

In reply I beg to say that an order is being forwarded to the Government Stationery Office, here, to send to you the quantity of classroom supplies considered necessary. These will be forwarded in care of Mr. Martin Olsen, Big River, Sask.

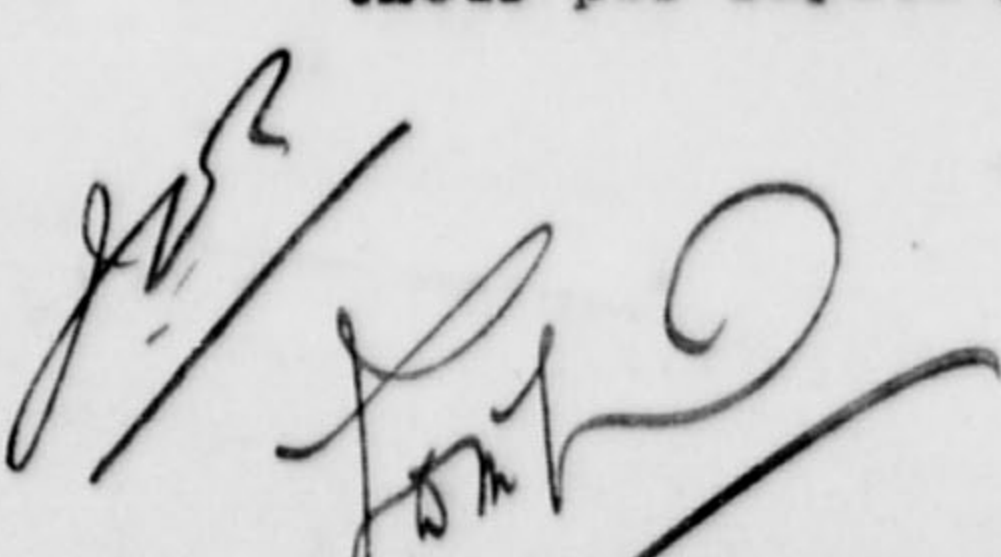

An order is being placed with the Western School Supply Ltd., Regina, to forward 2 teachers' chairs.

The Department is not prepared to furnish the drinking water tank, as it is considered this is equipment that should be provided by the school authorities from their per capita grant or other receipts.

Gentlemen:

I have to request that you will arrange to supply one (1) Singer sewing machine for the use of the Beauval Indian Residential School, Beauval, Sask. The machine required is described in your catalogue as

No. 2 - 5 Drawer Machine, 127 - 3 G.O.

Please arrange to have this machine shipped from your nearest branch office addressed to

Rev. Martin Lajeunesse, O.M.I.,
c/o Martin Olsen,
Big River, Sask.
"For Beauval Indian Residential School".

The account for the machine should be made out in duplicate and should show the retail price and discount of 40% allowed "on which terms purchase is made". Please forward the account to Rev. Martin Lajeunesse, O.M.I., Beauval, Sask., who is being informed that the order has been placed with you and requested, upon receipt of the machine, to certify the account and send it to the Department, when payment will be made.

Yours very truly,

Sgd F. H. Paget

Rev. Sir:

I beg to inform you that we are today placing an order with the Singer Sewing Machine Company, here, to supply from their nearest branch office one (1) Singer sewing machine for the use of the Beauval Indian Residential School. The machine is described in the catalogue of the above firm as

No. 2 - 5 Drawer Machine, 127 - 3 G.O.

This machine will be shipped addressed to you in care of Martin Olsen, Big River, Sask.

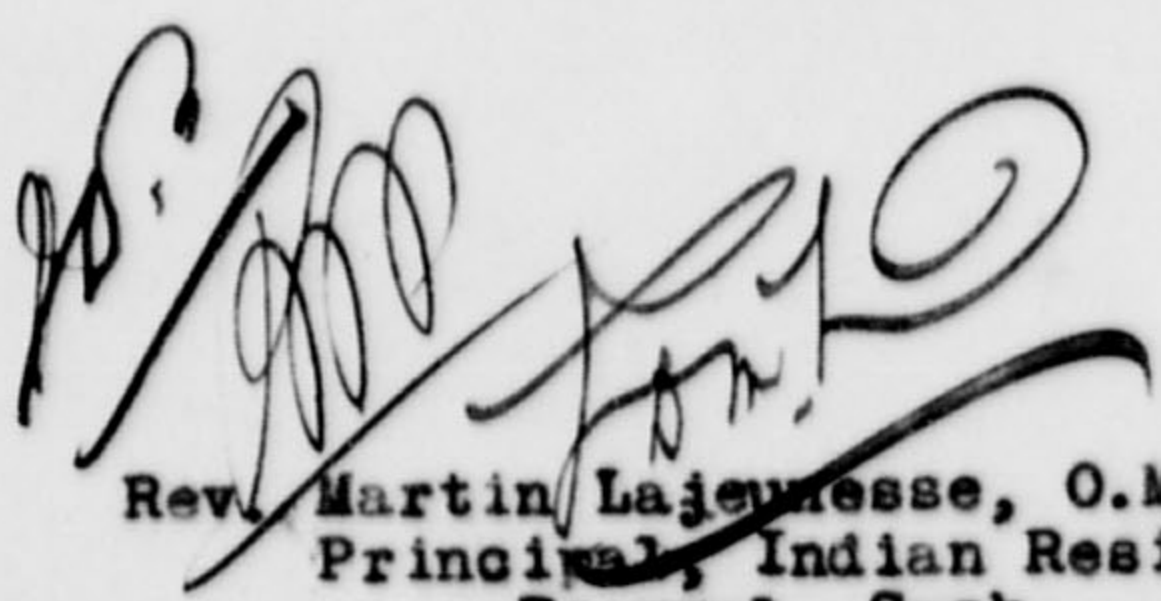

This firm have been requested to forward their account, in duplicate, to you. It will show the retail price and discount of 40% allowed "on which terms purchase is made". When the machine arrives, I have to request that you will certify on the account as follows: "Goods received; prices charged fair and just", and you should then forward the account to the Department, in order that payment can be made. Please certify the account and forward it to the Department at the earliest possible date after the machine is received.

It is hoped that when this machine arrives it will be satisfactory.

Your obedient servant,

J. D. McLEAN

Rev. Sir:

I have to inform you that we are today placing an order with the Singer Sewing Machine Company to supply one Singer sewing machine for the use of the Beauval Indian Residential School. The above firm have been requested to ship this machine to Rev. Martin Lajeunesse, O.M.I., c/o Martin Olsen, Big River, Sask., and to send their account to the Reverend Principal to be certified.

I may say that we supplied two machines to this school not long ago, and, as the pupilage is only 65, the one machine now being supplied is the total number we will be able to furnish this school.

Your obedient servant,

J. D. McLEAN

Beauval Indian Residential School,

Oct. 8th, 1927.

Indian Department,

Ottawa,

Please find

Cy.
enclosed herewith three bills covering merchandises bought after the fire.

We are housing sixteen ^{girls} in order to keep the school up and to make the start easier if we build again.

I am sending through Regina a list of children to be accepted and discharged.

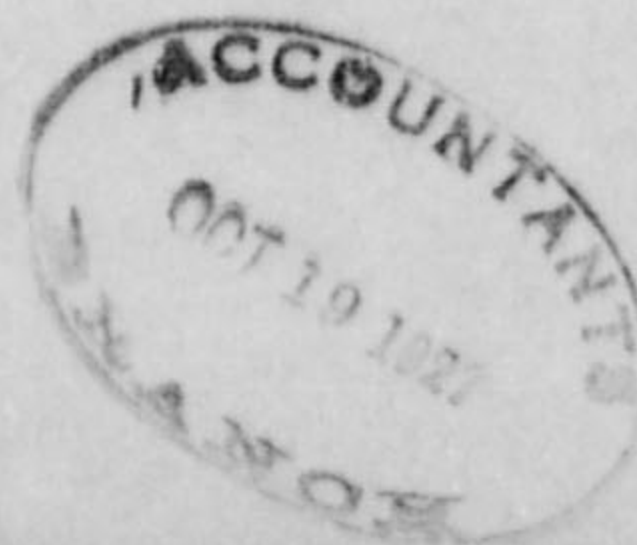

I did not want to ask for the discharge of all the children gone home after the fire, leaving the thing to be done later on, if it should be. I might bring back to school a few ones of them, if we have room enough.

Yours truly,

Father Adam A. M. S.
Principal

Beauval Indian Residential School,

Oct. 20th 1927,

Mr. Duncan Scott, Deputy Minister

Indian Department, Ottawa.

Dear sir:

I wish to thank you for your letter of the 5th instant renewing sympathy with us and offer of assistance in order to relief us in our disaster.

The most urgent supply needed is:

- Subam*
- Two washers.....Excel-all
 - Two wringers.....II x II
 - One clock.....Regulator *will*
 - ~~- 100 lbs.....Denim (black & grey) (100 lbs)~~
 - ~~- 100 lbs.....Denim (black & grey) (100 lbs)~~
 - *one* sewing machines (Singer) *KMP*
 - One Office Chair
 - Six chemical fire extinguishers
 - One bottle going inside fire extinguisher

I enclose a duplicate receipt of the money spent by the School for the conveyance of the supply from Big-River to Beauval in the case that the Department would be kind enough to refund Beauval School for the same amount.

Please find enclosed certified invoice in duplicate of a "De Laval Separator" sold to the School after the fire.

Very truly yours,

Hold for John Guy

Indian School, Beauval, Sask.

Dec. 7th, 1920.

Dear sir:

- 10 I herewith acknowledge receipt of your circular and letter of November 5th, and beg to state, that all our stoves, stove-pipes, and chimneys have been cleaned and repaired a short time ago.
- 2) We have just renewed the pipe from the furnace. It is now in a good condition and a man ^{is} in charge day and night.
- 3) The school is provided with stairways from each floor, three stairs, one on the boys' side, one on the girls' side, and one in the centre of the building, besides the two fire escapes outside. Ladders, pails, fire extinguishers of powder, in readiness. Every thing regarding fire is well guarded.
- 4) We have also a fire alarm, and the children and staff are exercised occasionally.

Hoping this will be satisfactory

I am, yours truly

Martin Lajeunesse
Principal

Indian Affairs. (RG 10, Volume 6301, file 650-5, part 2)

Sir:

The Department has received a requisition from Rev. L. M. Adam, O.M.I., Principal, Beauval Indian Residential School, for certain supplies to replace those destroyed at the time of the fire at this school. I shall be pleased if you will arrange for the purchase and forwarding of the following:

2 Hand Washing Machines,
2 Wringers,
1 Wall Clock.

These supplies should be forwarded to Rev. L. M. Adam, O.M.I., c/o Martin Olsen, Big River, Sask.

The account, in duplicate, covering the cost should be forwarded in the usual manner.

Your obedient servant,

J. D. McLean,
Asst. Deputy and Secretary.

Ottawa, November 14, 1927.

Rev. Sir:

I have been directed to acknowledge receipt of your letter of the 20th ultimo, requesting that certain supplies be furnished for the use of the Beauval Indian Residential School to replace similar equipment which was destroyed in the recent fire.

In this connection I beg to inform you that we are today placing an order with the Singer Sewing Machine Company to forward addressed to you one Singer sewing machine of the type described in their catalogue as "No. 2 - 5 Drawer Machine, 127 - 3 G.O."

We are also placing an order with the Pyrene Mfg. Co., Toronto, to forward the following:

- 3 Accurate 5 Gal. Pump Tanks, complete with non-freeze charges,
- 3 - 1½ Quart Pyrene Extinguishers, complete with charges.

These extinguishers will be shipped addressed to you *Go Martin Olsen
Big River, Sask.*

An order has also been placed with the Western School Supply Ltd., Regina, to forward the following: -

- 1 Teacher's Desk, No. 11,
- 1 " Arm Chair, No. 21,
- 1 Tilting Chair, No. 20.

The above firms have been requested to forward their accounts, in duplicate, to you covering the cost of the supplies furnished by them. These accounts should show the cost F.O.B. Big River, Sask. When you receive the supplies, I have to request that you will certify on the accounts, in duplicate, as follows: "Goods received. Prices charged fair and just".

[Signature]
Rev. L. M. Adam, O.M.I.,
Principal, Indian Res. School,
Beauval, Sask.

- You -

- 2 -

You should then sign the accounts and forward them to the Department in order that payment can be made.

We are requesting Mr. Commissioner Graham, Regina, to arrange for the purchase and forwarding of two hand washing machines, two wringers and one wall clock.

With reference to the account which you forwarded covering the cost of the transportation of 4,500 pounds freight from Big River to Beauval, I beg to say that this is returned herewith as it is considered that the school authorities should be responsible for the payment of same from their per capita grant or other receipts. I may say that the per capita grant was allowed and has been paid in full.

The account which has been received covering the cost of the cream separator is being paid.

Your obedient servant,

J. D. McLEAN

J. D. McLean,
Asst. Deputy and Secretary.

Ottawa, November 15, 1927.

Rev. Sir:

I have your letter of the 28th ultimo, enclosing an account for merchandise purchased for the use of the Beauval Indian Residential School.

This account is being returned herewith, as the Department is unable to decide from the account the nature of the material supplied. It is noted that the cost was charged to the school, and you should state whether you have paid for the material and whether the cheque should be sent to you or to the merchant from whom the goods were obtained. I shall be pleased if you will obtain another account, if possible, written more legibly and giving particulars as to the nature of the material for which the Department is asked to make payment. Please give this matter your prompt attention, and if a new account is rendered it should clearly state to whom the cheque is to be sent, and should be properly certified by you in duplicate.

Your obedient servant,

J. D. McLean

TIMBER AND GRAZING LANDS BRANCH

OTTAWA, January 25, 1928.

[Handwritten signature]
Sir,

The Agent of Dominion Lands at Prince Albert has forwarded here an application signed by Mr. J.E.Boucher, on behalf of the Beauval Indian Reserve School, for a permit, free of dues, to cut 200,000 feet B.M. of spruce lumber, to rebuild the school at that point. Mr.Boucher has furnished a statement that the school was destroyed by fire on the 19th September last.

Under the timber regulations permits, free of dues, may be granted to cut timber for the construction of educational, religious and charitable institutions, and as a rule the quantity required is a few thousand feet B.M. only. In this case the quantity is somewhat large, and I should be obliged if you would kindly let me know whether your Department purposes giving assistance to rebuild this school, and if in your opinion the quantity asked for is necessary.

Your obedient servant,

[Handwritten signature: G.P. Pereira]

Ottawa, February 4, 1928.

Sir:

I have your 578386 T & G of the 25th ultimo, with reference to an application your agent at Prince Albert has received from the authorities of the Beauval Indian Residential School. I understand that it is the intention to erect a large institution at this point to replace the one that was destroyed by fire. I believe the quantity requested is necessary, as there will be a main building approximately 80 x 40, three storeys high, as well as several outbuildings. This is a much larger proposition than the ordinary rural day school. I should be grateful if you would arrange to issue permit in this case.

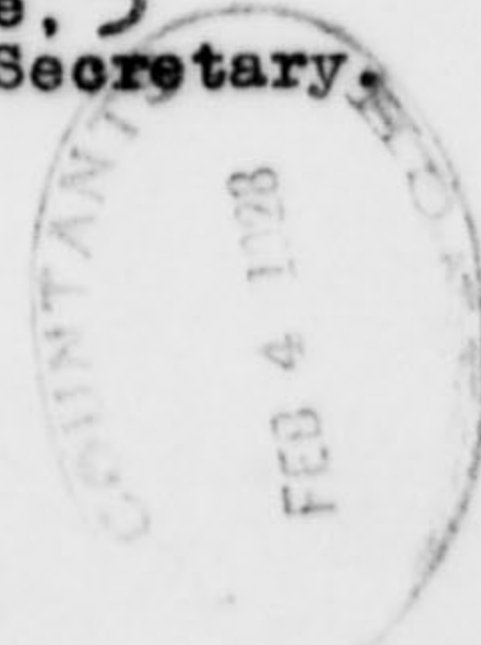

Your obedient servant,

A. F. MacKenzie

Rev. Sir:

Paid

I have to refer you to official letter of November 14th, 1927, informing you that we were placing an order with the Singer Sewing Machine Company to supply one Singer sewing machine for the use of the Beauval Indian Residential School, and that we were placing an order with the Pyrene Manufacturing Company, Toronto, to forward you 6 fire extinguishers, also that we were placing an order with the Western School Supply Co. Ltd., Regina, to forward one teacher's desk, one arm chair and a tilting chair. We also informed you that the above firms would forward their accounts, in duplicate, to you, and you were requested to certify same, as follows: "Goods received. Prices charged fair and just".

The above firms have been requesting payment of their accounts, and if you have received the supplies mentioned above and have the accounts of the respective firms, you should certify same and forward them to the Department at the earliest possible date in order that payment can be made. Please inform the Department if you have received the above mentioned supplies or not. All of the above supplies were shipped to you, c/o Martin Olson, Big River, Sask.

Re Basement

It is proposed to have no basement in the building and to build at ground level. Reasons given:-

- (a) Almost impossible to keep basement clean - the wind brings in so much dust.
- (b) Basements, in these regions, are unsanitary, being always cold and moist. The case at Sturgeon Landing.
- (c) The appearance of the house would be improved if the building were made some seven or eight feet higher.
- (d) If the recreation halls were placed on ground level, they could be made to open on spacious verandahs which would be most useful.
- (e) The cost of the building would be reduced by the suppression of the basement. The digging is very expensive, having to be done entirely by hand shovel.

The foregoing suggestions of Father Adam are approved by Mgr. Charlebois.

Mgr. Charlebois would like to have an early answer to the following questions:-

- (a) Is it the opinion of the Department that we should build of brick? If so, of brick veneer or of solid brick?
- (b) Can we suppress the basement and build at ground level?

Mgr. Charlebois hopes that a bonus of \$25,000 may be granted him (to be put in the fall estimates) to cover in part the expenses to be made next summer in the building of a portion of the School at Beauval.

*J. A. Lajeunesse, S.M.S.

MEMO

concerning the construction of the Beauval Indian School,
from Father Adam.

Schmitt

Re brick-making

Samples of clays from Beauval have been tested in the laboratories of the University of Saskatoon. In the report, which was sent to Rev. Father M. Lajeunesse of Le Pas, the following lines appear: "The clays here reported are among the best that have passed through these laboratories for testing as building brick clays."

The cost of making the bricks, according to the report, would not exceed \$12 per thousand, allowing \$3 a day for the laborers and \$5.50 for a cord of wood.

The number of bricks required would be about 400,000 for the exterior of the whole building and the baking ovens.

The total cost of making the bricks would therefore be about \$2,800. This number must be multiplied by 3 if the walls are to be of solid brick, so that the cost in this case would be \$8,400.

The cost of making the bricks at Beauval would be much lower than that at which they could be bought at the nearest prairie brick-yard.

In order that the new school may be as nearly fireproof as possible, it is proposed to build the walls of solid brick. The plans should be made accordingly. The air-space in the walls not to be forgotten.

According to the report from the University of Saskatoon, the cost of the machinery for brick-making would be about \$2,000. The machine which we intend to buy is of medium size, weighs 1600 lbs., can make 10,000 bricks per day, can be worked by an 8 H.P. motor, and can mould drain tiles as well as bricks.

Re Construction of School

It is proposed to build, for the first year, only the central portion of the school and the part behind it which contains the chapel. Reasons given for this proposal:-

1.- The work could then be done mostly by the lay-brothers of the school aided by laborers who could be hired at Beauval. The cost of building would thus be materially reduced.

2.- If less work is undertaken at one time, more attention can be paid to the quality of the work.

3.- The Department of Indian Affairs would probably be more disposed to help us by annual grants covering a number of years than by a single heavy disbursement.

4.- The portion of the school which we intend to build would easily accommodate the staff of sisters and 50 Indian girls (the number which we had in the past years). For a number of years the recruiting of boys will be very hard, so many of the boys we had having died in the disastrous fire. If the whole building is put up at one time, a whole wing of it would be useless for some years.

August 27, 1928.

Dear Bishop Charlebois:

Reverend Father Lajeunesse, O.M.I., has forwarded Your Lordship's request in connection with the replacement of the Beauval Indian Residential School. The question of asking Parliament for a grant next year of \$25,000 for building activity will receive consideration upon Dr. Scott's return from western Canada.

I am pleased to note that the University of Saskatchewan reports favourably on the brick-making possibilities of the clays from Beauval. The Department Architect advises that a solid brick construction be used in the event of rebuilding, provided the cost of making the bricks is no more than estimated by the Reverend Principal. Concerning the basement, Mr. Orr considers the best arrangement is to have the floor level two feet below the finished grade. In the event of construction, it should be used for the purposes shown on the sketch submitted to Your Lordship last April. This arrangement permits of good lighting on this floor.

Yours very truly,

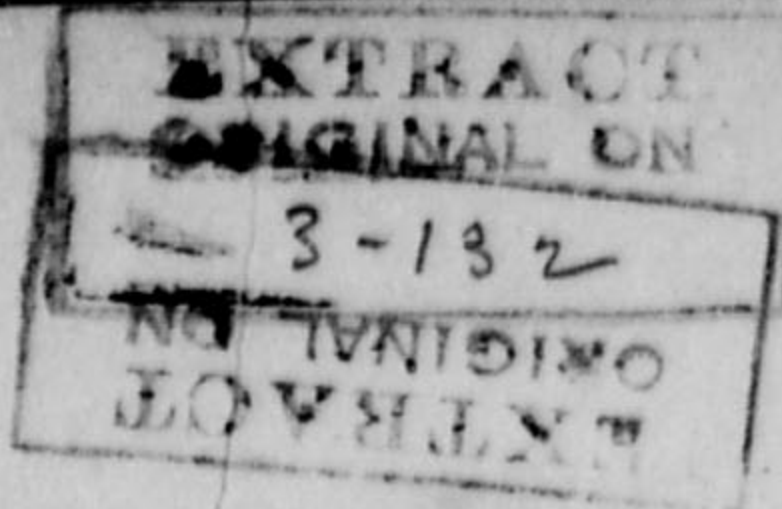

J. D. McLEAN

J. D. McLean,
Acting Deputy Superintendent General.

Rev. Sir:

The Department has received from Rev. Father J. A. Lajeunesse, O.M.I., your request to be supplied with a kitchen range for the use of the Beauval Indian Residential School.

In this connection I have to request that you will furnish full particulars as to the type and size of range required. You should forward this information to Mr. J. R. Bunn, Inspector of Indian Agencies, Commercial Building, St. Boniface St., Winnipeg., who is being given the necessary authority to arrange for the purchase and shipment of this range to your school. I shall be pleased if you will forward to Mr. Bunn, at the earliest possible date, as full information as possible regarding the range required, also full shipping directions for forwarding the range.

Relative to bringing into the country, free of duty, a brick making machine which you are purchasing in the United States, I have to say that it will not be possible to arrange with the Department of National Revenue to admit this equipment free of duty.

MEMO
from telegram received from Bishop Charlebois
re Brick-making Plant.

A brick-making plant is needed at the Beauval School for the construction of the new building. Such a plant would have to be imported from the United-States at a high cost. Now, there happens to be at the Prince Albert Penitentiary a brick-making plant which is the property of the Government. It is still in good condition, but it is not used and will not be used in the future. Could the Department of Indian Affairs secure the loan of this brick-making plant for the Beauval School?

Dear General Hughes:

I have been informed that there is a brick-making machine at the Prince Albert Penitentiary, and I am writing to enquire if it would be possible to transfer this equipment to the Department of Indian Affairs. We are about to erect a new main building for the Beauval Indian Residential School, at Lac la Plonge, in northern Saskatchewan, and it is the intention to make brick near the building site. If your Department no longer requires this machine, I should be very glad to learn if you could arrange for its transfer.

Dear Sir:-

"RE" your letter No. 132-1-5 of november
the 27th., 1928.

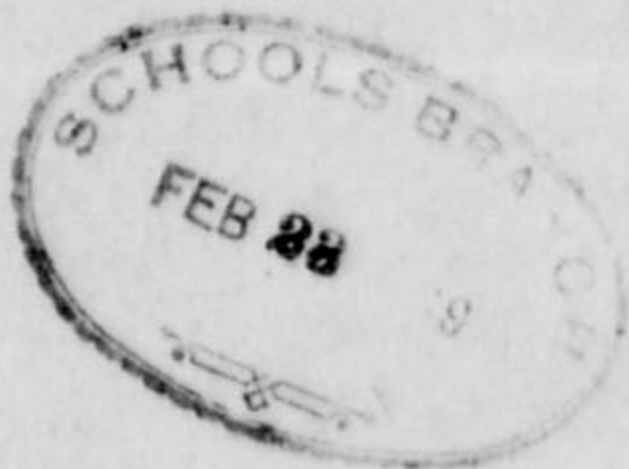

According to your letters, 2 orders have
been successively sent to the Singer Sewing Machine Company
as follows:- 1 for 2 machines and 1 for 1 machine.

Till to-day we have received only 2 machi-
nes. The Company have send us their account only in a single
copy and only for one machine.

I would ask the Department to see that the
Company send us the 3 machines ordered and their account as it
should be sent and in duplicate.

Thanking you in advance for the attention
that you will give to this matter, I am:-

Yours truly:-

Principal.

Louis Maderie Adams D.M.

Principal

Indian Affairs. (RG 10, Volume 6301, file 650-5, part 2)

Ottawa, February 23, 1929.

Gentlemen:

I have to refer you to letter of October 2nd, last, placing an order for the supplying of two Singer sewing machines to be shipped from your nearest branch office to Rev. L. M. Adam, O.M.I., c/o Martin Olsen, Big River, Sask., and also to letter of November 27th, last, placing an order for one machine to be shipped to the same address. The Department has today received a letter from Rev. Father Adam dated the 6th instant, in which he states as follows: "Until today we have received only two machines. The Company have sent only a single copy of their account and only for one machine." He requests that the third machine be supplied as soon as possible and that the account covering the cost of the three machines be sent him in duplicate.

I shall be pleased if you will arrange with the branch office of your Company which supplied these machines to forward the third machine and also to see that the account covering the cost of the three machines is sent to Rev. Father Adam in duplicate. He will then certify the account and send it to the Department, when payment will be made. Your early attention to this matter will oblige,

Yours very truly,

J. H. Paget,
Accountant & Purchasing Agent.

Rev. Sir:

I have your letter of the 6th instant, informing the Department that you have received only two of the three Singer sewing machines which were ordered for the use of the Beauval Indian Residential School, and only a single copy of the account for one machine.

We are taking this matter up with the Singer Sewing Machine Company here, and requesting them to arrange with the branch office of their Company which supplied these machines to ship the third machine and also to forward their account, in duplicate, covering the cost of the three machines. When the machine is delivered and the account received, you will be good enough to certify and send same to the Department in order that payment can be made.

It is hoped that this machine will reach you in due time.

Your obedient servant,

J. D. McLEAN

Dear Bishop Charlebois:

Pursuant to our recent conversation, concerning the rebuilding of the Beauval Indian Residential School, I am pleased to inform you that a Department grant of \$25,000 is available this year. The building activity may be proceeded with without delay, on a day labour basis, under the supervision of the Oblate Order.

I understand that materials have already been purchased, and the Department will make reimbursement if certified receipts, in duplicate, are forwarded to Ottawa. In the case of materials that are yet to be purchased, it is advisable to have the accounts in duplicate, properly certified, and then the Department will issue cheque direct to the firms awarded the business. Labour returns should be kept in duplicate, showing the receipts of those engaged. These may be forwarded from time to time, and reimbursement will be made to Your Lordship's office.

Yours very truly,

Duncan C. Scott

Gentlemen:

I have your letter of the 26th ultimo, enclosing copy of invoice covering the cost of gasoline supplied to the Beauval Indian Residential School, and requesting that a refund of the sales tax on same be made to the school authorities. In this connection I have to inform you that the Department can make no refund of sales tax, as the Government is liable for sales tax on all purchases, the same as in the case of private individuals. The Beauval School would, therefore, be required to pay any sales tax on gasoline purchased for the use of the school.

132-1-5-
Beauval Indian Residential School, April the 1st., 1929.

Mr. J. D. McLean,
Asst. Deputy and Secretary,
Department of Indian Affairs,
Ottawa.

"RE" letter No. 132-1-5 of last february the 23rd.

APR 20 1929

Dear Sir:-

On november the 14th., 1928, "RE" your letter No. 132-1-5, you placed an order for one machine. At the beginning of last week, I received from the Singer Sewing Machine Company, a statement reclaiming the payment for one machine, No. 261007 shipped on november the 22nd., 1927. I received that machine at that time. Perhaps the payment would have been forgotten by the fact that they did not send me the account in triplicate and that at that time I may have thought that they sent it direct to the Department. Would you please find out if the Department has paid for it, and if not to honor it. I send you the statements signed.

On october the 2nd., 1928, "RE" your letter No. 132-1-5, you placed an order for two machines. I also received from the Company another statement for two machines, which have been shipped at the beginning of last november. The numbers of the machines claimed for, are:- 354331, --356784. I received two machines, but the number of the first one, instead of being 354331 is 354336. Although I think that this is only a material error without importance.

On november the 27th., 1928, "RE" your letter No. 132-1-5 you placed another order for one machine. It is that machine that I did not receive, and the Company does not seem to remind that order as no account came for same. I would ask you to look at this matter and to see that this machine be sent and also the account in triplicate.

*after 12/29
no account
sent for
this machine

Ottawa, April 23, 1929.

Gentlemen:

I have to refer to order dated November 14th, 1927, to supply one sewing machine for the use of the Beauval Indian Residential School, Beauval, Sask., also to order of October 2nd, 1928, requesting you to supply two sewing machines, and to order dated November 27th, 1928, for one machine. In a communication from the Principal of the School, he states that he has received the machines covered by the orders of November 14th, 1927, and October 2nd, 1928, but that he has not received the machine covered by our order of November 27th, 1928. He has forwarded accounts covering the cost of the machines which he received, and a cheque in payment will be sent to your agency, 1013 Central Ave., Prince Albert, Sask., in due course.

I shall be pleased if you will take up with this branch office the question of supplying the machine ordered in our letter dated November 27th, 1928. After you have communicated with the agent in Prince Albert, I shall be pleased to hear from you regarding the supplying of this machine and the date it has been shipped.

Yours very truly,

The Dept of Indian Affairs,

Ottawa,

Dear Sirs,

BIG RIVER, SASK. April 25th 1929

Replying to your letter of the 15th inst., re sales
Tax on Gasoline supplied to the Indian School at Beauval.

This gasoline is used entirely for the purposes of
lighting plants and sawing wood. There are no cars in that part
of the country and no roads to run them on.

According to the Act gasoline that is not used for
transportation is not subject to the tax. I paid the tax and
in turn charged it to the Mission but they consider that this
should be refunded as the gasoline is used only for the purposes
specified.

Thanking you,

Yours truly,

OP Godin

Ottawa, May 2nd, 1929.

Sir,-

I have your letter of the 25th ultimo with further reference to sales tax paid on gasoline supplied to the Beauval Indian Residential School. The Department is unable to understand from your letter whether the sales tax referred to is a tax levied by the Province of Saskatchewan or the Dominion Government sales tax. If the former, application should be made to the provincial authorities for a refund. If, however, you refer to the Dominion sales tax collected by the Department of National Revenue, this Department could make no refund as the Government is liable to the payment of sales tax on all purchases, as stated in our letter of the 15th ultimo, the same as in the case of private individuals.

Your obedient servant,

A. F. MacKenzie

Department of Indian Affairs,
Ottawa, Ont.

Attention of Mr. Ferrier.

Dear Sir:-

In a letter of recent date, I have been told by His Lordship Bishop Charlebois to forward to you duplicated receipts of Accounts paid in connection with the new School at Beauval.

Please find herewith enclosed all the accounts I have paid up to date. They include the price of the goods and the freight up to Big-River. As for the freight from Big-River to Beauval, it will take a few weeks before all the accounts be sent.

I may add that all goods have been carefully selected and bought at the lowest price after tenders had been given to different firms. Payments have also been made on time to take advantage of discount when same was given.

With my best personal regards and wishes,

I remain,

Yours very truly,

Martin Lajeunesse

DEPARTMENT OF INDIAN AFFAIRS
CANADA

May 8, 1929.

Memorandum:

MR. MacINNIS.

The main building at the Beauval Indian Residential School, near Lac la Plonge in Saskatchewan, was destroyed by fire in September, 1927. The Oblate Order, under whose auspices this school is being conducted, has offered to erect a new building, provided the Department will give a grant of \$50,000 towards the cost. In view of the location of the school, it is considered that the new building should be erected on a day labour basis, under the supervision of church officers. \$25,000 is provided in the Main Estimates for Indian Education for the Department's share of this year's building costs, and it is proposed to vote a similar amount for the next fiscal year.

Dr. Scott is desirous of securing an Order in Council, authorizing this activity.

Russell H. Miller

The Department of Indian Affairs,
Ottawa, Ont.

Attention of Mr. Orr.

The Principal of the Beauval Indian School intends to buy a dynamo to replace the one which was ruined at a recent fire at the School. This dynamo should be of sufficient power to supply the lighting for the whole school and for the outbuildings. Father Adam would like to have the specifications for this dynamo.

As Father Martin Lajeunesse of Le Pas will do the buying and the shipping of this dynamo, the said specifications might conveniently be addressed to him.

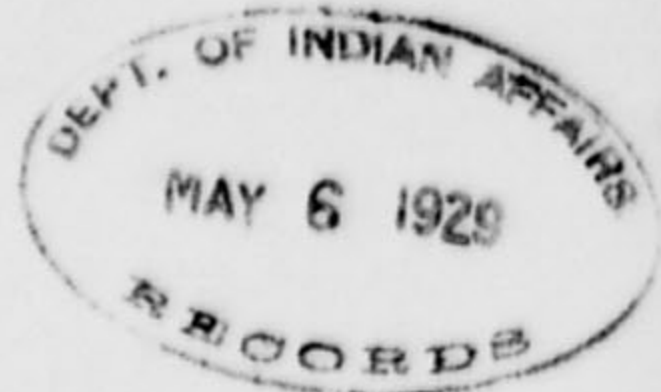

J. A. Lajeunesse, m.s.

Reverend Sir,-

Your brother, Reverend Father Lajeunesse of the University of Ottawa, called here and asked me to write you with reference to the new generator required for the Beauval School. In this connection I might say that a 110 volt, 10 K. W. generator will be ample size to supply all lights required for the school building and outbuildings. It might be well, however, before purchasing the generator to make sure that you have sufficient water power at Beauval to operate the generator. The firm from you intend to purchase generator can give you full particulars if you apply to them and supply them with details as to the power available.

Yours very truly,

R. GURNEY ORR.
Architect for the Department.

Memorandum:

Dr. Scott.

premise
into
Plans and specifications have been prepared for the proposed new Indian Residential School at Beauval. The plans provide accommodation for 75 pupils. The building will be constructed of brick manufactured on the premises and heated with a low pressure steam heating system. A complete sewerage system will be installed and all modern plumbing fixtures throughout the building. An electric lighting plant will be provided to furnish the necessary power to light the building. The cost of the building will be approximately \$100,000 if erected at a reasonable distance from railway transportation. *(note)*

In view of the fact that a large quantity of the materials required will have to be transported from Big River, it is difficult to state definitely what the cost of the building will be erected at Beauval. Part of the cost of transportation will be offset as the Church authorities are manufacturing their own brick at Beauval and also can supply all of the rough lumber required from their own saw mills at this point.

The most economical way of having the building constructed is by day labour under the supervision of the Church authorities, more especially as they are in a position to supply a large quantity of the materials directly on the site. They will also be able to arrange more economical transportation for supplies brought in from Big River.

Ottawa, May 21, 1929.

132-1-5

His Excellency

The Governor General in Council.

The undersigned has the honour to report that the main building at the Beauval Indian Residential School, near Lac la Plonge, in the Province of Saskatchewan, was destroyed by fire in September, 1927. The Oblate Order, under whose auspices this school is being conducted, has offered to erect a new building, provided the department will give a grant of \$50,000.00 towards the cost.

An amount of \$25,000.00 has been included in the Main Estimates for Indian Education for the current fiscal year, 1929/30, and it is proposed to include a similar amount in the Estimates for 1930/31, for this purpose.

Plans and specifications for the proposed building have been prepared by the department. Accommodation for seventy-five pupils is provided.

The building is to be constructed of brick manufactured on the premises and heated with a low pressure steam heating system. A complete sewerage system is to be installed and all modern plumbing fixtures throughout the building. An electric lighting plant is to be provided to furnish the necessary power to light the premises.

In the opinion of the Architect of the department the cost of the building would be approximately \$100,000.00 if erected at a reasonable distance from railway transportation.

In view of the fact that a large quantity of the materials required would have to be transported from the railway line at Big River, a distance of 112 miles, it is difficult to state definitely what the cost of the building will be erected at Beauval. Part of the cost of transportation would be offset as the Church authorities are manufacturing their own brick at Beauval and also can supply all the rough lumber required from their own saw mills at this point. It follows, however, that the proposed expenditure by the department represents not more than one moiety of the total cost.

Indian Affairs. (RG 10, Volume 6301, file 650-5, part 2)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

In view of the remoteness of the locality it appears inexpedient to call for tenders. It is considered that the most economical way of having the building constructed is by day labour under the supervision of the Church authorities, more especially as they are in a position to supply a large quantity of the materials directly on the site. They will also be able to arrange more economical transportation for supplies brought in from Big River.

The undersigned has the honour to recommend that the proposed grant to be expended in the manner aforesaid be approved.

Superintendent General
of Indian Affairs.

Certified to be a true copy of a Minute of a Meeting of the Committee
of the Privy Council, approved by His Excellency the Governor
General on the 30th MAY 1929

The Committee of the Privy Council have had
before them a report, dated 21st May, 1929, from the
Superintendent General of Indian Affairs, stating that
the main building at the Beauval Indian Residential
School, near Lac la Plonge, in the Province of Sas-
katchewan, was destroyed by fire in September, 1927.
The Oblate Order, under whose auspices this school is
being conducted, has offered to erect a new building,
provided the department will give a grant of \$50,000
towards the cost.

copied
An amount of \$25,000 has been included in the
Main Estimates for Indian Education for the current
fiscal year, 1929/30, and it is proposed to include a
similar amount in the Estimates for 1930/31, for this
purpose.

Plans and specifications for the proposed
building have been prepared by the department. Accom-
modation for seventy-five pupils is provided.

The building is to be constructed of brick
manufactured on the premises and heated with a low
pressure steam heating system. A complete sewerage
system is to be installed and all modern plumbing fix-
tures throughout the building. An electric lighting
plant is to be provided to furnish the necessary power
to light the premises.

In

The Honourable

The Superintendent General of Indian Affairs.

June 5, 1929.

Dear Bishop Charlebois:

I am pleased to inform you that arrangements have been made to reimburse the Roman Catholic Episcopal Corporation of Keewatin to the extent of the Department's share of the reconstruction costs at the Beauval Indian Residential School. \$25,000 is available now, and I hope that an equal amount will be available next year for this purpose. Payment of our grant will be made from time to time, when the Department receives receipted accounts, in duplicate. On April 13th, your Secretary, Father LaJeunesse, forwarded receipts, showing an expenditure of \$14,717.22. Under separate cover, a cheque for this amount will be directed to Your Lordship.

Yours very truly,

Duncan C. Scott

Rt. Rev. O. Charlebois, O.M.I., D.D.,
Bishop of Keewatin,
The Pas, Man.

Treaty No.....

DEPARTMENT OF INDIAN AFFAIRS

To Roman Catholic Episcopal Corporation
of Keewatin.

DATE	SERVICE	AMOUNT
1929 June	5. To reimburse the Church Authorities for expenses in connection with the reconstruction of the Beauval Indian Residential School, as shown by the attached receipts. Authority, P. C. 932, dated May 30, 1929.	\$14,717.22
Cheque to be forwarded to: Rt. Rev. O. Charlebois, O.M.I., D.D., Bishop of Keewatin, The Pas, Man.		
Certified Correct, <i>Russell T. Ferrier</i> Russell T. Ferrier, Supt. of Indian Education, 5/6/29.		
1105 6/6/29.		
TOTAL,		\$14,717.22

I HEREBY CERTIFY that this Voucher is correct, that the material has been supplied, the work performed and that the charges are fair and just; also that the expenditure has been incurred legitimately and that each item of the same is a fair and just charge against the Government of Canada.

Agent.

Bishop's House,

Le Pas, Manitoba,

June 17th. 1929.

A. E. MacKenzie, Esq.

Acting Asst. Deputy and Secretary,
Department of Indian Affairs,
Ottawa.

Dear Sir :

Enclosed please find duplicate receipts covering further expenditure in connection with the replacement of Beauval Indian Residential School. As you will notice, most of these expenditures are for transportation from Big River to Beauval.

Freight.

I may say that this freighting was done at a very fair price. For the 128 miles which separate Big River from Beauval we paid \$1.20 and \$1.35 per cwt., while here we pay \$1.75 per cwt. for freighting to Sturgeon Landing, a distance of not quite fifty miles.

Bonus.

In connection with the freighting, you will notice that a bonus of \$583.85 has been given to Mr Fortin. This was occasioned by the fact that the heating plant and plumbing supplies did not arrive until February so that the greater portion of it could not be freighted during the fishing season. The fishing season being over, the teams were freighting only one way, so that no one would undertake to carry freight to Beauval for the \$1.35 paid by the Big River Consolidated Fisheries. This is why we had to give a bonus to Mr A. Fortin on the goods conveyed to Beauval after the fishing season. Our bonus was very conservative and we are confident that Mr Fortin made no money on that freight.

Indian Affairs. (RG 10, Volume 6301, file 650-5, part 2)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

Wages Paid.

I beg to give a few explanations in regard to statement of wages paid: Wages shown on Sheets 1, 2, 3, 4 and 5 are for work done last Fall for digging the foundations. Wages shown on sheets 6, 7, 8, 9, 10, 11, 12, 16 and part of 17, and for work done in loading and hauling gravel and sand from Lac la Plonge. As there is no sand or gravel available around the Mission, it was easier and more economical to haul it on the Winter Roads than to wait for the opening of navigation.

The last three items on Sheet 17 refer to the erection of a temporary building required for the construction.

Brick Plant.

You will be glad to hear that our brick plant is in operation and gives hope of full success. We learn from the last letter received, that they were making an average of ten thousand bricks a day. No bricks have been burned yet, but Mr Philips, who is in charge of the brick plant, and who has been in that line for years, has no doubt as to the result of the burning. He claims that the clay is of the best quality.

Other work done.

The sewers are now completed and water pipes to the new building laid in the ground. They are commencing the cement work on the part to be erected this year.

Our good Mr Waddy will be at Beauval in a few days and we have no doubt he will be satisfied with the work being done there.

Yours very truly,

Martin Lajeunesse
omd.
Sec.

Ottawa, July 4, 1929.

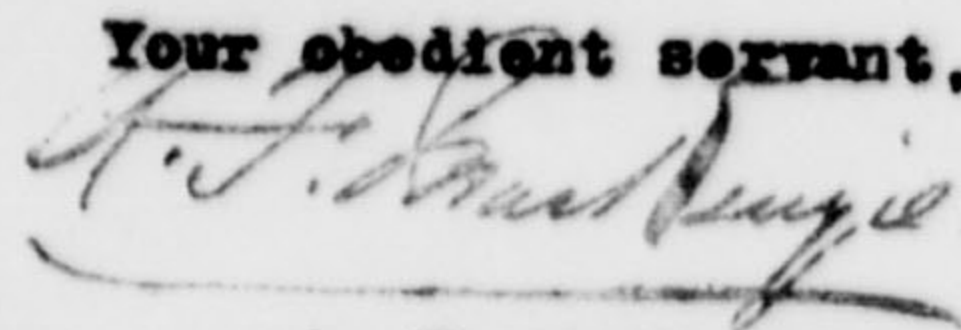

Right Reverend Sir:

The letter written by Father Lejeunesse on June 17th, enclosing receipts in duplicate in connection with the expenditure at the Beauval Indian Residential School, has been received. The Department is pleased to learn that progress has been made on the work. Under separate cover, a cheque for \$9,654.97 is being directed to Your Lordship.

I have the honour to be,

Right Reverend Sir,

Your obedient servant,

A. F. MacKenzie,
Acting Asst. Deputy & Secretary.

Rt. Rev. O. Charlebois, O.M.I., D.D.,

R

Isle a la Crosse, June 17th, 1929.

Dear Sir:

I have the honor to report as follows on my visit to the Beauval Indian Residential School on the 14th and 15th inst.

X

X

X

You probably are familiar with the arrangements regards building the new school here, I understand it is being built by the church authorities under arrangement with the Department. The rear wing of the new school is to be built this year; all material for the heating, electric fixtures, water system is on hand, also the sand, gravel, cement, lime, lumber etc. The basement is excavated, footings of cement in, forms up for the basement walls. The whole school is to have solid brick walls, all the brick is being made within one hundred yards of the school site, Last winter a brick making machine was brought in from Prince Albert with a steam engine to supply the power. The staff used over 40,000 f.b.m. of lumber to construct the drying racks for the bricks, making sheds etc., and they have the plant in running order now. In the few days it has been operating they have made 75,000 bricks and they were turning out thirty bricks a minute when I was there; on Friday they made over 13,000. After the brick dries for a week a kiln is made and the brick burnt for three days. It is expected that 800,000 will be required. A first class bookkeeper is on the job and he keeps track of every item entering into the construction of the school, keeps the time of the men etc. He was watching the cost of the brick making very closely, and including overhead, cost of machines transport of same, etc time of expert brick maker, steam engineer and all labor he was down to \$20.00 per thousand and is trying to cut this down.

IN YOUR REPLY REFER TO

No. 307-11A R.C.

ALSO TO DATE OF THIS LETTER

COMMISSIONER'S OFFICE,

W REGINA, SASK., 25th July, 1929.

Sir:-

There is a set of batteries at the Indian Residential School at Lebret which I thought would be of service at the Indian School at Beauval, Sask. As you are aware the former institution is supplied with light and power by the Montreal Engineering Company, and the Department has gone to some considerable expenditure in providing new equipment to meet the changed conditions.

When suggesting the transfer of these batteries to Beauval, the Reverend Father Leonard demurred and appears desirous of retaining them, notwithstanding that I have pointed out that they would only be required in case of a break-down, and, while lying idle for such an emergency, would deteriorate rapidly and become useless. They would be of greater service at Beauval, and I would ask the Department's authority to have them transferred to that point immediately.

I have just received a telegram from the Reverend Principal at Beauval asking me to have them re-charged and over-hauled, and have them sent to Beauval by the first proximo. It would be appreciated if you would telegraph your authority.

Your obedient servant,

W. M. Graham

W. M. Graham,
Indian Commissioner.

The Secretary,
Dept. of Indian Affairs,
Ottawa, Ont.

*My opinion is that the Batteries will
be used at Lebret with*

Bishop's House,

The Pas, Man.

Aug. 19th. 1929.

The Secretary,
Department of Indian Affairs,
Ottawa

Dear Sir

re Beauval Residential Indian School.

See [unclear] and [unclear] [unclear]
Herewith please find Return of Labour (in duplicate)
for the period April 27th. to August 3rd. inclusive, amounting
to \$4661.48, together with a Summary of the several sheets,
also in duplicate.

We are in urgent need of money and shall be much
obliged if you could arrange to let us have refund of the
above amount as soon as possible.

re Brick Plant.

OK but no money this year [unclear]
We have burnt two kilns of brick, the first one
giving an outturn of 52625, and the second, 112198. We are
now burning another kiln of the capacity of the second burning
referred to above, and will burn another kiln this Fall. We
shall then have three-fourth of the number of brick required
for the whole building. The cost of making the brick will
be a little higher than we anticipated, as it required 30000
feet of lumber for the sheds, and on account of heavy rains
during June a quantity of brick was spoiled and the work
delayed. In spite of this, however, the cost of the brick
will be no more than the price at the lumber yards. We
expect to be able to tell you by the end of the Summer what
has been the cost per thousand of these bricks.

*25000 available
this year
\$9.654
this cost 4.661
\$29032
no more [unclear]*

Indian Affairs. (RG 10, Volume 6301, file 650-5, part 2)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

The Returns of Labour submitted herewith do not include labour in connection with the brick plant. The labour cost for the brick will be included in the price per thousand submitted later.

Progress of work on the School.

On the 7th. of August the basement of the Chapel was completed and brick laid up to the floor of the Chapel including all the partitions inside which are all of brick. If all goes well the walls of the Chapel will be completed by the end of September. Everything appears to be in good shape and we are hopeful of success.

We have three very good bricklayers on the job and have been fortunate in obtaining their services for only sixty-five cents an hour which is very reasonable.

I enclose six photographs of the brick plant, and expect next time to be able to send you a photo of the completed Chapel.

Thanking you for all that has been done for us,

I am,

Yours very truly,

Martin Lajeunesse
onst.

INDIAN EDUCATION

to Mr. J. A. Charlebois
Bishop of Keewatin
The Pas man.*

132-1-5

LE PAS, Man. October 28th, 1929.

Mr. D. Scott, Deputy Minister,
Departement of Indian Affairs,
Ottawa, Ont.

R

Dear Sir:-

I was somewhat surprised to hear, through Fr M. Lajeunesse, who has lately interviewed you, that the Department of Indian Affairs was under the impression that I have undertaken to rebuild the Beauval Indian School provided a grant of \$50,000 would be given, and that an Order in Council had been passed to this effect.

When the question of rebuilding the Beauval School was first discussed with the Department, and when the usefulness of that School was doubted, I may have hinted that a grant of \$50,000 would probably be sufficient to enable us to rebuild the school, having in mind at that time that a frame building, and one of small dimensions, was to be erected. I am pretty sure that, as far as I am concerned, there are no official documents showing that there was a definite agreement in the matter. My personal impression, after my interview with you, was that the Department did not deem it wise to call publicly for tenders. I understood also that, in order to elude the attention of profiteers, the Department would grant only a part of the money for the first and the second year, but would eventually refund all the money expended in the construction of the School. It was in this sense that I understood the letter in which you advised me that an initial grant of

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

\$25,000 had been voted for this year, and that a similar grant would be given next year. It never occurred to me that no further grants would be given by the Department for this enterprise.

I was further confirmed in my opinion by the fact that we were advised to follow, in the construction of the School, the plans which would be prepared for us by your Department. This appeared to me as an evident proof that your Department was to take full possession of the Beauval School and to pay all the expenses of construction.

I understand quite well that religious denominations must take a share in the education of the Indians, and I would like to remark that our share in the education of the Indians of the Ile-à-la-Crosse region has been very generous indeed. For nearly half a century the Grey Nuns have kept an Indian School there without any substantial remuneration. It was only when the school was transferred from Ile-a-la-Crosse to Beauval that the grant per capita was given. The first school at Beauval was built without any assistance from the Department, and for over twenty years it has carried on the same work as the schools of the Department. The chief help which the old Beauval School obtained from the Department was the grant per capita, but it should not be forgotten that, according to experts in that field of education, this grant covers only about 70% of the expenses of a residential school.

As for the construction of the new School, we are ready to help as far as our means will permit. Is it not a great advantage for the Department to be assured that, through our

Indian Affairs. (RG 10, Volume 6301, file 650-5, part 2)

**PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA**

co-operation, all monies granted will be spent with the greatest economy, and that every cent of them will enter into the very structure of the building? No charge is made for travelling expenses and for the work incurred in the buying of the materials, for telegrams, for bookkeeping charges, and for the supervision of the work and of the transportation.

In the interview which you granted Fathers A. and M. La Jeunesse, my representatives, you stated that a further grant for the reconstruction of the Beauval School could not be voted before the acquisition by the Department of the land on which the School is being erected. This is a very reasonable objection, but I think that the matter can be very easily settled. As the land concerned is not yet surveyed, it is impossible to give titles for it, but I am willing to transfer to the Dept. our rights to:-

1.- All the land on the north side of the Laplonge river up to the reserve, of which about twenty acres are under cultivation.

2.- The following buildings now standing on that land: one large house for the male staff, a cow-stable, a horse-stable, a pig-house, a poultry-house, a root-house, three small houses for labourers, a grainary, and sheds.

3.- All the agricultural implements: plows, harrows, binder, thresher, tractor, potato-planter, potato-digger, manure-spreader, wagons, &c.

Let me now state frankly what I expect from the Department of Indian Affairs.

Mr. Orr estimates that the construction of the Beauval School according to the plans furnished by him will cost all

Indian Affairs. (RG 10, Volume 6301, file 650-5, part 2)

**PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA**

of \$100,000, supposing that the school is not very far from a railway line. Now, Beauval is at a distance of 120 miles from Big River, the nearest station, and it is known that the transportation of certain necessary material, cement for instance, costs more than the material itself.

We have also made a detailed estimate of the total cost, taking as a basis of our calculation the cost of the part of the building which was put up last summer. As the sum of \$29,000 which we have received from the Department this year has covered only a part of the expenses made, we also come to the conclusion that \$100,000 more would be needed to cover the total cost of the construction. I would therefore ask the Department:-

1.- To bear all the expenses in the reconstruction of the Beauval School;

2.- To give for next year a grant of not less than \$75,000 to allow us to continue the construction of the School next summer.

I regret to say that if the Department does not see its way to grant my request, the construction work will have to be interrupted and postponed for an indefinite period. This, I think, would be a misfortune for this part of the country, for the Beauval School has done good work in the past and it gives great hopes for the future.

Yours very sincerely,

+ O. G. Charlebois, O. A. S.

Dear Bishop Charlebois:

I have your letter of the 28th ultimo and I note that Your Lordship misunderstood the arrangement that was made to assist you with the reconstruction of the Beauval Indian Residential School. At the present time, I am unable to inform you if any extra help can be given. It will be necessary for me to bring your request to the attention of the Honourable Mr. Stewart.

For the new building, \$25,000 has been placed in the Main Estimates for Indian Education. If Parliament allows the item, the funds will be available soon after April first, the beginning of the next fiscal year. If favourable consideration to further assistance can be given, an item will have to be placed in a supplementary or future estimate.

Yours very truly,

Duncan C. Scott

Duncan G. Scott, Esq.
Deputy Superintendent-General,
Department of Indian Affairs,
Ottawa.

Dear Mr Scott :

Pursuant to your communication of November 22nd.

1929 (File 132-1-5), I am glad to hear that \$25,000.00 has been placed in the Main Estimates towards the reconstruction of the Beauval Indian Residential School. But as I have already informed you in my letter of October 28th., this amount is not enough to allow us to continue the construction.

We have already advanced the money to cut and manufacture the lumber for the whole building as well as to install the brick plant and manufacture the brick which has been used in the part already erected. None of this money (which amounts to a large sum) has been refunded. Moreover, wages for the part erected last Summer have been refunded only up to August 3rd. 1929, leaving a large balance which we had to cover. Besides this, the inside of this part is not finished, the plaster has yet to be purchased, freighted and put on, etc. This means that the \$25,000.00 will be exhausted when all this will be finished.

In these circumstances we are obliged to stop the work until further assistance can be obtained. We have tried to raise the money necessary at least to buy and freight

no action until after Dr Scott's interview with minister

For signature will write Bishop

Indian Affairs. (RG 10, Volume 6301, file 650-5, part 2)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

the balance of the material during the freighting season, but this is beyond our means, and with great regret we shall be obliged to let things lie until we can obtain further assistance.

No need to tell you that the fact of not being able to buy and freight the balance of the material this winter will have serious consequences, because transportation by boat is very expensive and sometimes is not possible when the water is too low.

May I also mention that if the work is not resumed next Summer the school will not be open before 1932, leaving the children of all the Ile-a-la-Crosse District without education as there is no day-school in that part of the country. We shall also be obliged, for the same reason, to dismiss a crew of good bricklayers and carpenters who are ready to keep on working for very low wages.

I understand that it is not in your power to do more at the present time, but as I can rely on your sympathy, I feel it advisable to tell you about our difficulties in regard to this construction.

Yours very sincerely,

+ O. G. Harlebois, O. M. I.

Dear Mr. Paget,-

Education cheque No. 1740 for payment to the Roman Catholic Episcopal Corporation of Keewatin of an account for Beauval Residential School includes a sub-voucher for J.A. Fortin which reads as follows:-

Mars 25 Bonus pour transport de marchandises
"RE" Construction de l'Ecole

111771 lbs a .50 cent livres \$583.85

Would you please give me an explanation of the service this voucher covers.

You will note that there is an over-charge of \$25 in this calculation.

Yours truly,

Chas. Douglas

Ottawa ,January,24th, 1930.

Dear Sir,-

Referring to accounts incurred in connection with the Beauval Indian Residential School, and the receipt for \$553.85 dated the 25th March, 1929, which was submitted from Joseph Albert Fortin, Big River, Sask., covering a payment made to him for freighting supplies, viz:- 111771 lbs at 50¢ a pound, I have to point out that he should have received only \$558.85. The amount over-paid was \$25.00, and the Department desires that you will obtain refund to that amount and send the money here.

Yours truly.

F.H. Paget.
Chief Accountant.

Ottawa, January 24th, 1930.

Dear Sir,-

With reference to enquiries in your letter of the 17th instant, regarding a payment made by cheque No 1740 to the Roman Catholic Episcopal Corporation of Keewatin of an account for the Beauval Residential School, and more particularly to a sub-voucher for J.A. Fortin, I beg to say that a letter of today's date is being sent to the Principal of the School requesting him to obtain refund of the over-payment in the case.

I may say further that the service covered was described by the Revd Martin Lajeunesse as follows:-

"In connection with the freighting, you will notice that a bonus of \$583.85 has been given to Mr Fortin. This was occasioned by the fact that the heating plant and plumbing supplies did not arrive until February so that the greater portion of it could not be freighted during the fishing season. The fishing season being over, the teams were freighting only one way, so that no one would undertake to carry freight to Beauval for the \$1.35 paid by the Big River Consolidated Fisheries. This is why we had to give a bonus to Mr A. Fortin on the goods conveyed to Beauval after the fishing season. Our bonus was very conservative and we are confident that Mr Fortin made no money on that freight."

Yours truly.

Chas. Douglas, Esqr.,
Office of the
Auditor General,

Dear Sir :

Enclosed please find an account amounting to \$12,204.03 dated October 31st. 1929, in connection with construction of Beauval Indian Residential School. We did not submit this account before because we understood that there would be no money available until the commencement of the new fiscal year. We shall be glad if you can have this account passed for payment as soon as possible.

Thanking you in anticipation, we are,

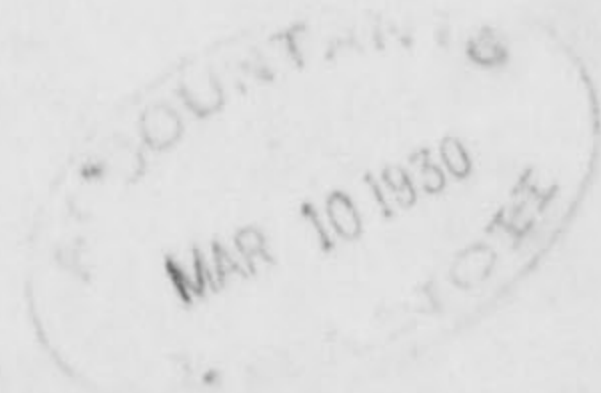

Yours very truly,

+ O. Charlebois, O.A.S.

Ottawa, March 11, 1930.

Gentlemen:

I have to draw your attention to a duplicate payment to the amount of \$42.50 covering the cost of a Singer sewing machine, 127-3-2 G.O. - #358001. On December 11th, last, you forwarded an account covering the cost of this machine and our cheque No. 6020 was sent you on the 20th of that month. In January, last, the Principal of the Beauval Indian Residential School, where this machine was sent, forwarded the account which you had sent him covering the cost of this machine, and another cheque, No. 6796, for \$42.50, was sent you on the 17th of January, last. I have to request that you will return the amount of the duplicate payment, viz., \$42.50, to this Department before the end of the present month, as our books for the fiscal year 1929-30 close at that time.

Your obedient servant,

[Signature]
A. F. MacKenzie,
Acting Asst. Deputy and Secretary.

On December 11th, last, you forwarded an account covering the cost of this machine and our cheque No. 6020 was sent you on the 20th of that month. In January, last, the Principal of the Beauval Indian Residential School, where this machine was sent, forwarded the account which you had sent him covering the cost of this machine, and another cheque, No. 6796, for \$42.50, was sent you on the 17th of January, last. I have to request that you will return the amount of the duplicate payment, viz., \$42.50, to this Department before the end of the present month, as our books for the fiscal year 1929-30 close at that time.

Your obedient servant,

A. F. MacKenzie

A. F. MacKenzie,
Acting Asst. Deputy and Secretary.

Beauval, Indian Residential School, April the 14th, 1930.

R

Mr. Orr,
Department of Indian Affairs,
Ottawa,

Dear Sir :

You will receive under separate cover about two pounds of sand divided in five sacks showing the different qualities of sand available around the school.

No 1,2,3,4, can be hauled for about \$ 1.40 a yard, while No. five which is beach sand from La Plonge Lake costs about \$ 2.80.

I would appreciate very much if you could tell me if No. 1,2,3,4, can be safely used in the construction of Beauval School ; or, if no. 5 should be preferably employed although more expensive.

Hoping to receive these informations for which I thank you greatly in advance, I am :-

Yours very truly:-

L. M. Adam O. M. T.

Principal.

Beauval Indian School. Sask.

April 28, 1930.

Dear Father Adam,-

I have your letter of the 14th also sample of sand and would make the following suggestion,-

Sample No 1 and Sample No 2 will be quite satisfactory for plastering or mortar for brick work, providing it is passed over a 1/20" screen which has a No 14 mesh.

Sample No 3 and 4 will be satisfactory for concrete work and for economical use it will require a quantity of coarser gravel added.

Sample No 5, which is pure sand, would of course be satisfactory for plaster or mortar without screening.

It would therefore appear that it will be more economical to use No 1 and 2 screened for plaster or mortar in place of No 5.

Trusting that this information is what you require I remain,

Yours very truly,

R. GURNEY ORR.
Architect for the Department.

Rev. L.M. Adam, O.M.I.,
Principal,
Beauval Indian Residential School,

Mr. Duncan Scott,
Deputy Superintendent of Indian Affairs,
Ottawa, Ont.

Dear Sir:

We were much pleased to hear, in the course of the interview which we had with you on May the 3rd, that you were in favor of raising from its ashes the Indian Residential School of Cross-Lake and of going on with the construction of the Beauval School. Your kind words have relieved us from many of the sorrows and cares which have assailed us since the sad fires which have destroyed so many lives and so much valuable property.

Your decision of constructing no other but fireproof buildings for Indian Residential Schools is highly commendable for its wisdom and prudence. The recurrence of such calamities as have taken place in the past is to be prevented by all means possible.

We understand that, for this year, no substantial funds for building purposes can be relied upon. However, we should like to have your directions concerning the work which we might do this summer as a preparation for the building operations of next year.

We would suggest that an expert be sent to examine the walls of the burned school at Cross-Lake in order to determine whether they can be used in a new building. As far as I could judge, these walls are still in a fairly good condition, and, as the stress in a fireproof building is not so much on the walls as on the inside pillars, I am inclined to think that they might be used to advantage. This of course would save much time and much expense.

Acting in accordance with verbal instructions received from your Department, we have made preparations, in the course of winter, for continuing the construction of the Beauval School during this summer. Four car-loads of cement and all the steel necessary for the reinforced concrete have been bought and carted from Big River to Beauval. We find now that, on account of the lack of funds, we will be unable to go on with the construction of the whole school. But, considering that cement deteriorates rapidly in the moist atmosphere of this region, we would suggest that the plans for the new fireproof building to be erected at Beauval be draughted by the architect of your Department as soon as possible, and that a sufficient appropriation be granted us to allow us to build

Indian Affairs. (RG 10, Volume 6301, file 650-5, part 2)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

these foundations in the course of the present summer, using for that purpose the cement and the steel we have now on hand.

May we also suggest that, as the new building at Beauval is to be fireproof, its ground dimensions might be made smaller, and a third story added to it. This would lessen the cost of the foundations and of the roof, while, in a fireproof building, there would be no objection in having the dormitories on the third floor.

Hoping that the above suggestions will be found acceptable, I remain,

Yours very truly,

+ O. G. Harlevis, Oct. 9.

Bishop of Keewatin

Don M
He would doubtless like to know what
added (footings & foundation) materials
should be taken into account, in view
of fireproof construction. AGD.

Re. Beauval Indian Res. School.

Dear Sir,

Enclosed please find an account amounting to \$21,854.50,
in connection with the construction of Beauval Indian Res. School.

A Summary, in duplicate, of the several sheets will give
you an accurate account of the expenses.

As we are in urgent need of money we would appreciate
very much if you could arrange to let us have refund of above
amount as soon as possible.

Thanking you in anticipation,

I remain,

Yours truly,

[Handwritten signature: O. Charlebois, O.M.I.]

DEPARTMENT OF INDIAN AFFAIRS
CANADA

June 4, 1930.

Memorandum:

DR. SCOTT.

P. C. 932, dated May 30, 1929, authorizes the Department to give a total grant of \$50,000 towards the reconstruction of the Beauval Indian Residential School. Payments of \$14,717.22, \$9,654.97, less a refund of \$25.00, or \$9,629.97, \$4,661.27 and \$12,204.03 - or a total of \$41,212.49, have been made. This leaves a balance of only \$8,787.51, which may be paid on the authority quoted. There is now to hand an account amounting to \$21,854.50, only a little more than one-third of which can be satisfied.

Further, His Lordship's letter of the 5th ultimo, while admitting that the church authorities will be unable to go on with the construction this year, on account of lack of funds, suggests that sufficient be granted this year to allow them to prepare the foundation. His Lordship also suggests that the plans be altered to make the building fireproof and plans and specifications in connection with the foundation be sent as soon as possible.

The Supplementary Estimates for the current year provide no further funds for this school and, unless you instruct otherwise, the only answer to His Lordship is that nothing further can be done until funds are available. In addition to an appropriation, a new order in council will be necessary. Further, approximately \$13,000 of the account which is now to hand under cover of his Lordship's letter of the 23rd ultimo will have to remain unpaid for the time being.

Supt. of Indian Education.

June 5, 1930.

Dear Bishop Charlebois:

I have Your Lordship's letter of the 5th ultimo, with reference to the reconstruction of the Beauval Indian Residential School. I regret that it has not been possible to provide any additional funds and no expenditure can be authorized this year. In fact, only \$8,787.51 of the account forwarded under cover of Your Lordship's letter of the 23rd ultimo can be paid. Payment of the balance will have to be postponed until funds can be provided by Parliament and until additional authority from His Excellency in Council is secured. A cheque for the amount available is going forward, under separate cover.

I have asked Mr. Orr to change the plans and specifications to fireproof construction. I hope that the work may be proceeded with next year.

Yours very truly,

Duncan C. Scott

Gentlemen,-

The Department has received the enclosed account covering the cost of a Singer sewing machine supplied to the Beauval Indian Residential School, Big River, Sask. We do not appear to have any record of the order for this machine. Please state whether the order for supplying this machine was received by you through the Ottawa agency of your company and, also, the date on which the machine was forwarded to the school. Your early reply will oblige.

Yours very truly,

F. H. Paget
F. H. Paget.

DEPARTMENT OF INDIAN AFFAIRS

CANADA

June 26, 1930.

MEMORANDUM:

Father Lajeunesse called and was interested to learn if any changes have been made in the Beauval plans to allow fire proof construction. I explained that there were no funds to proceed with the work this year, and if the Church authorities went ahead with the scheme they would have to finance it themselves for the time being.

You will note in Bishop Charlebois' letter of May 5th that it is proposed to add a story to the original plan now that fireproof construction is to be used.

It may be that there is no urgency in this matter as the Church authorities may not be able to finance the foundation work this year. When you have thought it over will you phone to Father Lajeunesse at Rideau 125 so that he may answer His Lordship.

Gentlemen:

On March 3, 1930 our Prince Albert Branch made shipment of one sewing machine, #331057 to the Beauval Indian School, Big River, Sask. Our records show that we sent an account for this machine on April 12, 1930, but to date we have not received the check for the machine. Will you please let Prince Albert have settlement by return mail for which we thank you. The amount is \$45.00.

Ottawa, July 4, 1930.

Sir:

I have your letter of the 24th instant, relative to the shipment of a sewing machine, No. 361057, to the Beauval Indian Residential School, Big River, Sask.

In this connection I have to say that an account was received from your Prince Albert Agency and they were written regarding same on the 6th ultimo. The Department does not appear to have any record of the order for this machine, and we requested your Prince Albert Agency to state whether the order for supplying same was received by them through the Ottawa Agency of the Company and the date on which the machine was forwarded to the school. I shall be pleased if you will state whether this machine was ordered by this Department through the Ottawa Agency of the Singer Sewing Machine Company or whether the order was placed through your Prince Albert Agency by the Principal of the Beauval Indian Residential School. When we have this information, consideration will then be given to payment of the account rendered to the amount of \$42.50.

Your obedient servant,

A. F. MacKenzie

Department of Indian Affairs,
Government of Canada,
Ottawa, Ont.

Dear Sirs:

I wish to acknowledge receipt of your letter of July 4th, and in reply I beg to advise that the order was received from the Principal in charge of the Beauval Indian Residential School, Big River, Sask., for Machine #361057.

Our manager, who was in charge of our Prince Albert Branch at the time that the order was received is now in charge at Regina, and in conversation with Mr. Elliott he advises me that the order was taken from the Principal of the School, and he in turn advised that the necessary authority would be received from your department.

Trusting that this is the information which you require.

Yours truly,

W. H. B.

Ottawa, July 16, 1930.

Reverend Sir:

The Department received an account from the Singer Sewing Machine Company, Prince Albert, Sask., covering the cost of a sewing machine supplied the Beauval Indian Residential School. This account is dated the 4th of April, last. The number of the machine is 361057. We were unable to find any record of the order placed for this machine, and, on taking the matter up with the Company, we are informed that the manager in charge of the Prince Albert branch states the order was received from you and that you advised him the necessary authority would be received from this Department. After considerable correspondence with the above Company, the Department has paid the account covering the cost of this machine.

I would point out, however, that in future we will be unable to consider payment of accounts of this nature when authority has not first been granted for the purchase and the order for same placed by the Department. I may say, according to our records a total of 6 sewing machines have been supplied your school since the first of January, 1927.

Your obedient servant,

[Handwritten signature]
A. F. MacKenzie,
Acting Asst. Deputy & Secretary.

Mr. Orr, Architect,
Department of Indian Affairs,
Ottawa,
Ont.

R

Dear Sir:-

His Lordship O. Charlebois sent me a letter that he received from Mr. Scott, in which it was said that he gave you the instructions to change the plans and specifications of the school to a fireproof building.

Would you please let me know what is the intention of the Department concerning the plans. Is it to build it with the same dimensions as it was first decided or to reduce its proportions on the length and the width and to add another story?

In the first case, if you do agree I would have a few changes to suggest. In the last case I would be very pleased if you could let me have the plans before they go under the last impression, or on the other hand, ourselves we could send a rough sketch to the Department.

I would ask you if possible to send us the specifications for the foundations the soonest you can this summer. As we have all our cement for foundations on hand, it would be a great advance for next year if we could set in the foundations before fall.

Concerning the decision which the Department has taken regarding the plans, a wire would be greatly appreciated.

Thanking you for all the attention you give to this matter, I am:-

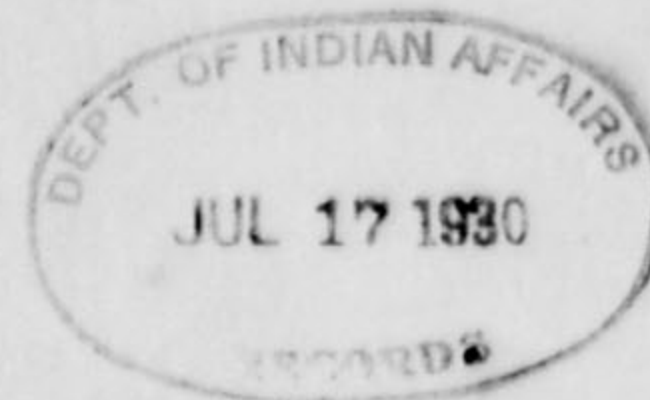

Yours truly:-

Beauval Indian Res. School, July 21st,
1930

Singer Sewing Machine Co.,
1013 Central Avenue,
Prince-Albert, Sask.

Dear Sir:-

I have received to-day a letter from O.P. Godin and also the reply that the Department of Indian Affairs of Ottawa sent to you "re" the account of a sewing Machine # 361057 of last April the 12th.

It is not the Department of Indian Affairs of Ottawa that has ordered this machine, but the School through Mr. Godin. I do not see, then, why the account has been sent to Ottawa since they did not interfere with this matter. I am sorry to notice that each time we made business with you, you got mixed up in the way of sending the accounts. I would kindly ask you to pay more attention to the way that the instructions are given to you when ordering machines.

We did not pay that account yet, because we never received it. We were waiting for it. You will find enclosed a check for the sum of \$ 42.50.

Hoping this will settle the matter and that no such trouble will arise in the future, I am:-

Yours truly,

L.M. Adam, Principal,
Beauval, Sask.

Ottawa, August 23rd, 1930.

Gentlemen:

Referring to previous correspondence relative to the account which you submitted to this Department covering the cost of a sewing machine, No. 361057, supplied to the Beauval Indian Residential School, Big River, Sask., I now have to inform you that we are advised by Rev. L. M. Adam, O.M.I., Principal of the School, that he placed the order for this machine with you. In this connection he forwards a copy of his letter to you dated the 21st ultimo, and states that he sent you his cheque for \$42.50 in payment for the machine.

The Department also forwarded you a cheque, No. 2534, on July 16th, last, for \$42.50, which was a duplicate payment for the machine. I have, therefore, to request that you will make a refund of this amount to the Department at the earliest possible date. As the order for the machine was placed by the Principal without reference to the Department, it is considered that he is responsible for payment. The amount which you received from the Department, as stated above, should be refunded. Please give this matter your prompt attention.

Yours very truly,

F. H. Paget
F. H. Paget,

Rev. Sir:

I have your letter of the 21st instant, relative to the account which the Department received from the Singer Sewing Machine Company, Prince Albert, covering the cost of a sewing machine, No. 361057, supplied on your order in April, last, and enclosing copy of a communication which you forwarded to the Agent at Prince Albert.

In this connection it is noted that you have paid for this machine, forwarding your cheque for the sum of \$42.50. I may say that the Department also forwarded a cheque in payment to the same amount. We are now writing the Agent in Prince Albert and requesting him, as the order was not placed by this Department, to make a refund of the amount paid by the Department. It is hoped that, in future, the Company will give more attention to the orders which they may receive from you and that there will not again be a mix-up, as in the present case.

Your obedient servant,

Sgd. T. R. L. MacInnes

Ottawa, Ont.

Dear Sir :

[Handwritten signature]
No 132-I-5

In reply of your letter of July 16th, I may refer to the copy of my letter to Singer Sewing Machine Company, Prince-Albert that I have sent to the Department a few weeks ago. This machine has been bought at the request of a woman of Beauval and was to be paid by her through me. I cannot understand how the Manager of the Prince-Albert branch may have said that I had advised that the Department of Indian Affairs of Ottawa was engaged in the payment of it. I hope that the company will refund the money to the Department, as I have sent a check to pay this machine. I have made up my mind not to buy any other machine from this branch as I never could deal with it without trouble of the kind we are having now.

Hoping that will be satisfactory,

I am Sir :

Yours truly

W. M. Graham, Esq.,

Indian Commissioner,

OTTAWA, Canada

Sir:

Re Beauval School

There is not much to report in regard to this School different from last year. The work is progressing very rapidly and the making of brick for the new School, although it had not been started when I was there.

They have this year 125 acres in crop, having broke 25 acres last year. There will be at least seven acres broke this year, possibly more.

They were unfortunate in having 11 head of cattle go through the ice on the river last winter, leaving now only 70 head. There is 18 head of horses, two being lost through the ice on the river last winter. They also have 24 pigs and 125 chickens; all stock doing very nicely. The saw mill was being prepared for the sawing of lumber for the new school, which will, no doubt, have started before this.

Rev. Father Adam would like to have a reserve established along the River, south of La Plonge, so that the people would not have so far to take their children to school. The 21 scholars in regular attendance are doing very good work, and seem to be advancing very rapidly.

Your obedient servant

W. Loch

132-1-5

November 6, 1930.

Memorandum:

MR. BUSKARN.

With reference to the subject matter of Mr. Olsen's letter, which is enclosed, I may say that the main building of the Beauval Indian Residential School, near Lac la Plonge, Saskatchewan, was destroyed by fire in September, 1927. Bishop Charlebois, of The Pas, representing the Oblate Order, offered to rebuild, if the Department would give a grant of \$50,000 towards the cost. The Department accepted this proposal, which was approved by P. C. 932, of May 30th, 1929 - the new building to be erected by the Order on a day labour basis. During the past year and a half, this grant of \$50,000 has been paid.

A year ago, His Lordship intimated that there was a misunderstanding regarding the financing and, in June, last, he stated that the Oblate Order could not complete the programme without more assistance. I may say that the Department Architect estimated the cost of the building at over \$100,000. Bishop Charlebois stated that the building could not be completed unless the Department assumed the entire cost, involving an additional \$75,000. In June, he was informed that no further funds were available this year and that, before anything could be done in 1931 or later, the money would have to be voted by Parliament and additional authority from His Excellency in Council secured.

Owing to the present condition of the Appropriation for Indian Education and the desirability of giving the Minister an opportunity to review the whole situation before deciding the future programme or allowing any extensions, it is not yet timely to make any promise in connection with the future building programme.

I know it is desirable to have freighting to Lac la Plonge done during the winter time, but I have to recommend to the Minister that his correspondent be informed that, as yet, there has been no decision concerning the completion of the Beauval School.

Duncan C. Scott

Deputy Superintendent General.

132-1-5-

Beauval Indian Residential School, January the 19th., 1931

Mr. Russell T. Ferrier,
Department of Indian Affairs,
Ottawa,

Dear Sir:-

Last summer, we had a little trouble by the fact that the time sheets "RETURN OF LABOUR" Form No 18 did not give us satisfaction for the secrecy of wages from one employee to another. As we can not have always all the employees of the country to sign those sheets in the order as their names appear; it is really impossible to keep the wages confidential; then sometimes jealousy arise and makes trouble for us. Of course one man is sometimes worth more than another one, but people from this country do not always understand it.

I thought to ask you if you would accept a monthly time sheet; one time sheet for each employee. This is the only way I think to give entire satisfaction on the secrecy of wages. Would you accept any form of time sheet as long as they will all be the same and bearing the signature of the employee acknowledging that he received payment for his work and also the signature of a Witness as it appears on Form No 68 .

I would be pleased to hear from you on that subject by the returning mail. If you accept we could make our own forms which I hope will give you satisfaction and also to us . If you maintain to keep the Forms No 68 "RETURN OF LABOUR"; if you please to send us about 500 of them as we are running short.

Thanking you for the attention that you will give to this matter, I am:-

Yours truly:-

F. X. Gagnon, O. M. S.
Principal.

Ottawa, February 6, 1931.

Rev. Sir:

I have your letter of the 19th instant, regarding the preparation of time sheets for the labour employed on the work of erecting the new building at the Beauval Indian Residential School.

It will be quite satisfactory for you to use the monthly time sheet - one form for each employee - as per the sample which you forwarded. It is noted you will make out these forms. They should be forwarded to the Department in duplicate, a separate form being used for each labourer employed. The total hours employed each day during the month should be shown, also the price paid per hour and the total wages paid during the month. These forms should be receipted by the individual labourer to whom payment was made, acknowledging that he received payment for his work, and also signed by a witness. I am returning herewith the sample form which you forwarded as a guide in the preparation of these forms.

Your obedient servant,

Russell T. Ferrier,
Supt. of Indian Education.

Memorandum:HONOURABLE THOMAS G. MURPHY.

His Lordship Bishop Charlebois, of The Pas, Man., has been in Ottawa and, among other matters, has discussed the completion of the Beauval Indian Residential School, concerning which I gave Mr. Buskard a memorandum on November 6th, last. I am enclosing a copy of this memorandum and a copy of the Order in Council. His Lordship understands that we cannot authorize any expenditure this early in the year, but he is desirous of learning if the Department will re-affirm its decision to have the work done on a day labour basis, under the supervision of the church authorities. The Beauval School is two hundred miles north of Prince Albert, and it is in the interests of economy that the church authorities be allowed to purchase the materials and to complete the building, themselves. They have a competent foreman and staff for the purpose and are following plans and suggestions of our Mr. Orr. The rear of the building, which is already erected, is a credit to all concerned, as the attached picture will show. May I inform His Lordship that the scheme may be continued when funds are available?

Encl.

Duncan C. Scott

certified to be a true copy of a Minute of a Meeting of the Committee of the Privy Council, approved by His Excellency the Governor General on the 30th MAY 1929.

The Committee of the Privy Council have had before them a report, dated 21st May, 1929, from the Superintendent General of Indian Affairs, stating that the main building at the Beauval Indian Residential School, near Lac la Plonge, in the Province of Saskatchewan, was destroyed by fire in September, 1927. The Oblate Order, under whose auspices this school is being conducted, has offered to erect a new building, provided the department will give a grant of \$50,000 towards the cost.

An amount of \$25,000 has been included in the Main Estimates for Indian Education for the current fiscal year, 1929/30, and it is proposed to include a similar amount in the Estimates for 1930/31, for this purpose.

Plans and specifications for the proposed building have been prepared by the department. Accommodation for seventy-five pupils is provided.

The building is to be constructed of brick manufactured on the premises and heated with a low pressure steam heating system. A complete sewerage system is to be installed and all modern plumbing fixtures throughout the building. An electric lighting plant is to be provided to furnish the necessary power to light the premises.

The Honourable

In

The Superintendent General of Indian Affairs.

Indian Affairs. (RG 10, Volume 6301, file 650-5, part 3)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

In the opinion of the Architect of the department the cost of the building would be approximately \$100,000 if erected at a reasonable distance from railway transportation.

In view of the fact that a large quantity of the materials required would have to be transported from the railway line at Big River, a distance of 112 miles, it is difficult to state definitely what the cost of the building will be erected at Beauval. Part of the cost of transportation would be offset as the Church authorities are manufacturing their own brick at Beauval and also can supply all the rough lumber required from their own saw mills at this point. It follows, however, that the proposed expenditure by the department represents not more than one moiety of the total cost.

Owing to the remoteness of the locality it appears inexpedient to call for tenders. It is considered that the most economical way of having the building constructed is by day labour under the supervision of the Church authorities, more especially as they are in a position to supply a large quantity of the materials directly on the site. They will also be able to arrange a more economical transportation for supplies brought in from Big River.

The Minister recommends that the proposed grant be expended in the manner aforesaid.

The Committee concur in the foregoing recommendation and submit the same for approval.

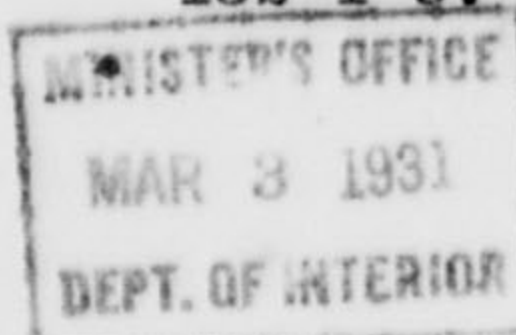

(Sgd.) E. J. Lemaire,
Clerk of the Privy Council.

Memorandum:

HONOURABLE ~~THOMAS~~ G. MURPHY.

His Lordship Bishop Charlebois, of The Pas, Man., has been in Ottawa and, among other matters, has discussed the completion of the Beauval Indian Residential School, concerning which I gave Mr. Buskard a memorandum on November 6th, last. I am enclosing a copy of this memorandum and a copy of the Order in Council. His Lordship understands that we cannot authorize any expenditure this early in the year, but he is desirous of learning if the Department will re-affirm its decision to have the work done on a day labour basis, under the supervision of the church authorities. The Beauval School is two hundred miles north of Prince Albert, and it is in the interests of economy that the church authorities be allowed to purchase the materials and to complete the building, themselves. They have a competent foreman and staff for the purpose and are following plans and suggestions of our Mr. Orr. The rear of the building, which is already erected, is a credit to all concerned, as the attached picture will show. May I inform His Lordship that the scheme may be continued when funds are available?

Memorandum:

MR. BUSKARD.

With reference to the subject matter of Mr. Olsen's letter, which is enclosed, I may say that the main building of the Beauval Indian Residential School near Lac la Plonge, Saskatchewan, was destroyed by fire in September, 1927. Bishop Charlebois, of The Pas, representing the Oblate Order, offered to rebuild, if the Department would give a grant of \$50,000 towards the cost. The Department accepted this proposal, which was approved by P. C. 932, of May 30th, 1929 - the new building to be erected by the Order on a day labour basis. During the past year and a half, this grant of \$50,000 has been paid.

A year ago, His Lordship intimated that there was a misunderstanding regarding the financing and, in June, last, he stated that the Oblate Order could not complete the programme without more assistance. I may say that the Department Architect estimated the cost of the building at over \$100,000. Bishop Charlebois stated that the building could not be completed unless the Department assumed the entire cost, involving an additional \$75,000. In June, he was informed that no further funds were available this year and that, before anything could be done in 1931 or later, the money would have to be voted by Parliament and additional authority from His Excellency in Council secured.

Owing to the present condition of the Appropriation for Indian Education and the desirability of giving the Minister an opportunity to review the whole situation before deciding the future programme or allowing any extensions, it is not yet timely to make any promise in connection with the future building programme.

I know it is desirable to have freighting to Lac la Plonge done during the winter time, but I have to recommend to the Minister that his correspondent be informed that, as yet, there has been no decision concerning the completion of the Beauval School.

Dear Sirs;

We understand that you have under consideration the establishing of a Mission in the north country this year. We have two branches in Saskatchewan; two in Alberta and one in Manitoba to serve the prairies, and are in a position to give quick service on electric lighting plants, pumps, transmission, wiring devices of all kind, also scales and other such materials as you will be needing in your new building, and we would appreciate very much an opportunity of quoting on your requirements.

Could you advise if we are addressing the proper parties in connection with this, or to whom we could send further information.

In the past we have equipped a number of your schools in the West, and are most anxious to continue the friendly relations we have had with your Department in the past.

Assuring you that your commands will receive our prompt attention, and hoping to hear from you -
Yours very truly,

IN YOUR REPLY REFER TO
No. 307-11
ALSO TO DATE OF THIS LETTER

COMMISSIONER'S OFFICE,

B REGINA, SASK., October 5th, 1931.

Inspector Murison's Report on the Schools in the
Ile a la Crosse Agency:

Dear Mr. Graham:

I beg to submit the following report on the schools in the Ile a la Crosse Agency, which I inspected during my visit to that Agency when making the annuity payments this year.

BEAUVAL SCHOOL:

I visited this school on June the 15th last, and made a general inspection of the buildings, and visited the class-rooms.

Since this school was burned down a few years ago, they have had very little accommodation for pupils, and only 18 girls are kept in residence.

The staff includes Rev. F. X. Gagnon, as Principal, Brother Beaudion, Carpenter and Engineer, Brother August Duclos as Farmer, and Brother Goulais as general helper. He also has as assistants six sisters of Charity. They include a Superior, Teacher, Nurse, Cook, Girls' Matron and Seamstress.

I visited the class-room, and made a general examination. The pupils are divided into three grades, with four in Grade II, Five in Grade III, and nine in Grade IV. They speak up well, understand their work,

W. M. Graham, Esq.,
Indian Commissioner,
REGINA, Sask.

and appear to be

Indian Affairs. (RG 10, Volume 6301, file 650-5, part 3)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

and appear to be well up in their grades. The teacher is properly qualified, and has a Second Class Certificate for Saskatchewan. The pupils presented a healthy appearance. A room in the completed part of the new school is being temporarily used as a class-room.

Buildings,-

A portion of the new school was completed last year, and the work impressed me as being very well done. The completed wing is 35 feet X 70 feet, and provides in the basement a kitchen, laundry, engine-room, boiler-room, bakery, dairy, machine-room, drier, men's dining room, store-room, fuel-room, bath-room and engineer's room. The upstairs provides a chapel which has been completed.

During the past winter, cement and lime were hauled in, but as no money was provided this year, and as the cement and lime would have deteriorated and many hundreds of dollars wasted, the church authorities, in order to safeguard the work already done, and to save this material, engaged a foreman and the necessary workmen, and the work of building the main building was well under way at the time of my visit. I understand that, at the present time, the building is all ready for the roof and I expect that the roof will be completed shortly. I understood from the Principal that it was not the intention to finish the building this year, but simply to close it in, so that the work already done may be protected.

The walls are of

Indian Affairs. (RG 10, Volume 6301, file 650-5, part 3)

**PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA**

The walls are of brick, which was made on the ground. Brick-making machinery was provided for this purpose. The brick appears to be of very good quality.

The work is being performed by day labour. The foreman is a lay-brother, and there are five lay-brothers who are brought in from outside, working on the building. They include two carpenters, who receive \$5.00 per day, and three brick-layers who receive \$5.00 per day, \$4.00 per day, and \$3.50 per day respectively. Their transportation and expenses in are paid, and they get their board as well. Indians and Halfbreeds are engaged to perform the rough labour. Plumbing and Electrical work in the main building will be done by a lay-brother.

I was informed by the Reverend Principal, that at the time of my visit, they had expended \$45,000.00 in excess of the amount advanced by the Department, and it was estimated that approximately \$100,000.00 will be required to complete the building. In the meantime the Church is advancing the money to pay for material and labour to complete the walls and put the roof on, and they are naturally becoming very anxious to know when they may expect a refund from the Government of the amount expended. Of course they have done this on their own authority, but it appears to me to be good business, and their action will eventually affect a considerable saving in the ultimate cost of the building, as there would have been a considerable loss had they not used up

the cement and lime.

Indian Affairs. (RG 10, Volume 6301, file 650-5, part 3)

**PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA**

the cement and lime. I found this school a very interesting one to visit.

As you already know, some years ago they harnessed the La Plonge River, and all the power required for operating their sawmill, brick-making machinery and electrical lighting plant, is generated by a water turbine. The water supply is also obtained from the La Plonge River, and is pumped to the buildings with a hydraulic ram.

Their out-buildings include a cow barn, 32 feet X 100 feet, with a loft. This barn is equipped with Beatty Brothers iron fixtures, and there is running water accessible to each stall. They have a horse stable with accommodation for 17 horses, a root cellar, hen-house, pig-pen, warehouse and large cattle pasture.

Their livestock includes 65 cattle. Fifteen cows are milked regularly. The boys, when at school do the milking, under the supervision of the Brother. They informed me that they would commence teaching the girls to do this. Two brood sows are regularly kept, from which they obtain two litters per year, and they keep about 150 poultry.

Farm:

Twelve sections of land have been reserved for the use of a school, but has not been surveyed. The land comprises a large hay meadow which would provide sufficient hay for their requirements, as well as some farm land, most of which would have to be cleared. The soil is a light sandy loam. Ninety five acres are under cultivation, 65 acres of which

is in grain

Indian Affairs. (RG 10, Volume 6301, file 650-5, part 3)

**PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA**

is in grain crop this year.

They have a large and well-kept garden. Their farm last year produced 225 bushels of wheat, 1200 bushels of oats and 450 bushels of barley. The garden produced 2240 bushels of potatoes and other roots, and vegetables sufficient for their requirements.

The present principal, Father Gagnon, has only been recently appointed, but he impressed me as being a capable business man, active, energetic and interested in the welfare of his school.

The pupilage is obtained from Canoe Lake, English River, Clear Lake, Buffalo River and La Loche Lake. It is quite easy to get to English River, Clear Lake, and Buffalo River, as there are no portages, and plenty of water. These are the largest bands from which pupilage is obtained, and as they are from 50 to 100 miles from the school, the Principal has expressed the wish to have a large motor-boat to enable them to visit these points in any weather. Canoe Lake can be reached over land, and is about 30 miles distant.

Révérend Père F.X. Marcotte, o.m.i.,
Université d'Ottawa,
Ottawa, Ont.

M. J. J. J.
Rapport de la construction de l'école
de Beauval.

Mon Révérend Père,

Voici dans quel état se trouve l'école de Beauval, vers le 15 décembre prochain:

L'extérieur sera complètement fini.

A l'intérieur, tous les murs du dehors seront bien plâtrés et il en sera ainsi des murs de séparation des dortoirs, des classes et des parloirs. Quant aux autres murs de séparation, faute de ciment, ils ne seront que blanchis avec une composition qui ne s'efface pas.

Le plancher du soubassement est en bois de bouleau sec (birch) et repose sur une couche de pierres brisées d'un pied et demi. Le plancher du dortoir est aussi en bois qui recouvre la dalle de ciment. Les deux autres planchers sont simplement en ciment qu'on a poli le mieux possible.

Le système de chauffage est déjà fini.

Le système d'éclairage est également fini.

J'ai oublié de dire que les murs de séparation sont en briques.

Le réservoir pour l'eau est construit.

Le système d'égout est installé et le système d'eau sera complété, dans toute la bâtisse, pour le quinze décembre.

Le lavoir est pourvu de machines, même d'un séchoir "home made".

Nous n'avons pas acheté de portes pour les séparations intérieures, nous en fabriquerons en planches là où elles sont absolument nécessaires et nous attendrons l'aide du Dép. pour nous en procurer.

Il y a vingt lits tout montés. Si le Département ne peut pas nous fournir d'autres couchettes, nous en ferons en planches et les matelas

*For the Department

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

seront remplacés par des paillasses de paille, ça suffira durant la crise. Il faudrait des couvertes, des draps et des oreillers pour cinquante lits au moins.

Pour la vaisselle, nous pourrions en acheter et débiter le Dép. comme pour tout le reste.

Pour les livres de classe, les pupitres et les tableaux, une liste sera envoyée plus tard, si on nous permet d'ouvrir. Cependant, pour les pupitres, nous pourrions faire des tables provisoires, si on le juge à propos. Nous ne voulons réclamer que le stricte nécessaire.

Voici maintenant quelques explications au sujet de nos activités. Notre premier plan ~~était~~ de construire seulement la charpente de l'école et cela afin d'utiliser le ciment qui était acheté et rendu sur place. Après avoir fait la structure, nous avons pensé qu'il ne serait pas sage de laisser cette bâtisse ouverte à tous les vents. De plus on nous a dit que ce serait imprudent de laisser ainsi les dalles de ciment sans être appuyées par les murs de séparation. Or nous nous sommes dit: tant qu'à poser les chassis, tant qu'à faire les séparations intérieures, tant qu'à poser le système de chauffage, il vaut bien mieux finir le stricte nécessaire afin de pouvoir nous servir de la bâtisse. Nous avons donc décidé de faire de nouveaux emprunts et de finir.

C'est ce qui explique pourquoi nous avons dépassé ce qui était mentionné dans le rapport d'octobre. Je crois que le Département ne nous blâmera pas, j'espère même qu'il trouvera que nous avons été bien sages. Le coût de la bâtisse ne sera certainement pas excessif. Nous avons fait tout notre possible pour épargner tout en faisant du bon travail. Je désire même que le Département envoie un inspecteur pour examiner les travaux, vers le quinze décembre. Cet ins-

Indian Affairs. (RG 10, Volume 6301, file 650-5, part 3)

**PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA**

pecteur pourra faire un rapport plus détaillé et désintéressé.
Le présent rapport est basé seulement sur les lettres que nous avons
reçu dernièrement de Beauval. Je suis persuadé cependant qu'un ins-
pecteur sera satisfait du travail.

Maintenant, nous pensons qu'il n'y aura pas de danger pour l'humidi-
té, au mois de janvier prochain, au point de pouvoir nuire à la
santé des enfants. Voici pourquoi: Les murs extérieurs et les épais
planchers sont finis depuis la mi-septembre. Ils ont eu le temps
de sécher, vu que les portes et les fenêtres étaient ouvertes. Les murs
des séparations intérieures ne sont pas épais et sont finis depuis
trois semaines. Ils ont dû sécher passablement. Au souvassement, il
ne peut y avoir d'humidité vu que le plancher est en bois. Il reste
encore plus de deux mois avant que les enfants soient prêts à venir.
Le tout aura le temps de sécher très bien dans une maison bien
chauffée. Cependant, si la prudence l'exige, nous retarderons l'entrée
des enfants.

Je suis très content de voir par votre lettre que le Dép. se
propose, à la prochaine session, de présenter des estimées dans le
but de nous rembourser. Cela me donne un peu de courage, car réelle-
ment, si on nous laissait sans remboursement, nous nous trouverions
dans une position très critique. Nous espérons qu'il n'en sera pas
ainsi. Nous comptons sur le "fair play" de M. Scott et de M. Ferrier.

Votre tout dévoué,

+ O. Leharlebois, auz

IN YOUR REPLY REFER TO

No. 307-11

ALSO TO DATE OF THIS LETTER

COMMISSIONER'S OFFICE,

B REGINA, SASK., October 8th, 1931.

Dear Mr. Scott:

I am enclosing herewith a long and interesting report in connection with the schools in the Ile a la Crosse Agency.

You are probably quite familiar as to what is going on with regard to the building of the new school at Beauval. I would judge from the remarks of the Inspector that it is the intention of the Church authorities to have the Department take over this building after it is completed, and it seems to me that, if this is done, a very careful account should be kept of the material used and labour supplied in connection with this work, which is, I would judge, going to run into a very considerable amount. I merely suggest this, as I realize that the Department may already have made arrangements with the Church authorities in this regard.

I would say that, from the photograph supplied, the workmanship would appear to be all that could be desired. It is noted that they have a large number of live stock, and that fifteen cows are milked regularly. The quantity of milk supplied must be of great benefit to the health of the children.

This school seems to be carried on in a very satisfactory manner, and from the little that I know of Father Gagnon, the Principal, I would judge him to be a first class man for that position.

Duncan C. Scott, Esq.,
Deputy Superintendent General,
Department of Indian Affairs,
OTTAWA, Ont.

With regard to the

Indian Affairs. (RG 10, Volume 6301, file 650-5, part 3)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

With regard to the Lac la Ronge School, it will be noted that the situation of this school is not by any means as favourable as that at Beauval, there being very little land under cultivation, or fit for that purpose. The Inspector points out that some might be obtained if the Department could arrange for the purchasing of same, or for having it set aside. I do not know how this affects the arrangements made with the Provincial Government re setting land aside for the Indians, but would suggest that it be set aside as an Indian Reserve, and the school then allowed to use it. I would be glad to be advised in this connection, and I will then take the matter up with the proper authorities here. We should certainly provide for the growing of hay for feed for the cattle, so that the children could obtain milk as part of their diet.

The Inspector gives a description of the building in his report. The furnaces that are out of order should be repaired with the least possible delay, and either the Department should provide for this work, or they should see that the school authorities have it done, as a fire at this point would be a very serious matter. The chimney should also be repaired.

I will take the matter of reducing the size of the mesh of nets from 5 to $4\frac{1}{2}$ inches up with the Fisheries Branch, as, in any event, it will have to be dealt with here in Regina.

With regard to the suggestion that the balcony be floored and ceiled with the material on hand, and with the help of the school staff, I would be glad to have your instructions in this matter. I would say that I think we should act on the suggestions of the Principal, in this connection.

There has been some difficulty in keeping the children in school at the Day School of the Amos Charles Reserve at Stanley, as the children have to accompany their parents on the hunt, which is their only means of making a livelihood. With regard to the Indian boys and girls being left in charge of an Indian

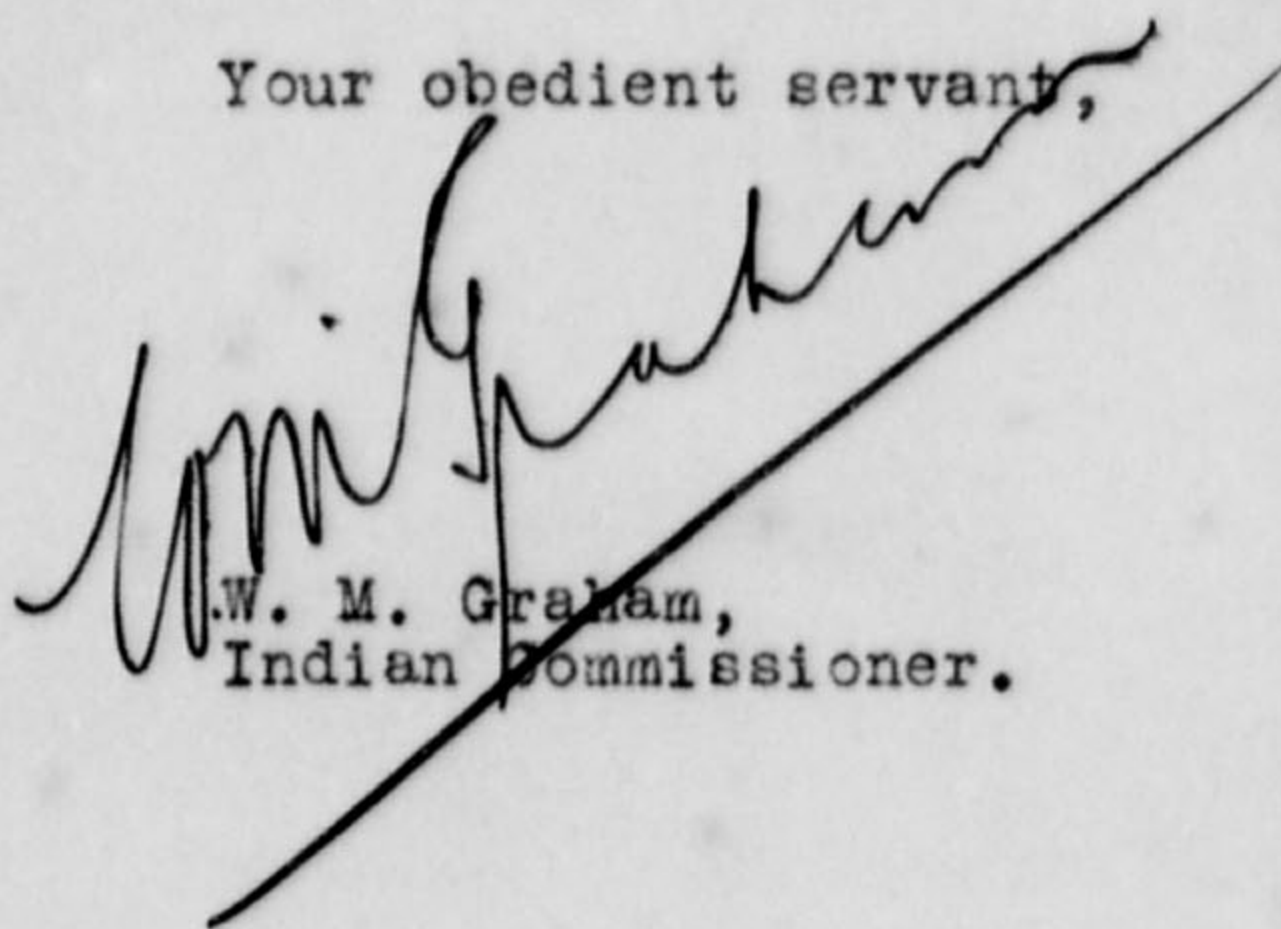

woman or man

Indian Affairs. (RG 10, Volume 6301, file 650-5, part 3)

**PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA**

woman or man, I doubt very much whether this would be a satisfactory arrangement. I might, however, suggest that, if there were a large number of children, it would be wise to employ a white man and his wife to supervise these boys and girls. It is so late in the season that it would be practically impossible to complete arrangements for this plan, but I would ask that this matter be given consideration by the Department, so that it might be carried out in the manner which I suggested, probably next summer.

Your obedient servant,

W. M. Graham,
Indian Commissioner.

Original on..... 132-1-1.

E. A. L.

October 28, 1931.

Dear Father Marcotte:

Pursuant to our conversation this morning, I write to inform you that the Department would like to have a report concerning the progress at the Beauval Indian Residential School. Your intimation, that His Lordship Bishop Charlebois was hoping to admit pupils in January, comes as a surprise. The last information on our files suggests that the building was ready for the roof in October and that it was not the intention to do the interior finishing this year.

To plaster and finish the building and to have it ready for pupils should not be hurried, as it would be unsafe to have children sleeping in dormitories unless everything had been thoroughly dried out. Further, there is the matter of proper furnishing. As His Lordship understands, the Department has no funds to assist this year, and, before we can consider per capita grant, it will be necessary to have a full report concerning the preparations that are being made.

Yours very truly,

Duncan C. Scott

Translation

Bishop's Palace, Le Pas, Man., Nov. 7th 1931

Rev. Father F. X. Marcotte, O. M. I.

Ottawa University
Ottawa, Ont.

Re- State of construction of Beauval school
Reverend Father,

The following is a description of the state in which the Beauval School will be by the 15th of December next.

The exterior will be completely finished.

At the interior all the outside walls will be well plastered and it will be the same with the separation walls of the dormitory, of the classrooms and the parlors. As to the other walls of separation, on account of lack of cement, they will only be whitened with a composition which does not come off.

The floor of the basement is of dry birch and is laid on a layer of broken stones one foot and a half thick. The floor of the dormitory is also of wood over the cement; while the other two floors are simply of cement which has been polished as well as possible.

The heating system is already completed

The lighting system is also finished

I forgot to say that the partition walls are of bricks.

The water reservoir is built.

The sewer system is installed and the water system will be completed through the whole building for the 15th of December.

The laundry is provided with machinery, even a home made dryer.

We did not purchase any doors for the inside

Indian Affairs. (RG 10, Volume 6301, file 650-5, part 3)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

partitions, we shall make some with lumber where they will be absolutely necessary and we will wait for the Department's help to get proper ones. There are twenty beds completely fitted. If the Department cannot supply us with more beds we will make some with boards and the mattresses will be replaced by straw-mattresses, which will have to do during the crisis. We will need blankets, sheets and pillows for fifty beds at least.

For the crockery we could purchase some and debit the Department the same as for everything else.

For the school books, desks and blackboards a list will be forwarded later on, if we are permitted to open. However, for the desks, we could build temporary tables, if it is judged proper. We only want to ask for what is strictly necessary.

It follows now some explanation concerning our activities. Our first plan was to construct only the frame of the school and that so as to utilise the cement which was bought and delivered on the premises. After the structure was up, we thought it would not be wise to leave the building open to all winds. Furthermore we were informed that it would be unwise to leave the cement floors without being sustained by partition walls. We consequently thought that if we had to put in the windows and make the repairs to the interior walls, and also fix the heating system, we were as well to complete what was strictly necessary so as to make use of the building. We therefore decided

to borrow money and complete the work.

This is what explains the reason why we went over what was mentioned in the October report. I believe the Department will not blame us, I even hope that they will find that we have acted wisely. The cost of the building will certainly not be excessive. We have done our very best to economise while we did good work. I wish the Department would send an inspector to examine the work, about the 15th of December. That inspector could make a more detailed and disinterested report. The present report is solely based on letters we have received lately from Beauval. I am however convinced that an inspector will be satisfied of the work.

Now we think there will be no danger from dampness, during January next, in a way to inconvenience the health of the children. This is why: The exterior walls and the thick floor are finished since the middle of September. They had the time to dry up as the doors and windows were kept open. The partition walls are not thick and were completed 3 weeks ago. They must be fairly dry. In the basement there can't be any dampness as the floor is of wood. There is still two months ahead before the children are ready to come. Everything will have time to dry well in a well heated house. However if it is safer, we will ~~delay~~^{postpone} the entrance of the children.

I am very glad to see by your letter that the Dept. intends at the next session to present estimates to reimburse us. This gives me much courage, because really if

4

if we were left without any refund, we
would be in a very critical position. We hope
it will not be so. We rely on the fair play
of Mr. Scott and of Mr. Ferris.

Yours devotedly
(sgd) + O. Charlebois, O.M.I.
V. Apostolic of Keewatin

November 16, 1931.

Dear Bishop Charlebois:

Reverend Father Marcotte, O.M.I., has handed to me Your Lordship's letter of the 7th instant, with reference to the situation at the Beauval Indian Residential School. I believe you have done wisely to complete the building while you had a staff of workers and some of the materials on the site. On the other hand, I feel that, from even the Church standpoint, Your Lordship would be making a mistake if you hurried the opening of the school. Do you not think it advisable to have the building properly finished and equipped and then offer it for inspection in July or August, when you could have the Indians you are serving come for a gala opening.

We are now considering the Estimates for the coming fiscal year, and I will present your claims in connection with Beauval to the Honourable the Superintendent General. There is, first, the question of reimbursement for this year's expenditure, and, further, provision for next year and the future. I will ask for per capita grant and for sufficient funds to finish the building and to furnish it. I should be pleased if Your Lordship would inform the Department immediately concerning the total expenditure you have incurred this year and indicate what should be done next spring to finish the building. You should also prepare a list of the furnishings that are required. This information is required in connection with the preparation of our Estimates.

I do not consider that to delay the opening for a few months is at all serious, when one remembers that the Indians the school serves earn their livelihood largely by hunting. The extra 6 months' education that the present generation of children would receive by hurrying the opening would be of little consequence. Far better to have everything properly prepared and to commence the second phase of this school's activity with the type of opening which proved so successful and popular in the case of the Guy Indian Residential School at Sturgeon Landing.

Yours very truly,

Duncan C. Scott

Deputy Superintendent General.

Memorandum:

HONOURABLE THOMAS G. MURPHY.

In connection with the preparation of Estimates and in order to reply to a recent letter from His Lordship Bishop Charlebois, of The Pas, Man., it is now necessary to decide what further help will be given for the new building at the Beauval Indian Residential School, in northern Saskatchewan. In September, 1927, the old building was destroyed by fire, and Bishop Charlebois, representing the Oblate Order, offered to rebuild if the Department would give a grant of \$50,000. The Department accepted this proposal, which was approved by P. C. 932, of May 30, 1929 - a copy of which is attached. The new building was to be erected by the Order, on a day labour basis. During the year commencing June, 1929, this grant of \$50,000 was paid.

In October, 1929, His Lordship intimated that there was a misunderstanding regarding financing and that the Oblate Order would require considerably more than the \$50,000 if the building programme was to be completed. It appears he thought our assistance with plans and specifications announced that the Department was prepared to finance the entire undertaking. I wrote His Lordship that I was unable to state whether or not extra help could be given. Approximately \$63,000 was expended by the Church authorities during 1929. Early in 1930, His Lordship, hoping that the Department would be able to make an additional grant, arranged for the freighting of materials for the foundation of the second unit of the building. In June, he was informed that no further funds were available for that year and that, before anything

- could be

Indian Affairs. (RG 10, Volume 6301, file 650-5, part 3)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

could be done in 1931 or later, additional authority from His Excellency in Council and a Vote by Parliament would have to be secured. At His Lordship's suggestion, I had our Architect change the plans and specifications of the administration, dormitory and classroom part of the building to fireproof construction, and I told His Lordship that I hoped the work might be proceeded with in 1931.

During 1930, the Church authorities went ahead with the making of brick, and, in February of this year, His Lordship came to Ottawa to plead for further help. In the first draft of our Main Estimates for 1931-32, I had included an item of \$75,000. This had been struck out and His Lordship so informed. He, however, pressed for consideration when the supplementaries were being prepared. He was informed that no expenditure could be authorized at that time, but, as the freighting had to be done before the spring breakup, he asked the Department to reaffirm its decision to have the work done on a day labour basis, under the supervision of the Church authorities. On March 6th, I wrote to him, stating that no expenditure could be authorized this year.

His Lordship, trusting that the Department would reimburse him sooner or later, went ahead with the main part of the building this year. He is hoping to admit pupils during January, next, but I believe he should postpone the reopening of the school until the summer. At the present time, the interior is not quite finished and it is not completely furnished. I am satisfied the building is a credit to all concerned. It is fireproof and modern in all respects. Further, the cost has been much less than if a contract had been awarded.

Bishop Charlebois hopes that the Department will include an item in the Estimates for the coming fiscal year to reimburse the Church for most, if not all, of the expense. From the information on file,

Indian Affairs. (RG 10, Volume 6301, file 650-5, part 3)

ARCHIVES PUBLIQUES
CANADA

- 3 -

\$75,000 is the figure we should consider. In addition, \$5,000 is required in the spring to finish and furnish the building. Further, a per capita grant for current expenses should be provided. If you decide in favour of a second grant towards the cost of the building, another Order in Council will be necessary.

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

June, 1930, he was informed that no further funds were available for that year and that, before anything could be done, additional authority from His Excellency in Council and a Vote by Parliament would have to be secured.

In February, 1931, His Lordship came to Ottawa to plead for further help. In the first draft of our Main Estimates for 1931-32, I had included an item of \$75,000. This had been struck out and His Lordship so informed. He, however, pressed for consideration when the supplementaries were being prepared. He was informed that no expenditure could be authorized at that time, but, as the freighting had to be done before the spring breakup, he asked the Department to reaffirm its decision to have the work done on a day labour basis, under the supervision of the church authorities. On March 6th, I wrote to him, stating that no expenditure could be authorized this year.

His Lordship, on his own responsibility, began construction of the main part of the building this year. He reports that it is nearly finished and urges the Department to allow him to open the school during the coming January. I am attaching hereto some recent photographs of the building, which reached me a day or two ago.

Bishop Charlebois hopes that the Department will include an item in the Estimates for the coming fiscal year, to reimburse the Church for most, if not all, of the expense and to provide for furnishing. From the information on file, \$85,000 will be required and also \$18,000 to provide for 100 pupils at \$180. - in all \$103,000. If this amount is to be provided, it must be shown as an added increase in our Vote for Indian Education. Our ordinary obligations, with one or two very urgent major improvements, will amount to approximately \$130,000 more than the appropriation for

- the current

Indian Affairs. (RG 10, Volume 6301, file 650-5, part 3)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

the current year.

I have outlined this matter with some distinctness, in order that you may have the facts before you. As my memory serves me, the Minister and the Department were quite clear regarding the understanding which resulted in the Order in Council of the 30th of May, 1929. Bishop Charlebois gave us nothing in writing, but he held interviews at that time with both myself and the Minister.

While in one sense the Department is not responsible for the present situation, it should be remembered that the Beauval School, in the past, was considered a useful institution and that it constitutes, at present, a valuable adjunct to our educational system. I therefore support the provision of funds to reimburse His Lordship and suggest that, if a grant for the whole amount is not possible, three or four annual payments be made.

December 15, 1931.

Dear Bishop Charlebois:

Reverend Father Marcotte, O.M.I., has handed to me Your Lordship's letter of the 7th ultimo, with reference to the situation at the Beauval Indian Residential School. I have postponed replying until such time as I had an opportunity of discussing with the Honourable Mr. Murphy the Main Estimates for the coming fiscal year. I now write to inform you it is unlikely that there will be any provision in the Main Estimates for Indian Education for new main buildings. As it will not be possible to pay per capita grant from the current appropriation, I think Your Lordship should not hurry the opening of the school.

Yours very truly,

Duncan C. Scott

Beauval Indian Residential School.

Beauval, Sask.

Dec. (9 1931.

Department of Indian Affairs,

Ottawa, Ont.

Gentlemen,

W. J. O'Brien
to note
Description of work done on Beauval Indian School.

The footing began May the 15th and the plan supplied by Cowin, Co. Ltd, Structural engineers, were followed closely for the footings and reinforced concrete. A copy of the plans will also follow to the department to illustrate more closely all the details.

The four center columns were enlarged from footings to roof to support two horizontal cylindrical tanks 10'x5'. Also for the same purpose, the walls between the four center columns, are made of double bricks laid flat; That is from one foot below the basement floor to roof.

The bricks walls are 17" in thickness for basement, ground and first floor, that is three layers of bricks and air space and one brick laid on the side.

The walls of the second floor have only 14" but provided also with an air space. The roof is supported by reinforced concrete columns, girders and beams, but slabs are made of 2x6" spaced between 20 to 24" resting on concrete beams. Two layers of Sylotex were laid one the 2x6" on a shiplap and one below forming a good air space. Strips 1x2" laid on the sylotex with a shiplap and 2" of dry sand forms the second air space.

The flat roof, groove and tongue lumber, is supported by 2x6" resting on posts, thus forming thick air space. A layer of white paper and four layers of tar paper and gravel forms the roof. The roof is provided with two four inches house drain which discharge into 3" house sewer. The drainage system consists of three main soil stacks, with all vent stacks, cleanout and traps required in modern construction. A sub soil drain is also provided all around the foundation wall.

Cool and warm water.

Cold water will be supplied by a ram forcing the water into the two

Indian Affairs. (RG 10, Volume 6301, file 650-5, part 3)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

cylindrical tanks and the house supplied by gravity for cool and warm water.

Electricity:-

All wires are passing through galvanized electrical pipes and the system is all fireproof.

Heating system:-

The heating system amount about 4200' of radiation. The two boilers supplied by the Vulcan Iron Winnipeg have a capacity of 3000" of radiation each. It is a two pipes system, the returns from the radiators are returned to boilers by gravity. Steam and return mains are divided respectively in four branches fitted with four valves. This system has already proved very satisfactorily.

Partitions:-

All partitions are made of one layer of bricks laid flat.

Floors:-

Basement floor (being short of cement) is made of one shiplap laid ~~hexagonally~~ diagonally and birch for the finishing. Ground and first floor are rough concrete finishing. Second floor is rough concrete with strips laid on and finished as basement.

Playrooms:-

Playrooms for boys and girls are well ventilated and lighted. Each room 43x24' has 6 windows. Classrooms are also provided with four windows and will be of the finest appearance when finished. Sewing room the finest for size and light is 43x24 with 11 windows. Boys and girls dormitories are of good size and well ventilated and provided with shower baths, closets and sinks and cloth stores.

All stairs are reinforced concrete.

Exterior walls were plastered with lime and whitewash. All partitions and ceilings are also whitewash on the bricks only. Half the plumbing only could be made just now, fixtures not on hand but will be finished for January.

Sweating:-

There was no sweating on exterior walls in basement and ground floors, very little in a couple rooms of first floor and on north side only. Owing to heating system working

Indian Affairs. (RG 10, Volume 6301, file 650-5, part 3)

**PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA**

3.

on the south side first. All those rooms are completely dry now.

It is very regrettable that the school could not be entirely finished at once on account of being short of different materials, although not nicely finished, the school would be ready any time to take up a certain number of children. The building is very healthful, well heated and ventilated and also finished with all the conveniences required for such a building.

At the present time, as it was hard for the Indians to strive for their life, they are sending petitions on petitions to put their children to the school, but are refused. So, I hope that the Department of Indian Affairs will take up the matter into consideration and will accept those children who are well disposed to go to school.

I am:-

Yours very truly:-

F.X. Gagnon. O.M.I.

Principal.

Dear Doctor Scott,

I am sending herewith enclosed a report
received recently from Rt. Rev. Bishop Charlebois re Residential
School of Beauval.

His Lordship has received your letter stating that there
is no amount on the general estimates for the construction of
this school. There is another point that worries His Lordship:
will the opening of the school be authorized at least for next
August? It is rather urgent to know this as transportation
must be done in winter.

I understand that a definite answer on this point is
perhaps somewhat difficult, but it would indeed be a relief to
His Lordship.

The Rt Hon R B Bennett,

Ottawa, Ont.

Dear Mr. Bennett :

I have been asked by Bishop Charlebois to refer the following matter to you. He has met with a serious financial set back in the rebuilding of the Beauval Indian School in Northern Sask. I am sure you will have on file in the Interior Dep't full particulars on the subject.

The building is about completed, and owing to no provision being made to cope with payments thereon, or to facilitate occupation of the building, His Lordship is greatly embarrassed, and most anxious to obtain government assistance, even to the amount of one third of the cost of the school, and provision for opening of same.

He has begged me to call the matter to your personal attention, having failed so far in his negotiations with the department.

Personally I would be glad if you could assist in relieving the situation, although I understand in some measure what great demands and financial difficulties are besetting you at this time.

Yours sincerely,

(Sgd) E. F. Purcell.

Memorandum:

MR. BUSKARD.

I have your memorandum of the 25th instant, enclosing copy of a letter from E. F. Purcell, of The Pas, to the Prime Minister. On the 2nd ultimo, I gave Mr. Murphy a complete memorandum concerning the situation at this school. We decided that I should inform His Lordship Bishop Charlebois that there would be no provision in the Main Estimates for Indian Education for new main buildings. We have not authorized the opening of the school next summer, but I have asked, in our Main Estimates, for per capita grant for the institution. If any reimbursement is to be made to His Lordship during the coming fiscal year on account of the capital expenditure, provision will have to be made in a supplementary estimate.

Ottawa, May 20, 1932.

Right Reverend Sir:

I wish to refer to earlier correspondence, regarding furnishing the building at the Beauval Indian Residential School, so that it can be ready for the reception of pupils on or about September first. Father Gagnon gave the Department, under cover of March 9th, a list of things that were required, and I have to authorize Your Lordship to proceed with the completion of the building, as follows:-

- Sink with drain board in pupils' dining room.
- 3 wash sinks in kitchen,
- 3 bath tubs,
- 11 water closets with fittings,
- 10 showers with curtains,
- 6 shower drains,
- 2 slop sinks,

The inside doors, transoms and windows mentioned in the Rev. Principal's list,

Hardware necessary for completion of the building.

An expenditure of approximately \$1,750 may be incurred in this connection. The purchase of the materials needed for the above should not be made until you have obtained prices from the undermentioned firms and submitted these to the Department for its consideration:

PLUMBING: M. & P. Plumbing Co., Prince Albert
Bowyer-Boag, Ltd., Winnipeg.
Crane's Limited, Saskatoon.
James Brandon, "
Manville Hardware Co., Prince Albert.

LUMBER: Manville Hardware Co., Prince Albert.
McDiarmid Lumber Co., "
Beaver Lumber Co., The Pas,
Reliance Lumber Co., Saskatoon.
Maguire Lumber Co., "
Saskatoon Lumber Co., "

I am enclosing an extra copy of this letter for the information of the Rev. Principal. It must be clearly understood that, before purchase is made of the materials, you should submit the prices to the Department, with Your Lordship's recommendation.

I have the honour to be,

Right Reverend Sir,

Your obedient servant,

A. F. MacKenzie,
Secretary.

Right Rev. O. Charlebois, O.M.I., D.D.,
Bishop of Keewatin,
The Pas,
Man.

Ottawa, May 27, 1932.

132-1-5

1 Mr. L. J. [unclear]
2 Mr. [unclear]
His Excellency

The Governor General in Council.

The undersigned has the honour to refer to an Order of His Excellency in Council, P.C. 932, dated May 30, 1929. The Order aforesaid approved of a grant of \$50,000.00 to the Oblate Order for the erection of a new school building for the Beauval Indian Residential School, near Lac la Plonge, in the Province of Saskatchewan, to replace that which was destroyed by fire in September, 1927. The total cost of the building was estimated at \$100,000.00, and the additional \$50,000.00 required was to be provided by the said Oblate Order.

The grant of \$50,000.00 aforesaid was provided by Parliament and paid during the fiscal years ended March 31, 1930, and March 31, 1931. The building is now practically completed and the total cost has been approximately \$125,000.00, - \$25,000.00 in excess of the estimate. The land on which the school is situated is owned by the department.

The Order has made representations to the department to show that their finances are unable to bear the costs incurred in connection with the erection of this Indian School, and has satisfied the department that such is the case.

In view of these circumstances and having regard to the interests of Indian education in the district served by this institution, the undersigned has the honour to recommend that authority be granted for an additional grant to the said Oblate Order of the sum of \$10,000.00 towards the cost of the erection of the Beauval Indian Residential School building as aforesaid.

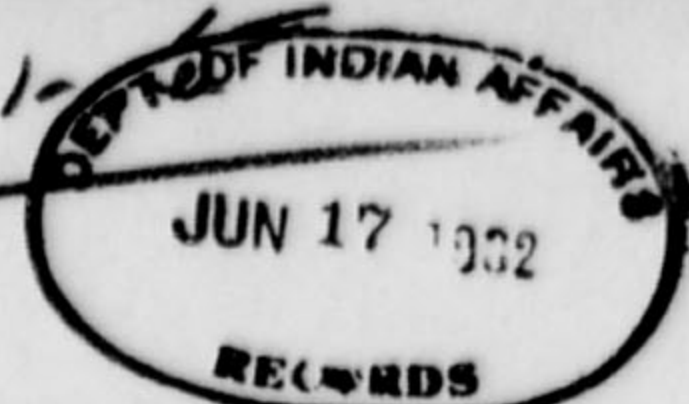

Funds for this purpose are available from Parliamentary Appropriation for the current fiscal year, 1932/33.

B

Certified to be a true copy of a Minute of a Meeting of the Committee
of the Privy Council, approved by His Excellency the Governor
General on the 13 th. - JUNE - 1932

*1. P.C. 932
2. 30
3. 1929*

The Committee of the Privy Council have had
before them a report, dated 27th May, 1932, from the
Superintendent General of Indian Affairs, with reference
to an Order in Council, (P.C. 932) dated May 30, 1929,
approving of a grant of \$50,000 to the Oblate Order for
the erection of a new school building for the Beauval
Indian Residential School, near Lac la Plonge, in the
Province of Saskatchewan, to replace that which was
destroyed by fire in September, 1927.

Copy

The Minister states that the total cost of the
building was estimated at \$100,000, and the additional
\$50,000 required was to be provided by the said Oblate
Order.

The grant of \$50,000 aforesaid was provided by
Parliament and paid during the fiscal years ended March
31, 1930, and March 31, 1931. The building is now
practically completed and the total cost has been approxi-
mately \$125,000 - \$25,000 in excess of the estimate. The
land on which the school is situated is owned by the
department.

The Order has made representations to the depart-
ment to show that their finances are unable to bear the
costs incurred in connection with the erection of this
Indian School, and has satisfied the department that such
is the case.

In

The Honourable
The Superintendent General
of Indian Affairs.

In view of these circumstances and having regard to the interests of Indian education in the district served by this institution, the Minister recommends that authority be granted for an additional grant to the said Oblate Order of \$10,000 towards the cost of the erection of the Beauval Indian Residential School building as aforesaid.

Funds for this purpose are available from Parliamentary Appropriation for the current fiscal year, 1932/1933.

The Committee concur in the foregoing recommendation and submit the same for approval.

~~Clerk of the Privy Council~~

Ottawa, June 20, 1932.

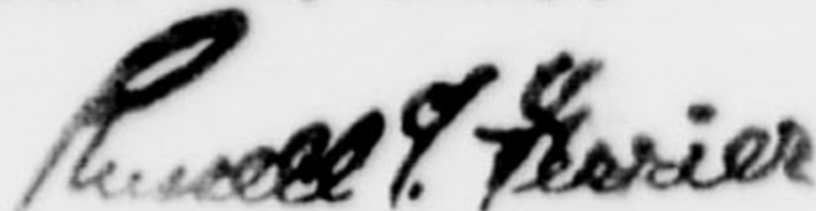

Dear Bishop Charlebois:

The Department is pleased to inform Your Lordship that P. C. 1326, of the 13th instant, is the authority of His Excellency the Governor General in Council to make a further payment of \$10,000 to the Roman Catholic Episcopal Corporation of Keewatin on account of the expenditure you have undertaken in the reconstruction of the Beauval Indian Residential School. A cheque for this amount will be drawn in a few days and directed to Your Lordship. At different times, Your Lordship has indicated that the Order's expenditure has been approximately \$125,000. The total amount of the receipts and labour returns which have reached the Department is \$63,066.99. The last of the supporting papers was forwarded under cover of your Secretary's letter dated May 23, 1930.

When you visited the Department in November, last, you left with me a recapitulation of the expenditure from May 17, 1930, to October 31, 1931. This recapitulation, which is dated November 2nd, last, indicated that \$17,822.25 had been expended for labour and that you had paid accounts for materials to various firms to a total of \$46,471.58, or a grand total of \$64,293.83.

So that the Department will have a complete record on file, it will be necessary for Your Lordship to forward supporting papers for this expenditure of \$64,293.83, which was incurred between May, 1930, and October, 1931, and which was recapitulated by your office on November 2nd, last. Labour returns in duplicate should be forwarded to the Department and receipts for the other expenditure in triplicate if convenient and at least in duplicate.

Yours very truly,

Russell T. Ferrier,
Supt. of Indian Education.

Right Rev. O. Charlebois, O.M.I., D.D.,
Bishop of Keewatin,
The Pas,

DESIDERATA

As a recognition of the quasi promises made to us and of our efforts to make a success of this undertaking, and to put an end to the abnormal situation made to the Indians of that district we therefore ask:

1 - That the whole cost of the construction of the Beauval Indian Residential School be officially recognized by the Government.

2 - That reimbursement of the \$85,000.00 still due, be made in three equal yearly instalments, commencing with the coming fiscal year.

3 - That we may be allowed the per capita grant, for seventy (70) children with the beginning of the fiscal year

THE ROMAN CATHOLIC EPISCOPAL CORPORATION OF KEEWATIN

Bishop's Palace,
The Pas, Manitoba,

132-1-5
Evêché—Bishop's House
Le Pas, Man., Canada

June 23, 1932.

The Secretary,
Department of Indian Affairs
Ottawa, Canada.

Dear Sir:-

In the absence of His Excellency Bishop Charlebois, who is actually visiting his distant missions, I am given the privilege to thank you, in his behalf, for your kind letter of the 20th instant, No. 132-I-5, in regard with a further payment of \$10,000.00 to be made to the Roman Catholic Corporation of Keewatin, on account of the expenditure undertaken in the reconstruction of the Beauval Indian Residential School. I will certainly take advantage of the first occasion to convey these good news to His Excellency.

As requested in the same letter, I am forwarding, under separate cover, the supporting papers for the expenditure of \$64,293.83, from May 17, 1930 to October 31, 1931, as per recapitulation handed to you by His Excellency.

I notice that you are under the impression that the total expenditure will be approximately \$125,000.00. With the present invoice, you will have supporting papers for the expenditure of \$127,360.82, and since October 31, 1931, there are a few more accounts to come. Last January, in a memorandum, we have asked the Department for a further reimbursement of \$85,000.00 which would give \$135,000.00 with the \$50,000.00 already granted. I just mention this in order to avoid all misunderstanding.

yes Ans | If you wish us to do so, I will be glad to forward to you the balance of supporting papers for expenditure covering the period between October 31, 1931 to date.

With best personal regards, I remain,

Yours very truly,

Martin Lapierre
and

Secretary.

Reverend Sir:

I have your letter of the 23rd instant, acknowledging receipt, on behalf of His Lordship Bishop Charlebois, of the Department's letter of the 20th instant, informing him that a further payment of \$10,000 would be made on account of the expenditure undertaken in the reconstruction of the Beauval Indian Residential School. The vouchers which you forwarded, covering the expenditure incurred in the construction of this building between the period May 17, 1930, and October 31, 1931, have been received. The Department will be pleased if you will forward the balance of the supporting vouchers for the expenditure from October 31st, last, to date. ✓

Your obedient servant,

A. F. MacKenzie,
Secretary.

copie

Evêché, Le Pas, Man., le 14 mars, 1931.

\$525.00

Reçu de Monseigneur Ovide Charlebois, o.m.i., la somme de cinq-cent-vingt-cinq dollars 00/100, en paiement total d'un mois de travail, en rapport avec la construction de l'école de Beauval. Ce montant inclut aussi toutes les dépenses de voyage ou autres, à l'exclusion des achats du matériel, que j'ai encourues par rapport à cette construction.

Je déclare également que ce reçu met fin au contrat conclu entre moi et Monseigneur Charlebois le deux mars 1931, et que je me désiste de tout droit que pourrait me donner ce contrat pour le futur.

Deb
The Secretary,
Department of Indian Affairs,
Ottawa, Canada.

Dear Sir:

Please find enclosed a télégram received from the Rev. Father Principal of the Beauval Indian Residential School in connection with some more doors and Hardware required. I will be glad if you can see your way to have this material shipped at the same time as the one on which tenders have been called for.

Yours very truly,

Martin Lejeune
over

Secretary.

Ottawa, July 12, 1932.

Reverend Sir:

I have your letter of the 8th instant, enclosing a telegram which you received from the Principal of the Beauval Indian Residential School, with reference to the supplying of doors and heavy fencing for the school yard. In this connection I would refer you to official letter to His Lordship the Bishop of Keewatin, dated May 20th, last, regarding the purchasing of equipment for the Beauval School. His Lordship or yourself should obtain prices for the doors and fencing from the firms on the list referred to and should submit the prices to the Department before making the purchase.

Your obedient servant,

A. F. MacKenzie
Secretary.

Rev. Martin Lajeunesse,
Bishop's House,
The Pas, Man.

Ottawa, July 15, 1932.

Reverend Sir:

*Letter m-12
file
AM*

I have your letter of the 6th instant, enclosing tenders on the requirements at the Beauval Indian Residential School. I am returning the tenders for plumbing and wish to authorize you to place the order with Crane Limited, of Saskatoon, at their price of \$914.58, less 2% for prompt payment, f. o. b. Meadow Lake, sales tax included. When the equipment has been supplied, you should arrange with the Rev. Principal to have the account, in triplicate, properly certified and forwarded direct to Ottawa for payment.

I am also returning the quotations on the lumber, doors and windows. This business should be awarded to W. H. Cushing, Limited, of Saskatoon, at their price of \$285, f. o. b. Meadow Lake. Referring to your other letter of the 8th instant, enclosing copy of telegram from the Rev. Principal, you are authorized to add to the Cushing order the three heavy doors for the outside and the three additional inside doors. Please see that this firm give you their best price for this supplementary order. As in the case of the plumbing, when the lumber and millwork have arrived, please ask the Rev. Principal to forward to Ottawa a properly certified account, in triplicate.

Your obedient servant,

A. F. MacKenzie

Dear Sir,

Referring to your letter May the 4th 1932 saying
"not to incur any expenditure which the Department will be
called upon to meet, until you have full directions," I come
to ask you if the department will authorize me to have some
of the work done, which I think is necessary.

1st. Last fall as we were in a hurry
to close the school before the cold season, we did not have
time to scrape off the earth around the building which
caused the rain to remain around the foundation, and which
might cause the concrete to crack. This will take a couple
weeks with two scrapers. It will cost from 40 to \$60.00.

2^o I believe the Department would have no
objection for me to keep a man to get the school ready for
the opening as we have no benches nor tables; and also
as all the other furnitures, such as doors windows have
to be fixed.

I do not find any means of getting the
school ready without the help of a man besides the brother.

You would obliged me very much in telling
me when to send the invoices to the department. Some of the
supply will be here this week; as soon as I will have the
invoice, I will O.K. them and send them to the Department.

I thank you Very much for what you are doing for this
school,

Yours very truly,

Signed: *F. L. Gagnon D. M. A.*
Principal.

Ottawa, September 7, 1932.

Rev. Sir:

I have your letter of the 8th ultimo, requesting that you be allowed to incur an expenditure not exceeding the sum of \$60 in scraping and levelling off the earth around the new building at the Beauval Indian Residential School. It is noted that you estimate this work will take about two weeks to complete.

The Department will provide an amount not exceeding \$60 in carrying out this work. Please forward an account, in triplicate, in favour of the man who does the work, giving full details as to the number of days or hours employed and the rate paid per day or hour, as the case may be. This you should certify in the following manner: "Work performed. Charges paid fair and just", and forward to the Department for payment.

You should certify and forward all invoices which you have received covering the cost of furnishings supplied for this school. It is hoped that all the furnishings have reached the school before this date.

Owing to lack of funds, the Department is unable to provide the cost of the services of a man in getting the school ready for opening.

Your obedient servant,

T. R. L. MacInnes
Acting Secretary.

132-1-5

Evêché, Le Pas, Man., le 16 septembre, 1932.

A Monsieur le Sous-Surintendant,
Des Affaires Indiennes, Ottawa, Ont.

Cher Monsieur,

Vous êtes au courant, je suppose, que les frais de la nouvelle construction de l'Ecole Pensionnat de Beauval ont été payés par nous. D'après vos dossiers, vous verrez que ces frais s'élèvent dans les environs de \$140,000.00. Un remboursement de \$50,000.00 a été complété par le Département Indiens le 5 juin 1930. Un autre remboursement de \$10,000.00 a été fait le 28 juin 1932. Le tout forme un montant de \$60,000.00 Nous subissons encore les obligations de la somme qui reste due. Les intérêts sont très onéreux pour nous. De plus nous sommes dans un grand besoin d'argent. Le développement de nos missions indiennes en souffrent beaucoup. Nous sollicitons donc avec vives instances qu'un autre remboursement substantiel, sinon complet, nous soit voté à la prochaine session.

Ainsi, je vous prie d'inscrire dans vos prochaines estimations une somme d'au moins 25 à 30 mille piastres. Sans cela nous ne pourrions pas faire face aux besoins de nos missions.

J'espère donc que vous aurez égard à notre situation et que vous vous rendrez à nos désirs.

Je vous prie d'agréer l'hommage de mon respect et de mon dévouement.

+ O. Charlebois, c. u. 9.

Translation

Bishop's Palace, Le Pas, Man., Sept 16th 1932
To the Acting Deputy
Indian Affairs, Ottawa, Ont
Dear Sir,

You evidently know that the cost of the new construction at the Beauval Boarding School was paid by us. On your files you will see that the expenditure reaches nearly \$140,000. A refund of \$50,000 was completed by the Indian Department on June the 5th 1930. Another payment of \$10,000 was made on the 28th of June 1932. Making an aggregate sum of \$60,000. We are still bearing the obligations of the sum remaining due. The interests are burdensome for us. Furthermore we are in great need of money. The development of our Indian Missions suffer thereby considerably. We consequently solicit earnestly that another substantial refund be made, if not complete, by a vote at the next session.

Consequently, I beg you to include in your next estimates a sum of at least 25 to 30 thousands dollars. Without that we will be unable to meet the needs of our missions.

I therefore hope that you will take our situation into consideration and will accede to our wishes.

I beg you to accept the homage of my respect and of my devotion

(sgd) + O. Charlebois, O.M.I.

The Superintendent of Indian Education,
Department of Indian Affairs,
Ottawa.

Dear Sir,

I received recently a letter from Rev. Father Gagnon, O.M.I., Principal of the Beauval Residential School, in which he asks if the Department would consider the suggestion of providing the school with a motor boat for the transportation of the Indian children from their distant homes. The Rev. Father shows the advisability of the suggestion in the following lines:

"Avec l'ouverture de l'école se pose un sérieux problème pour nous: celui des dépenses de voyage pour amener les enfants à l'école, et pour les reconduire dans leurs familles pour le temps des vacances.

"Nos sauvages étant tous très pauvres, ne peuvent entreprendre le voyage nécessaire pour venir mener eux-mêmes leurs enfants; ils manqueraient de vivres en route, et de plus, pour la plupart, n'ayant que de misérables canots d'écorce, ou pas de canot du tout, ils n'oseraient pas s'aventurer à faire pareil voyage même s'ils avaient des vivres en abondance. C'est parce que ces voyages sont très longs et doivent se faire en majeure partie sur des lacs qui sont de véritables mers intérieures; par exemple, le Buffalo Lake et le Clear Lake.

"C'est donc à ceux qui ont la direction de l'école que revient la tâche d'aller chercher ces enfants et à la fin de l'année de les reconduire.

"Pour vous faire une idée de la longueur de ces voyages et des dépenses qu'ils occasionnent, alignons quelques chiffres: la réserve la plus rapprochée est celle du Canoe Lake, qui se trouve à 35 milles d'ici par le chemin d'hiver, mais à l'été, c'est-à-dire au temps où il faut aller prendre ou reconduire les enfants, il n'y a pas d'autre chemin praticable que celui des rivières en passant par le lac de l'Ile-à-la-Crosse, soit une distance de 70 milles pour s'y rendre. Pour les autres réserves, c'est encore plus loin. Il y a 90 milles pour se rendre à

Indian Affairs. (RG 10, Volume 6301, file 650-5, part 4)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

la réserve "English River", 110 milles pour celle du "Clear Lake", 120 milles pour Buffalo River, 200 pour le Portage-la-Loche, et 115 milles pour Water-Hen River.

"Dans un même voyage on peut à la rigueur prendre les enfants de Clear Lake, Buffalo River et du Portage, mais ce seul voyage donne un parcours de 300 milles environ aller et retour. Quant aux autres réserves, pour s'y rendre il faut faire un voyage spécial pour chacune. Et puis, comme je le disais tout à l'heure, à cause des grands lacs à traverser, il n'y a presque pas moyen de s'arrêter à l'idée de faire ces voyages avec les canots dont nous nous servons pour les besoins ordinaires. Je tremble à la seule pensée de me faire prendre par un gros temps sur un lac avec une charge d'enfants dans une embarcation quelconque. S'il fallait qu'il arrivât quelque malheur dans le transport, quelle responsabilité pour moi! Et pour ce qui est de l'école, il va sans dire qu'il serait inutile ensuite d'essayer d'avoir des enfants.

"De ce qui précède, je crois pouvoir conclure que le transport des enfants aux frais de l'école s'impose, et que pour cela il faudrait avoir un petit bateau qui assurât une certaine sécurité en cas de mauvais temps pendant les voyages.

"Assurément cela représente encore un joli déboursé pour le Département, mais je suppose que ceux qui s'occupent des affaires indiennes voudront bien admettre qu'il y a là un état de choses auquel nous ne pouvons rien changer.....

"Pour toutes ces raisons, j'ose espérer que le Département nous accordera, pour la prochaine année scolaire, un petit bateau pour transporter les élèves, et en plus, un octroi suffisant pour couvrir les dépenses de voyage.".....

*Yours very truly,
F. X. MacCulloch, D.M.A.*

TRANSLATION

1 *Revised*
2 *Amended*
Ottawa, Ont., September 20, 1932.

The Superintendent of Indian Education,
Department of Indian Affairs,
Ottawa.

Dear Sir:-

I received recently a letter from Rev. Father Gagnon, O.M.I., Principal of the Beauval Residential School, in which he asks if the Department would consider the suggestion of providing the school with a motor boat for the transportation of the Indian children from their distant homes. The Rev. Father shows the advisability of the suggestion in the following lines:

"After the opening of the school a serious problem arises for us, that of the travelling expenses to bring the children to school and to take them back to their families for the time of their holidays.

"Our Indians being very poor, cannot undertake the necessary voyage to bring their children themselves; the lack of food to undertake that trip and furthermore most of them having only poor bark canoes or none at all, they would not dare to venture on a trip of that kind even if they had abundant food supply. It is because these trips are very long and are done mostly over lakes which are real interior seas; such as, for example, Buffalo Lake and Clear Lake.

"It is consequently, to those who have the direction of the school that the task of fetching these children, falls on, and also that of returning them home at the end of the year.

"To give you an idea of the length of these trips and the expense incurred, we will show some figures: The nearest reserve is that of Canoe Lake which is at 35 miles from here in Winter, but in summer, that is to say, at the time when we have to bring and return the children, there is no other practical way than that of the rivers by passing through Lake Ile a la Crosse, that is a distance of 70 miles to reach it. For the other reserves it is still farther. There is a

---distance---

Indian Affairs. (RG 10, Volume 6301, file 650-5, part 4)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

distance of 90 miles to reach the reserve of English River, 110 miles to reach that of Clear Lake, 120 miles for Buffalo River, 200 for the Portage la Loche, and 115 miles for Water-Hen River.

"In the same trip we could, by special arrangement, take the children of Clear Lake, Buffalo River, and Portage, but this sole trip constitutes a round trip of about 300 miles. As to the other reserves we would have to make a special trip to reach each one of them. Furthermore, as I said here above, on account of the great lakes to cross there is almost no possibility of thinking of making these trips with the canoes that we use for ordinary service. I tremble at the mere thought of being caught by a storm on the lake with a load of children in any kind of boat. If there was any accident in the transportation, what a responsibility that would be for me! Concerning the school, it goes without saying, that it would be then useless to try to have any more pupils.

"Of what precedes I believe that I can conclude that the transportation of the children at the expense of the school is imperative and for that purpose we would need a small boat which would insure security in case of bad weather during these trips.

"Of course, this represents again certain disbursement for the Department, but I suppose that those who are in charge of Indian Affairs will kindly admit that there is, in this case, a state of affairs which we cannot possibly change.

"For all these reasons I dare hope that the Department will grant us for the next scholar year, a small boat for the transportation of the pupils, and furthermore a grant sufficient to cover the travelling expenses.

Yours very truly,

(Sgd.) F. X. Marcotte, O.M.I.

[Handwritten signature]
Beauval 22th sept. 1962

Dear sir,

I have your letter of the 7 instant allowing \$60. in scraping and livelling off the earth around the new building. As the work was quickly performed, I am forwarding the account in triplicate.

I have already certified some invoices. As there was delay in receiving the furnishings, I could not certify them before. I did not receive all the goods from Ashdown Hardware yet and also the seats from Western Seating which should reach the school at the end of the week.

May I mention too that we received 100 beds mattresses, but none for the staff. Also, we did not receive the school supply such as books etc. etc.

I hope these items will reach us before you get my 1. letter because it will soon be impossible to travel.

Oct 20
Hoping this is satisfactorily,
yours very truly,
Signed:

F. L. Lagyon D. M. S.
Principal.

COMMISSIONER'S OFFICE

IN YOUR REPLY REFER TO

NO. 307-11

ALSO TO DATE OF THIS LETTER

W. REGINA, SASK., 2nd Sept., 1932.

Dear Mr. Murison:-

I beg to submit the following report on the schools which I inspected during the time I was Paying Officer for the Ile a la Crosse Agency.

Beauval School

I visited this school on June 11th and remained at Beauval till noon of the 13th.

The Staff of this institution are as follows; Reverend Father F. X. Gagnon, Principal; Brother Beaudoin, Carpenter and Engineer; Brother August Duclos; Sister Superior Chevrifils; Sister Eddelin, teacher grades 1 to IV, inclusive; Sister Carrier, Matron; Sister Robinson, Nurse; Sister Hurtubise in charge of kitchen; Sister Roy, in charge of sewing and laundry.

The Reverend Father Gagnon impressed me as being an outstanding man, conscientious, keen, and apparently very capable in supervising this institution. He informs me he has a fine staff of employees here. I found them apparently working in harmony and giving co-operative and conscientious service.

Owing to the fact that the new school was not finished inside there were only 19 girl pupils present at the time of my visit. These were given examination in the various subject, pertaining to Grades 1 to IV. I found they appeared to have a good grasp of and were well advanced in their respective grades, spoke up well and seemed keenly interested in their work. These pupils were nicely dressed, appeared to be a well nourished clean, healthy, and happy lot of children. These

- children -

W. Murison, Esq.,

Inspector of Indian Affairs,

Regina, Sask.

Indian Affairs. (RG 10, Volume 6301, file 650-5, part 4)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

children are also instructed in sewing, knitting, fancy work, cooking, laundry work, milking cows, and attending poultry.

The Reverend Principal informed me this school would be opened about the 1st September and expected a total attendance of one hundred pupils. The boys receive a training (in addition to their studies) in the following, carpentry, blacksmithing, electric and steam engineering, saw mill work, and grain and stock raising.

Buildings

As you are aware the material and work performed on this building was supplied by the Oblate Fathers. In my opinion this building has been well constructed and in a manner to make it 100% fire proof. The basement is divided into the following;- boys' recreation room, girls' recreation room, Sisters' room, Fathers' room, Senior boys' room, Junior boys' room, kitchen, pantry, laundry, dairy, main dining room, machine room, boiler room, fire room, boys' toilet and girls' toilet. These rooms are all floored with birch. On the first floor there is reception room, private parlor, three rooms for visitors, three classrooms, workshop and dispensary. One classroom is floored with birch and the balance of the floors are rough cement finish. The second floor is divided into sewing room, girls' infirmary, boys' infirmary, with a separate room joining each of the infirmaries for the Sister in charge; Sisters' community room, five rooms for Staff, one store room for school supplies, one Sisters' bathroom, toilet and baths for girls, toilet and baths for boys. There are two rooms on this floor with birch flooring. The third floor is divided into boys' dormitory, capacity fifty beds; girls' dormitory, capacity fifty beds, with sleeping room adjoining each of these for attendants. All floors in this storey are birch. These dormitories are equipped with shower baths and toilets. In the attic there are two water tanks with a capacity of 2,000 gallons each. This building, although

- not finished -

Indian Affairs. (RG 10, Volume 6301, file 650-5, part 4)

**PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA**

not finished inside, is fit for use. The Reverend Father Gagnon estimates that it would require the employment of ten men for a term of two months to finish same. The walls of the rooms are rough brick and whitewashed inside and covered with a mixture of lime and sand outside. Other than the rough cement, there is no flooring in any of the hallways, as there was not sufficient cement to make a smooth finish. The Reverend Principal informs me that there is still floor space of 74,240 square feet to be finished. Of this area 6,570 feet is in hallways. He requested that this institution be assisted by the Department in procuring sufficient flooring for the hallways. Adjoining this building is the Church Chapel, 30 x 60 feet. However there is no danger of fire ever reaching the school from the Chapel. All other outbuildings are placed some distance from the school. These are as follows; Father's residence, Warehouse, cattle barn, horse barn, pig barn, chicken house, route house, saw mill, machine shed, and ice house. I noticed this institution has no fire fighting apparatus in the school building, but I am quite satisfied that the building is absolutely fire proof. The only wood used in the construction of it is in the beams and joists, which are timber but well covered with cement. In the event of the floors that are covered with birch catching fire, this would not in any way endanger the safety of the building, as the walls are all solid brick and finished as heretofore mentioned.

This school has the following live stock;- 1 Shorthorn bull, 15 milk cows, 33 beef cows and steers, 12 calves 18 horses, 5 colts, 2 brood sows, 9 pigs, and 1 Yorkshire boar. In addition they have 125 head of poultry. All this stock appear to be of a good type. The Principal informs me that they have difficulty in procuring hay for their cattle and horses. Apparently high water effects these meadows to the same extent-

- as it does -

as it does others throughout this North country, and the Principal was seriously thinking of dispensing with the milk cows and introducing goats to take their place. While here I visited all the crop fields and found them well cultivated and the crops well advanced. These fields were seeded to oats, wheat, barley, potatoes, and tubers. Last year they yielded 1800 bus. of oats, 300 bus. of wheat, 450 bus. of barley, 700 bus. of potatoes, and 800 bus. of tubers from an area of 65 acres. This year they have in crop the following areas; 6 acres of grass for pasture purposes, 40 acres of oats, 6 acres of wheat, 10 acres of barley, 3 acres of tubers, and have cleaned a further four acres for future use.

In going over the buildings and grounds at this institution I found that all buildings were in a good state of repair, clean and tidy within. The grounds were well kept and were being further improved by the planting of flowers and shrubbery.

I found the Principal of this school very appreciative of the help this institution has already received from the Department. He was very modest in asking for further help and requested that, if the Department were allowing money grants to the Residential Schools in Canada this year, he be given further assistance in procuring some covering for the hall-ways of the new school. Owing to these hallways not being hard finish, they are beginning to show wear and the Father informs me that the foot wear of the staff and pupils lasts but a very short time on this account. I found that through the efforts and sacrifices of the members of this institution, they have accomplished something that this whole North country is proud of, in that they are the only institution North of Township 54 that can give the children of this country an education and training equal to that of institutions only found in the larger settlements of the West. In view of this, I would recommend that further

- assistance be -

Indian Affairs. (RG 10, Volume 6301, file 650-5, part 4)

**PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA**

Assistance be given them if possible.

Lac la Ronge Church of England Residential School.

I arrived at this school on the night of July 8th, remaining here until leaving for Stanley on July 12th.

Owing to the school being closed for the summer vacation and rainy weather, the Reverend Mr. Fisher, Principal, allowed me the use of one of the classrooms for the purpose of making annuity payments and holding Band meeting.

I found the Reverend Mr. Fisher conscientious and keen in his service to this institution. This was reflected in the general atmosphere of keen co-operation apparent between this man and his staff, which are as follows: Miss E.V. Williams Matron, F.E. Simmon, 1st teacher, Mr. Crozier, 2nd teacher, C. Poney, Girls' Supervisor, B. Baird, Boys' Supervisor, E. Smith, Kitchen Matron, D. Mathews, Laundress, N.L. Patrick, Nurse, A.C. Hastings, Engineer, T.A. Mills, Farmer, and C.C. Brown, Fisherman.

Owing to the school being closed as already mentioned, I did not examine the class work of the pupils. However, during the payment here and at Stanley I came in contact with many of them. In addressing these I found them well mannered, clean, tidy, neatly dressed, and apparently well nourished, and I found they would join in conversation more readily than many Indian pupils I have met. They expressed a keen interest in their school work and seemed very loyal to the institution.

I found the school and other buildings pertaining thereto clean and tidy within and the grounds without very nicely kept.

The Reverend Principal informed me there were about 2000' of lumber left over after using that authorized by the Department. This surplus is being used to good advantage, mainly in building partitions in the upper dormitory for the girls, which will accommodate ten small beds and a staff room. Partitions are also being built to separate the smaller boys from the larger, and any surplus lumber will be used for general repairs to buildings. The floors and ceilings of the upper balcony were not completed. I was advised they will be this fall. The Principal requested that wire screening 8' x 65' be provided for this. It could then be used for isolation cases during the summer months.

I found the chimney of this building has been repaired, but does not draw well at times, resulting in soot overflowing and running down it; and on these occasions the building becomes smoky and the inside walls thereof are stained. I also noticed the basement joists have been protected with asbestos from the heat of the furnace pipes, also a new fire box installed in one of the furnaces. In checking over the fire Protection equipment I find further protection can be given by supplying a 50' x 5/8" garden hose and placing it in the upper dormitory to be used in case of chimney fires, also that recharges are necessary for the following fire extinguishers, 24 recharges Guardene Fire Ext. No. A 606201 capacity 2½ gals., 12 recharges for Pyrene No. P 204697 1 quart type.

The interior of the school building should be redecorated in that many of the walls are stained, and paint worn off some of the floors and part of the wood-work. I also noticed moss growing between the crevices of the shingles on the roof which should be stained or repainted. My attention was also drawn to the fact that some of the dormitory beds need replacing badly, whereas a little enamel paint would improve the appearance of others.

Indian Affairs. (RG 10, Volume 6301, file 650-5, part 4)

**PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA**

The farm stock consists of 4 milk cows, a team of horses, and 36 hens. These are not adequate to supply the general demand made on them. / I find the nature of the land here is not adaptable for cultivation and the Principal informs me that it is only with some effort on the part of this institution that enables them to maintain what little stock they have. In this I concur.

In going over the land I was forcibly impressed with the fact that this institution will never support it's staff and members by any produce derived therefrom, regardless of the amount of labour expended in any attempt to do so. While here, I was questioned concerning a further grant of land to them.

Apart from the requirements already mentioned, I find this school require the following:-

New Rear Start for Fairbanks Morse 32 volt Lighting plant.
2 toilet bowls with flush tanks (as replacements)
1 wash basin with fittings (as there is only 1 toilet room for staff in this building.
2 Doz. beds and mattresses 6 x 2½ for replacements
1000 shingles for repairing roof.
50 gal. roof paint - green or creosot.
1½ gal. white enamel paint for bedsteads.
15 gal. floor paint - grey for dormitory floors.
3 gals. turpentine.
5 lbs. dry burnt umber.
7 gals. floor varnish for halls and dining room.
3 furnace door linings for McClary Famous Magnet furnace No. H19 A.

In view of the effort involved by this institution in an endeavour to carry on the good and only work of its kind in this section of the North, I would respectfully request they be given special consideration in grants the Department may be considering for these institutions.

Stanley Day School

I visited this school on July 15th, and found 29 pupils present with Mr. T.M. Gilmore as teacher. The pupils appeared clean, healthy and well clothed.

In taking the classes in their various subjects I noticed some of the pupils were much further advanced than the majority, in spite of there being little or no difference in their ages. In questioning Mr. Gilmore regarding this he informed me the backward pupils were those who attended school during the summer months only. He also advised me that owing to the fact that these children attended school for three or four months, and then lived with their people during the balance of the year, resulted in them forgetting what they had learned at school.

In view of this it would appear to be a wasted effort in trying to teach these children under those conditions. However I found the children who had attended their classes during the winter months well advanced in their studies. These appeared keen and interested in their work, and all seemed anxious to return to their school this winter.

The Chief and members of this band are very anxious to keep this school open during the yearly school term, and have voted the sum of \$600.00 to be taken from band funds for that purpose. Dispensation of same as follows:

\$50.00 a year for housing, cooking & washing for girl pupils.
\$50.00 a year for " " " " for boy pupils.
\$50.00 a year for labor to supply fuel and fish to the above.
\$200.00 a year for food supplies from Revillon Freres Trailing Co. Stanley.
\$250.00 to ship in the following: 5 sacks flour, 100 lbs. pot barley, 100 lbs. rolled oats, 50 lbs. sugar, 25 lbs. tea, 36 lbs. lard and 200 candles.

These people advised me that if they could be assured this school was to be kept open the year round they would guarantee to increase the yearly average daily attendance

daily attendance from 24;01 to 45. In so doing the provider of each family would be able to give more time to his hunting and trap lines during the winter months.

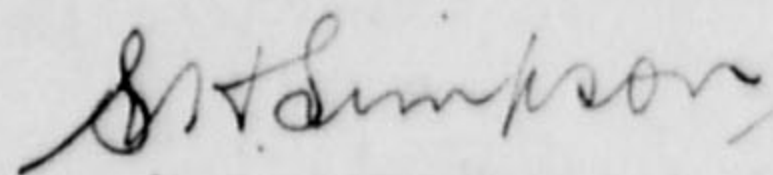

I am attaching hereto the resolution, signed by the Chief and Head Men, which was witnessed by me, and would recommend it be given favorable consideration.

The foregoing report is respectfully submitted.

I have the honor to be,

Sir,

Your obedient servant,

S.H. Simpson.
Paying Officer.

DEPARTMENT OF INDIAN AFFAIRS
CANADA

IN YOUR REPLY REFER TO
No. 307-11
ALSO TO DATE OF THIS LETTER

INSPECTOR'S OFFICE,

W. REGINA, SASK., 22nd September, 1932.

Sir:-

I beg to forward a report on the schools included in the Ile a la Crosse Agency submitted by the Paying Officer for this year, Mr. S. H. Simpson.

Beauval School

*Relieved by
Chm. authority
Sept 29 1932*

It is interesting to note that the new residential school building at Beauval has been well constructed and is apparently a fire proof building. It will be noted that there is still some finishing to do and the Principal has requested assistance in connection with flooring for the hall-ways. There is no flooring in any of the hall-ways, except rough cement. The report deals quite fully with conditions at the school and speaks for itself.

Ile la Ronge Res. School

EXTRACT
ON 13-1-32

This report gives a general idea of conditions and sets out in detail the requirements as presented to him. You will note on Page 7 he mentions that he was questioned regarding a further grant of land to them. I took this matter up quite fully last year, looked over the ground, and made a recommendation regarding land which might be set aside. This is a matter which I think should receive some attention before it is too late to secure suitable land. There is very little fit for cultivation in that whole area and it is important, if this school is to be continued, that sufficient arable land be

- secured upon -

The Secretary,
Dept. of Indian Affairs,
Ottawa, Ont.

Replied

Indian Affairs. (RG 10, Volume 6301, file 650-5, part 4)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

secured upon which to grow the feed requirements of the stock belonging to the institution.

Stanley Day School

EXTRACT
ON 132-42

The report in connection with this Day School is not encouraging in view of the living conditions of the people. As these people derive their living by hunting and trapping, it is absolutely impossible for them to reside continuously at Stanley. Their means of livelihood takes them considerable distance from that point and it is obvious that, unless residential facilities are provided for the school children to enable them to remain at Stanley all the year round, we cannot expect a regular and satisfactory attendance. It will be noted on Page 8 of the report the Paying Officer states that the Chief and members of this Band are anxious to keep the school open during the term and have voted the sum of \$600.00 to be taken from their Band funds for that purpose. I question the advisability of doing this. The funds of that Band are very limited and after all the granting of this money would only be a temporary expedient, as, if the funds are to be used from year to year for this purpose, they would soon become depleted and we would be confronted with the same situation as exists at present. In view of the resolutions having been passed, I am submitting them herewith.

The foregoing is respectfully submitted.

Your obedient servant,

W. Murison

W. Murison,
Inspector,
Saskatchewan Inspectorate.

Dear Sir:-

Referring to your letter No I32-1-5 may 20th, 1932, addressed to Right Reverend Bishop O. Charlebois, I wish to say that a certain list of hardware ~~has~~ been overlooked when tenders were taken last July.

It seems that the purchase of this material is authorised by your letter when you say that an expenditure of approximately \$1,750.00 may be incurred in connection with the plumbing, the inside doors, and hardware necessary for completion of the building.

The cost of the plumbing amounted to \$914.58 and the cost of the lumber was \$285.00. This leaves good margin for the hardware overlooked.

In order to avoid all misunderstandings I have the pleasure to submit to your approval different quotations received in this connection.

Yours very truly,

EX

Ottawa, November 18, 1932.

Rev. Sir:

I have your letter of the 12th instant, enclosing quotations which you received for the supplying of hardware, fencing material, etc., for use at the Beauval Indian Residential School. As stated by you, authority was granted by official letter of May 20, 1932, to incur an expenditure of approximately \$1750.00 in connection with the plumbing, supplying inside doors and hardware necessary to complete the building. By official letter of July 15th, last, you were authorized to place an order with Crane, Limited, Saskatoon, for the plumbing materials required to the amount of \$914.58, and with W. H. Cushing, Limited, Saskatoon, for the lumber, doors and windows, at their price of \$285.00.

As there is a margin still unexpended from the amount authorized, the Department will approve of you placing an order with the Manville Hardware Company, Limited, Prince Albert, for the supplying of the hardware, wire fencing, etc., required, at their quotation of \$270.10, F.O.B. Big River, Sask., plus their charges for supplying 60 dozen Japanned sash bolts.

Please obtain an itemized account, in triplicate, covering the cost of these supplies. This account you should certify in the usual manner and forward to the Department for payment.

Your obedient servant,

A. F. MacKenzie

Memorandum:

DR. MCGILL.

Re: Beauval Indian Residential School.

In connection with the preparation of Estimates for 1933-34, regarding a grant to reimburse the church authorities for the expenditure incurred in the erection of the new building at the Beauval Indian Residential School, in northern Saskatchewan - for which a grant is included in our Estimates - I beg to report as follows:-

In September, 1927, the old building was destroyed by fire, and Bishop Charlebois, representing the Oblate Order, offered to rebuild if the Department would give a grant of \$50,000. The Department accepted this proposal, which was approved by P. C. 932, of May 30, 1929. The new building was to be erected by the Order, on a day labour basis. The land on which the school is situated is owned by the Department. During the year commencing June, 1929, this grant of \$50,000 was paid. Approximately \$63,000 was expended by the church authorities during that year.

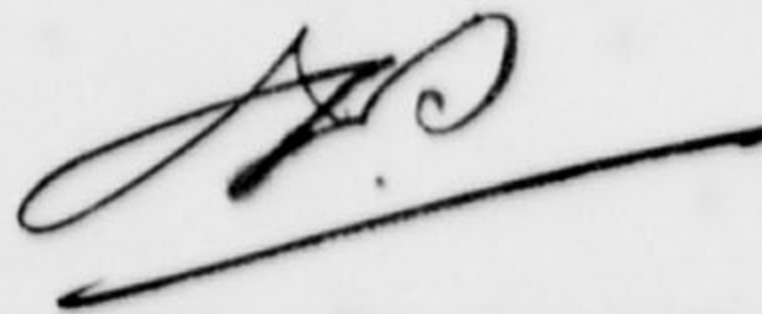

In October, 1929, His Lordship intimated that there was a misunderstanding regarding financing and that the Oblate Order would require considerably more than the \$50,000 if the building programme was to be completed. Early in 1930, His Lordship, hoping that the Department would be able to make an additional grant, arranged for the freighting of materials for the foundation of the second unit of the building. In February, 1931, His Lordship came to Ottawa to plead for further help. No financial assistance was given him by the Department at that time. On his own responsibility, however, he began construction of the main part of the building, and an additional grant of \$10,000 was paid the church authorities by P. C. 1326, of the 13th June, 1932.

His Lordship, in a communication dated September 16th, last, states that the total expenditure in the erection of the building was approximately \$140,000, towards which the Department provided the sum of \$60,000, as stated above. He strongly urged that a further substantial refund be made in our Estimates for the next fiscal year.

I have outlined this matter, in order that you may have the facts before you. The Minister and the Department were quite clear regarding the understanding which resulted in the Order in Council of the 30th of May, 1929. Bishop Charlebois gave nothing in writing but he held interviews with both the Minister and the late Mr. Ferrier.

While in one sense the Department is not responsible for the present situation, it should be remembered that the Beauval School in the past was considered a useful institution and that it constitutes at present a valuable adjunct to our educational system. I would therefore support the provision of funds to further reimburse His Lordship to an amount of at least \$10,000.

MEMORANDUM:

MR. MACINNES.

Re: Beauval Indian Residential School.

His Lordship Bishop Charlebois has requested a further grant to reimburse the Church authorities for the expenditure they incurred in the erection of the building at the Beauval Indian Residential School in Northern Saskatchewan. He states that the total amount incurred by the Church was \$133,763.86.

The Department, by P.C. 932 of May 30, 1929, paid the sum of \$50,000 towards the cost of the building. An additional grant of \$10,000 was paid the Church authorities by P.C. 1326 of June 13, 1932. The Department has, therefore paid a total of \$60,000 towards the cost of the building, leaving a balance of \$73,763.86.

The Minister has approved a further payment from our Appropriation for Indian Education for the current fiscal year to the amount of \$8,763.86, and it will be necessary to prepare an Order in Council authorizing this payment.

Certified accounts, paid by the Church authorities, covering the balance claimed due in the construction of the building, are on file.

In this connection, see Orders in Council referred to above on File 132-1-5B (Closed) and my memorandum dated January 12, 1933, File 132-1-50.

His Excellency

The Governor General in Council.

OK
The undersigned has the honour to refer to an Order of His Excellency in Council, P.C. 932, dated May 30, 1929, and an Order of Your Excellency in Council, P.C. 1326, dated June 13, 1932, approving expenditure of a grant of \$50,000.00 and \$10,000.00 respectively to the Oblate Order for the erection of a new school building for the Beauval Indian Residential School, near Lac la Plonge, in the Province of Saskatchewan, to replace that which was destroyed by fire in September, 1927.

His Lordship Bishop Charlebois has requested a further grant to reimburse the Church authorities for the expenditure they incurred in the erection of the building at the said Indian Residential School. He states that the total amount incurred by the Church was \$133,763.86. The department as above mentioned has therefore paid a total of \$60,000.00 towards the cost of the said building, leaving a balance of \$73,763.86.

Sum
The undersigned has the honour to recommend that a further payment to the said Oblate Order of \$8,763.86 be approved. Funds for this purpose are available from the Appropriation for Indian Education for the current fiscal year.

Dear Sir:-

You will recall my visit to you in April last in connection with monies owing to us on account of the Beauval Indian Residential School. I was advised then that the sum of twenty-five thousand dollars was included in the current year's estimates for that purpose and it was my understanding that this sum would be available sometime after April 1st, 1934.

I have just returned from an extended trip through the North and was surprised and disappointed on my arrival to learn that this money had not yet been received. I would thank you to give this matter your preferred attention, as we are in immediate need of money.

Yours truly,

Martin Lajeunesse, O.M.A.
vicar-apostolic of Keewatin.

Ottawa, August 31, 1934.

His Excellency

The Governor General in Council:

The undersigned has the honour to refer to Orders of Your Excellency in Council, P.C. 932, dated May 30th, 1929; P.C. 1326, dated June 13th, 1932; and P.C. 29/2388, dated November 23rd, 1933, approving expenditure of grants to the total amount of \$68,763.86 to the Oblate Order, towards cost of construction of a new school building for the Beauval Indian Residential School, near Lac la Plonge, in the province of Saskatchewan, to replace the building destroyed by fire on September 19th, 1927.

Plans and specifications for the building were prepared by the Architect of the Department. Accommodation for 100 pupils is provided.

In view of the remote location, it was considered advisable to have the building constructed on a day labour basis, under the supervision of the Oblate Order, who were in a position to secure economic labour and arrange for freighting of materials at minimum cost.

His Lordship the late Bishop Charlebois stated the total expenditure incurred in construction of the building was \$133,763.86. Reimbursement has been made by the Department to the amount of \$68,763.86, as authorized by the Orders of Your Excellency in Council above mentioned.

The authorities of the Oblate Order have made repeated requests for a further grant towards the expenditure incurred by them.

J. J. [unclear]
An amount of \$25,000.00 has been included in the Main Estimates for Indian Education for the current fiscal year, 1934-35, as a grant towards the cost of construction of the building.

The undersigned has the honour to recommend that authority be granted for the expenditure of the said sum of \$25,000.00 for the purpose above mentioned.

Jan. 23rd, 1935.

Mr Harold W. Mc Gill,
Deputy Superintendent General,
Dept. of Indians Affairs,
Ottawa, Ont.

Dear Sir:-

I take the liberty to draw your attention to a question which has been unsettled for years. I wish to refer to the reimbursement to our Church towards the cost of construction of the Beauval Indian Residential School .

A few weeks before his death the much regretted Rt. Rev. Bishop Charlebois interviewed the Rt. Honourable Prime Minister R. B. Bennett, about this question and when he came back here he told me that it was understood that \$8,763.86 would be paid in 1933, and that the balance \$65,000.00 would be included in 1934 estimates. Instead of \$65,000.00, only \$25,000.00 were included in 1934 estimates and paid.

I wish very earnestly to be informed if we can expect that the balance \$40,000.00 will be refunded this year. This money is overdue and it seems that it is not fair to ask *us* to pay interest on it for years.

Yours very truly,

Martin Lajeunesse

DEPARTMENT OF INDIAN AFFAIRS
SUPPLEMENTARY ESTIMATES, 1935-36

INDIAN EDUCATION

Final payment towards cost
of construction of the Beauval Indian
Residential School \$40,000.00

Explanation

The Beauval Indian Residential School, conducted under the auspices of the Oblate Order and located in northern Saskatchewan, was totally destroyed by fire on September 19th, 1927. The church authorities erected a new building, to accommodate one hundred pupils, during the years 1929 and 1930. The total cost incurred by the church authorities in the erection of the building was \$133,763.86. Reimbursement has been made by the Department to the amount of \$93,763.86. His Lordship Right Reverend M. Lajeunesse, O.M.I., Vicar Apostolic of Keewatin, has urged, on behalf of the Oblate Order, for a final payment of the above amount, in full settlement of the cost incurred in the erection of the building.

Reverend Sir,-

With reference to your letter of the 21st ultimo, in which you request that one Principal's chair and five single desks be supplied to the Beauval Indian Residential School, I beg to say that you should apply again for this equipment about the end of October. At that time, you should state the ages of the children for whom the desks are required.

Your obedient servant,

A. F. MacKenzie.
Secretary.

Dear Sir:-

Lately, Mr. B.M. Stitt, M.P. for Churchill gave me to understand that the Forty Thousand Dollars included in the supplementary estimates for the construction of Beauval School have been voted by the Parliament.

As we are in a great need of money, I would appreciate very much a prompt remittance.

Yours very truly,

Martin Lajunen

Ottawa, August 8, 1935.

His Excellency

The Governor General in Council,-

The undersigned has the honour to report that the Beauval Indian Residential School, near Lac la Plonge, in the northern part of the province of Saskatchewan, was totally destroyed by fire on September 19th, 1927.

The Oblate Order, under whose auspices this school is conducted, erected a new building, according to plans and specifications prepared by the Architect of the Department, at a total cost of \$133,763.86. Accommodation for 100 pupils was provided.

Reimbursement has been made by the Department to the amount of \$93,763.86, as authorized by Orders of Your Excellency in Council, P.C. 932, dated May 30th, 1929; P.C. 1326, dated June 13th, 1932; P.C. 29/2388, dated November 23rd, 1933; and P.C. 39/2575, dated October 19th, 1934. *and P.C. 2534 dated Aug 17/35*

An amount of \$40,000.00 has been provided in the Supplementary Estimates for Indian Education for the current fiscal year, 1935-36, as a grant towards the final payment of the cost of construction of the building.

The undersigned has the honour to recommend that authority be granted for the expenditure of the said sum of \$40,000.00, for the purpose above mentioned.

Superintendent General
of Indian Affairs.

DEPARTMENT OF INDIAN AFFAIRS

Synopsis of Memorandum to Council of August 8th, 1935.

The Beauval Indian Residential School, conducted under the auspices of the Oblate Order, located in northern Saskatchewan, was totally destroyed by fire on September 19th, 1927. The church authorities erected a new building, to accommodate 100 pupils, during the years 1929 and 1930. The total cost incurred in the erection of the building was \$133,763.86. Reimbursement has been made by the Department to the amount of \$93,763.86. Funds to provide for the payment of a final grant, to the amount of \$40,000.00, to complete the cost of the building, are available in the Supplementary Estimates for the current fiscal year.

PRIVY COUNCIL

Certified to be a true copy of a Minute of a Meeting of the Committee
of the Privy Council, approved by His Excellency the Governor
General on the 17th AUGUST 1935

The Committee of the Privy Council have had
before them a report dated 8th August, 1935, from the
Superintendent General of Indian Affairs, stating:-

That the Beauval Indian Residential School, near
Lac la Plonge, in the northern part of the province of
Saskatchewan, was totally destroyed by fire on September 19th,
1927.

That the Oblate Order, under whose auspices this
school is conducted, erected a new building, according to plans
and specifications prepared by the Architect of the Department,
at a total cost of \$133,763.86. Accommodation for 100 pupils
was provided.

That reimbursement has been made by the Department to
the amount of \$93,763.86, as authorized by Orders of Your
Excellency in Council, P.C.932, dated May 30th, 1929; P.C.1326,
dated June 13th, 1932; P.C.29/2388, dated November 23rd, 1933;
and P.C.39/2575, dated October 19th, 1934.

That an amount of \$40,000.00 has been provided in the
Supplementary Estimates for Indian Education for the current
fiscal year, 1935-36, as a grant towards the final payment of the
cost of construction of the building.

The Minister, therefore, recommends that authority be
granted for the expenditure of the said sum of \$40,000.00, for
the purpose above mentioned.

The Committee concur in the foregoing recommendation
and submit the same for approval.

E. J. Lemaire
Clerk of the Privy Council.

The Honourable
the Superintendent General of Indian Affairs.

Right Reverend Sir:

I am pleased to be able to inform Your Lordship that a cheque, to the amount of \$40,000.00, being the amount of the grant in final payment of the cost of construction of the Beauval Indian Residential School, will be sent you in the course of the next few days. Payment of the above grant was approved by His Excellency the Governor General in Council on the 17th instant. It was understood that the total cost of the building was \$133,763.86. Reimbursement has already been made to the amount of \$93,763.86, and the above amount of \$40,000.00 therefore completes the balance due.

Yours very truly,

Deputy Superintendent General.

X

BEAUVAL RESIDENTIAL SCHOOL Sept. 27th.

The harvesting at the school was all completed and produce stored for winter and with a few exceptions was sufficient till next year. Plowing and spading was in progress all over and a new septic tank on up to-date plans, with complete drainage and ditching was under construction, generally it was a busy place.

The Water Power which operates everything at the school, had been doubtful during low water seasons, so this year a Dam was constructed at the mouth of the river near Lake La Plonge and a second one at the Power Plant, this was all done at a heavy expense to the school and it was well done on regular engineering plans and will assure a steady supply of water. A further report on this and the septic tank will be sent to the Department as soon as full particulars are available.

The new buildings as usual are in perfect condition and the whole premises are clean and orderly, some of the old buildings are being renovated, and the Rev. Principal has regular Plans of the whole layout, made to scale, some of the old buildings out of place on the plan are being moved to allow for roadways and in future, every addition or move will be according to plan and as they can and do produce all their own building material including shingles and excepting cement, every new building will be a credit to the school.

The Live Stock are all in fine condition and of good quality, many of the cows are Holstein strain and bred to Shorthorn and they have fine Registered Bull purchased recently. The work horses are all heavy averaging about 1600 and well conditioned, even after a heavy season of work, and a trip through the barns, pastures and fields, leaves you convinced of good farming ability, good management and supervision and shows that the Rev. Principals past and present have been on the job.

Sir:-

I beg to forward Requisition from the Principal of the Beauval School, for some sporting goods and Play Ground material, that is badly needed at this school, also Fencing Material.

They have gone to considerable work and expense improving the Grounds and buildings, with two separate Play grounds and park areas and if it is at all possible I would ask, that the material be supplied.

This school has received very little assistance in comparison to other schools and to see the work and personal effort they have made to make a beauty spot in the wilderness, to fit with the substantial fireproof school and other buildings, makes them deserving of any assistance it is possible to give them, and trust, that the Department can see their way to supply this.

Dear Sir:

With reference to your letter of the 14th instant, the Department is arranging to forward two sewing machines to the Principal of the Beauval Indian Residential School.

With reference to the sport equipment requested by the Principal, we are arranging to send him three footballs, two basket balls and four playground balls. We do not supply the other equipment requested on his requisition.

Please let me have an estimate of the cost of the wire fencing and steel farm gates.

We are not prepared to consider supplying the saddle, knife mowers, lawn mowers and garden hose requested.

Yours truly,

A. F. MacKenzie

Ottawa, March 26, 1936.

Dear Sir:

I have your letter of the 20th instant, submitting prices for the supplying of fencing material and gates for use at the Beauval Indian Residential School.

In reply I have to say that the Department will approve of you incurring the expenditure required in the purchase of the following fencing material:-

- 12 rolls 4 point barb wire, 80 rod spools,
- 18 rolls (360 rods) 7-42-15 general purpose sheep fence,
- 4 - 14 foot steel farm gates.

The total cost should not exceed the quotation submitted by you, of approximately \$243.00, f. o. b. Big River. The school authorities should be responsible for the freighting of the fencing material from Big River to the school.

Yours truly,

T. R. L. MacInnes

EXD.

Ottawa, April 7, 1936.

Right Reverend Sir:

Referring to conversation with Your Lordship during your visit to the Department yesterday, regarding a balance due on account of the construction costs of the Beauval Indian Residential School, I would say that, upon examination of our files, it is very difficult to definitely determine the total expenditure incurred by the late Bishop Charlebois in erecting the building. As you are aware, payments were made, from time to time, in reimbursing His Lordship for the expenditure incurred by him, to a total amount of \$133,763.86. The cost of the building greatly exceeded the original estimate, and it was considered when the payment of \$40,000 was made to you, that this was in final settlement.

I regret it will not be possible, at the present time, to consider payment of the amount of \$1,000, which you claimed to be still due on the cost of the construction of the building. In any event, we have no funds available in our Appropriation to pay this amount. I beg to suggest, in view of the large amount that has already been paid, should it be definitely ascertained that there is a further balance remaining unpaid, that your Church will absorb the amount.

I have the honour to be,

Right Reverend Sir,

Yours truly,

J. J. MacKenzie

OFFICE OF
INDIAN AGENT

Battleford, Sask.,

July 4th, 1936.

109-144

Sir,

I mentioned in my report of Treaty 10 that I would take up re piping to Beauval school. As stated, their original main at this point was one inch pipe and where they have now started to dig this they found that much of it is burst from frost, and have decided to take up the whole line which is nine to ten feet underground. The Principal has made a request that he be assisted in the purchase of pipe to replace this. If the pipe were delivered to Big River, he will transport it from there and pay all expenses of installing.

The following are required:

1200 ft.	of 2-inch pipes.	
2 doz.	Elbows (2-in.)	45°
2 "	" "	90°
3 "	Straight Tees	
3 "	Plugs	
1 "	Reducers 2" to 1 1/2"	
1/6"	Floor Flanges 2" x 5" diam.	

As they were under \$3500.00 expense last year in improvements to their water system and replacing dams I would recommend that if it is at all possible, that the necessary pipe and fittings be supplied, and this should be done at an early date if it is allowed so that the water works system could again be in working order before school reopens.

Your obedient servant,

S. L. Macdonald
Indian Agent.

Beauval Indian Residential School,
Beauval, Sask.,
July 2nd, 1936.

Dear Mr. Macdonald,

I did not wish to trouble you with my requests during your recent visit to Beauval. But what a number of things I could have presented to you, that I could have discussed with you!

During the past year, the Episcopal Corporation of Keewatin has had to bear very heavy expenses for the maintenance of the School: 1-Construction of two dams, to insure at all times sufficient water power for electrical purposes and for domestic purposes. In previous years, when low water occurred, there was no water at all for a period of about three months. 2-Reconstruction of Septic Tank. 3-Making of articles of furniture indispensable to the school. Taking these items only, we get the following figures:

LaPlonge Lake Dam ---	\$1500.00
LaPlonge River Dam and	
dredging river	2200.00
Septic Tank -----	900.00
Furniture -----	225.00
	<u>4825.00</u>

All these projects were done at our own expense, since even though you approved of them you could not promise immediate support, and we, on the other hand, had a pressing need of these improvements.

I allow myself to make a brief exposition of these things to remind you, what otherwise you have already credited us with, that we certainly do our part for the maintenance and good functioning of our school.

But in spite of what has been done in the past, there is still a great deal to be done. And some items are of an urgent nature. Expecting that through your personal influence the ministers of the Department will readily come to our assistance, I briefly expose our most pressing needs.

Indian Affairs. (RG 10, Volume 6301, file 650-5, part 4)

**PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA**

From now on we are assured of a permanent water supply. We would like to solve a dual problem, source of heavy expenses and difficulties, that can only be well understood by one who has been through them day after day.

The two main items are: Our pumping system, our electrical system. Both of them are far from being powerful enough, even when functioning at their best, which happens very seldom, and only a few days in succession. This comes from the fact that ever since the opening of the school, five years ago, we have tried to get along and keep things going, by using various means of fortune and fixing things temporarily. But this cannot last any longer, and at least for the winter of 1937-38 it is absolutely necessary for us to be provided with new equipment to furnish us with light and water.

We have always also been without a workshop for blacksmith and shoe repairs. So we have thought of asking for authorization to build a shop where we would have all machinery necessary for electric light, pump, blacksmith, carpentering and shoe repairing. All this would be operated by a hydraulic turbine.

Now, let me clearly explain what we expect from the Government. Knowing the scant resources that the Indian Department can affect to such improvements in Schools, I have endeavored to come to conditions, which I confidently hope, will prove acceptable.

First, I would ask that in all this, the material only would be granted us. After consultation with Bishop Lajeunesse, for costs incurred in transportation from terminal as well as for construction of workshop and installation of machinery, I would gladly take the responsibility. This is to show you that we wish to collaborate with the Department and also to obtain if possible, that we receive help in bringing an immediate solution to these problems.

In short, here is what my request amounts to:

- About 1000 bags Cement
- A few thousand lbs. Sheathing Iron
- Tin covering
- One Hydraulic Turbine
- One Pump
- One Dynamo
- A big Metal Pipe to carry water to Turbine
about 250 ft. long.

Indian Affairs. (RG 10, Volume 6301, file 650-5, part 4)

**PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA**

We have already sent in our request for ^{✓ supplied} 1200 ft. of 2" steel pipes and fittings required for pump.

So the above would be the Government's contribution to this project, while ours would consist of transportation charges, construction of shop, installation of machinery, all lumber needed, besides bricks, lime, sand and stone.

Under separate cover, you will find detailed information concerning machinery, proposed construction, and site of same.

By what precedes, it is quite clear that our request is very reasonable, besides being absolutely urgent. So we earnestly hope, that with your sanction, this project will receive the approval of the ministers of the Department.

I beg to remain, as always,

Yours gratefully,

*Victor Blane c.m.c.
Principal*

The Secretary,
Department of Indian Affairs,
OTTAWA, Ont.

Dear Sir,

I beg to forward herewith a letter from the Rev. Victor Bleau, Principal of Beauval School, wherein he asks assistance for necessary machinery, Dyhamo, cement etc. for required improvements at the Beauval School. It will be noted from his letter that he was to have forwarded details of the machinery under separate cover, and his letter was held back pending this information, and it has not yet come to hand. As soon as these details are received they will be forwarded to the Department.

Anything that could be done in this line to assist this school would be much appreciated, as the improvements anticipated are really required, and the efforts and work already done to improve their place justify any assistance that the Department could give.

Your obedient servant,

S. L. Macdonald

Ottawa, September 11, 1936.

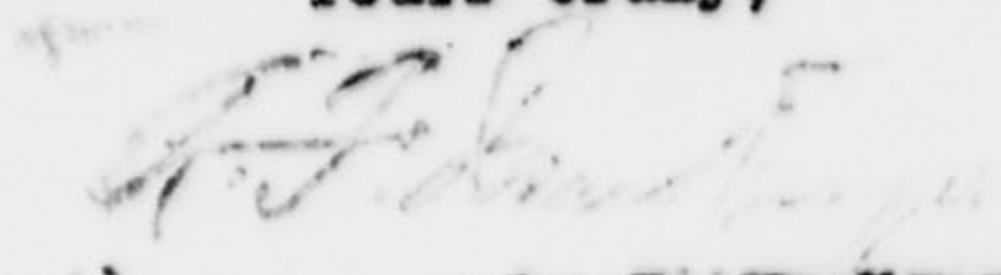

Dear Sir:

I have your letter of the third instant, enclosing a communication which you received from the Principal of the Beauval Indian Residential School, requesting that building material, dynamo and turbine be supplied.

Regarding this request, I have to say that the Department will have no funds during the present fiscal year to cover the cost of supplying the equipment asked for by the Principal.

I would request that you forward further details of the machinery, etc., and an estimate of the cost of each item. When our Estimates for the coming fiscal year are being prepared, consideration will be given to including an amount to supply certain of the Principal's requests. It will be necessary, however, to have full particulars as to the cost involved in the case of each item of equipment required.

Yours truly,

A. F. MacKenzie,
Secretary.

132-1-5
OFFICE OF
INDIAN AGENT
Battleford. Sask.
Nov 4th 1936

Sir:-

Further re, Material required at the Beauval School and in reply to Department letter #132-1-5, Sept 11th, it has not been possible up to this date, to get details of the Turbine etc, but an Estimate of the Cost has been given.

The Principal made a trip to Regina, after considerable correspondence with the Allis-Chalmers Co. and finally their Engineer advised that they did not manufacture the small Machines required, but Firms in Ontario did and they have forwarded the Plans and Specifications to them and it is hoped something definite will be to hand, before the purchasing is necessary.

The Estimate of Cost of Material F.O.B. Big River is as follows.

3050

1 Turbine	✓ 1800.00
1 Pump	✓ 250.00
1 Dynamo	✓ 500.00
Steel Pipe to carry Water to Turbine	✓ 200.00
2240 Sq Ft Metal Shingles	✓ 239.50
1200 Bags Cement	1194.00

4183.50

The Price submitted for Metal Shingles is from Messrs B. Prince & Son, Battleford.

The Price Submitted for the Cement, is from the A.F. Macdonald. Lumber Co. North Battleford.

It is Noted from Department letter, that Funds are not available to purchase or supply this material this year, however if it is at all possible, the Cement should be shipped to go by Winter freight, as there is always a heavy loss in this from water damage, when summer shipped by Scows.

Your obedient servant,

The Secretary,
Dept of Indian Affairs,
Ottawa.

Ottawa, November 10, 1936.

Dear Sir:

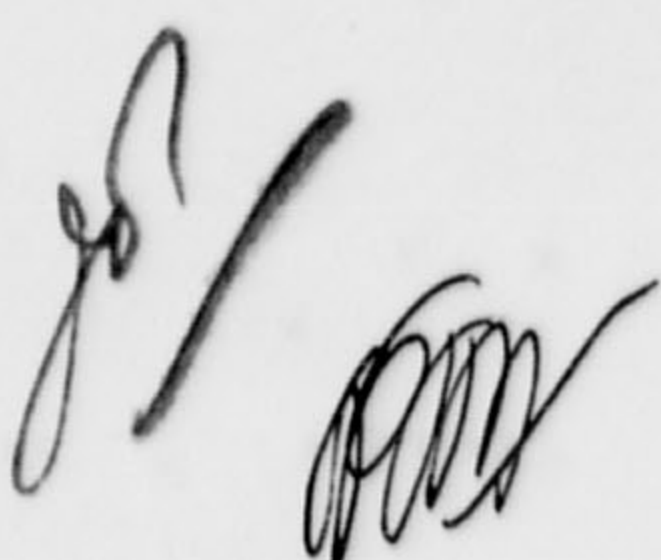

I have your letter of the 4th instant, stating the equipment required to install a water system and lighting service at the Beauval Indian Residential School, also the metal shingles and cement required.

In reply I have to say the Department has given favourable consideration, in the Estimates for the coming fiscal year, to the supplying of a turbine, pump, dynamo, steel pipe and metal shingles. There will be no funds, however, to supply the cement. I am not aware, at the present time, if the Treasury Board will approve of the funds for the above purposes. There will be no funds available in the current year's Appropriation to supply any of the above mentioned equipment.

Yours truly,

A. F. MacKenzie,
Secretary.

MEMORANDUM

Minister's Office

M.

Ottawa, March 12th, 1937.

Dr. H.W. McGill,
Director of Indian Affairs Branch.

At the request of the Minister, I am enclosing herewith a letter he has received from Bishop Lajeunesse, of The Pas, enclosing certain additional accounts which were incurred in connection with the construction of the Beauval Indian Residential School. You will notice that the request made is that the Department should pay the further sum of \$1,000 to cover the above accounts, which it is suggested were overlooked when the last payment was made.

The Minister has discussed the matter with Rev. Father Plourde. I understand the latter has also gone into the matter with you and that you are agreeable to granting the request. The Minister approves of the payment provided you are satisfied that the accounts represent material that was used in connection with the construction of the school building.

Kindly return Bishop Lajeunesse's letter to this office when you are through with it.

C.W. Jackson
C.W. Jackson,
Secretary.

March 20, 1937.

His Excellency
The Governor General in Council,-

The undersigned has the honour to report that the Beauval Indian Residential School, near Lac la Plonge, in northern Saskatchewan, was totally destroyed by fire on September 19th, 1927.

The Oblate Order, under whose auspices this school is conducted, erected a new building, according to plans and specifications prepared by the Architect of the Indian Affairs Branch, Department of Mines and Resources, at a total cost of \$134,763.86.

Reimbursement has been made by the Department as authorized by Orders of Your Excellency in Council - P.C. 932, dated May 30th, 1929; P.C. 1326, dated June 13th, 1932; P.C. 29/2388, dated November 23rd, 1933, P.C. 39/2575, dated October 19th, 1934; and P.C. 2531, dated August 17th, 1935 - to the amount of \$133,763.86.

His Lordship Right Reverend Martin Lajeunesse, O.M.I., Vicar Apostolic of Keewatin, in whose diocese the school is located, has requested payment to the Oblate Order of the balance of the cost of erecting the building, viz.: \$1,000. Funds for the purpose are available in the Appropriation for Indian Education for the fiscal year 1936-37.

The undersigned has the honour to recommend that authority be granted for the expenditure of the said sum of One Thousand Dollars (\$1,000.00) for the purpose above mentioned.

Minister of Mines
and Resources.

DEPARTMENT OF INDIAN AFFAIRS

Synopsis of Memorandum to Council of

March 20th,

19 37.

The Beauval Indian Residential School, conducted under the auspices of the Oblate Order, was totally destroyed by fire September 19th, 1927. The Church authorities erected a new building, to accommodate one hundred pupils, during the years 1929 and 1930. The total cost incurred in the erection of the building was \$134,763.86. Reimbursement has been made by the Department to the amount of \$133,763.86. The underpayment was occasioned by error on the part of the Church authorities in the keeping of their accounts covering the cost of material and labour in the construction of the building. It is now ascertained that there is a further balance due the Oblate Order to the amount of \$1,000. Funds to provide for the payment of this sum are available in the Appropriation for the current fiscal year.

EX'D.

March 20th, 1937.

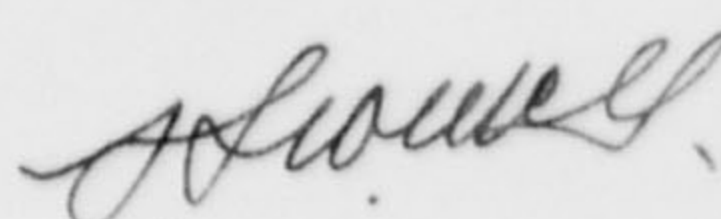

MEMORANDUM:

Deputy Minister.

I am in receipt of Mr. Jackson's memorandum of March 12th, enclosing letter received from Right Reverend Martin Lajeunesse, O. M. I., Vicar-Apostolic of Keewatin, with reference to a balance of \$1,000.00 in connection with the construction of the Beauval Indian Residential School.

Our records indicate that the above mentioned amount is actually due His Lordship and I enclose necessary Order-in-Council. I should appreciate if you could facilitate its passing in order that the amount may be paid from our appropriation for the current fiscal year.

Bishop Lajeunesse's letter is returned herewith.

Director.

Ottawa, August 9, 1937

Sir:

In the current year's appropriation the following amounts were provided for the Beauval Indian Residential School:

Hydraulic turbine for electric light plant	-	\$1,800.00
Pump	-	250.00
Dynamo	-	500.00
Metal pipe for water supply	-	500.00

3050

In your letter of November 4th, 1936 you stated that the Principal of the Beauval School had consulted different firms in Regina, and that these firms intended to obtain more definite information from certain firms in eastern Canada.

I would appreciate if you would discuss with the Principal at once, further details regarding the above improvements, and advise the Department. Very definite information will have to be supplied to us including plans, specifications, and full particulars regarding the equipment that is required. In replying you should also state the approximate date on which this equipment should reach Big River. It is presumed it will have to be forwarded from there by winter freight.

Yours truly,

R. A. Hoey,
Supt. of Welfare & Training.

Dear Mr. Macdonald,

I have your telegram
dated August 13th, which I have answered by wire
of the same date.

I enclose a copy of a
letter written by me to Dominion Engineering
Company in June, which contains particulars of
the machinery we are in need of; and a copy of
their answering letter, which shows they are
preparing an estimate. I thought it best under
the circumstances to have them send you the
information which the Department requested,
since they would be prepared to give complete
information of the types required, and the
approximate cost of same.

I hope you have heard
from them without delay, and trust that this
arrangement will be satisfactory to the Department.

Yours very truly,

V. Bleau, o.m.i.
Principal

August 10th, 1937.

Dear Sir:

With reference to machinery for the Indian School at Beauval, for which as you have informed me an appropriation has been made by the Department, I would appreciate it if you would ask them to give further serious consideration to our request that they supply the cement and a tin roof for the construction of the building which is to house this machinery.

The machinery represents a fairly large outlay on the part of the Department, and it should be a good policy to see to it that the building in which it is placed is of the best construction, and fireproof; and the roofing and cement are needed to insure these conditions.

Our own share of the building includes heavy costs for freight, the material, and the labor, and it is impossible for us to stand the extra expense of the cement and tin roofing. We feel that a further consideration of these circumstances by the Department would convince them of the advisability of making this further grant; and would ask you to again bring the matter to their attention.

Thanking you, I am,

Yours very truly,

V. Bleau, o.m.i.

Ref. Est. 3934

Beauval Indian School,
Beauval, Saskatchewan,
June 21st, 1937.

Gentlemen:

With reference to your letter of November 25th last, I have been gathering information about our needs. The 20 H.P. Turbine is about what we want. We need as well a dynamo developing twelve kilowatts; and a water pump, for which the specifications would be: two-inch pipe, distance from intake to tank about 800 feet of run with 120 feet of head level. The tanks hold about 5000 gallons, which is approximately the average daily amount used.

Drawings are enclosed showing the place where turbine is to be installed. There are two places where the channel may be built from the dam to the turbine: one leading off above the dam, and running underground to the turbine, and the other much shorter and running on top of the ground directly from the dam. There would be a difference in level of about 1½ feet from one end of the pipe to the other. The drop of the turbine well will be at least 13 feet and could easily be arranged to obtain as much as a 16-foot drop.

It is most important that we have the main shaft of the turbine going all the way through the working shop, with pulleys or drive belts for the dynamo, water pump, and for other machinery.

I would like you to send me, with the smallest possible delay, your definite price for this equipment: the turbine, dynamo, water pump, and the proper steel pipe, with leads and fittings, for the channel to the turbine.

I think it would be advisable for us to have one of your engineers to supervise the installation, in case we should agree with your prices; the installation would be made in June or July of 1938, the machinery being freighted in to this point during the coming winter. It is necessary to submit your answer to the Department of Indian Affairs, and I am very anxious to hear from you as soon as possible. Any advice you can give will be much appreciated.

Kindly return the enclosed drawings when you are finished with them.

Yours very truly,

V. Bleau O.M.I.,
Principal

Rev. V. Bleau, O.M.I.,
Beauval Indian School,
Beauval, Sask.

Dear Sir,

Our Montreal office have advised us
that they have an enquiry from you dated June 21st,
for one 20 H.P. Turbine complete with dynamo, pump,
etc. They are preparing estimate for their portion
of the work and we will be preparing an estimate for
the penstock from this office so that you may expect
to hear from us in the not too distant future.

Thanking you for the enquiry, we are,

Yours very truly,

DOMINION ENGINEERING CO. LIMITED,

Per: (sgd) A. Campbell.

INDIAN AFFAIRS BRANCH

PLEASE QUOTE
FILE 270-109

Battleford. Sask.
August 20th 1937

Sir:-

Per Department letter No.132-1-5, August 9th,
re Turbine, Pump etc, for the Beauval School, and
requesting details.

I beg to advise, that on receipt of Department
letter, I wired the Rev Principal and the following
is reply,

" Am wiring Dominion Engineering, Winnipeg, to
send you particulars requested on machinery since
they have our plans and all necessary information
and have worked at them as I have been informed and
supposed to be in a position to quote definite
prices on same, letter following,

V.Bleau. Principal

I am forwarding copies of correspondence just
received and as soon as the details etc have been
received, will forward same to the Department, the
plans were first sent to the Head Office of the
Company referred to at Montreal and were apparently
sent back to the Winnipeg Branch for completion.

It will be noted that the Rev Principal, makes
a special request for Cement and roofing material
included in his original request to the Department
and if possible this also should be allowed and in
this respect, would refer Department to Dept letter
No.132-1-5, Nov 10th 1936.

Your obedient servant,

S. J. Macdonald
Indian Agent.

The Secretary,
Indian Affairs Branch.

IMPORTANT NEWS FOR EVERY PUMP USER

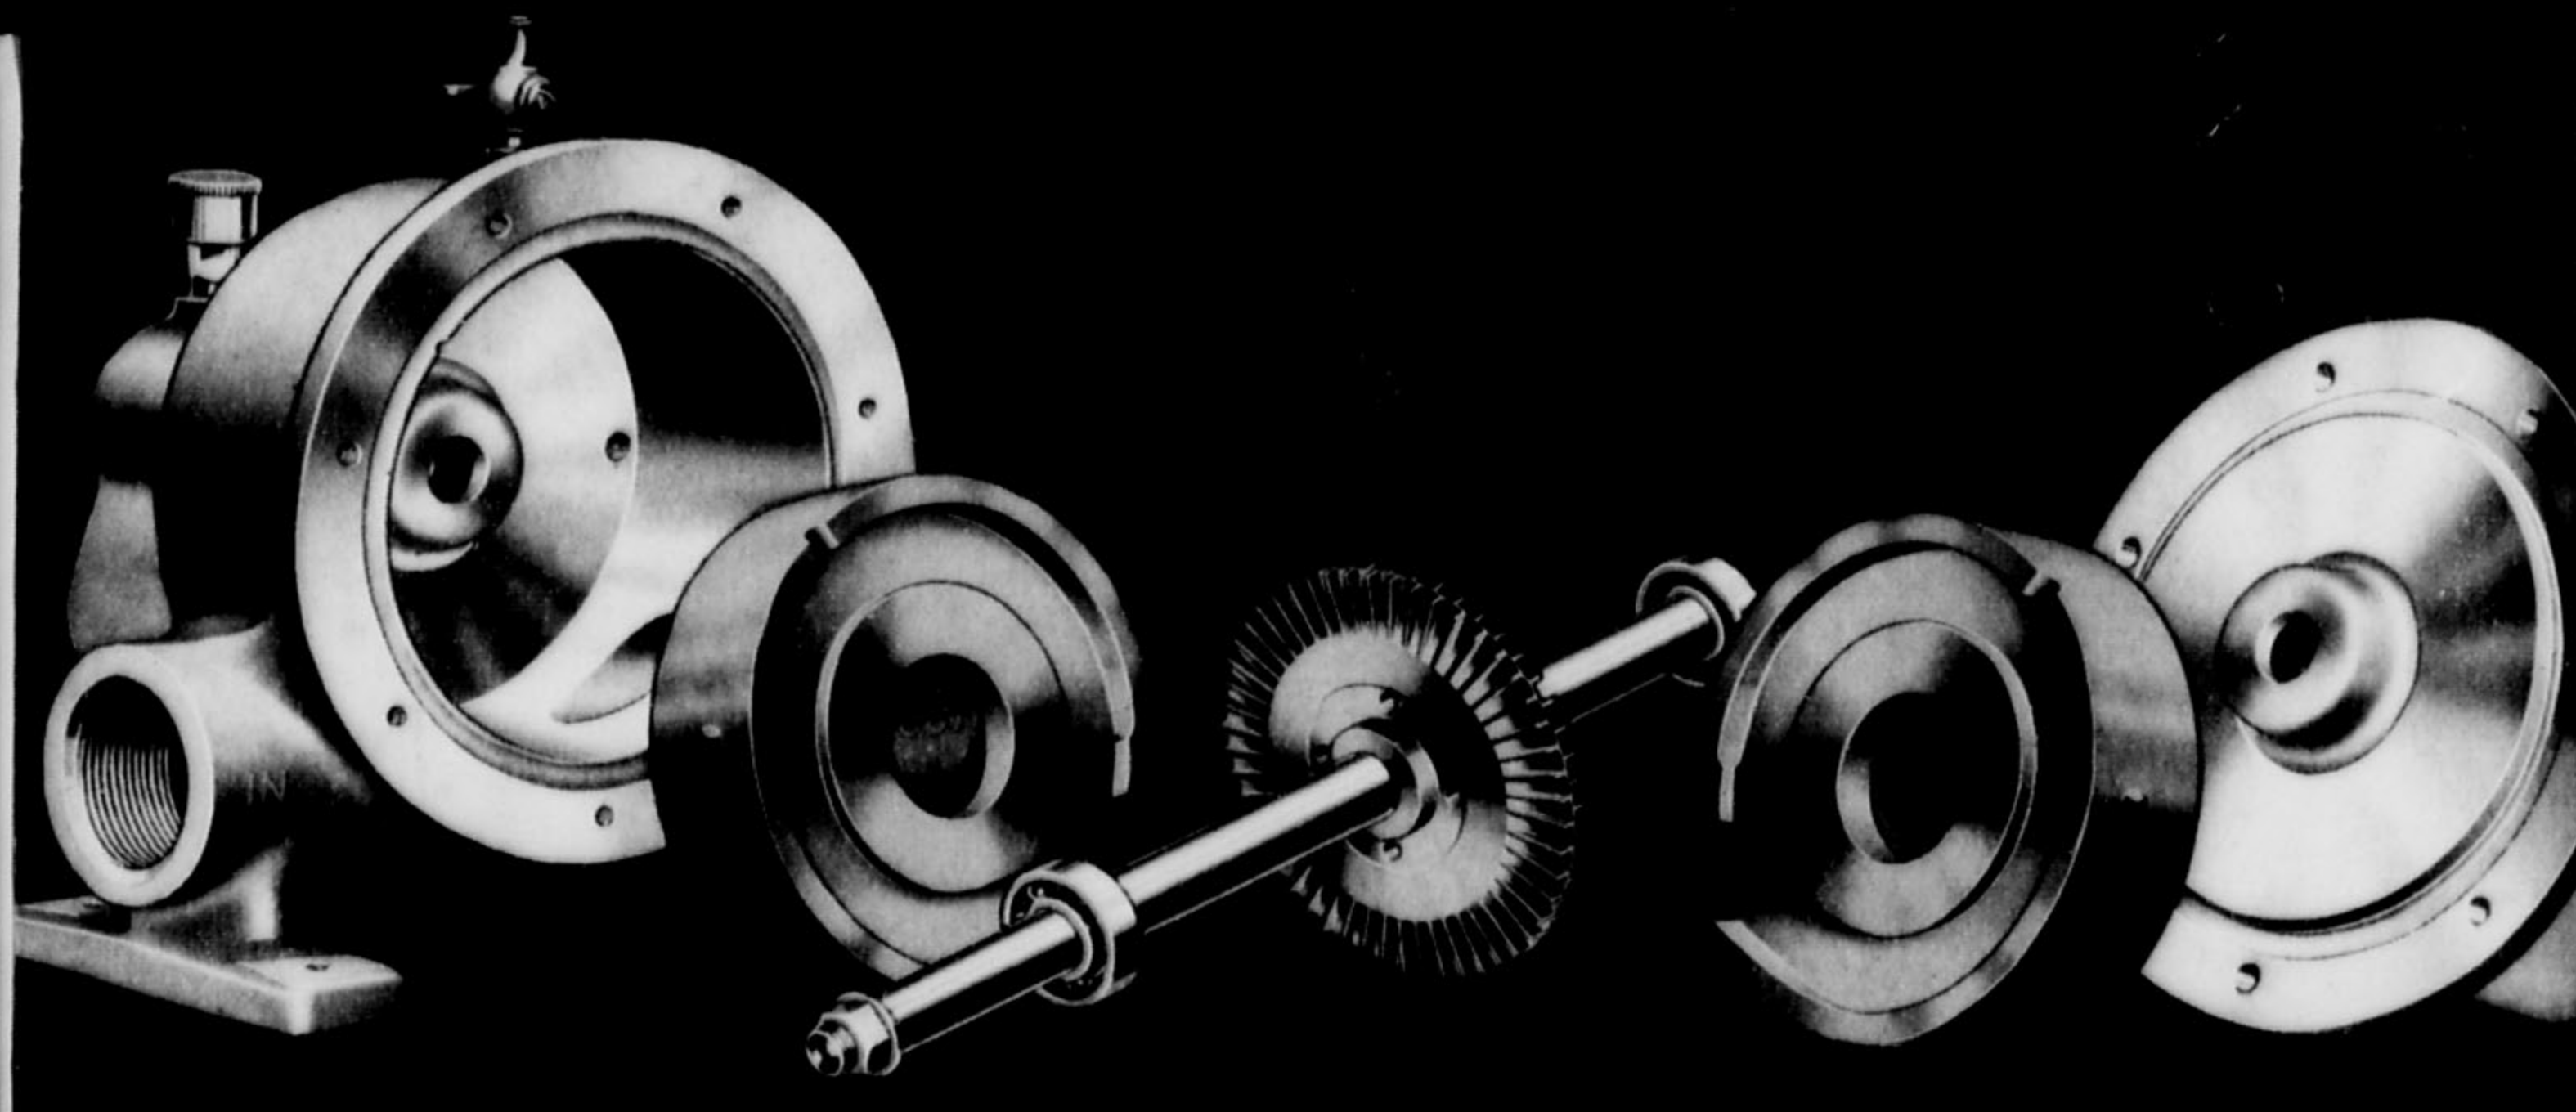

WESTCO TURBINE PUMPS WITH **NEW, PATENTED REMOVABLE ★ LINERS ★**

**FORM
701**

Indian Affairs. (RG 10, Volume 6301, file 650-5, part 4)

**PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA**

This illustration shows a Type BR Westco Turbine Pump completely disassembled. Notice extreme simplicity of Casings, all-bronze Removable

Liners and Turbine-type Impeller. This Impeller is Westco's only moving part. It operates without metal-to-metal contact inside pump chamber.

4

BIG REASONS WHY Patented Removable Liners SAVE MONEY for WESTCO USERS

- 1** Lifetime service from Pump Casings.
- 2** Less metal required for alloy construction.
- 3** "Stand-by" pump protection available at about $\frac{1}{4}$ usual cost.
- 4** Capacity of pump can be increased and decreased.

PUMP users throughout industry have been quick in voicing their approval of Westco's new patented Removable Liner feature. It is a welcome improvement on a pump that has made a name for itself by proving its superiority on thousands of different applications both in this country and abroad.

Just as the name suggests, Removable Liners are

simply a lining for the Westco pump casings proper. They form the liquid channel and are quickly and easily removed from the pump casings. To every pump user, we believe the valuable advantages of this feature will be of great interest.

Lifetime Service from Casings

Seldom, if ever, need the Westco Pump casings be replaced. This is a statement of fact because, in this modern pump, all interior surfaces which are subject to wear and deterioration are incorporated in the Liners.

As explained in the following paragraphs, the cost of these Liners is so much less than the cost of the complete casings that real savings can be effected if reconditioning is ever necessary in the years to come.

PAGE TWO

Indian Affairs. (RG 10, Volume 6301, file 650-5, part 4)

**PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA**

This job can be done without disturbing the installation of the pump or piping connections. No need for turning pump to the factory. By following simple instructions, it is possible, in a few minutes' time, to interchange new Liners for the old.

Cuts Cost of Alloy Construction

Liners and Impeller which direct and pump the liquid can be economically made of alloy metals for it is in and around these parts that the velocity of the liquid is greatest and, consequently, corrosion most rapid.

Often, this allows cast-iron or bronze casings to be used with complete satisfaction and, of course, considerable saving of money. This is possible because the amount of comparatively high cost alloy metal required to make the Liners and Impeller is about 73% less than the amount required for casting the complete pump casings.

"Stand-By" Pump Protection

An extra set of Liners and Impeller may be carried on hand for possible use in emergencies. This practice furnishes "stand-by" pump protection at a cost about $\frac{1}{4}$ the usual price of an auxiliary pump.

ALL Westco Turbine Pumps have a double-suction Intake which creates a perfect hydraulic balance. Ingenious design of vertically split casings permits ready removal of Liners, Impeller-shaft unit and bearings (complete disassembly) without disturbing suction or discharge piping connections.

On those duties where service interruptions would prove expensive and the cost of auxiliary pumps is an important factor, this feature will be of real interest to the pump buyer.

Capacity Can Be Varied

Removable Liners in a Westco Turbine Pump enable the capacity and head to be readily increased or decreased within reasonable limits. This is accomplished by simply interchanging a different size set of Liners and Impeller.

Such flexibility of capacity further insures maximum return on your investment in Westco Turbine Pumps, because they can be shifted from duty to duty without sacrificing efficiency when different capacities and heads are required.

FIG. 1. Belt Driven WESTCO TURBINE PUMP, Type BR, equipped with two Ball Bearing Pedestals for supporting the pulleys.

FIG. 2. WESTCO TURBINE PUMP, Type BR, showing design of all pumps with 3" suction or larger which have flange connections. Notice that pump casing has covers at BOTH ends. This feature allows ready removal of Liners and Impeller-shaft assembly from either end.

FIG. 3. WESTCO TURBINE PUMP, Type BR, showing design of all pumps with 2½" suction or smaller which have screw connections. Note compactness and rugged construction. All Type BR pumps can be quickly changed from right- to left-hand rotation or vice versa.

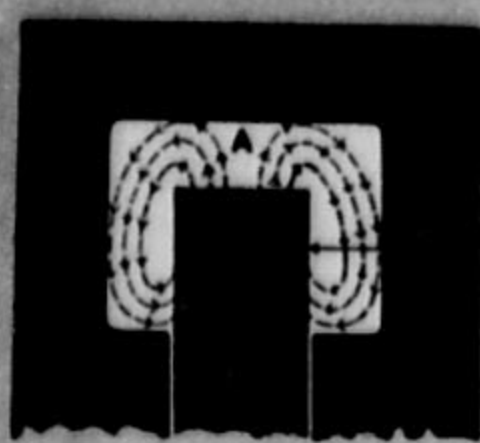

FIGURE 4
(A) Pump Channel (B) Impeller Vanes (C) Impeller. Dotted lines show path of liquid through impeller vanes and in pump channel.

HOW WESTCO WORKS

THE multivaned, bronze Impeller is the **ONLY** moving part in a Westco Turbine Pump and it operates without metal-to-metal contact. Think of it—metallic friction is entirely eliminated. The result is trouble-free performance throughout an exceptionally long service life.

The liquid enters the Westco Pump at the suction intake where it finds its way to the bottom (or inlet) of the impeller vanes and by centrifugal force the direction of flow is through the vanes to the periphery of the impeller where it enters the pump channel.

Westco's multivaned Impeller reenergizes the liquid thereby producing a multistage effect. This is accomplished

with only one Impeller. The result is considerably less velocity of the liquid and, consequently, less churning and erosion. When necessary, Westcos develop high pressures in single-stage construction that would require a multi-stage, conventional centrifugal type pump. This means less friction, simplified construction and greater economy of operation.

Figure 4 briefly illustrates the flow through the vanes while the liquid is traveling around the pump channel in the direction of rotation of the impeller.

By this explanation, you can readily see how each vane on the impeller is a pump in itself—each imparting its proportional share of energy to the liquid in its travel around through the pump channel. That is why Westco is often described as being "100 Pumps within a Pump".

CONSTRUCTION SPECIFICATIONS

PART	BRONZE-FITTED PUMP	ALL-IRON PUMP	ALL-BRONZE PUMP
Casings	Iron	Iron	Bronze
Liners	Bronze	Iron	Bronze
Impeller	Bronze	Iron	Bronze
Shaft	Stainless Steel (18-8)	Stainless Steel (18-8)	Stainless Steel (18-8)
Packing Glands	Bronze	Iron	Bronze
Bearings	Ball Bearings	Ball Bearings	Ball Bearings

SPECIAL CONSTRUCTION—Westco Pumps are regularly being made, upon special order, from the following corrosion resisting alloy metals: Stainless Steel (18-8), Inconel, Hastelloy, Durimet, Everdur, KA2, KA2S, KA2SMO, Nitrided Nitralloy, Monel Metal, Ni-resist, and special bronze mixtures. Westco engineers

have had many years experience designing corrosion-resisting pumps for widely varying applications. You are cordially invited to draw upon this source of knowledge by submitting your pump problems to our engineering staff. There is no obligation incurred.

FEATURES THAT MAKE WESTCO THE FAVORITE PUMP ON THOUSANDS OF DUTIES

NO Belts **NO** Valves **NO** Pistons **NO** Pounding
Gears Springs Leathers Hammering

WIDE OPERATING RANGE—Westcos automatically adjust themselves to changes in the operating condition. Simply select pump and motor for maximum head you know will not be exceeded, and no matter how much less than this the head may actually be, the pump will deliver only a slightly increased capacity and the power required will decrease with the head. Thus, efficiency is maintained and chances for motor overload are eliminated.

ACCESSIBILITY—Westco Turbine Pumps are easily disassembled without disturbing suction or discharge piping connections. Makes cleaning a quick, simple task.

QUIET OPERATION—A distinguishing characteristic of all Westcos, Humless, throbless, and no vibration.

TROUBLE-FREE OPERATION—Will operate for months with but a single filling of grease cups and adjustment of packing glands.

HIGH PRESSURES IN SINGLE STAGE—Westcos' simple, sound turbine principle of pumping enables them to deliver multistage performance in single-stage construction at moderate speed of 1750 R.P.M.

DOUBLE SUCTION DESIGN—Liquid entering the pump chamber is equally distributed to BOTH sides of the Impeller. Thus, a perfect hydraulic balance is created.

PERFECT HYDRAULIC BALANCE—Eliminates all end thrust at bearings. Wear and consequent maintenance expense are thus minimized.

LOW POWER REQUIREMENTS—A remarkable fact when Westco's high efficiency is considered.

LOW COST—Westco offers all the advantages in design of double-suction, horizontal split case pumps plus improved efficiency, wide operating range and longer service life at a price far less than you are asked to pay for another pump of equal quality construction, design and performance. Westco's extreme simplicity allows them to be economically constructed from noncorrosive or acid resisting metal alloys.

MINIMUM HEAD ROOM AND FLOOR SPACE REQUIRED—Westcos occupy only a fraction of space which is usually needed for pumps of comparable capacity.

NO METAL-TO-METAL CONTACT—There is no metal-to-metal contact in the interior of a Westco Pump to require internal lubrication. Therefore, Westco Pumps will handle nonlubricating liquids without friction or wear and deliver many years of dependable service without impaired efficiency or loss in capacity.

BALL BEARING CONSTRUCTION—Impeller Shaft rotates on two selected outboard ball bearings. This assures smooth, quiet operation and perfect alignment.

WESTCO Self-priming TURBINE PUMPS—Type SR

THESE pumps possess all the well known and valuable Westco features described on the first six pages of this catalog. In addition, they are self-priming without continuous recirculation or the use of complicated mechanisms.

Self-priming Westcos are widely used for water system service on farms, estates, country clubs and in greenhouses,

These Westcos offer you the self-priming feature of the positive displacement pump together with the desirable design advantages of the centrifugal pump.

Disassembled view of Self-priming Westco showing Casings, Impeller and Removable Liners. Note extreme simplicity of this long-lived pump.

schools and small industrial plants where the source of water is within suction lift such as pumping from shallow wells, lakes, streams, cisterns, etc.

Westco's pumping action automatically clears the pump of gas, air or vapor, thereby insuring delivery of full capacity. This valuable feature recommends these pumps for handling highly volatile liquids, hot water, etc. Dairies, Chemical Plants, Refineries, Breweries, Wineries and Distilleries find Westcos ideal for Transfer and Filtration Service. Portable units, either electric motor or gas engine driven are available.

These pumps are popular for Sump and Drainage service because the pump itself is installed above the water level thus facilitating complete inspection and quick cleaning. Sump units are completely automatic. No foot valve necessary.

PERFORMANCE and SELECTION TABLE for WESTCO SELF-PRIMING PUMPS

When operating at full load speed of standard 1800 R.P.M. motors and pumping clear water at normal temperatures

Pumps are recommended to operate within limits shown in above table and for suction lifts not exceeding 20 ft. State on your Purchase Order operating conditions as to capacity and head, when obtainable.

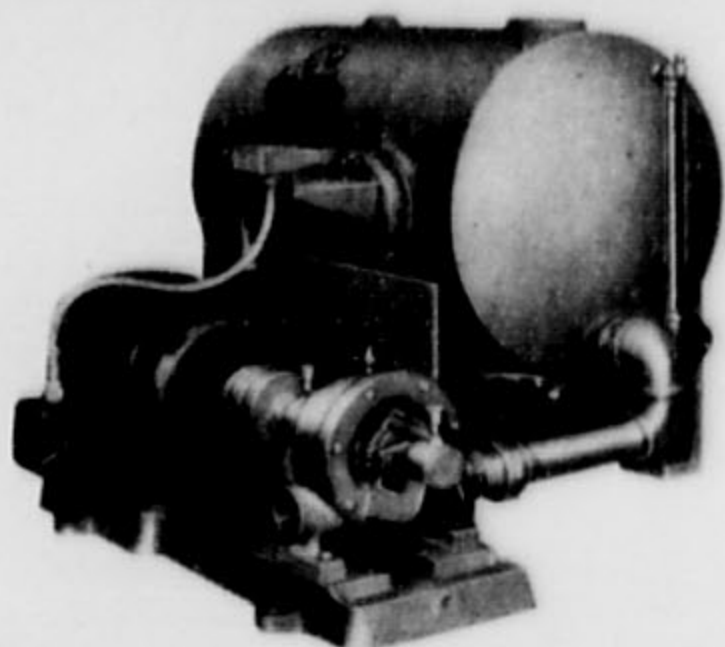

Curve charts are furnished upon request, also Performance Tables at 1150 and 1440 R.P.M. Two pumps may be connected in series and driven by one motor to obtain same capacity at double the head requiring double the B.H.P.

To Obtain Pump Efficiency:
$$\frac{\text{G.P.M.} \times \text{Weight of Liquid per gallon in pounds} \times \text{Total Head in Feet}}{33000 \times \text{B. H. P.}} = \text{Pump Efficiency}$$

TOTAL HEAD = Suction Lift + Discharge Head + Friction Head + Velocity Head.
Liquids Other Than Water — See notes at bottom of Page 5. These notes also apply to the above table. * (U. S. gallon of water weighs 8.33 pounds.)

Battleford, Sask.

Dear Sir: Re. Equipment for Beauval Indian School

THIS QUOTATION IS CONDITIONAL ON SATISFACTORY TERMS IN RESPECT TO PAYMENT AND SECURITY BEING ARRANGED AND IS SUBJECT TO PROMPT ACCEPTANCE. THE PRICE OR PRICES NAMED IN THIS QUOTATION ARE SUBJECT TO INCREASE OR DECREASE TO THE EXTENT OF ANY CHANGE (EITHER BEFORE OR AFTER ACCEPTANCE) IN PREVAILING FREIGHT RATES, IMPORT DUTIES, SALES TAX OR EXCISE TAX. THIS COMPANY WILL NOT BE RESPONSIBLE FOR DELAYS DUE TO FIRES, STRIKES, LABOR DIFFICULTIES, ACCIDENTS, DELAYS IN TRANSPORTATION OR OTHER LIKE CAUSES.

We have been requested by Mr. V. Bleau of the Beauval Indian Residential School to quote you direct on the above and take pleasure in submitting the following proposal:

Reiffenstein Turbine:

For - One (1) only #10 Reiffenstein Turbine, designed to develop 20 H.P. when operating under a net effective head of 13.5 ft. at a speed of 340 RPM, including driving pulley and oil pressure governor

Our price will be FIFTY NINE HUNDRED AND FIFTEEN DOLLARS (\$5915)

The unit will be as shown on enclosed blueprint of our Drawing #C-4818, and will include a plate steel casing, a cast iron runner, a steel shaft, ~~to~~ anti-friction bearings, a cast iron pulley, a cast iron draft tube elbow, a plate steel conical draft tube, a steel regulating gate, a self contained Woodward oil pressure governor with belt driven centrifugal head and belt driven rotary pumping unit.

Shipment - fourteen (14) to sixteen (16) weeks.

Generator:

For - One (1) Type ASI-7246, 8 pole, 15 kv-a., 12 kw., 0.8 p.f. 50° C. rise, 900 RPM 125 volt, 60 cycle, single phase alternator with pole face winding, suitable for waterwheel drive (95% overspeed).

One Sliding base
One pulley
One Generator field rheostat
One 125 volt direct connected exciter and exciter field rheostat.

Indian Affairs. (RG 10, Volume 6301, file 650-5, part 4)

**PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA**

Mr. McDonald

- 2 -

Aug. 23-1937.

One (1) Switchboard for use with the above Alternator, consisting of:-

One (1) 36" x 16" x 1" panel on 64" pipe supports, mounting the following equipment -

One (1) AD6 Ammeter
One (1) AD6 voltmeter
One (1) Concentric rheostat operating mechanism.
One (1) D.P.S.T. 250 volt, D12 lever switch with fuses.

Our price will be ONE THOUSAND FIVE HUNDRED & FORTY DOLLARS (\$1540)

Shipment - six (6) to eight (8) weeks.

SLUICE GATE:

For One (1) 42" diameter sluice gate, with hand-stand and operating mechanism,

Our price:-
ONE THOUSAND THREE HUNDRED & THIRTY DOLLARS (\$1,330.00)

Shipment twelve (12) weeks.

The general arrangement of the above gate is shown on blueprint of our Sketch A-16774-B, three blueprints of which are enclosed herewith;

PUMP:

Montreal state that as your capacity is about 5000 gallons and this being your average consumption per day this would work out to a rate of 3.5 g.p.m and it seems unlikely that you would install such a small pump. 800 ft. of 2" pipe will carry 10 g.p.m. with loss of head of about 10 ft. and we take pleasure in quoting you on a pump of this size as follows:

For One (1) only 10 I.G.P.M. No. 515, 1-1/4" "Westco" Turbine Pump, 1850 R.P.M., 130 ft. head; mounted on cast iron sub-base; complete with tight and loose pulleys.
Price - ONE HUNDRED AND SEVENTY FIVE DOLLARS (\$175.00)

Indian Affairs. (RG 10, Volume 6301, file 650-5, part 4)

**PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA**

Mr. McDonald

-3-

Aug. 23-1937.

The above pump is described in the attached Bulletin Form 701 - Micro-Westco Inc., and will require about 1 H.P. for its operation.

PIPING:

You show a 42" ϕ pipe about 163' long but Montreal advise us that a pipeline 2' diameter will carry the water required to develop 20 H.P. under 13.5 ft. with loss of head about one ft. in the 163' of pipe. We are, therefore, quoting you an alternative on this length of pipe.

163 ft. of 42" pipe made from 1/4" plate supplied in eleven (11) pieces with flanged angle connections complete with gaskets for bolting in the field

Our price TWENTY TWO HUNDRED AND SEVENTY DOLLARS (\$2270.00)

As a guide to you we may say that for each right angle elbow or equivalent required in this pipe there would be an additional cost of approximately.
TWO HUNDRED & SIXTY FIVE DOLLARS (\$265.00) per elbow.

24"
163 ft. of pipe made from 1/4" plate in eleven (11) pieces with flanged angle connections complete with gaskets and bolts FIFTEEN HUNDRED & TWENTY FIVE DOLLARS (\$1525.00)
For each right angle elbow or equivalent in this pipe there would be an additional cost of approximately
ONE HUNDRED AND TWENTY DOLLARS (\$120.00)

For 35 ft. of 48" pipe made from 1/4" plate in three (3) pieces with flanged angle connections complete with necessary gaskets and bolts for field connections -
SIX HUNDRED & FORTY EIGHT DOLLARS (\$648.00)
For each right angle elbow or equivalent in this pipe there would be an additional cost of approximately
TWO HUNDRED & SIXTY FOUR DOLLARS (\$264.00)

The only peice of equipment missing from this equipment is 24" gate should you decide on this size of pipe. This, however,

**PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA**

Mr. McDonald

-4-

Aug. 23-1937.

can easily be obtained at a later date.

We notice there is some reinforcing in the machine shop foundations on which we are pleased to quote a price of FIVE DOLLARS AND SEVENTY FIVE CENTS (\$5.75) per 100# net.

All of the above prices are for the material and equipment f.o.b. cars Beauval, Federal Government Sales Tax of 8% only being included, no Provincial Tax.

This quotation is based on conditions and prices for materials current at this date, and is subject to confirmation by the Company at the time order is placed.

With regard to the field assembly we could send a Supervisor and would charge you a nominal rate per day for his services while this work is being carried out.

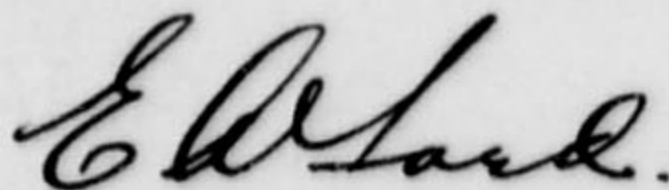

We sincerely hope that the above prices and information will be of service to you and that we may have the pleasure of hearing favorably from you in this connection.

Yours very truly,

DOMINION BRIDGE CO. LIMITED,

EAF/DP
Cc: Mr. V. Bleau

Per:

P.S. The 42" sluice gate on which we have quoted will include a cast iron frame with brass seats, cast iron gate, a steel rising stem, cast iron hand-stand with bevel gear and hand-crank; twelve (12) 1" diameter foundation bolts will also be supplied.

EXT.

132-1-5

Ottawa, September 14, 1937

Sir:

The Department is in receipt of your letter of the 26th ultimo enclosing plans, specifications and a quotation from the Dominion Bridge Company, Winnipeg, in connection with proposed equipment at the Beauval Indian Residential School, for lighting and pumping systems.

The estimate of the Dominion Bridge Company is approximately \$14,000.00. This is considerably higher than the quotation contained in your letter of November 4th, 1936, and it is apparent that if the request of the Reverend Principal is granted, the expenditure will be extremely heavy.

Before making a definite decision the Department requires considerable additional information as follows:

1. Is the Beauval Residential School wired for electricity, and have the school authorities been developing electricity from the present water power?
2. Before expending any money on the water power development did the school authorities have the advantage of expert opinion? If so, you should state who was consulted at that time.

S. L. Macdonald, Esq.,
Indian Agent,
Battleford, Sask.

Indian Affairs. (RG 10, Volume 6301, file 650-5, part 4)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

3. What is the head of water in the lake as the result of the erection of the dam mentioned in the Reverend Principal's letter?

4. Have the school authorities carefully considered the fact that if the new machinery suggested by the Dominion Bridge Company were supplied it would require a great deal of water to operate it and, as a result, the quantity of water available for other purposes might not be sufficient?

5. Have the school authorities considered the advisability of generating their electric current by means of a steam plant or a Diesel engine? Information that the Department has received indicates that either system would be much cheaper than the proposed water power installation. Of course, to operate a steam plant successfully it would be necessary to have plenty of wood available for some years to come. Is this available in the vicinity of Beauval? To operate a Diesel engine plant would it be possible to obtain the necessary fuel oil at a cost that would not be prohibitive?

A copy of this letter is being forwarded to the Principal of the Beauval Residential School, and the Department would appreciate an early reply both from him and from yourself. You can understand that when such a large amount is involved it is felt that very complete information should be available before proceeding on any plan that might prove unworkable in the future. It may even be necessary to send a qualified electrical engineer to Beauval to survey the situation, but a decision in this regard will not be made until your reply is received.

Yours truly,

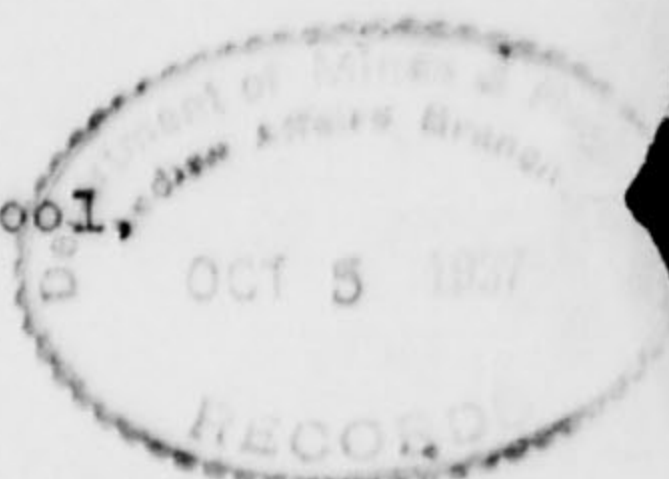

R. A. Hoey,
Supt. of Welfare & Training.

Indian Affairs. (RG 10, Volume 6301, file 650-5, part 4)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

132-1-5

Indian Residential School,
Beauval, Sask.,
September 21, 1937.

Dear Sir:

I have a copy of your letter to Mr. S. L. Macdonald in connection with equipment for the school here and am pleased to have the opportunity to answer the Department's questions.

The estimate made by Father V. Bleau, c.m.i., in a letter to Mr. Macdonald written last November, proves to be very much lower than the quotation made by Dominion Bridge Company. It was made in good faith, but without an adequate knowledge of the probable cost of the equipment required. It did not, moreover, include freight charges to Beauval, which is a part of the Dominion Bridge quotation, and must amount to perhaps \$3000 of the total cost.

1 The school itself, and the buildings in connection with it, are all wired for electricity. The school authorities have been developing electricity from the water power of the La Plonge river at this site since 1908; and have been using the water power to run a sawmill at the same site for as long a period. The generator and turbine used now for the development of electricity are those originally installed in 1908. They no longer develop enough power for the needs of the school, and the building itself is falling down and must be replaced.

2 The site has not been inspected by a qualified engineer; but Mr. J. A. Burnouf of Beauval, who installed the original equipment, was consulted, and also Brother Beaudoin of the School staff, who has been working in water power since his youth in Quebec, and has had here at Beauval a continuous experience of 14 years using the water power of the La Plonge river; and also Brother Gauthier, who installed the water power development at McIntosh School. Although these men are not qualified engineers they have had a great deal of experience with water power and their opinions could be relied on.

3 The dam at Lake La Plonge, four miles from the School, was built to keep a surplus of water in the lake for power development at the school during dry years. The dam at the school provides a fall of 14 feet, which could easily be made 16 feet if it were necessary, according to level instrument.

4 The dams were built to keep a head of water for use in generating electricity, and this has been done at considerable expense. The only other purpose for which the power is used is to operate a sawmill during about ten days in the spring of the year, when seepage from the surrounding muskegs provides enough water to operate the mill and the

Indian Affairs. (RG 10, Volume 6301, file 650-5, part 4)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

generator both, at a time when the school is only using light for about one hour at night. There has been no trouble due to insufficient water. The piping to the generator in use now is 24", and we would suggest that 24" or 30" piping be used in the new equipment, between dam and turbine.

5a. Development of power by both steam plant and Diesel engine have been considered, but these methods had numerous disadvantages. The cost of buying, freighting, and installing a boiler would be large; its operation would require the continual services of an engineer, and would be an ever-present source of danger in the hands of an inexperienced or careless man. Cordwood is available in the vicinity of the school but quantities of it are used yearly for fuel, and there is no long-time assurance of a supply of it because of the simple fact that, as during the present year, forest fires are continually laying waste thousands of acres of timber through the north and at any time may destroy our own supplies. Hauling and cutting of cordwood would also be a continual expense. It was also the opinion of the school authorities that a steam plant would not last as long as a turbine.

5b. As for the Diesel engine, this would again entail the yearly expense of an engineer qualified to run it, and the cost of fuel oil would be prohibitive, since the school is situated 120 miles from railhead at Big River by winter freight road, or 200 miles by waterways, and freight charges would be from \$1.25 to \$1.75 per hundred pounds.

It is possible that the turbine may cost more than either steam or Diesel power to install, but we believe that it will be both safer and less expensive in the long run. We do not see any reason why it might prove unworkable in the future. The Episcopal Corporation of Keewatin has spent money to build up dams to provide a sufficient head of water, and they have long been ready to cooperate with the Department on this matter. You can be assured that the matter has been thoroughly considered. It would be advisable to send a supervisor to take charge of the installation.

Yours very truly,
F. X. Gagnon c.m.i.
 F. X. Gagnon, c.m.i.

--- 2 ---

However as the Expenditure is so large, I certainly would not like to be responsible for any error in either Equipment or Instalation and I do not think, there is anyone at the school qualified, they have some good Mechanics but this is specializing and I would certainly recommend that a qualified Engineer be sent there to verify or correct any chance of errors, before any definite action is taken and this should be at an early date or before freeze up approximately Oct 20th, after which all plane traffic is tied up till Skees can be used, also while there is open water he would have a better chance to measure the flow. There is a considerable Droy from the lake to the school and all of 30 feet more at plant and into the Beaver River.

132-1-5
Saskatoon, Sask.
Sept 24th 1937

Sir:-

I beg to acknowledge receipt of Department letter 132-1-5, Sept 14th 1937, re Equipment for the Water Power at Beauval School. The Estimate as sent in by the Principal was as I understand based on prices he had received from some Manufacturing Co and is certainly far the figures of the Dominion Bridge Co.

No.1, The School is all wired and has been operating from Water tower for years.

No.2. No expert was called in to my knowledge and I am under the impression that the requirements were made by the School Mechanic and Principal with the help of Mr Bournof an Ex-brother and also Mechanical Expert who installed the present System.

No.3. Re Head of Water I could not give, but La Plonge is a large lake and they have a Dam, built last year at the mouth of the River about 3 Miles from the School and another at the Power Plant, I do not however think that there is any possible fear of Water Shortage and they have used this for all Purposes including a Mill for over 25 years to my knowledge.

No.4. Covered in above.

No.5. An Oil burning outfit up there would be costly, as transportation costs are heavy. There is unlimited wood, however with the perfect supply of Water Power which once installed, runs practically at no cost, and within 100 yards of the buildings, any other system would be out of Place.

The Church Authorities have just transferred the Rev Fr Bleau to Cross Lake, Man, and Rev F.X. Gagnon, former principal has again taken over, but apparently intends to go ahead with the plans from a letter just received from him, I am leaving for Beauval and Canoe Lake on Sunday Sept 26th and will take this up further while there.

EX.

Ottawa, October 21, 1937.

Dear Sir:-

The Department received your letter of September 24th, also Reverend Father Gagnon's letter of September 21st in connection with the water power plant at the Beauval Indian Residential School. The contents of both these letters were very carefully considered, but, in view of the large expenditure that is necessary, our engineers consider that it is inadvisable to take any action without first sending an engineer to look over the whole situation.

From the information contained in the latter part of your letter it is now considered too late in the year to send an engineer. Arrangements will, however, be made to send an engineer early in the Spring. Please let me know the earliest date in the Spring that weather conditions will likely permit an engineer reaching the Beauval school. It should be understood that we wish this officer to be at Beauval when the lake is opened in order that he may obtain water levels and other necessary data.

Provision is being made in our appropriation for the fiscal year 1938-39 for necessary funds in order that, in the event of our engineer reporting favorably, money will be available.

Yours truly,

R.A. Hoey,

Ottawa,
April 29, 1938.

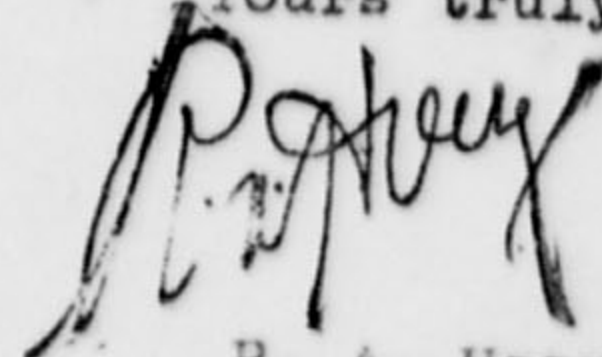

Dear Sir:

Referring to your letter of November 16, 1937 and previous correspondence in connection with the water power plant at the Beauval Indian Residential School I am requesting the Surveys & Engineering Branch to have a competent person visit Beauval some time next month.

You should also inform the Reverend Principal and request him to co-operate with the officer who is sent to Beauval in order that the latter may obtain complete information regarding what is required.

In the event of it being decided to supply certain equipment for the water power plant will it be possible to ship this to Beauval during the summer or will it be necessary to wait for winter freighting? You should let me have full particulars in this regard in order that we may be able to place an order if such action is recommended by the officer visiting Beauval.

Yours truly,

R. A. Hoey,
Supt. of Welfare & Training

S. L. Macdonald, Esq.,

Memorandum:

DIRECTORSurveys & Engineering BranchRe: Beauval Indian Residential School.

In our appropriation for the current fiscal year provision was made for the following equipment for the above-mentioned school:

Hydraulic turbine	\$3000.00
Pump	250.00
Dynamo	500.00
Metal pipe	250.00

4000.00

It appears from previous correspondence that there is an electric plant at present in operation at this school and for the past two or three years the school management has been urging the Department to provide new equipment as the present lighting system is unsatisfactory. The Beauval School is wired for electricity and the electric plant at present in use is being operated by water power.

Although several letters have been written both to the Indian Agent and to the Principal we have been unable to secure sufficiently definite information regarding exactly what is required to improve the lighting system at this school. I understand that we

Indian Affairs. (RG 10, Volume 6301, file 650-5, part 5)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

should have information regarding the present capacity of the lighting plant and the additional amount of electricity required. It is also important to know if the head of water in the lake is sufficient to operate the plant which the school management has been requesting the Department to supply.

I believe it is advisable to have a competent person visit this school and report fully on what is required and I would appreciate if you would arrange to have one of your officers go to Beauval at an early date for that purpose.

I understand that he can fly from Prince Albert. I am informed that there is open water at Beauval about May 15.

Howell

June 21st, 1938.

This plant is entirely too small for the load connected, and could not be used in conjunction with a new plant. At best it could be repaired and used as a standby in case of a shut-down in the new plant.

The dam at the proposed power site is of concrete, and quite suitable in its present condition for the proposed power development. A head of twenty feet can be obtained with a penstock three hundred and forty (340) feet in length and with this head, and the water available, the power required for the school can be developed.

There are 76,000 acre feet available with a one foot draw off and this amount of water would operate the plant for five years; or, if the lake should increase its elevation approximately two inches during the summer months, there would be sufficient water to operate the plant for one year and still maintain the present elevation.

The only doubtful factor is the possibility of freezing of the outlet at the lake, but Father Gagnon assured me that this did not happen, and the danger of this happening could be eliminated by deepening the channel.

I am satisfied that the hydro-electric plant would be the most satisfactory installation, and that the expense of operating and upkeep would be very small for this location.

As an alternative there is the Diesel electric plant. The cost of installing such a plant would be much less, approximately \$5,000.00, but the cost of fuel at the plant makes this almost prohibitive. The cost of Diesel fuel at Prince Albert is about 22¢ per gallon, and the cost of transportation to Beauval would be at least 10¢ per gallon. To this would be added the cost of non-returnable drums which would bring the cost of the oil to at least 35¢ per gallon winter transportation. This would be 50% higher in summer, or 45¢ per gallon. This would bring the cost of fuel to operate a Diesel plant twelve (12) hours a day to about \$1,500.00 a year.

Another alternative is the steam plant. The cost of installation of such a plant would be higher than the Diesel and would require the services of an experienced man continually. The cost of operating this type of plant would be higher than the Diesel plant.

Present connected load at Beauval Residential School.

School and Chapel	200 - 60 Watt lamp
Father's Residence, barns, chicken-house, workshop and store houses	100 - 60 " "
Present connected load, about 24 H.P.	

Motors required-

Washing machines	2 H.P. motors
Cream separator	1/2 H.P. "
Dough mixer	1 H.P. "
Work shop	5 H.P. "
Pump motor	5 H.P. "

The total connected load will be about 38 H.P.

VERY POOR
COPY

June 21st, 1938.

There is no solid rock for foundations at the power house site -mostly earth and boulders. However, I am satisfied that satisfactory foundations can be laid. It would require considerable concrete work and I am including 200 bags of cement in the estimate of costs.

Father Gagnon assured me that they (the School) would supply all the labour and material for the foundation work and laying of penstock - in fact all the labour required on the job.

The following detailed estimate of costs is all that I have available at present, as I have not had sufficient time to get further information. However, I expect to have other prices shortly, and if there is any appreciable change in the estimated costs I will advise you immediately.

COST AND TYPE OF EQUIPMENT.

Cased horizontal reaction type high speed water turbine governor and gate valve	\$5,000.00
Belted type 20 K.V.A. - 125 volt A.C. generator with exciter	1,000.00
One panel switchboard, switches and instruments	200.00
Centrifugal pump	150.00
340 foot wood stave penstock	1,000.00
200 bags cement delivered Beauval	500.00
Steel pipe from turbine to outside walls of power house	100.00
Freighting, equipment and penstock Big River to Beauval	75.00
Engineering and supervision expenses	500.00
	<u>\$9,150.00</u>

Faithfully yours,

(sgd.) E. Smith
Chief Operator, Cascade Power P

REPORT ON PROPOSED HYDRO ELECTRIC PLANT
AT BEAUVAIL, SASKATCHEWAN.

Dear Sir,

I have been to Beauval, Saskatchewan and inspected the site of the proposed Hydro electric plant there.

The source of water supply for the proposed plant is Lac la Plonge, elevation 1476, with an area of approximately 120 square miles.

The supply of water to this lake is from surrounding muskeg and some small creeks. Some years ago this lake had its regular spring floods, but for the past three years, on account of the dry seasons experienced in the North, there has been no spring flood of any account. When the school authorities noticed this they constructed a dam at the only outlet, La Plonge Creek, to control the flow, and have been successful in maintaining the present elevation for the past few years.

No raise in the water level of the lake had been recorded this year up to June 2nd, but Father Gagnon claims that with some rain and warmer weather the water level of the lake should become somewhat higher this season.

I installed a gauge at the dam and they will take readings from time to time and report what is happening.

The approach to the outlet has a depth at present of at least three feet, and could easily be increased to four feet at small expense. This, I was assured, would be taken care of by the school authorities. The dam at the outlet is well constructed - concrete piers in the main stream with earth approach, and the flow to the creek is controlled by a well constructed sluice gate. Conditions at the present time would allow at least one foot of water to be drawn from the lake. Beauval Residential School is situated on La Plonge Creek about four and one-half miles downstream from Lac la Plonge and the school has constructed a second dam to form a suitable fore-bay for the operation of the present plant.

The present plant consists of a small vertical type water wheel belted to a 3Kw. D.C. generator operating at a head of fourteen feet; there is no governor to control the speed, the voltage being very irregular, and the lights poor.

This plant

C.M. Walker, Esq.,
Supervising Engineer,
Engineering & Construction Service,
Banff, Alberta.

July 9, 1938.

Memorandum:Mr. Wardle.Re - Beauval Indian Residential School.

With reference to Dr. McGill's memorandum of April 29th last on File I.A. 132-1-5 herewith, I am attaching two copies of Chief Operator Smith's report on the proposed hydro-electric plant at Beauval, Sask.

It will be noted that the project is considered to be quite feasible and that the generating plant and a centrifugal pump can be installed at an estimated cost of a little over \$9000.00. While the capital cost per H.P. is higher than would be the case with a Diesel or steam installation, the annual operating costs would be much lower and if prices tendered on this equipment are in reasonable agreement with Mr. Smith's estimate, I would recommend that the hydro-electric type of plant be installed. Since only \$4000.00 has been provided for this purpose, the availability of additional funds would also be a controlling factor.

Another question that arises and has not been included in Mr. Smith's estimate is the motors, of which there are five varying from $\frac{1}{2}$ H.P. to 5 H.P., but possibly the School Authorities would be willing to supply and install these at their own expense. However, Mr. Smith is being asked to furnish an estimate of the cost of these motors installed and of any additional switchboard equipment that may be required to operate them. This information will be forwarded to you as soon as it is available here.

Encs.

Respectfully submitted,

T. & J. Mills

R

Memorandum:

Dr. McGill.

Re - Beauval Indian Residential School.

I am forwarding herewith a copy of a memorandum from the Chief Engineer, together with a report prepared by Mr. E. Smith, Chief Operator of the Power Plant at Banff.

It will be noted that Mr. Smith recommends the installation of a hydro-electric plant at a cost of something over \$9,000; also that the alternatives of a Diesel or steam installation, although entailing a much lower initial expenditure, would call for heavy annual upkeep. It is also noted that a sum of \$4,000 has been provided this year, and I should be glad if you would advise if further funds are available should you decide on the hydro-electric installation.

Your file covering Beauval Residential School is returned herewith.

J. W. W. W.
Director.

12th August, 1938.

Memorandum:

Dr. McGill

Re: Beauval Indian
Residential School.

Further to my memorandum of the 12th ultimo with which a copy of a memorandum from the Chief Engineer was forwarded giving particulars of the report of Mr. E. Smith, Chief Operator of the Power Plant at Banff, on the Hydro Electric Plant at Beauval, it was stated therein that details of the cost of the motors installed would be forwarded to you when available.

We have now received a report giving the costs as follows,-

By River

2 - 2 H.P. Motors f.o.b. Big River	- \$170.00
2 - 5 H.P. " " " "	- 250.00
1 - 1 H.P. " " " "	- 66.00
1 - 1/4 H.P. " " " "	- 50.00
Freight - Big River to Beauval	- 50.00
Material and labour installing	- 210.00

Total

\$796.00

We have not yet received any advice from you as to whether additional funds above the \$4,000 provided will be available to cover the installation of this Hydro Electric Plant which Mr. Smith estimated to cost about \$9,000.

EXD.

Ottawa,
August 15, 1938.

Memorandum:

DEPUTY MINISTER

Re: Beauval Indian Residential
School, Electoral District
of North Battleford,
Battleford Indian Agency.

The above Residential School was totally reconstructed by the Department in the fiscal years 1929-30, 1930-31 and 1932-33.

This school is located north west of Prince Albert, Saskatchewan. The closest railway station is Big River, Saskatchewan, which is 150 miles from the school.

Right Reverend M. Lajeunesse, O.M.I., Bishop of Keewatin, in whose diocese the Beauval School is located, has brought to the Department's attention on several occasions during the last two or three years the necessity for making improvements to the Hydro electric plant. This was originally built by the school management but has now worn out and as a result is of little use.

In our appropriation for the current fiscal year an amount of \$4,000.00 was provided for new electrical equipment. From the correspondence that we had received it was difficult to decide exactly what was required and consequently arrangements were made with the Surveys & Engineering Branch to have a qualified man proceed to Beauval. I enclose a copy of Mr. Wardle's memorandum of July 12, also the report of Mr. E. Smith who visited Beauval in June.

Indian Affairs. (RG 10, Volume 6301, file 650-5, part 5)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

You will note from this report that he states that an expenditure of \$9,150.00 will be necessary to ensure complete satisfaction. As stated above \$4,000.00 is specifically provided in the current year's appropriation for this work and the balance necessary can be obtained from the item in our estimates providing for unforeseen expenditures.

Undoubtedly immediate improvement of the lighting facilities at this school are necessary. The Beauval school which has always done good work is situated in an isolated location where a proper electric system is very necessary. I would, therefore, appreciate receiving the authority of the Honourable the Minister for the expenditure recommended by the engineer of the Surveys & Engineering Branch. For your information I also enclose a copy of Indian Agent Macdonald's report regarding his inspection of the school on June 1.

Surveys & Engineering Branch

Re: Beauval Indian Residential School

I desire to acknowledge the receipt of your memoranda of July 12 and August 12 in connection with the proposed installation of a Hydro electric plant at the above-mentioned school.

We have now received the approval of the Honourable the Minister for the expenditure that you report in your memoranda is necessary. As you are able to give the necessary detailed information to the Purchasing Branch I would appreciate it if you would arrange for the purchase of the equipment that will be required. The following is the expenditure that the report shows will be necessary:

Cased horizontal reaction type high speed water turbine
governor and gate valve\$5,000.00

Belted type 20 K.V.A. - 125 volt A.C. generator
with exciter 1,000.00

One panel switchboard, switches and instruments 200.00

Centrifugal pump 150.00

340 foot wood stave penstock 1,000.00

200 bags cement delivered Beauval 500.00

Steel pipe from turbine to outside walls of
power house 100.00

Freighting, equipment and penstock Big River to
Beauval 700.00

Engineering and supervision expenses 500.00

Indian Affairs. (RG 10, Volume 6301, file 650-5, part 5)

2 - 2 H.P. Motors f.o.b. Big River	\$ 170.00
2 - 5 H.P. " " " "	250.00
1 - 1 H.P. " " " "	66.00
1 - $\frac{1}{2}$ H.P. " " " "	50.00
Freight - Big River to Beauval	50.00
Material and labour installing	210.00

If it is not too late in the season to do the work mentioned on Page 3 of Mr. Smith's report which was forwarded with your memorandum of July 12 I would appreciate it if you would issue instructions immediately to the Reverend Principal to proceed. It appears from Mr. Smith's memorandum that the Reverend Principal will supply, without cost to the Department, all labour required on the job.

Even though it is too late to do any actual work in connection with the foundation for the power house I trust that you will arrange for the purchase of all the equipment as we wish to pay for it out of the current year's appropriation.

The nearest railway station to the school is Big River, Saskatchewan.

November 13, 1938.

Memorandum:

Dr. McGill. **R**

Re - Beauval Indian Residential School.

There are certain points relative to the proposed hydro-electric installation at the above School which should be cleared up before the equipment is purchased. The specifications have been completed and a requisition has been sent to the Purchasing Agent asking him to call for quotations.

(The use of water from Lac la Plonge and from the La Plonge Creek for hydro-electric purposes would, if the project were entirely new, be subject to the approval of the Natural Resources Department of the Province of Saskatchewan. It is noted, however, that a dam was constructed some time ago at the lake outlet and that the School has already constructed another dam, with forebay, on La Plonge Creek in the vicinity of the School buildings. Will you kindly advise me if any authority was obtained from the Province for the erection of these two dams and under what financial arrangements they were erected. If the dam at Lac la Plonge was erected prior to the transfer of natural resources, the School authorities may have obtained the permission of the Federal Government, although there are no records in this connection in our Dominion Water Power Bureau.

The estimated cost of the list of equipment contained in Mr. Smith's report, exclusive of motors, is \$9,150. It is noted that no specific mention is made of the cost of the necessary surge tank and if this has not

Indian Affairs. (RG 10, Volume 6301, file 650-5, part 5)

**PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA**

included in Mr. Smith's estimate, the estimated cost, at the present time, would approximate \$9,500. However, Mr. Smith's estimated cost for the wood stave penstock seems liberal and possibly the cost of the surge tank is included in this figure.

While Mr. Smith mentions in his report that Father Gagnon assured him that the School would supply all labour and material for the foundation work, laying of penstock, etc., and in fact all labour required, I think it essential that you communicate with the School authorities and have confirmation of this arrangement in writing. Father Gagnon should be advised that the work to be done will include the installation and erection of all equipment, including turbine, generator, penstock, etc., and that this represents a very considerable amount of labour, some of which must be highly skilled, particularly in regard to the installation of turbine, generator, switchboard, etc. We will arrange to supply an Engineer to supervise the installation and will expect the School to provide him with board and accommodation. According to our understanding, all other assistance, including foreman, skilled labour and common labour, together with necessary construction equipment, will be furnished by the School authorities. A suitable hand-operated derrick or crane will be necessary to handle the heavy castings of the turbine and the generator, etc.

It would be appreciated if you would communicate with Father Gagnon on the above points as these matters should be definitely settled before any order is placed.

It is noted that the Department will assume the cost of freighting the equipment from Big River to Beauval and which will be undertaken in the winter months.

J. M. Macdonald
Director.

Memorandum:

DIRECTOR

Surveys & Engineering Branch

Re: Beauval Indian Residential
School

On receipt of your memorandum of November 18 with reference to the proposed hydro electric installation at the above school I immediately wrote to the Principal.

I am now in receipt of the following reply dated December 10, 1938:

"I am sorry, I could not answer your letter of the 24th ultimo any sooner, for the simple fact that after freeze up, the first mail was received only on the 6th of December. However, wishing to co-operate with you to install the new hydro electric plant in Beauval, I am giving you the following information:

"1. Dams.

The first dam, on the La Plonge Creek, with a forebay was constructed in 1904, by the Beauval R.C. Mission, therefore having the rights of the first occupant.

The second at the outlet of La Plonge Lake was erected in 1935 with the authority of C.J. McGavin, chief engineer of Water Rights, Department of Natural Resources, of Regina, Sask. This dam as well as the first one was erected by the R.C. Mission at Beauval and all expenses were paid by the said Mission. The use of the

Indian Affairs. (RG 10, Volume 6301, file 650-5, part 5)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

dams will be for the school. Therefore, there will never be any trouble arising from it. This is a friendly co-operation between the Church and the Indian Affairs Branch.

"2. New electric plant.

The report made by Mr. E. Smith is O.K. The management of the school is ready to co-operate with the Indian Affairs Branch for the construction as well as for the installation of this plant.

The school will provide the engineer with board and accommodation. I would appreciate very much, if Mr. E. Smith would be given a chance to come and supervise the work.

Also, the school will provide foreman, skilled labour, common labour, together with the necessary construction equipment, including a suitable hand-operated derrick.

Once more, I take the liberty to thank you very much for your co-operation in making it possible to have a new electric plant in Beauval, which was badly needed since the destruction of the former shop."

I trust that the above is the information you require and that immediate arrangements will be made to purchase the equipment in order that it may be shipped to the school early in 1939 which will permit us to pay for it out of the current fiscal year's appropriation.

Memorandum:

Dr. McGill

Re: Beauval Indian Residential School.

Expenditures in connection with the purchase of equipment for the hydro-electric plant at the above mentioned school are estimated at \$9,322.61. There is an estimated amount of \$4,800.00 available of the moneys transferred to us from Vote 168, which may be applied to the expenditure at Beauval, leaving the sum of \$4,500.00 to be provided.

Under the circumstances, I should be pleased if you would arrange at the earliest possible moment for the transfer of the sum of \$4,500.00 to this Branch.

In your memorandum of the 20th September last, you advised that the approval of the Minister for this expenditure had been received.

March 30th, 1939.

Memorandum:

Dr. McGill

Re: Beauval Indian Residential School.

With reference to the purchase of the hydro-electric equipment required for the Beauval Indian School, the order for which was placed with Messrs. C. Barber & Sons, Meaford, Ontario, at a cost of \$6,125.00, we are now advised by this firm that they will not be able to make delivery of the major portion of this equipment by the 31st March, and therefore it will only be possible for us to pay out of this year's funds for the generator, switchboard, lightning arresters and V belt drive, the invoice price of which totals \$1,613.00, which, less 10% holdback, amounts to \$1,451.70.

Under the circumstances, it will not be necessary for your Branch to provide the \$3,000.00 which we previously asked for. It will be necessary however, for your Branch to provide out of your next year's vote, the sum of \$5,000.00 to meet the payment for the balance of the above mentioned purchase, as well as the 10% holdback.

I might add that there is an amount of \$1500.00 which may be transferred back to your Branch should you require this money for any other purpose.

Indian Residential School.
Beauval Sask.,

December 4 1941.

Mr. J. P. B. Ostrander,
Indian Agent,
Battleford, Sask.,

Dear Sir:-

You will find enclosed three copies of an invoice from the C.A. Dunham Co. of Toronto, covering the purchase of thirty eight radiator traps, which were bought for the Indian Residential School at Beauval, Sask, and I kindly ask you to forward these invoices to the Indian Affairs Branch for payment for the following reasons:

When the heating system was put up at the school, it was late in the fall, at a time when communications were absolutely impossible. Then the contractor noticed that these traps were short, so he simply had to complete the work without them. Things went on since, but the residents of the most remote rooms from the boiler room were always complaining about cold, while in the center it was too hot.

This fall, I just happened to meet a steampipe fitter to whom I exposed my problem and after having examined the heating system, he simply told me that I had to get these traps in order to regulate the heat.

So I purchased same immediately to permit him to finish the work before leaving. He even made 5 floats and thermostatic traps at the end of the mains, thus saving the Indian Affairs Branch about \$400.00. All this has made the system working in a very satisfactory condition. Therefore I am confident that Ottawa ^{will} make no difficulty to pay this bill if it is well explained to the officials.

Yours very truly,

F. X. Gagnon O.M.I.

OTTAWA January 28, 1942.

Dear Sir,-

On October 21, 1941, you invoiced the Indian Residential School, Beauval, Sask., for 38 radiator traps at \$166.86 f.o.b. Toronto. While the order was placed by the Principal of the School and has apparently been billed at retail prices, this account is payable from Dominion Department of Mines and Resources funds. We find the prices you have charged on your invoice #177 high, as on plumbing supplies and other equipment, wholesale houses usually allow our Department a substantial discount or wholesale prices. We would suggest your favourable consideration of our request that you submit to this office revised invoices (5 copies) billing the goods at wholesale prices, or at a discount of at least 20%.

If you can see your way clear to do this, we will be pleased to arrange for prompt payment.

Yours very truly,

H.J. Davidson

March 3rd. 1942.

Dear Sir,

On December 17th. 1941 I submitted voucher No. 431 in favour of C.A.Dunham Co., Ltd., Toronto. Ont. covering purchase of 38 Radiator Traps for the Beauval Indian Residential School, together with letter of explanation why this expenditure was incurred from Rev. Father F.X. Gagnon.

Will you please advise me if this voucher was paid?

Yours truly,

J.P.B. Ostrander.

Dear Sir:

With reference to your letter of the 3rd instant I may advise you that cheque 40550 for \$130.82 was forwarded to the C.A. Dunham Company on February 10 last in payment of your voucher No. 431. This amount is less than that shown on your voucher as the Purchasing Branch communicated with the Company and secured a discount.

Yours truly,

R.A. Hoey,
Supt. of Welfare & Training.

Indian Residential School.

Beauval Sask.,

June 3 rd 1942.

Mr. J.P.B. Ostrander,
Indian Agent,
Battleford Sask.,

Dear Sir:-

As requested in your recent visit to Beauval, I am sending you a list of the urgent repairs for the school.

Boilers;

The two fire brick lining for the fire box of both boilers have to be renewed; Needed:

800 bricks (Fire)
Sufficient fire clay to set the brick.

2 only Plates Cast Iron 50" long x 12 " wide x 1½ " thick in the center. These plates are needed to support the bricks right over the fire doors inside.
The Boilers are from " The Vulcan Iron Works " Winnipeg, Man. and the only no. at the front is 48

Paint:

10 Galls.	Ivory ready mixed Paint for Plastered Walls.
5 "	Ceiling blue Paint. Ceiling.
25 "	Indian Red Barn Paint.
500 Lbs	White Lead. in 25 lbs Pails.
45 Galls.	Linseed Oil. Boiled.
1 only bag	Hardwall Plaster.

Screens:

300 Yrds Screen Wire Cloth 44" wide to make screens for the school. Will make them here.

Cook Stove:

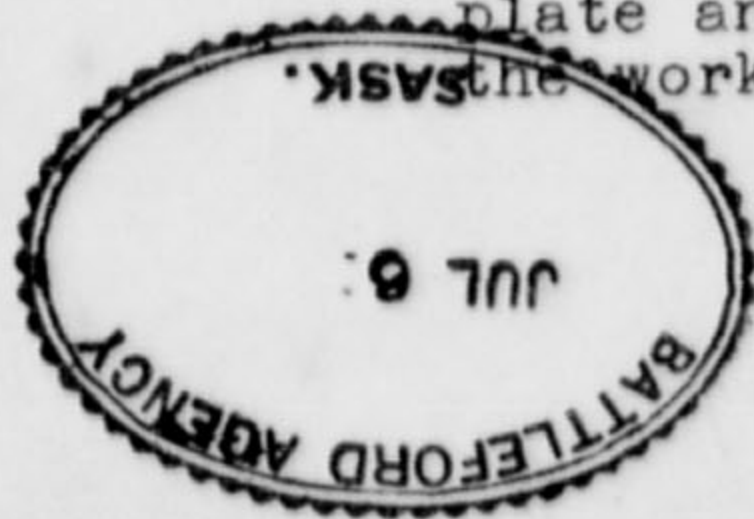

As you strongly recommended to the girls departing from school to have a good cook stove in their home, I thought it would be a good idea to have a model here in school, where the Sisters could show them how to use it, in order make good bread and cook an ordinary meal for family like.

I would be very grateful if the fire bricks and cast iron plate and also the paint could be sent early enough to do the work this fall.

Yours very truly,

F. X. Gagnon O.M.I.

MEMORANDUM FOR FILE:

Mr. Vincent reports that the items on this requisition, not including the last one calling for 300 yds. screen wire cloth, will amount to approximately \$350. In addition to this, a Priority will be required for the screen wire cloth and the only quotation received for the material is around \$130. He suggests that the item be omitted and Mr. Hoey has given approval for this action.

OTTAWA August 20, 1942.

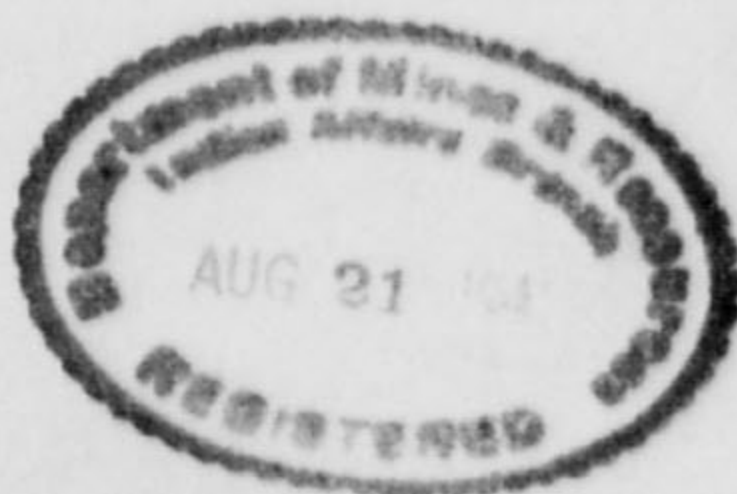

Memorandum

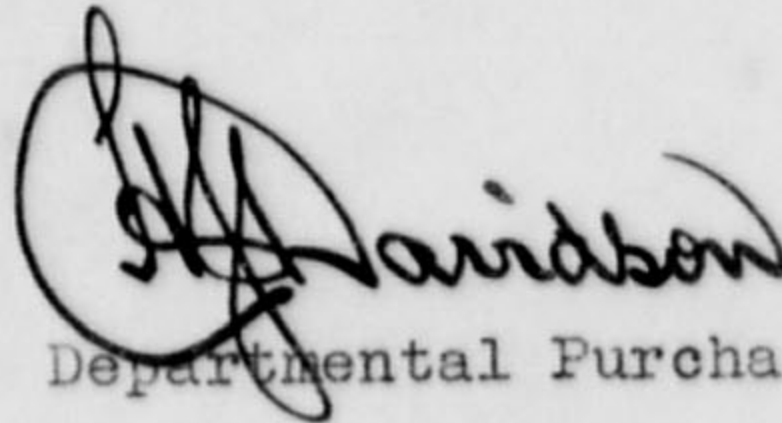

Mr. R.A. Hoey

Please find herewith copy of Purchase Order Nos. 14198 and 14115 for material for the Beauval Indian Residential School. This completes the equipment covered by your requisition No. 132-1-5, with the exception of the last item calling for 300 yards screen wire cloth. If this item were forwarded the total cost would exceed \$400.00.

We received today letter from the Vulcan Iron Works Limited, Winnipeg, with reference to the cast iron plates covered by purchase order No. 14030. They state that according to their records no Arch Plates were provided at the time the original boilers were manufactured and assume that it is the intention to use the cast iron plates instead of standard Arch Plates. They strongly recommend that these standard 48" Arch Plates be supplied in place of the cast iron plates we have ordered, as the former will make a more satisfactory job. They have sent copy of their letter to the Principal of the School.

Will you kindly arrange to secure the opinion of Rev. F.X. Gagnon, regarding this proposed change to enable me to reply to the letter from the Vulcan Iron Works Limited.

J. H. Davidson

Departmental Purchasing Agent.

[Handwritten signature]
Gentlemen,

With reference to your letter of the 18th ultimo, regarding cast iron plates for boilers at the Beauval Indian Residential School, please be advised that information has been received from the principal of the school that two, only, 48" cast iron standard arch plates, 12" wide, 1 1/2" thick should be supplied to fill purchase order #14030, instead of the 50" plates originally specified.

We understand from your letter that you have the standard plates in stock and that you are, therefore, in a position to ship same promptly.

Yours very truly,

[Handwritten signature: H.J. Davidson]

Mr. R. A. Hoey,
Supt. of Welfare & Training,
Indian Affairs Branch,
Ottawa Ont.,

Dear Sir:-

File 132-1-5.

I just received your letter of the twenty first ultimo regarding memorandum received by you from the Departmental Purchasing Agent.

As the Vulcan Iron Works from Winnipeg had already sent me a copy of their ^{letter} sent to Mr. H.J. Davidson, I communicated directly with him, stating that the standard 48" Arch Plates would do. Copy of this letter has been sent to the Vulcan Iron Works. Both parties must have received it by now.

May I take this opportunity to thank you very much for this attention given to my requisition.

Yours very truly,

Gentlemen:

Re: Purchase order No. 14198,
August 18, 1942, your
order No. 2961.

The above covered paint and oil to be shipped to the Indian Residential School, Beauval, Sask. Your tender stated that your quoted price included sales tax. However, when the account reached us it was found that you charged sales tax extra. Your tender also quoted the drum at \$5.40 while the account that you submit requests payment for this drum at an amount of \$8.00. Your account requested payment of \$219.84. Deducting the charges for sales tax and the difference in the drum makes a deduction of \$15.18 and a cheque for \$204.66 is being forwarded to you.

Yours truly,

R.A. Hoey,
Supt. of Welfare & Training.

Beauval Indian Residential School

A day was spent at this school and, as usual, everything was in the best of order. The children are healthy, happy and receiving an excellent training for their future lives. There are the very best kind of teachers in the three class rooms and the children make wonderful progress under their tuition. The writing, reading and rapid calculation of the boys in the older room would put most white boys to shame; the other rooms are almost equally good. The school has a large herd of well-bred Shorthorn cattle, which are used for both meat and dairy products. There is milk and butter in abundance for the use of the children. A large garden provides vegetables throughout the year. The school farm produces wheat, oats and barley, all used on the premises. The oats and barley for cattle and hog feed and the wheat for feed and for making flour, which is done on the premises with a flour mill operated by the school. The whole management of this school reflects honour upon the Principal, Reverend Father Gagnon.

Father Gagnon is a great missionary, but he is, in addition, a great business man, with vision and imagination, willing to try anything which promises to promote the best interests of the school and the welfare of the Indian children. A large herd of cattle, hogs and horses receive daily care by the Indian boys, who also assist in operating the flour-mill, saw-mill and all farm machinery, in season. The lighting plant is operated by water-power, as is also the saw-mill, and the cost of operation of each is almost nothing. There is a large flock of chickens which keep the school supplied with fresh eggs. These, also, are under the care of the boys of the school.

The girls are taught cooking, baking, sewing, knitting, carding, spinning and weaving, as well as bead-work and silk work for ornaments of their own choosing. I notice an air of happiness and good will amongst the children and between the children and the school staff, which speaks well

of their relationship at all times.

The school buildings are in good repair. The main school building is almost completely fire-proof. An evidence of this is shown by the fact that lightning struck the school last year and came into one of the rooms at night. The scorched wall was found in the morning and can still be seen, but no fire resulted.

Indian Residential School.
Beauval Sask.,

August 3 1943.

Mr. Philip Phelan,
Chief, Training Division,
Indian Affairs Branch,
Ottawa, Ont.,

Dear Sir:-

Two years ago, the district manager of the Singer Sewing Machine Co. of Battleford, Mr Joseph Dowling, while visiting his district, dropped at the school and looked over all the sewing machines, repaired some but four of them were not worth repairing.

Up to now, I have been unable to secure any new machines through the proper channel. Therefore, I am sending my request directly to you, hoping it will receive better consideration.

So, in order to keep up the training of Indian girls, we need:

4 only Singer Sewing Machines style 15-88.

With the war on, it has become almost impossible to get any repairs for the school and farm machineries for the following reasons: slow mail service, lack of communication at certain times of the year, great distance from the end of the rail, war restrictions, scarcity of repairs.

To obviate all these inconvenients, I would require one Electric Welder, capable of cutting $\frac{1}{2}$ " steel boiler plates, complete with accessories, rods, etc.

We have free electricity and a good mechanic. The generator is A.C. 25Kva, 110-220 volts, 60 cycles, 3 phase. I hope this request will be taken into consideration, as it would be a great benefit to the school and also in helping to solve partly the food shortage situation, by repairing trucks and tractors used to haul fish in winter time.

Yours truly,

F. X. Gagnon O.M.I.

EXD.

Ottawa, August 11, 1943.

Dear Father Gagnon:

I have received your letter of the 3rd instant, to the purchasing branch with the request to secure four sewing machines for the Beauval Indian Residential School.

In view of war requirements it is impossible for us to secure an Electric Welder which you requested in your letter. I realize that this would be of considerable assistance to you but as I have just stated it is impossible to secure one under the present conditions.

Mr. Philip Phelan,
Chief, Training Division,
Indian Affairs Branch,
Ottawa. Ont.,

Dear Sir:-

This to acknowledge receipt of your letter, dated February 16 in regard with free issue of radio license for educational purposes. Many thanks for your past and present favors.

May I also take this opportunity to inform you that one high pressure steam boiler used at the school to heat up the hot water tank and to sterilize the laundry had to be discarded, at the request of the Saskatchewan Boiler Inspector.

I know it is a bad time to make such a request, but being considered that the Indians are so subject to skin diseases, that I think it a necessity to sterilize that laundry to avoid further spread.

Therefore, I would appreciate very much, if you could procure for this school one little boiler of ten to fifteen H.P. This could be shipped easily in winter time.

Thanking you in advance.

Yours very truly,

F. X. Gagnon O.M.I.

Dear Father Gagnon:

I have your letter of the 6th instant, with reference to the new high pressure steam boiler which you state is required at the Beauval Residential School. Before considering this request it will be necessary for you to let me know the complete dimensions and the name of the firm by whom the boiler at present in use was manufactured. I would also like to know the date on which it was purchased.

When ordering this equipment through our Purchasing Branch it is very necessary to have detailed information. Consequently I hope that you will be able to supply it.

Yours truly,

Philip Phelan,
Chief, Training Division.

March 24 th. 1944.

File no 132-1-5.

This boiler was formerly a steam tractor, which I bought from Mr. O.P. Godin, Big River, Sask., in the winter of 1929, to make the bricks for the school. This was a used tractor and was paid the Department with the other material bought for the school. In 1939, the engine burnt down and then the boiler was taken to the boiler to be used as a high pressure boiler for the laundry. It was a Gaar-Scott, 25 H.P., type L.T.

As mentioned, in my previous letter, the new boiler would not have to be so powerful, one 15 to 20 H.P. would take care of our present needed power to supply steam to the laundry.

Hoping these informations will be satisfactory, I conclude by saying that the Rev. Sisters will be quite disappointed if I cannot replace this old boiler.

Ottawa,
April 4, 1944.

Dear Father Gagnon:

I have your letter of the 24th ultimo, with further reference to your request for a new high pressure boiler.

I regret that the information already received is not sufficiently definite to permit our requesting the Purchasing Branch to secure a boiler.

Before doing so, it will be necessary for me to know exactly what type of boiler you require. You should also state if a vertical or horizontal boiler is preferable. We also wish to know the size of the room (three dimensions) in which the boiler will be placed. Will any fittings be needed? What would be the distance between the boiler and the chimney?

In your letter of March 6 you stated that the Saskatchewan Boiler Inspector had requested that the present boiler be discarded. We do not appear to have received any copy of his report in this regard and I should appreciate it if you would forward it to me. This will assist us in pointing out the necessity for supplying a new boiler at the present time. You realize, of course, that these are very difficult to secure under present conditions and consequently any recommendation from the Boiler Inspector is very important.

Yours truly,

Rev. F.X. Gagnon, O.M.I.,
Principal, Indian Residential School,

Mr. Philip Phelan,
Chief, Training Division,
Indian Affairs Branch,
Ottawa. Ont.,

Dear Sir:-

Having only a few minutes to answer yours, dated April 4 th, regarding informations about request for a new high pressure boiler, I will be brief.

A stationery and horizontal boiler, with a capacity of around 15 to 20 H.P. is required.

As this boiler will be sitting close to the low pressure boilers for the heating plant of the school, I will give you the dimensions between the boilers and the wall. i.e. 9 feet, 11 feet high and 14 feet long.

The distance from the boiler to the chimney is 12 feet. As the safety valve, water gauge and injector from the discarded boiler are still good, no fittings would be required.

You will also find enclosed herewith a letter from the Saskatchewan Boiler Inspector advising us to discontinue the use of this boiler. I had explained to him what happened to the boiler and at the same time I was inquiring of the feasibility of having this boiler repaired with welding outfit. You will see the answer.

Hoping these informations will be satisfactory and thanking you in advance for the services rendered.

I am,

Yours very truly:

F. X. Gagnon O.M.I.

Memorandum:

DIRECTOR

Surveys & Engineering Branch

Re: Beauval Indian Residential School

This Branch has just been advised by the Principal of the above-mentioned school that, due to low water in La Plonge River during the past two winters, the river has frozen solid. This condition has existed approximately from December 15, 1942, to May 15, 1943, and also during the period December 15, 1943, to May 15, 1944. As a consequence there is no water to operate the turbines which supply the electrical power for the school.

The Department feels that it is important to have an engineer visit this school at the earliest possible date, with a view to determining if anything can be done to overcome the condition mentioned above. It would, therefore, be appreciated if you would arrange to have one of your engineers visit the school as soon as possible and submit a report regarding what action he considers could be taken.

In connection with the power plant at this school, I would refer you to your memorandum of August 31, 1938, and correspondence previous to that date.

ENGINEERING BRANCH

Ottawa, May 26th, 1944.

Dr. McGill

Re: Beauval Indian Residential School.

With reference to your memorandum of May 18th and on looking over our files in this matter, it would appear from an earlier report of Mr. E. Smith, Chief Operator of the Cascade Power Plant, who installed the turbine^{and} electrical equipment at this school in August 1939, that the school is situated on the creek which flows from Lac La Plonge about 4½ miles downstream from the outlet of the lake.

Mr. Smith reported that the approach to the outlet of the lake where there is a dam had a depth of only 3 or 4 feet. He considered that conditions would permit of, at least, one foot of water being drawn from the lake. He made no report on the 4½ miles of creek between the outlet of the lake and the school.

Mr. Smith foresaw the possibility of trouble arising from freezing at the outlet of the lake but Father Gagnon assured him that this did not happen.

However, it would seem possible, particularly if the outflow from the lake has diminished considerably, that in a severe winter either the outlet of the lake or shallow stretches of the creek may freeze solid to the bottom,

(over)

Indian Affairs. (RG 10, Volume 6301, file 650-5, part 5)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

and this could cut off water supply to the turbine. To correct this, it would be necessary to investigate the entire length of the creek between the lake and the school and wherever necessary, deepen it to five or six feet, which might prove to be a major undertaking.

We had not planned to have an Engineer in that area in the near future, but this matter will be borne in mind so that if opportunity should occur, an investigation will be made.

J. M. Wardle

Director.

Dear Father Plourde:

With reference to the Beauval Indian Residential School, the Surveys & Engineering Branch was written on the 18th instant in connection with the difficulty of operating the turbines during the winter. We are advised that, while they had not planned to have an engineer in the Beauval area in the near future, they will keep the matter in mind and as soon as opportunity offers an investigation will be made.

Yours truly,

R.A. Hoey,
Supt. of Welfare & Training.

Memorandum

Mr. R.A. Hoey

With reference to the horizontal type boiler, 15 H.P. 100 lbs. working pressure, covered by your requisition, File 132-1-5. Tenders have been received on 15 H.P. boiler at \$1263.00, and on a 10 H.P. boiler at \$1025.00.

We note from the letter accompanying the requisitioned signed by Mr. Fred Hayes, Inspector, Steam Boilers Branch, Department of Public Works, Prince Albert, Sask., that there are a number of good second-hand boilers in the vicinity of Prince Albert that may be purchased at reasonable rates. I would suggest that before we authorize the purchase of a new boiler that we take advantage of Mr. Hayes' suggestion, and endeavour to locate a good second-hand boiler, if it is possible to do so. Possibly the Indian Agent at Leask could investigate.

I am sending you Mr. Hayes' letter herewith, addressed to Rev. F.X. Gagnon, Beauval, Sask., and when it has served the purpose, will you please return it to this office.

Prince Albert, Sask.,
Jan. 29th, 1944.Rev. F. X. Gagnon, O. M. I.,
Indian Residential School,
Beauval, Sask..

Dear Father,-

Received your letter this morning. It took considerable time to reach me, because it went to Regina first they returned it to me at Prince Albert.

Re-Your Gaar Scott Boiler #8119.

From your explanation in your letter I would say that it is impossible to do anything with a welding torch as the expansion and contraction is so great that you can't keep it from cracking. I have had several boilers like that of late that went the same way and had to be discarded. So my advice to you is to discontinue ~~xxxx~~ the use of same, as we would not like to have anything happen in the way of explosions.

If you are stuck for a boiler, there are quite a lot of good second hand boilers that can be picked up pretty reasonable and could be freighted in during the Winter months. The boiler could be stripped down which would make it easy to handle. If you anticipate on getting a second hand boiler let me know and I will gladly assist you in trying to locate one.

Sincerely yours,

Arvid Hayes

P.S.-Best wishes to yourself and Br. Beaudoin.

Dear Sir:

Reverend F. X. Gagnon, O.M.I., Principal of the Indian Residential School, Beauval, Sask., recently forwarded to the Department your letter to him dated January 29, last. At that time you stated that there were a number of good second hand boilers available around Prince Albert. You know the type of boiler that is required at the Beauval School, and it would be appreciated if you would let me know if there is a second hand boiler available at the present time which would fill the requirements. If so, please state its cost and the name and address of the person from whom it can be secured.

Yours truly,

R. A. Hoey,
Supt. of Welfare & Training.

Reverend Sir:

I desire to refer to your letter of April 25 and previous correspondence, with reference to the boiler required at the Beauval Indian Residential School.

Our Purchasing Branch obtained prices on a new boiler for your school and a tender on a 15 H.P. boiler at \$1263.00 and on a 10 H.P. boiler at \$1025.00.

Some time ago you forwarded to us a letter that you had received from Mr. Fred Hayes, of the Steam Boiler Branch, Department of Public Works, Prince Albert, Sask., dated January 29, 1944. In this letter Mr. Hayes stated that second hand boilers were available near Prince Albert. We are, therefore, writing to him, regarding the possibility of securing a good second hand boiler, and for your information I enclose a copy of our letter. As soon as we hear further from him, I will write you again.

Yours sincerely,

Encl.

Department of Mines & Resources,
Indian Affairs Branch,
Ottawa, Canada.

Dear Sirs:

Fred Hayes, boiler inspector, informs me that per your letter of July 11th to him, you wish to secure a boiler for the Indian Residential School at Beauval, Sask.

I have suitable boilers, two of which Mr. Hayes says will answer your purpose. You do not state in your letter whether you wish boiler and engine, or boiler only.

If you wish boiler only, the Case boiler which carries 140 pounds of steam - a 25 horse power boiler, is priced at \$225.00 f.o.b. Prince Albert.

I also have a Gariscott engine which is complete - boiler, engine and rocker grates.

This would be \$425.00, f.o.b. Duck Lake.

If you wish either of these delivered to Beauval I will quote you prices delivered.

Please advise,

Yours truly,

(Sgd.) Alex Colleaux

Memorandum

Dr. H.W.McGill

With reference to memorandum of the 24th instant, (I.A.B. file 132-1-5), it is noted that Mr. Alex. Colleaux, 504-12th St. West, Prince Albert, Sask., offers a boiler, 25 H.P. carrying a pressure of 140 lbs. of steam at \$225.00 f.o.b. Prince Albert, Sask. If this is a horizontal boiler, not too large to fit into available space at the Beauval School (14' long 9' wide, 11' high) and if it is in good condition, it would appear to answer the needs of the school.

I would suggest that the boiler be examined by Indian Agent Jones, and by Mr. Fred Hayes, and that the former arrange for purchase and delivery of same, provided it is satisfactory as to condition, size, and capacity.

When delivery has been taken, please send voucher and invoice to this office for the usual action.

AIR MAIL

Dear Sir:

With reference to my letter of July 11, we recently received a letter from Mr. Alex Colleaux, 504 - 12th Street West, Prince Albert, offering a boiler, 25 H.P., carrying a pressure of 140 pounds of steam, at a price of \$225 f.o.b. Prince Albert. If this is a horizontal boiler and not too large to fit into the available space at the Beauval School (14' long, 9' wide, 11' high) and is in good condition, we feel that it would answer the needs of the school.

It would be appreciated if you would examine this boiler and, if you consider it satisfactory as to condition, size and capacity, you may authorize Mr. Colleaux to ship same to Reverend F.X. Gagnon, O.M.I., Principal, Indian Residential School, Meadow Lake, Saskatchewan. In the event of your approving the boiler, you should have Mr. Colleaux prepare an account in duplicate which I should appreciate your certifying and forwarding to this office and payment will be made immediately.

Dear Father Plourde:

With reference to your inquiry regarding payment for a rug supplied to the Beauval Residential School, you will recall that this was purchased from Gaults Limited. The account which we have on file is dated April 2, 1943, and mentions one 9 x 12 Axminster rug -- \$42.

A voucher was issued in this office on March 3 requesting payment of this amount to Reverend F.X. Gagnon, O.M.I., Principal, Indian Residential School, Beauval, Saskatchewan.

Cheque 19070 dated March 7, 1944, for \$42 was issued and sent to Father Gagnon.

The cancelled cheque has been returned through the bank to the Auditor General's office and I have had an opportunity of seeing it this morning. It is endorsed in ink as follows: "F.X. Gagnon, per E. Ringuet." It bears a rubber stamp showing that the cheque was deposited in the Royal Bank of Canada, The Pas, Manitoba, to the credit of the R.C. Episcopal Corporation of Keewatin on July 10, 1944.

During the past three winters the power for the School and Mission has been generated from a belt connection to a diesel tractor which the mission have on hand. I understand from Father Gagnon that this was barely satisfactory and involved a number of difficulties other than depriving the mission of the use of the tractor. The domestic supply during the first two of the last three years was obtained by hauling it from a spring located below the pumphouse. Last winter a concrete well was constructed into which the spring flowed, and the water was pumped from there to the storage tank at the school. This tank has a capacity of 2000 gallons and in case of fire, this arrangement would not be adequate; also there is evidence at present of the spring drying up to some slight extent.

Dismissing the idea of piping the water from above the upper control dam as either too costly or not dependable, there appears to be only two other solutions to the situation which has developed.

There is the possibility of creating a reservoir above the power dam with sufficient pondage to operate the power unit and meet domestic requirements during the four months when the supply from Lac La Plonge is cut off. I do not believe it would be good policy to raise the level at the present dam with this in mind. This scheme, therefore, even if otherwise practical, would involve the prospect of building another dam, also the water thus impounded may not prove suitable for domestic supply.

The only scheme that seems practical and which the writer would recommend at the present time, would be the installation of a diesel unit. While the transportation difficulties that exist here would make the problem of bringing in fuel rather expensive, it would only be necessary to resort to this source of power for four months of the year. The diesel would also be on hand for emergency operation during other periods. The problem of domestic supply during the winter months, while barely adequate, could be managed. There is also a good prospect of the situation remedying itself later.

I have secured all the necessary field data required for the plans in connection with the issuing of a Provincial License, and will send the plans as soon as they are completed.

Re - Investigation Beauval Indian Residential School.

The situation that currently exists during the winter months at the Beauval School and Mission is a lack of water for both the domestic requirements and the hydro electric development. This situation has existed for the past three winters, and has been caused by freezing at the outlet of Lac La Plonge, thus cutting off the water which previously found its way down River La-Plonge.

The freezing is by no means a purely local condition and occurs not only at the outlet, but also for some considerable distance out into the lake. The freezing usually commences several hundred feet out from the outlet and gradually works in to the control dam which is approximately a quarter of a mile down the river from its junction with the lake.

These conditions did not exist until three years ago, up until which time the water in Lac La Plonge was at least 2½ feet higher than it is at present. As a result of this lower water level there is now no depth of water greater than 2½ feet within 1500 feet of the outlet into River La Plonge with the result that this whole area freezes solid during the cold weather. It is not a case of a sandbar or other obstruction impeding the flow and alterations in the construction at the control dam would not remedy the situation. The lowering of Lac La Plonge can in no way be attributed to the negligible amount of water which is allowed through the control dam down River La Plonge, as the sluice gate at the control dam is kept constantly closed except in the winter, and for the other brief periods during which the sawmill is in operation. River La-Plonge has a few small feeder streams and these supply sufficient water for both power and domestic supply. They cannot, however, be depended upon during the cold weather or very dry seasons.

The only remedy the writer could suggest for this freezing condition would be to pipe the water from the deeper portion of the lake past the upper control dam to a point where the bed of the river assumes a gradient sufficient to allow the water to flow freely. The upper section of River La Plonge in the vicinity of the control dam is, in places now less than 5 feet wide and one foot deep. This remedy would not, in my opinion, be a very feasible engineering operation. It would require a minimum of 2800 feet of pipe, and, disregarding the difficulties involved and expense attached to such an undertaking, there is no assurance that the level of Lac La Plonge will not recede still farther, thus rendering the scheme useless. Lac La Plonge has not a large drainage area, and forest fires in recent years have exposed most of the surrounding country. This may account partially for the lowering in the lake level, although precipitation in this district during the past three years has been subnormal. As an alternative to laying a pipe, there would be the prospect of digging an open channel out to deeper water. It would be impractical to attempt this without equipment which I am certain could not be brought in to this location.

Memorandum:

Re: Beauval Indian Residential School

In reference to your notation on Dr. McGill's memorandum of July 20th last regarding the water supply at the above school, we are attaching two copies of a report prepared by Mr. K. B. Andre following an inspection made during the period August 11th to 18th, 1944.

Mr. Andre states that until three years ago, the level of Lac La Plonge was at least 2½ feet higher than at present, and that there is now no depth of water greater than 2½ feet within 1500 feet of the outlet into La Plonge river. This area freezes solid to the bottom in winter cutting off the flow to the river and to the hydro-electric plant.

The lowering of the lake level is said to be due to sub-normal rainfall and not to any wasteful operation of the control dam, as the sluice is only opened when the sawmill is being operated and in winter. At other times there is a sufficient flow from some small streams entering the river below the control dam, but these cannot be depended on in cold weather or very dry seasons.

The excavation of a channel to deeper water in the lake is not feasible owing to the expense involved and the difficulty of taking suitable equipment over the road from Meadow Lake to Beauval, nor does the raising of the dam at the power plant to create sufficient storage to operate during the winter appear to be an attractive proposition.

During the past three winters when this low water condition has obtained the school authorities have operated the generator by a belt drive from their Diesel tractor. In this way they were able to carry on, but at the loss of the use of the tractor for other purposes.

Under the circumstances, Mr. Andre recommends that a Diesel engine be installed to operate the generator when the water supply is insufficient during the winter or in emergencies during other periods. We concur in this recommendation, and would suggest that, as was done at the McIntosh school when the penstock was being replaced, a used truck or automobile engine together with the necessary pulleys and belting be purchased, and installed by the school authorities. At McIntosh, the Department paid \$50.00 for the pulleys and belting, and \$100.00 for a used automobile engine. The school purchased the engine and installed it.

Encls:
J. M. Wardle, Esq.,
Director,
Surveys and Engineering Branch,
Department of Mines and Resources,
Ottawa, Ontario.

T. S. Mills
Chief Engineer.

P.S. The auxiliary engine mentioned above may be either Diesel or gasoline and either new or used, so long as it can deliver 30 H.P., which is the rated capacity of the turbine

September 21st, 1944.

Dr. McGill

Re: Water Supply, Beauval Indian
Residential School

We were able to arrange for an inspection of the hydro-electric plant at the above school by Mr. K.B. Andre of our engineering staff from August 11th to 18th last and I am forwarding herewith, for your information, a copy of Mr. Andre's report of August 25th and a copy of a memorandum, dated September 15th from Mr. Mills in which he summarizes Mr. Andre's findings.

You will note that the basic trouble is the lowering of the water level in Lake La Plonge to the extent that the maximum depth of water within 1500 feet of the outlet into the river is only 2½ feet. As a result this section of the lake freezes solid in the winter months cutting off the flow of water to the river and to the hydro-electric plant. Any works directed to obtaining a greater depth of water would be too costly for consideration and the best solution seems to be that recommended by Mr. Andre and mentioned in the last paragraph of Mr. Mills' memorandum. This is an installation of an auxiliary engine to deliver 30 h.p. and which will drive the generator over the winter months when no water is available for hydro-electric operations. You will note from Mr. Mills' memorandum that a used automobile engine will be satisfactory if a suitable one could be obtained.

recommendation, and would suggest that, as was done at the McIntosh school when the penstock was being replaced, a used truck or automobile engine together with the necessary pulleys and belting be purchased, and installed by the school authorities. At McIntosh, the Department paid \$50.00 for the pulleys and belting, and \$100.00 for a used automobile engine."

You will note from the above that the Surveys & Engineering Branch recommend an expenditure of approximately \$150.00. It is possible that you may have to pay slightly more than this amount. In any case I think it would be preferable for you to arrange the purchase of the automobile engine locally and also secure the pulleys and belting necessary. The season is advancing and local purchase will enable you to secure the items at the earliest possible date and have them installed.

Yours truly,

R.A. Hoey,
Supt. of Welfare & Training.

NOV 6 1944

Dear Sir:—

file
This is to acknowledge receipt of your letter, dated on the 27th. of September, regarding Mr. Andre's inspection of the water supply at Beauval School.

Mr. Andre's report is quite correct as I also beleive that the only practical solution would be to install a Diesel engine to operate the generator when the water supply is insufficient during the winter.

However, I think you will agree with the situation at Beauval is quite different than that of McIntosh. At McIntosh, it was for a short period, while at Beauval for the last 3 winters, from the middle of November to the end of April, we had to use the Diesel tractor and this year the water level is still lower than the previous years. Therefore, I think that it would be pretty expensive to run a truck or automobile motor for such a long period.

In the mean time, I have tried to locate some used Diesel tractor engines that where discarded by farmers some years ago, but untill now I have not been able to locate any.

However, I was told that the Departement of Fisheries at Ottawa had some idle Diesel engines at Coronation Island and Churchill and also with the closing of Air Training Centres, your purchase agent might be able to locate one of these Diesel engines.

In the mean time, I take this opportunity to thank you very much to the attention given to our request.

Yours very truly,

Dear Sir:-

Re file 132-1-5

May I suggest to you that I have found a good used Diesel motor 40 H.P. at Alex Colleaux, 334-13 th Street W. Prince Albert Sask.,. It is the same party from whom you bought the used boiler for the school.

I would have prefer to have some thing a little smaller from 20 to 30 H.P. But apparently it is hard to find.

I hope that you find a Diesel motor a little more suitable for our needs.

Yours very truly;

F. X. Gagnon O.M.I.
F. X. Gagnon O.M.I.

NOV 25 1944

Memorandum:

Re: Beauval Indian Residential School.

In reference to your notation on the memorandum of the 15th instant from the Director of Indian Affairs, with enclosures, the present generator is driven by a 30 H.P. turbine and an engine of at least equal capacity should be obtained if possible. It would be preferable to have the generator slightly over-powered rather than under-powered and the used engine mentioned by Principal Gagnon may, or may not, be capable of delivering its rated horse power, all depending on the condition in which it has been maintained, of which we have no knowledge.

We concur in the suggestion in the Principal's letter of October 27th last to Mr. Hoey that it might be well for the Departmental Purchasing Agent to attempt to location a suitable Diesel engine if possible.

Memorandum:

DEPARTMENTAL PURCHASING AGENT

At the Beauval Indian Residential School there is a Hydro Electric plant operated by water power. As a result of lowering the water level a section of the lake freezes solid in the winter months, cutting off the flow of water to the river and consequently to the Hydro Electric plant. As a result, no electricity is available at the school during the winter months.

An official of the Surveys & Engineering Branch has carefully investigated the situation and has recommended that we install an auxiliary engine to deliver 30 horse power. This would drive the generator over the winter months when no water is available for Hydro Electric operations. We have taken the matter up with the Principal of the Beauval School and he states that he has located a good, used, Diesel 40 H.P. motor, which can be secured from Alex Colleaux, 334 - 13th Street West, Prince Albert, Saskatchewan, at a price of \$800. On receipt of this information from the Principal we again submitted the matter to the Surveys & Engineering Branch and I enclose a copy of their reply. You will recall that we purchased a second-hand steam boiler from the same person in August last -- see your purchase order No. 26061.

As it is essential that the electric power be available at this school during the winter months

Indian Affairs. (RG 10, Volume 6301, file 650-5, part 5)

Re: Lighting plant for the Beauval
School
Attention Mr. Phelan

My dear Mr. Phelan,

You will no doubt remember the request made
by His Excellency Bishop Lajeunesse for an auxiliary lighting
plant for the above school.

Due to the lower water levels which have now
prevailed for several years in the Beauval region the hydro-elec-
tric plant of the school is in service for only a few months every
year and has to be supplemented by a gasoline or crude oil opera-
ted plant. Your suggestion that a second hand automobile motor
and generator be purchased and installed to meet the deficiencies
of the hydro plant has been considered and found inadequate besi-
des being expensive to operate. It must not be forgotten that
discarded automobile motors are all gasoline operated and, on
that account, their cost of maintenance is very high. At best,
they are only a makeshift. The case of McIntosh to which you refer
in your letter cannot be compared to that of Beauval because in
the former the interruption in the Hydro service was very tempora-
ry as it only lasted a little over two weeks.

The Beauval situation is quite different
because the low water level has now occurred every winter for
the past several years and nothing indicates that there will be
a change in these conditions in the near future. Consequently,
what we have to provide for Beauval is an auxiliary plant on
which the school can depend and which will be economical in opera-
tion. Only a Diesel power plant can meet these requirements and
we sincerely hope that you will consider its purchase favorably.
I am sending a copy of this letter to His Exc. Bishop Lajeunesse
and you may consider the present request as coming from him perso-
nally.

Yours very truly,

J. O. Plourde

Ottawa, December 16, 1944.

Dear Father Plourde:

I have your letter of the 14th instant, with reference to the lighting plant at the Beauval School.

As stated in your letter, the Surveys and Engineering Branch originally recommended the use of a second hand automobile motor. Following a letter to the Principal to this effect, he replied along the same lines as your own letter and stated that he could secure a good used Diesel motor from Alex. Colleaux, Prince Albert, for the sum of \$800. We submitted this proposal to the Purchasing Branch and they requested that more detailed information be secured regarding the motor suggested by Father Gagnon. Consequently, he was written on December 6 and I enclose copy of this letter, for your information.

Yours sincerely,

 Encl.

Indian Residential School.
Beauval Sask.,

Jan. 29 1945.

Mr. Philip Phelan,
Chief, Training Division,
Indian Affairs Branch,
Ottawa, Ont.,

File 132-1-5

Dear Sir:-

Referring to yours of the 6 th. ultimo regarding the used Diesel motor which was offered by Alex Colleaux, I just got word that this motor was sold out before.

Last week, being in Prince Albert, I inquired about an other one and unfortunately, I was told that I would not be able to find any used Diesel motor around here.

I also hapened to meet an agent for the International Harvesting Company who told me that by putting an application to the Board of Trades and Commerce, I would be able to get their U.D.6 Diesel, 36 H.P. on the pulley, 4 cylinders, the price would be around \$1300.00, but I think that your purchasing agent could get it for less if the order was put direct with the company.

This new machine would apparently cost only a few hundred dollars more than a used one and would give a long service without giving any trouble.

Hoping this suggestion will meet with your approval and that of your purchasing Branch.

Yours truly:

F. X. Gagnon O.M.I.

F.X. Gagnon O.M.I.

Memorandum:DEPARTMENTAL PURCHASING AGENT

I desire to refer to my memorandum of December 2 and your reply of December 5, 1944, re the proposed purchase of a used Diesel 40 H.P. motor for the Beauval Residential School.

On receipt of your memorandum of December 5, we immediately wrote to the Principal and this week we received a reply, of which I enclose a copy.

You will note from the third paragraph of the Principal's letter the type of machine which he considers is required. It occurred to me that you might be able to obtain a second hand machine of the type mentioned, or similar, through the War Assets Corporation. If possible to secure one, I would like to know where it is located, in order that arrangements can be made to have it inspected. We would also like to know the approximate cost of any machine that the War Assets Corporation has available.

Acting Director.

Dear Sir,-

Attention: Mr. C.W.Jackson.

Replying to your letter of February 19th, addressed to Mr. W.S.Kickley, we regret to inform you that we have no 40 H.P. Stationary Diesel Engine available at present.

The only engines of this type which we have to dispose of are two 500 H.P. engines which are at present located in San Fransisco, U.S.A.

However, we are pleased to note your inquiry for future action if, as and when engines of the type required are declared surplus to Government requirements.

Thanking you for your inquiry, we are,

Yours very truly,

Memorandum:

Mr. R. A. Hoey.

In reply to your memorandum of the 8th instant, your file 132-1-5, regarding the purchase of a used Diesel 40 H.P. motor for the Beauval Indian Residential School, I took this matter up with the War Assets Corporation, Montreal, Quebec, and a copy of their reply is attached for your information.

You will note that the War Assets Corporation have no engines of the type required at Beauval. They mention the possibility of having engines of this type declared surplus at some future date, but this will, in all likelihood, entail a long period of delay. I would be inclined to endeavour to secure the engine from some other source, so that it might be on hand at the school when required in any emergency.

Memorandum

Indian Affairs Branch

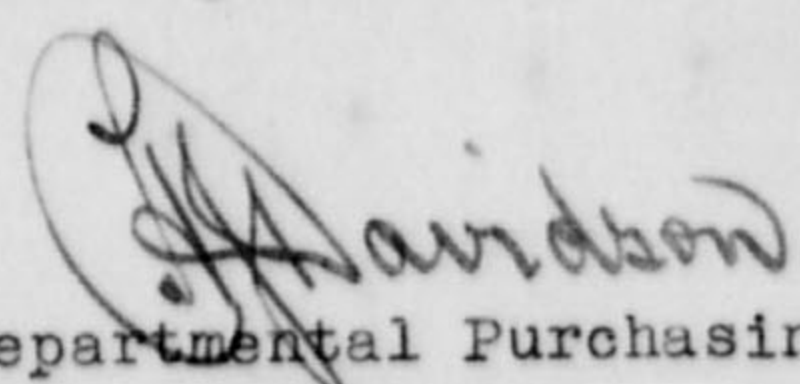

Re Diesel engine for Beauval School
your file 132-1-5

One firm asked to quote on the above requests the following information to enable them to tender on equipment suitable for use with generator:-

- (a) At what speed (RPM) is generator usually operated. Can you furnish a description or specification of same, name of manufacturer, and model number.
- (b) Is the generator operated with flat belt drive, V belt drive, or by direct drive. If the latter is used, what is the diameter and face of pulley on generator.
- (c) Is electric starter required for the Diesel engine.

Will you please arrange to secure the above and any other information regarding the equipment in use that will be of assistance in securing the most suitable Diesel engine. An early reply is requested.

AIR MAIL

Reverend Sir:

I desire to refer to your letter of January 29, last, with regard to securing a Diesel motor for the Beauval Residential School.

We endeavoured to secure a motor through the War Assets Corporation but were unsuccessful. Our Purchasing Branch is now trying to purchase a new motor, but this type of machinery is difficult to obtain. However, we hope to be successful and have the motor delivered before the Fall.

I enclose a copy of a memorandum just received from the Purchasing Branch. Please let me have specific answers to Questions (a), (b), and (c) and you should also give me any further information that you have available regarding the equipment required in order to assist us in securing the most suitable engine. An immediate reply is desired.

May 18 th. 1945.

Mr. H.J. Davidson,
Departmental Purchasing Agent,
Indian Affairs Branch,

Re file:15-16. Letter April 20,1945.

Re Diesel engine for Beauval School.

Answers:

- (A) Genarator. Canadian Westinghouse 25 KVA 80%P.F.
1200 RPM 120/208 volts,4 wire-3 phase-60 cycle,
A. C. genarator with exciter 125 volt direct,
6 Poles,69.5 Amp. Serial no 281192.
- (B) The Generator is operated with V belt drive.
V Belt is Dayton-Cog. 7/8 " ouside measure.
Pulley diameter 10 $\frac{1}{2}$ " with face 8 $\frac{3}{8}$ "
with 8 grooves for the 8 V belts.
- (C) The electric starter is not required specially
if UD-6 is bought as this motor is very easy
to start.

I am pretty sure that the UD-6 will
give good results,for the simple reason that
we have already used the T.D- which is the
same motor.

I hope these are the necessary
inforamations as required in your letter.

May 18 th. 1945.

Mr. Philip Phelan,
Chief, Training Division,
Indian Affairs Branch,
Ottawa, Ont.,

Dear Sir:-

Refile: 132-1-5.

Your two letters one dated April 21, and the other May 9 have just reached me to-day and I have only a few minutes to answer before the return of the mail.

You will inclose find herewith to Mr. J. H. Davidson, your departmental Purchasing Agent, a letter in which I have given him all the required informations.

As to the type of Diesel engine, I am of your opinion, namely that the engine offered by the Consolidated Engines & Machinery Co. Ltd, Montreal, Que. the UD-6 will be about the best and most suitable Diesel engine required at Beauval.

For the last 3 winters, we have used the TD-6 for this purpose and we were more than satisfied with it.

As the electric starter is not required I would recommend that this Ud-6 be equipped with a Reclamo Oil filter instead.

Many thanks for your kind services.

Yours very truly,

F. X. Gagnon O.M.I.

Ottawa, June 25, 1945.

Reverend Sir:

I desire to refer to your letter of May 18 and previous correspondence, with reference to the purchase of a Diesel engine for the Beauval Indian Residential School.

The Purchasing Branch reports that it is extremely difficult to obtain the type of engine that is required. The best promise of delivery that we can obtain is 48 weeks after receipt of approval and priority rating from the U.S. War Production Board. There is no guarantee that we can secure the latter approval, although we are endeavouring to do so.

However, you will note from the above that even though the requisite approval is obtained, it will be nearly a year before the engine would be available.

We are very anxious to co-operate with you, but, in view of the above circumstances, it occurred to me that possibly some other action could be taken during the summer. I understand that this engine is mainly required during the winter months, when the water level is low. Is there anything you can suggest that we could do to help you?

Yours very truly,

Philip Phelan,
Chief, Training Division.

Dear Sir:-

File 132-1-5

I just received yours of the 25 th. ultimo, about
the Diesel engine.

His excellency Bishop Lajeunesse just happened to
be here, so I showed him your letter. We both thing that
it will be hard to find any arrangement this summer.
And have no other suggestion to make except that we would
use our own tractor for an other winter.

The lake is still low and as we are in the rainy
period there is no hope to have water for the coming
winter for the turbine. In summer time so far the engine
is not needed. There is a fair amount of water.

If any thing would develop during the summer, I
will let you know.

Yours very truly,

F. X. Gagnon O.M.I.

Indian Residential School.
Beauval Sask.,

July 6 th. 1945.

Mr Philip Phelan,
Chief, Training Division
Indian Affairs Branch,
Ottawa. Ont.,

Dear Sir:-

Although so far I have not been very successful in obtaining the Diesel Engine, to-day I will try something else which have become almost a necessity to procure and give a well balanced ration to the staff and children of the school.

So far with an icehouse I have been able to keep wild meat and fish that were brought by the natives. But with the commercial fishing and the extinction of wild meat, the need of a good frigidaire has become a necessity to keep fish during the summer months and also a good supply of good and clean meat.

Therefore, I am asking if at all possible to supply us with a good Frigidaire this summer. And to show you how bad it is needed, his Excellency M. Lajeunesse says that we would be ready to supply the building material and the labor for the job.

To this effect you will find inclosed herewith a copy of a letter from the J.H. Ashdown Hardware Co. Ltd of Winnipeg, Man., giving the price and specifications of the whole equipment.

I would appreciate very much to receive a favorable answer to give us enough time to put up the building before freezing.

Thanking you in advance.

Yours very truly:

SPECIFICATIONS

Frigidaire Condensing Units

Air Cooled Models AF375, AF4100, AF5150

Frigidaire Condensing Units are available in a range of sizes to meet every commercial refrigeration need. Features listed below combine to produce maximum refrigeration capacity at a minimum operating cost.

Compressor—Two cylinder, slow speed, vertical, single acting, reciprocating type.

Service Valves—Two-way type with outlet provided for gauge connection. Integral with cylinder head on the Model AF375. Large forged brass valves are used on the Model AF4100. A large forged brass discharge valve and a malleable iron suction valve are employed on the Model AF5150.

Fin and Tube Condenser—Steel fin and tube (radiator type) condenser for rapid heat dissipation. Dual fans of special design, motor fan and auxiliary fan (which is mounted on a bracket brazed to the condenser and powered through a small V-belt), direct a maximum air flow through the large condenser surface to assure economical operation.

Receiver—Horizontal, steel shell type receiver. Large liquid capacity. Equipped with fusible plug and liquid line valve.

Liquid Strainer—Fine mesh metal screens filter all liquid refrigerant.

Lubrication—Adequate lubrication for all moving parts is supplied by oil splash. Large oil wells on top of main bearings supply oil continuously to the bearings.

Flywheel—High strength cast iron, statically balanced.

Drive—Multiple cog-type V-belts provide a positive and efficient drive. Flywheel, pulleys, belts and fans are protected by the condenser shroud.

Motor—Motors are specially designed for refrigeration duty. Capable of starting several times their rated horsepower. For standard equipment 110/220 volt, single phase, 60 cycle, A.C., repulsion-induction type motors are employed. Motor base adjustable for proper belt tension. Motors of other electrical characteristics are available on special order.

Motor Control—An improved, quick acting and dependable switch of compact construction operated from the low pressure side of the system. Holds calibration accurately. A high-pressure control stops unit if condensing pressures become excessive. Thermal overload protection with manual reset.

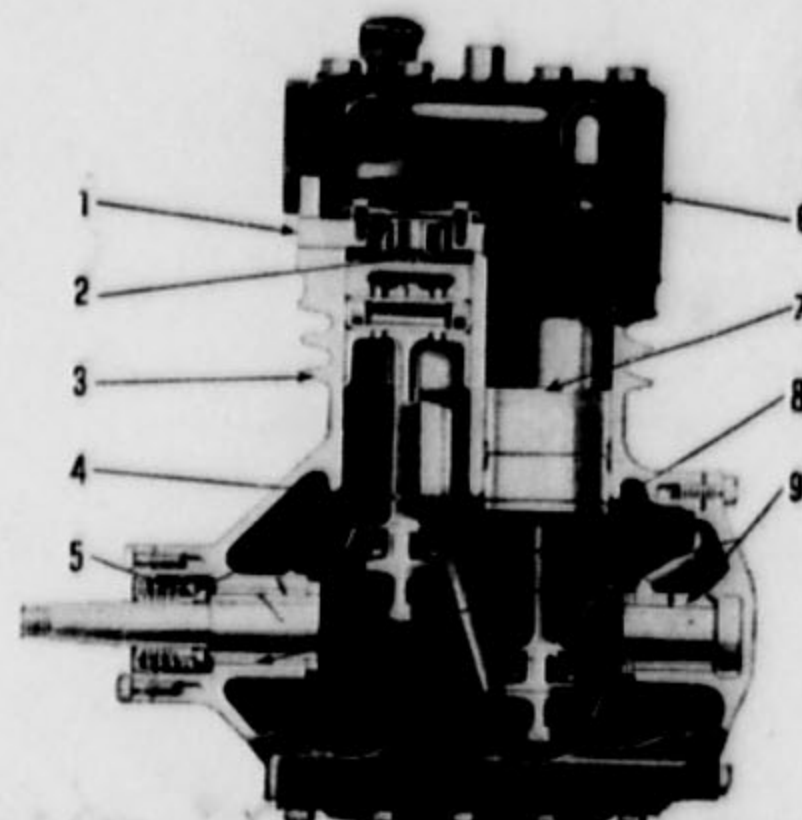

Condensing Unit Base—Heavy, one-piece, all steel, welded construction assures rigid support for entire assembly.

Finish—Condensing Unit finished in black baked enamel.

"Frigilube" Oil—Special 150 viscosity oil, refined to Frigidaire specifications. A positive lubricant that never "wears out."

Refrigerant—Freon-12, the safe refrigerant developed by Frigidaire and General Motors.

Safety Approval—Listed by Underwriters' Laboratories.

COMPRESSOR BODY

1. **Valve-in-Head Design**—Eliminates oil pumping difficulties. Increases efficiency of compressor and assures quiet operation.
2. **Intake and Discharge Valves**—Reed type assures quick acting and positive seating. Made of the finest grade spring steel. Large valve areas in special alloy cast iron valve plate allow maximum efficiency.
3. **Cylinder Block and Crankcase**—One-piece body of close-grained cast iron assures perfect alignment of moving parts. Cylinders accurately ground and oil honed to mirror-like smoothness. Sight glass in crankcase for checking oil level.
4. **Connecting Rod**—Steel, I-beam construction. Centrifugally cast bab-bitt bearing. Drilled for splash lubrication.
5. **"Lubrilock" Crankcase Seal**—Bellows type with special bronze bearing forced against a hardened, highly polished rotating steel surface. Flooded with oil to assure positive sealing with minimum friction losses.
6. **Cylinder Head**—Dome type. High grade cast iron.
7. **Solid Head Pistons**—Special cast iron. Precision fit to cylinders. Equipped with compression rings and oil grooves. Full-floating piston pins hardened and precision ground.
8. **Crankshaft**—Steel. Extra large, ground and polished main bearing surfaces.
9. **Main Bearings**—Self lubricating, oil impregnated duxex bearings.
10. **Suction Strainer**—Fine mesh metal screen in suction cavity acts as a scale trap. Small orifice in cavity returns oil to crankcase.

FRIGIDAIRE "MOISTEMP"

Designed and Built by Frigidaire for Matched Operation as a Unit

Frigidaire "Moistemp" gravity type cooling units are designed to provide proper moisture conditions as well as correct temperatures. To accomplish this, Frigidaire engineers developed an exclusive design which permits operation at higher temperatures, thereby decreasing moisture removal from the air.

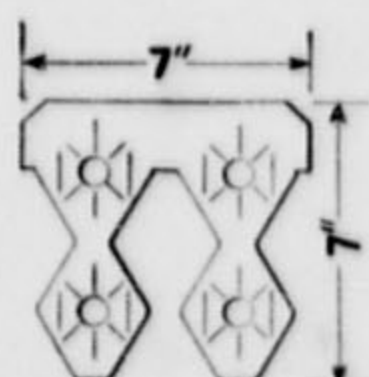

The design of the "Moistemp" cooling units provide extra fin surface at the top where warm air first comes in contact with the fins. This is accomplished through the use of exclusive diamond shaped fins which eliminate all ineffective heat absorbing surface.

Automatic defrosting during the off period of the com-

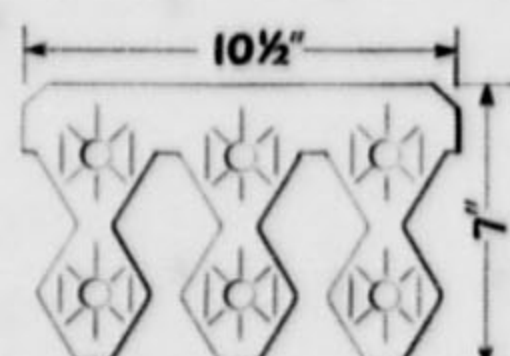

pressor is improved due to reduced fin surface at the bottom of the cooling unit, the point where ice or frost accumulation is usually experienced. The shape of the fin with the diamond pointing downward also aids in faster frost removal from the fin during the defrosting cycle. An additional defrosting aid results due to improved air circulation through the cooling unit.

The operating efficiency of the Frigidaire "Moistemp" cooling units is further improved by the use of the "wet expansion" principle of refrigeration. This method assures the entire internal refrigerant tube surface being "wet" with liquid refrigerant, thus insuring unusual efficiency in heat removal and economical operation.

COOLING UNITS

with Frigidaire Flowing Cold Condensing Units and Control Valves

Frigidaire "Moistemp" cooling units are available in a wide range of sizes and capacities. Six different widths are provided; namely, 7, 10½, 14, 17½, 21 and 24½ inches. Nineteen lengths are available in each series, ranging from 18 to 126 inches.

Four different fin spacings of ¼" (A), ½" (B), ¾" (C), and 1" (D) enable the selection of the proper amount of fin surface to meet the exact refrigeration requirements of any installation, thus insuring satisfactory results and economical operation.

FRIGIDAIRE "MOISTEMP" COOLING UNIT FEATURES

Refrigerant Distribution Wells—Efficient manifold design assures complete and uniform distribution of refrigerant throughout the tubes. The ends of tubes are joined to upper and lower manifolds, resulting in a maximum tube area being in contact with liquid refrigerant at all times. This "wet expansion" principle increases capacity and provides uniform cooling unit temperature as well as lower operating cost. A special baffle in the upper manifold increases heat absorbing ability by maintaining cooling unit in a flooded condition. Baffle feature also reduces possibility of refrigerant line sweating.

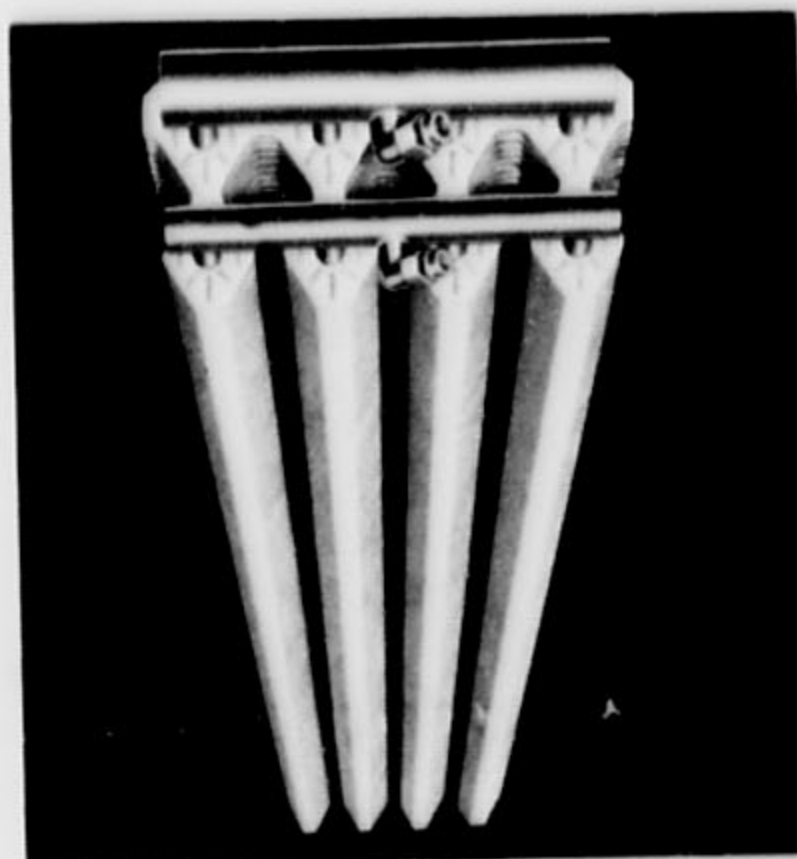

"Effectifin"—The exclusive design of the Frigidaire diamond shaped fin retains only *active heat absorbing surface*. Thus ineffective fin surface and the resulting air circulation and defrosting difficulties are eliminated. Embossing, extending radially from the tubes, adds to the rigidity of the aluminum fins.

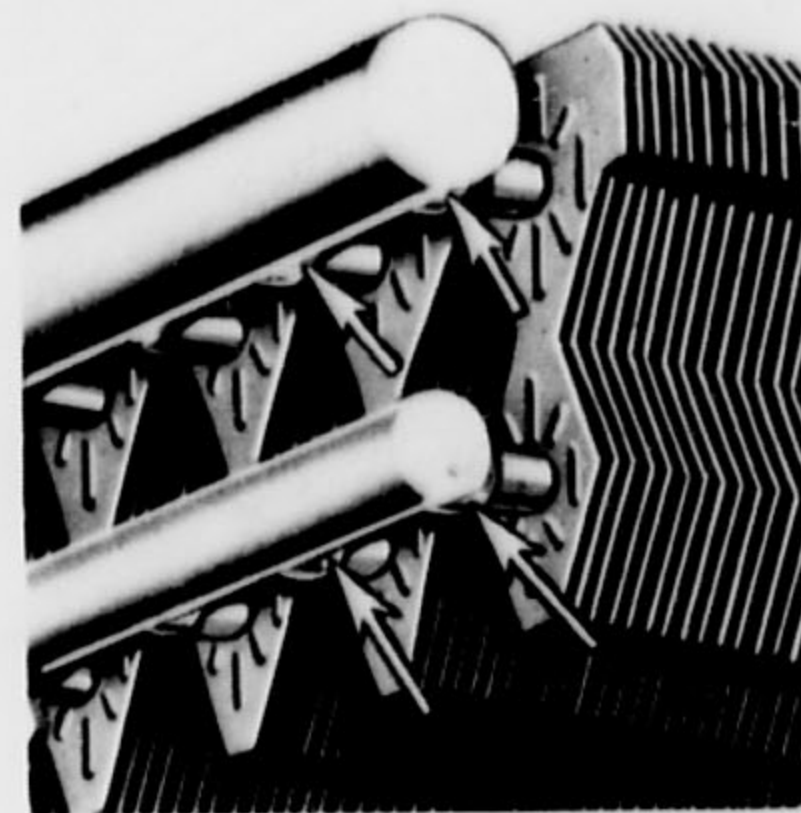

Multiple Tube Construction—Refrigerant travel is through several individual tubes rather than one continuous tube. Heat removal is faster because less time is required for heat laden refrigerant to pass through the cooling unit to the compressor.

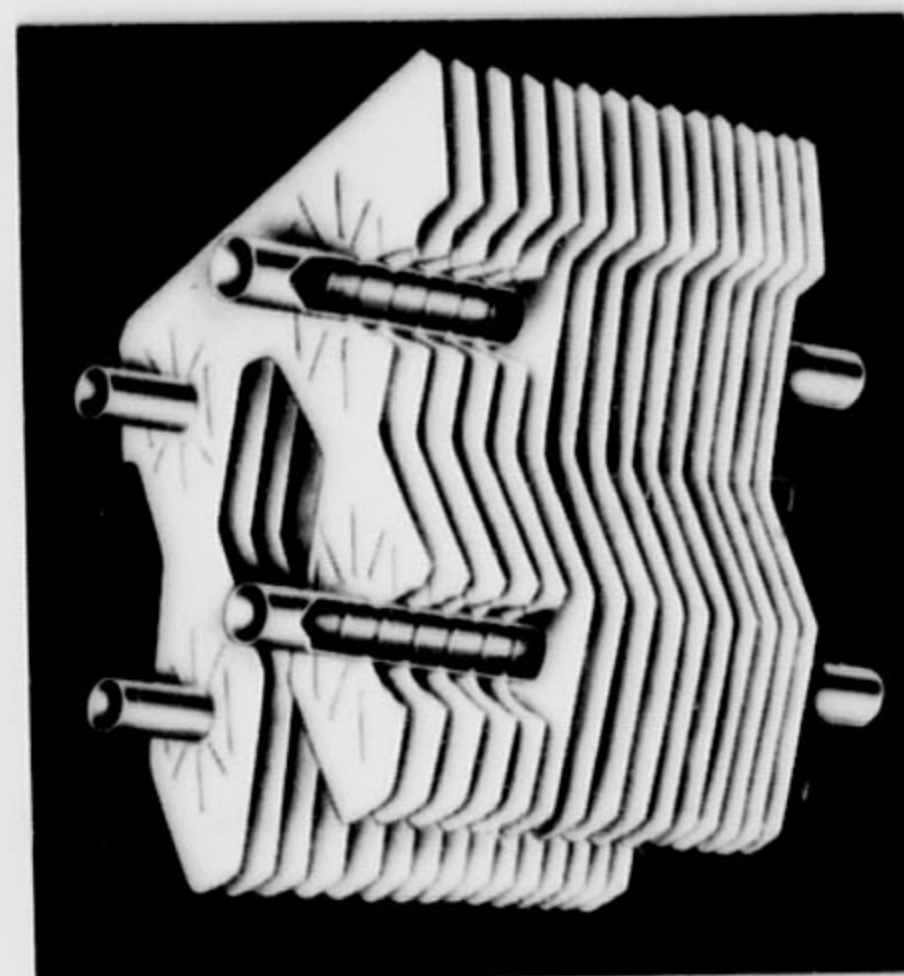

Corrosion-Resisting Tubing— $\frac{3}{4}$ " copper tubing is used to give faster cooling. Electro tin plated to prevent corrosion. Large diameter of tube reduces friction or pressure drop and improves overall efficiency of the cooling unit. All units are thoroughly cleaned, dehydrated, and sealed to remove moisture and foreign matter which later would effect operation of control valves.

Improved Circulation—Proper air circulation through the cooling unit is provided by adequate spacing between fin rows. This prevents choking of air circulation and improves the operating efficiency of the cooling unit. Defrosting is also aided by the larger volume of air in contact with the colder, lower portion of the fin.

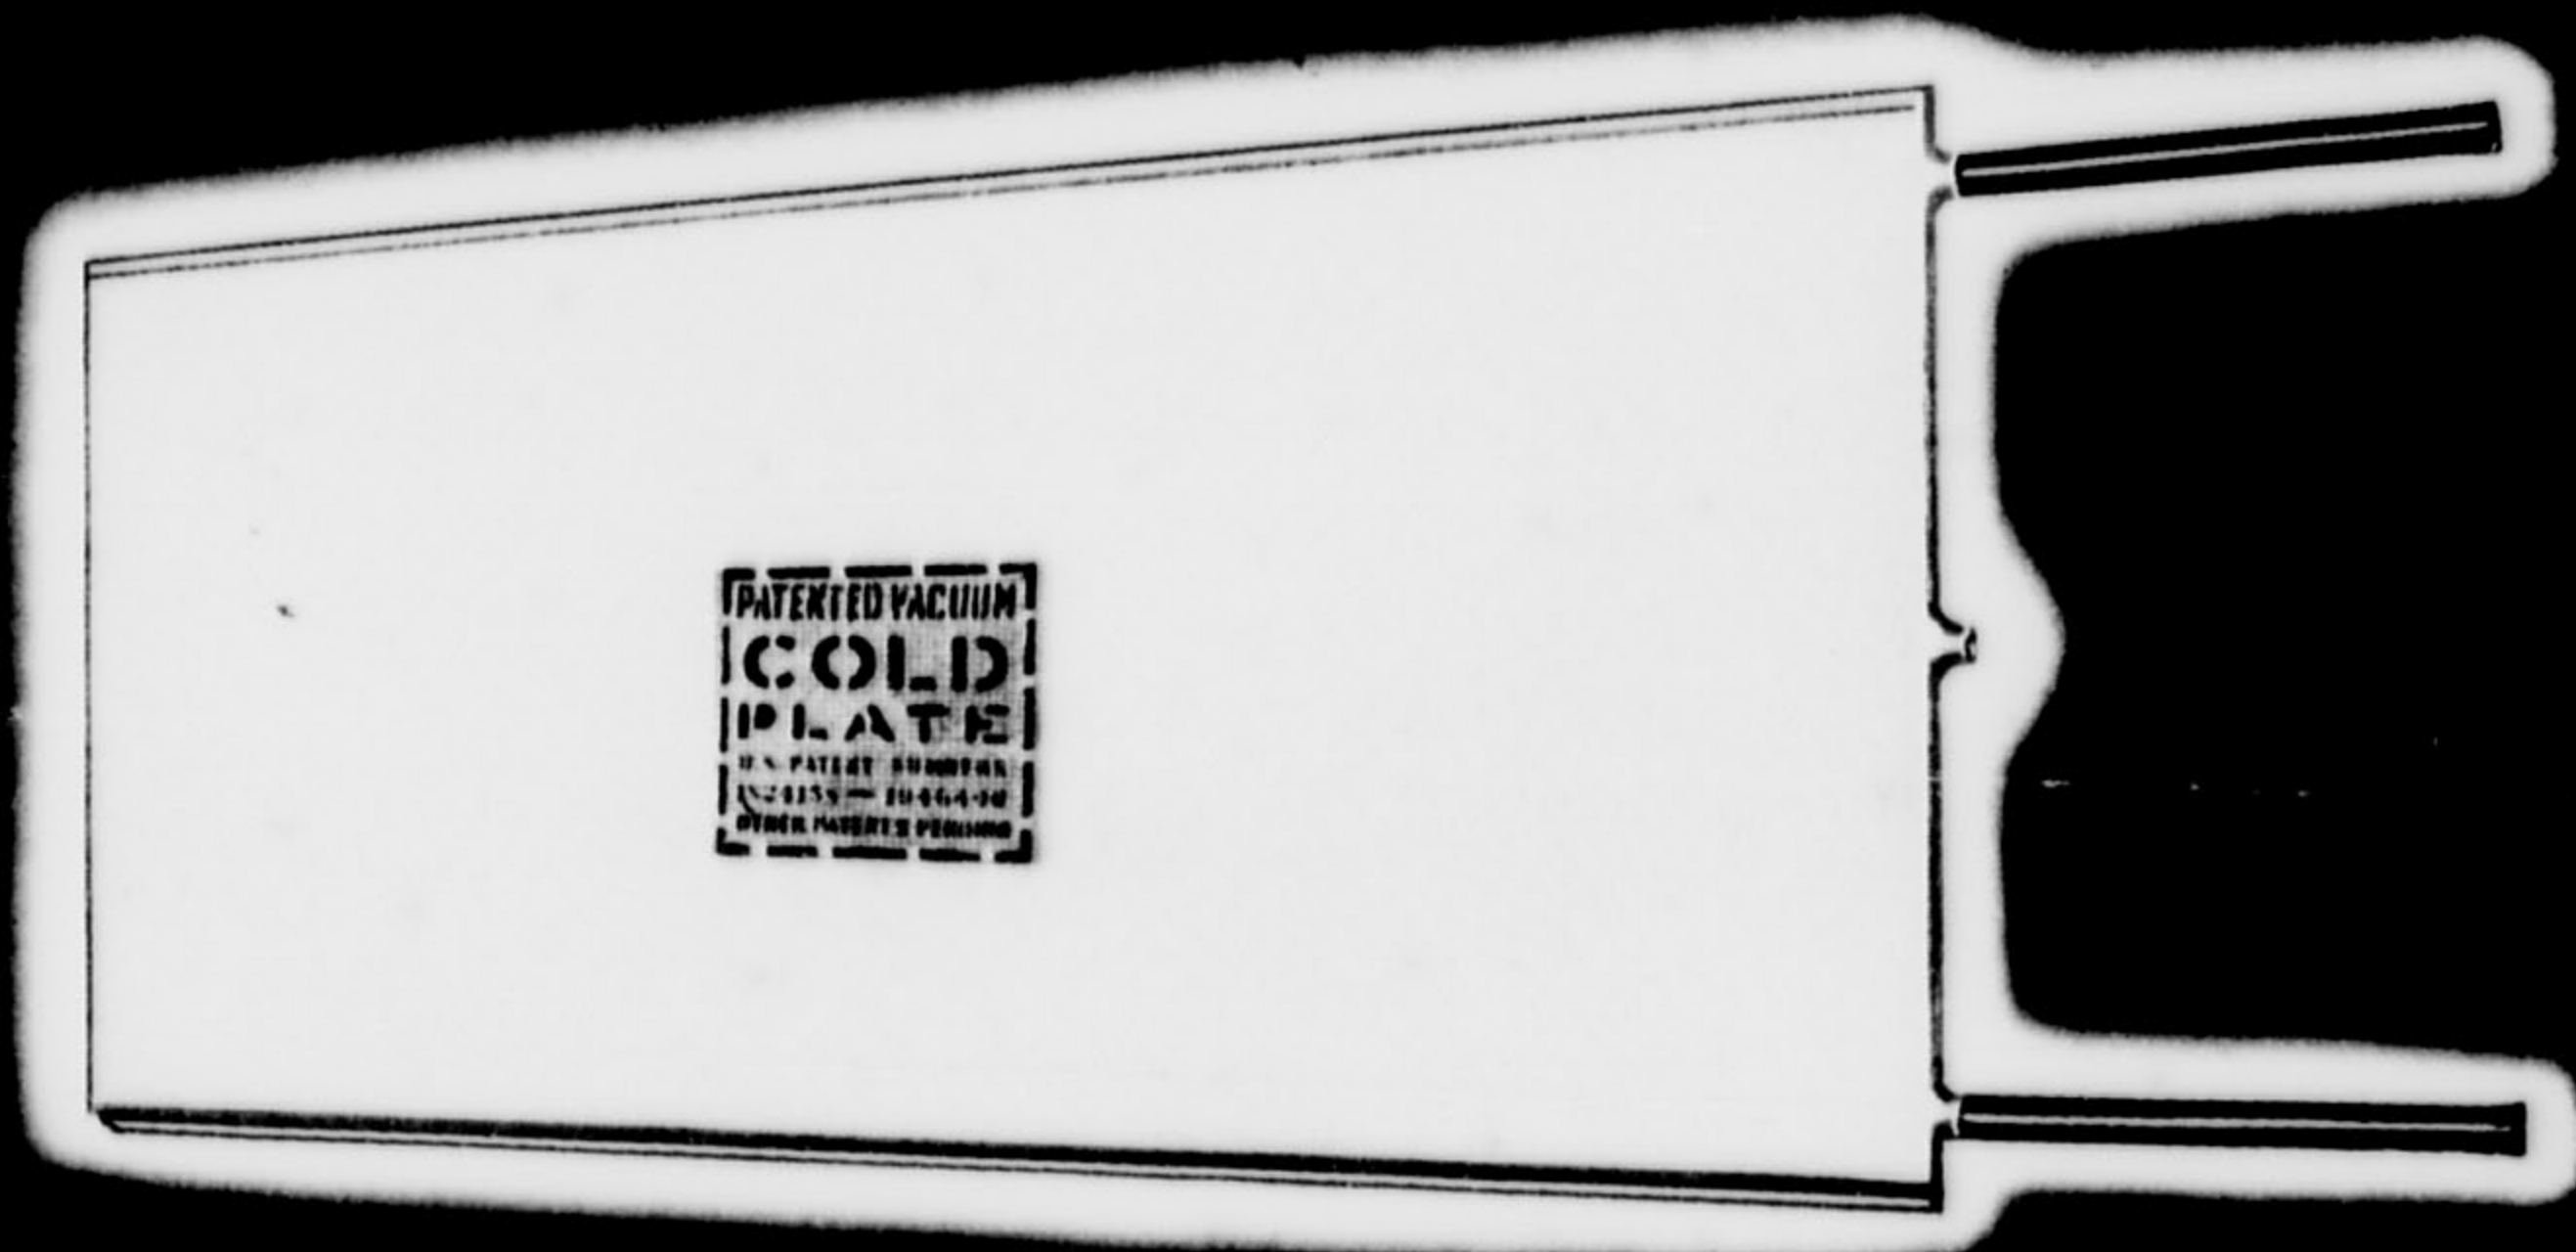

Silver-Soldered Joints—Only silver solder is used on the refrigerant joints of the gravity type cooling units to eliminate the possibility of leaks due to corrosion or electrolytic decomposition. Silver-soldered joints have proved to be stronger than the copper tubing itself.

Hydraulic Tube Expansion—A tight metal-to-metal bond between the cooling unit tube and fin is obtained by hydraulically expanding the refrigerant tube into the "Effectifin." This positive bond assures rapid heat transfer from the fin to the refrigerant filled tube.

In addition to the "Moistemp" Gravity Air Type Cooling Units, Frigidaire also offers a complete line of "Moistemp" Forced Air Cooling Units ranging in capacity from 60 pounds to 8 tons of refrigeration per day.

Ottawa, October 12, 1945.

Reverend Sir:

I desire to refer to your letter of July 6, with regard to securing a frigidaire for the Beauval Residential School.

Immediately upon receipt of your letter the quotation which you received from the Ashdown Hardware Company was submitted to our Purchasing Branch. The cost of the equipment suggested by the company appears high.

 Please let me know the length, width and height of the room in the school that you can use for a refrigerator. You should also let me know the voltage of the electrical power available. It will be necessary for us to secure engineering advice in order that we can obtain a specification for a plant of suitable design and capacity.

Yours very truly,

Philip Phelan,
Chief, Training Division.

Mr. Philip Phelan,
Chief, Training Division,
Indian Affairs Branch,
Ottawa,

File 132-1-5

Dear Sir:-

This is to acknowledge receipt of yours of the 12 th, instant with regard to securing a frigidaire for the Beauval Indian Residential School.

You will find in a separate sheet all the dimensions of the available room for a refrigerator. You will also find the dimensions of the proposed freezing room, which I would like divided in two rooms. (as fish give its smell to the the meat) Also the dimensions for the cooling room.

You will also have the voltage of the electrical power available with 24 hours service at least in the summer time.

Hoping these informations will enable the Purchasing Agent the most suitable plant at an early date.

Yours very truly:

F. X. Gagnon O.M.I.
Principal.

Ottawa, November 9, 1945.

Memorandum:**DIRECTOR,
SURVEYS and ENGINEERING BRANCH.****Re: Refrigeration Plant for
Beauval Indian Residential School.**

This school requires a refrigeration plant and obtained a quotation from the Ashdown Hardware Company. We submitted this to the Purchasing Branch but in reply they write us as follows:-

"For our assistance in securing competitive prices on the refrigeration plant for Beauval, I suggest that engineering advice be obtained with a view to securing a neutral specification for a plant of suitable design and capacity."

The dimensions of the room that could be used in the Beauval Residential School are as follows: -

Length - 23 ft. width - 12½ ft.
Height - 9 ft.

Electrical power available - 220 Volts,
60 cycles, 3 phase, A.C.

In view of the fact that both Fish and Meat have to be stored, it has been suggested that the refrigeration unit should comprise three compartments - one for fish, one for meat and one for other articles. The room available is in the basement and I enclose a rough sketch showing its location as compared with other rooms in the basement.

D.C

I.A.1567-1

MEMORANDUM:

November 19, 1945.

Re: Refrigeration Plant for
Beauval Indian Residential School.

In accordance with the request from the Director of Indian Affairs in his memorandum to you under date of November 9th, 1945, Encls. we are forwarding herewith, six copies of a specification covering the proposed refrigeration plant for the above, for the use of the Departmental Purchasing Agent, in obtaining tenders.

It is pointed out that if such a plant had been visualized when the building was originally planned, a more convenient location of the Walk-in Cooler Room could have been obtained.

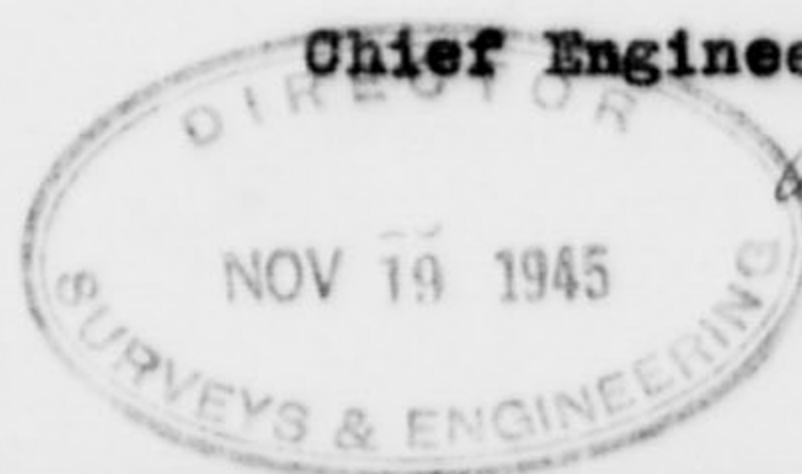

Under the circumstances there appears to be no alternative to using the space suggested. The mechanical unit of the installation however, must occupy space outside of the refrigerator and it is suggested that a corner of the Pantry near the outside wall, be cleared and used for this purpose.

From data submitted in the memorandum, it is evident that a unit having approximately 1 ton of refrigeration capacity will be necessary. This would require a 1 or 2 horsepower motor, depending on the design of the equipment.

This specification calls for the equipment to be based on the following operating conditions: maintain an inside temperature of 35 degrees F. with an ambient temperature of 85 degrees F. and 80 degrees F. condensing water, the accepted standard for this type of work.

J. M. Wardle, Esq.,
Director,
Surveys and Engineering Branch,
Department of Mines and Resources,

DEPARTMENT OF MINES AND RESOURCES
SURVEYS AND ENGINEERING BRANCH
ENGINEERING AND CONSTRUCTION SERVICE

SPECIFICATION FOR REFRIGERATION EQUIPMENT
FOR THE INDIAN RESIDENTIAL SCHOOL,
BEAUVAL, SASKATCHEWAN.

1. SCOPE OF WORK:

This Specification is intended to cover the supply and installation of a complete Refrigeration Plant for a Walk-in Cooler Room which is located in an allotted space in the Basement. This equipment shall include a Condensing Unit, Cooling Coils, Piping, Drainage, Automatic Controls, etc. Machine capacities shall be determined on an operating time of not more than 16 hours per 24 hours, so as to permit a proper defrosting cycle.

The approximate dimensions of the room to be converted into the Walk-in Cooler Room are 12'-6" x 23'-0" x 9'-0". The Department, however, accepts no responsibility for the accuracy of same. It shall be the duty of the Contractor to visit the Building and take all necessary measurements and provide himself with all the necessary data required to enable him to submit a tender.

The Contractor shall also make all structural and piping changes, additions to the room, etc., as hereinafter specified or as may be required. He will be held responsible for all the above work as well as the provision of equipment of suitable capacity and performance to maintain conditions as specified.

2. ALTERATIONS AND ADDITIONS:

The Contractor shall remove existing window sash and frame and shall brick up the opening. He shall also remove the radiator from this room and cap the steam supply and return connections near the mains.

All steam and return piping including branches to upper floor radiators shall be stripped of their present covering and shall be re-covered as follows:- All pipes to have 4 ply 1" thick asbestos air cell covering, carefully butted and fitted around hangers where such occur. In addition these pipes shall be covered with 1" thick anti-sweat wool felt sectional covering consisting of two $\frac{1}{2}$ " layers, each of which shall have been so fabricated by its manufacturer as to have a double thickness of asphalt paper both inside and out, stapled in place, and jacketed with factory cotton pasted on.

The Contractor shall provide and set in place stud partitions, full height, sheathed both sides, dividing the room into 3 compartments. Floor, ceiling, and inner sides of enclosing walls, (not including new partitions) shall have 2 layers of insulating cork not less than 2" thick laid with staggered, vertical, tight joints, over a layer of water and vapour proof paper having joints lapped at least 3". "Palco" wool will be acceptable as an alternative to cork insulation.

If the existing floor is wood, it shall be removed and replaced by a 4" reinforced concrete floor, using 18 gauge reinforcing wire mesh and a 1" finish trowelled smooth.

The Contractor shall provide and set in place 3 standard type refrigerator doors, complete with approved hardware including hasp and padlock and an approved refrigerator door closer. These doors shall be located to provide separate entry into each of the 3 compartments, and shall be located in the wall adjoining the hall.

3. CONDENSING UNIT:

The complete assembly of the Condensing Unit shall include an air or water cooled compressor of the required capacity, with line valves, approved motor with thermal overload protection, V belt drive with safety guard, low pressure control and liquid line strainer, all mounted on a heavy integral cast iron base. Supply one quart of lubricating oil for this unit.

4. SETTING:

The Condensing Unit shall be firmly set where directed in the Pantry, on a 6" concrete sub base with suitable insulating pads between the base of the unit and the concrete sub base.

5. COOLING COILS:

The Contractor shall furnish and install at the ceiling or on the walls, (with suitable baffles if required) in the Walk-in Cooler Room, suitable finned type cooling coils suspended in an approved manner, complete with drip pans, drip piping and approved automatic control equipment especially suited to the requirements.

6. PIPING:

The Contractor shall provide and erect all necessary piping and connections as may be required, and the whole system shall be fully charged with "Freon" or "Methyl Chloride", depending upon the equipment used. He shall also make all necessary water and drainage connections as may be required. The equipment shall be placed in operation and thoroughly tested for workmanship and performance.

7. ELECTRICAL CONNECTIONS:

The Contractor shall supply automatic re-set and overload protection, and pressure switch motor control for the unit. Electric power shall be taken from the nearest convenient source, the power available being 3 phase, 220 volts 60 cycles A.C. The unit shall be connected up in accordance with the manufacturer's instructions and all wiring shall be done in conformity with the C.E.S.A. Code. Ground all equipment to the Code Specification.

8. LIGHTING:

The Contractor shall disconnect and remove the existing lighting fixtures, switches, and any exposed conduit or wiring in the space to be converted into a Walk-in Cooler Room.

Provide and install in each of the 3 compartments of the Walk-in Cooler Room, one lighting outlet located at ceiling. Provide and install vapour-tight fixtures with globes, equal to Crouse-Hinds series V, and include 100 watt, 1000 hour, 115 volt Mazda quality inside frosted lamps for each outlet.

Wiring shall be run in rigid conduit on ceiling from nearest panel having sufficient capacity. Where conduit enters refrigerated compartments it shall be run in lead conduit provided with a tight seal at point of entry to compartment.

Provide adjacent to each door, one plate switch for each light, provided with ruby bulls-eye pilot light arranged to indicate when light is "on".

All wiring is to be carried out to the C.E.S.A. Code and grounded to Code Specification.

9. CONTRACTOR'S SPECIFICATION:

The capacity of the plant shall be based upon maintaining an inside temperature of 35 degrees F. in the Walk-in Cooler Room with an ambient temperature of 85 degrees F. and 80 degrees F. condensing water. The Contractor whose tender is accepted shall submit drawings giving dimensions and full details of the equipment he proposes to install, and no work shall be done on the installation until such drawings and details have been approved and authority for operations have been issued by the Department.

10. GUARANTEE:

The Contractor shall furnish a guarantee of satisfactory performance and mechanical adequacy for a period of 12 months from the date of acceptance by the Department. Should any fault due to inferior workmanship or material become evident in that time, the Contractor shall rectify such fault, without expense to the Department as soon as possible after being notified in writing that such faults have appeared.

Ottawa, November 21st, 1945.

Memorandum: -

DEPARTMENTAL PURCHASING AGENT

Attention: Mr. Vincent.

As a supplement to our memorandum of November 9th and in answer to Mr. Davidson's memorandum of September 24th, I am enclosing five copies of specifications drawn up by the Engineering Branch re the refrigeration plant for the Beauval Indian Residential School. I understand that you need all these copies in order to obtain quotations. I have not kept a copy for our files, therefore, I would appreciate having one copy returned for our records.

Enclosed also is a quotation from the Ashdown Company.

Indian Residential School.
Beauval Sask.,

Dec. 12 1945.

Mr. Philip Phelan,
Chief, Training Division,
Indian Affairs Branch,
Ottawa, Ont.

Dear Sir:-

During our recent talk where it was mentioned of finishing the Beauval Indian Residential School, I could not give you the number of yards to be plastered. Since, I got the information.

There are 4423 yds of walls and ceiling to be plastered at the cost of about \$1.50 per yard including the purchase of plaster and transportation and labor. = \$6,634.50

I am sorry to mention that I have actually no brothers handy for the job.

There are also 520 yds of cement flooring to be finished. This would have to be done only after plastering. To do the job about 300 bags of cement would be needed. 300 bgs at 1.65 = \$495.00 if transported in winter time.

So the gross estimates would be around \$8000.00 This amount would permit me to finish the school and at the same time, give work to some of our Indians who will be in great needs next summer as trapping and fishing will be poor this year.

In closing this letter, may I mention that I appreciated your kindness in my first visit to your office.

Yours very truly:

F. X. Gagnon

#5 132-1-5

Indian Residential School.
Beauval Sask.,

Dec. 12 1945.

Mr Philip Phelan,
Chief, Training Division,
Indian Affairs Branch,
Ottawa, Ont.,

Dear Sir:-

While in Montreal, I went to the War Assets Corporation trying to locate a Diesel engine. Unfortunately, I could not find exactly what was required for us. The only one available was:

- 1 Engine Caterpillar diesel model D.4400. Gasoline engine starter. Panel on framework. All new and apparently in good condition. The generators are connected up to the switchboard for one phase, 115/230 volts. By changing connections, 115 volts, 3 phase, and 230 volts, 3 phase can be obtained.

19 of these are available at Genral Supply Co. Plant at Ottawa. The Price is \$3150.00 4600 lbs.

The original price is \$4871.10

The Generator is a 22.5 KVa, 20 KW at .9PF. 1200 RPM. 60 cycle, 1 phase, 115/230 volts with wires brought out for 3 phase operation if required. Known as Rwm Louis Allis Generator.

I beleive this outfit would work with our plant and there would be a spare generator in case of trouble. As to the amount involved, likely your purchasing agent could have a reduction.

This is only a suggestion.

Yours very truly:

Ottawa, April 17, 1946.

Memorandum:DEPARTMENTAL PURCHASING AGENT.Re: Refrigeration Plant for Beauval
Indian Residential School.

I desire to refer you to your memorandum of March 11 and previous correspondence in connection with the above.

With your memorandum of January 17 you enclosed a quotation received from the Ashdown Hardware Company for a refrigerating unit according to the specifications prepared by the Surveys and Engineering Branch. The quotation of the Ashdown Hardware Company was \$4,048.00 with an optional quotation of \$3,348.00. It is quite possible that the installation on which the firm quoted is worth the money requested, but the expenditure involved would be much higher than we anticipated.

Under separate cover, a requisition is being forwarded to you for a refrigeration unit for the St. Philips Residential School. A similar installation would be satisfactory at the Beauval Residential School. I would appreciate it if you would give careful consideration to our proposal regarding St. Philips and secure the same type of equipment for the Beauval School. I enclose the file which you forwarded with your memorandum of January 17.

Ottawa, May 1, 1946.

Reverend Sir:

The Department is prepared to supply refrigeration equipment at the Beauval Residential School, but additional information is necessary.

Kindly let me know the type of electric current available at your school. You should state the voltage and, if it is alternating current, you should state the frequency.

I understand the electric power at your school is generated through the use of batteries, and you should let me know the type and size of the battery at present in use. Possibly you would operate the refrigeration unit with a special machine. If so, you should let me have full particulars regarding the type of machine which you intend to use.

An immediate reply would be appreciated, in order that the placing of the order will not be unnecessarily delayed.

Yours very truly,

Philip Phelan,
Chief, Training Division.

AIRMAIL

Ottawa, June 6, 1946.

Dear Father Gagnon:

Reverend Father Plourde advises me that you still require another engine as an auxiliary unit for the lighting plant at the Beauval School. You will recall that we had considerable correspondence about this matter during 1945, but at that time we were unable to secure the equipment desired. As I had not heard directly from you about the matter since receipt of your letter of July 6, 1945, I was hopeful that conditions had improved. However, from my conversation with Father Plourde, it appears that this is not the case.

The equipment required for your school is still difficult to obtain. However, it is possible that we may be able to secure it, but before requesting our Departmental Purchasing Agent to act in the matter, I thought it advisable to again write to you.

We recently purchased an auxiliary unit for the Cross Lake School, as follows:-

- 1 only Diesel Engine, twin cylinder, overhead valves, developing 16 H.P. at 1200 R.P.M., the Lister C.E. or equal, tank cooled model, fuel tank capacity 7 gallons, bore X stroke $4\frac{1}{2}$ " x $4\frac{3}{8}$ ", Flywheel dia. X face 23" x $3\frac{1}{2}$ ", Pulley X Face 10" x 9", water tank capacity 170 gallons. Water tank dia. X height 30" x 66".

Please let me know as soon as possible if the engine mentioned above, or equal, would be suitable for your requirements.

Yours sincerely,

Reverend F.X. Gagnon, O.M.I.,
Principal,
Indian Residential School,
Beauval, Sask.

Ottawa. Ont.,

File 132-1-5

Dear Sir:-

I have just received yours of the 6 th. instant regarding the auxiliary unit for the lighting plant at the Beauval School.

Unofrtunately, this equipment is still required and will be for some time, according to the weather.

I think that the auxiliary unit supplied to the Cross Lake School would be a little small for our need. I would prefer one 20 or 25 H.P. if possible. If not possible to get the above, well I think, we will have to satisfy ourselves with the 16 H.P. mentioned in your letter.

For the other specifications, it would be all right, except the pulley, as the generator pulley is for V belts.

So, the pulley on the engine should be 8 groove size C for 8 Cogbelts 1C31.

I think this will cover all the informations asked for in your letter. May I take this opotunity to thank you for the attention given to my requests.

Yours very thankfully:

F. X. Gagnon

P.O. 12250 - July 10/46.
Munford - Medland Ltd - Winnipeg
Note:- Blue slip mailed July 17/46.

In connection with the above I refer you to your memorandum of June 22, 1945, File 57454-15-16, also to the Acting Director's memorandum of December 2, 1944. The condition mentioned in the first paragraph of the Acting Director's memorandum has not improved. As a matter of fact, it has become worse owing to volume of water decreasing and consequently freezing occurs early in the Fall. It is essential that a new engine be secured this summer if at all possible and the information given on this purchase order has been obtained from the Principal of the School. We recommend the same type of engine as ordered for the Cross Lake School - see Purchase Order 10339. The engine for the latter school was 16 H.P., but the Principal at the Beauval School states that they require an engine of either 20 or 25 H.P.

I hereby certify that I have personal knowledge that all the above articles are required in the Departmental purposes only. The expenditure required by this requisition is strictly unavoidable and the public will suffer if it is not made.

Re: Purchase Order No. 12250
July 10, 1946.

The above order covered a diesel engine for the Beauval Indian Residential School, Meadow Lake, Saskatchewan.

We have not yet received the account covering the cost of this engine and it is therefore presumed that it has not been shipped.

Please let us know when you expect to make delivery as this engine is urgently required at the school during the winter.

Yours truly,

Bernard F. Neary,
Supt. of Welfare & Training.

Ottawa, 5 December 1946.

Mr. C.S. Bell, Indian Agent,
BATTLEFORD, Sask.

EBD.

We have your letter of the 12th ultimo enclosing requisition for supplies for the Beauval Indian Residential School.

It is presumed that the articles mentioned are not required immediately but the list has been forwarded so that funds may be available in the fiscal year 1947-48. It is doubtful if we can supply all the articles at that time. For instance, it is not our practice to supply a potato peeler.

More explicit information will have to be given regarding the type of household range required. If possible, let us have a catalogue number.

We will desire to know what type of washing machine is at present in use at the school also its size so that we will have the information noted to order the new one.

Bernard F. Neary,
Supt. of Welfare & Training.

Dear Father Gagonon:-

With reference to Purchase Order
No. 12250 for a diesel engine for the Beauval
School, we are advised by Mumford Medland Ltd.,
that this engine was shipped to Meadow Lake via
C.P.R. prepaid freight on Nov. 18th, 1946.

Please let us know when you have
this engine installed. It is hoped that it will
prove satisfactory.

File 132-1-5 (W.T.1)

Dear Sir:-

I have just received yours of the 7 th. instant regarding the diesel engine which has supplied by Mumford Medland Ltd, through the Department.

This engine has been received two weeks ago and has been installed right away. My engineer will try it some time to-day. It should be working good, as every thing seems to be O.K. We expect to have to use it in a few days as the cold weather we are having is pretty hard on our water supply for the turbine and on top no snow to protect the ice.

I am very thankful to the Branch for this engine which will save lot of troubles.

May I take this opportunity to extend to you my best wishes of the Season.

Yours very truly:

F. X. Gagnon

Mr. C. S. Bell,
Indian Agent,
Battleford, Sask.,

Dear Sir:-

You will please find inclosed herewith an invoice in quatruplicate copies from The Guarantee Laundry Machinery, Co of Winnipeg. Man., covering 2 set of Washing Machine inside and outside Tubs complete, for which I would kindly ask the Indian Affairs Branch to pay for it.

On his recent visit of the school, Mr J.P.B. Ostrander, Inspector of Indian Agencies, to whom I had shown the Tubs told me order them right away, as they were falling into pieces and then send the invoice through you for payment.

This item was put with my early request but as it was urgent, I had to go direct and make the purchase myself. Hoping this will be satisfactory.

Yours very truly:-

Indian Residential School
Beauval, Sask.
Jan. 2, 1947

Mr. C.S. Bell,
Indian Agent,
Battleford, Sask.

Dear Sir:

File 132-1-5 W.T.1

I just received a copy of a letter from Mr.
Bernard F. Neary, Supt. of Welfare & Training about the requisition.

As to the inquiry about the washing Machines,
I have already forwarded to you the invoice as I could not wait
any more. The machines were all fallen into pieces.

As to the household range required, something
like the one found in Eaton's Catalogue from Winnipeg. fall and
winter 1946-47. Cat. no 56-L124 the Marlboro, Wood Firebox type
or even Cat. no. 56-126 - Master Climax for wood - or by the
enclosed leaf of the J.H. Ashdown Hardware Co. Limited.

I know also that it has not been the
practice to supply a potato peeler. But I think you will admit
with me that little girls who have to spend an hour or so peeling
potatoes, would be better playing outside in the open air or be
employed in more important work where they could learn more.

The Indians in their grievances are mentioning
that their children are doing too much chore work so I thought
that a potato peeler would help in this line to improve things a
little and with my own experience I have notice that it is not
advisable to have local help for the chore work. It is ordinary
a great source of troubles.

Hoping that my request will be taken into
consideration,

I am,

Yours very truly,

"F.X. Gagnon, O.M.I."
Principal

W.T. 1

Purchase Order 11211
d/23 May 46

On contacting Keyes Supply Company,
I was informed that the refrigeration
unit covered by the above order has
gone forward. However it appears
Father Gagnon wants the firm to
replace the unit with a smaller
one because the rooms are too small.

As there is no information on file
I suggest ~~we~~ we write Father
Gagnon and find out what the score is.

Ottawa, August 13th, 1947.

Dear Father Gagnon:-

With reference to the refrigerating unit purchased by the Department for the Beauval Residential School, we understand that you have been communicating direct with the firm from whom the plant was obtained.

We went to considerable trouble to obtain this item of equipment as requested in your letter of July 4th, 1945, and a subsequent personal interview with Father Plourde.

If there is anything radically wrong with the equipment that has been supplied, I would like you to let me know. It confuses everyone if communications go forward to the firm direct without coming through this office.

Please let me hear fully from you regarding this matter.

Yours sincerely,

Philip Phelan
Chief, Training Division.

Extract from letter from F.X. Gagnon, O.M.I.,
Principal Beauval Indian Residential School,
dated August 7th, 1947.

In May of this year, I have received
the unit with the exception of two items: The 1
H.P. electric motor and the automatic switch which
were missing.

Since I have notified the Keyes Co.,
Ltd. of Ottawa and they pretend to have shipped the
unit all complete and they also mentioned that if these
two things are missing I would have to inquire with
the Transportation Companies, which I did but without
any results.

This motor was supposed to be bolted on
the unit with the automatic switch. Instead, we found
only one fan bolted on the unit where the motor was
supposed to be bolted on. I have mentioned this to
the Company but I did not have their answer yet.

On the purchase order, the electric motor
is mentioned but on their invoice, there is no mention
of same. So far, I have not O.ked the invoice. I
frankly believe that the motor has not been shipped as
they claim, because the paint shows absolutely no sign
of a motor being bolted on this unit.

Dear Sir.

File 132-1-5 (W.T.1)
Re: Purchase Order no. 11211.

Last January, you inquired about the refrigeration unit which was ordered for this school on May 23 1946.

In May of this year, I have received the unit with the exception of two items: The 1/2 H.P. electric motor and the automatic switch which were missing.

Since I have notified the Keyes Co. Ltd of Ottawa and they pretend to have shipped the unit all complete and they also mentioned that if these two things are missing I would have to inquire with the Transportation Companies, which I did but without any results.

This motor was supposed to be bolted on the unit with the automatic switch. Instead, we found only one fan bolted on the unit where the motor was supposed to be bolted on. I have mentioned this to the Company but I did not have their answer yet.

On the purchase order, the electric motor is mentioned but on their invoice, there is no mention of same. So far, I have not O.ked the invoice. I frankly believe that the motor has not been shipped as they claim, because the paint shows absolutely no sign of a motor being bolted on this unit.

I have received only last month the instructions as to install same, and I notice that the dimensions mentioned are far from being the ones I have asked for.

" Two adjoining rooms are to be erected each measuring approximately 4 x 6 ' in floor space with a ceiling of 8'." The dimensions I had suggested for the room that was available was: The freezing room height 9'9" x length 13' and width 12 1/2'. The cooling room adjoining : 9'9", length 10', width 12 1/2'. You will see the difference.

to be continued.

Mr. Bernard Neary. Re Purchase order no. 11211.

So to-day, I am quite doubtful if I should go into the expenses of erecting this frigidaire, as I do not think it will be satisfactory. Such a small frigidaire for a school of 100 pupils and so far away from rails, 116 miles, where we have to store meat, fish and vegetables.

I would not have dared to mention this if it had not been for the Diatitian at Lebreton who is reported having said that she was to recommend to the Indian Affairs Branch to have large frigidaire installed in the schools according to locations.

I think this remark would apply to this school as large amount of food have to be stored for months on account of great distances from supply houses.

May I mention also, that we raise all the vegetables needed for the whole year. We have also enough berries locally; blueberries, strawberries and raspberries; we also have our meat, beef and pork, but the only drawback is to keep all that food stuff the whole year around. I think you will admit with me that a larger frigidaire would be needed here to give a well balanced diet to the children.

So before going ahead with this frigidaire I will wait for your decision.

Thanking you in advance for your kindness.

Yours very truly:

Refrigeration Unit
Beauval Residential School

Reverend Father:

I sent part of your letter of August 7 with one of our officials to the Keyes Co., Ltd., in Ottawa. They promised to check with the factory to check concerning the motor and automatic switch.

The dietitians are recommending large refrigerators, but these are not for the storing of fruits and vegetables as you mention in your letter. The specifications for this refrigeration unit were prepared by our Surveys and Engineering Branch and have been reported on satisfactorily in other schools. You will not be storing berries and vegetables there as it is presumed you have a root house and storage pantry.

12 w
Mr. Philip Phelan,
Chief, Training Division,
Indian Affairs Branch,
Ottawa. Ont.,

Dear Sir:-

File: 132-1-5.

I have yours of the 13th. instant regarding the refrigerating unit purchased by the Department for the Beauval Residential School.

This unit was received in May and as it was not complete, I have notified the company about it advising them that I could not sign the invoice unless it was complete.

At that time, the electric Motor 1H.P.A.C. 110/220 volt, 60 cycle with automatic switch with the instructions regarding the erecting, insulation, finishing of the cold rooms and also instructions as to the installation and operation of this equipment. Since, I have received the instructions, but the motor and automatic switch is still missing.

Furthermore, all the copper tubing is missing, but this item is not mentioned in the purchase order.

The electric motor and the switch was supposed to be mounted on the unit and the Company Keyes Supply pretended that something had happened on the way and that we had to put a claim at the transportation companies. After a close check, we see that no motor has been bolted on the unit, as there no mark on the paint.

On August the 11 th. The Keyes Supply Co. have mentioned in their letter: " We are trying to trace the missing motor from the shipment of refrigeration equipment that was made some time ago.

Unfortunately, we cannot give you an immediate answer as to what happened but you may rest assured we will do everything possible to see that you receive this motor as soon as we find out exactly what happened."

This is about a resume of the correspondence I had with the Company about the missing articles.

Over.

Motor & Automatic

Indian Affairs. (RG 10, Volume 6301, file 650-5, part 5)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

After I received the instructions regarding the erection, insulation and finishing of the cold storage rooms, I was a little surprised at the size of the rooms. I quote:
 "Two adjoining rooms are to be erected each measuring approximately 4x 6' in floor space with a ceiling height of 8'."

When I saw that these rooms were so small and far from being the dimensions given in request to the Department, I again asked the Company if their refrigeration unit they had sent me could be used for larger storage rooms and here is the answer.

"We note that you intend to use two rooms of quite a size and these rooms do not agree with the original size of rooms for which the equipment was specified. The cooling room you mention is 10' x 12' 6", would require the machine which you received, plus another cooling unit to handle this room alone. The freezer which you mention, being 13' x 12' 6" would require a 2HP air cooled machine and would be best served by an electric defrost type blast cooler.

We are sorry to advise that the machine you received is not capable of handling both these rooms and as such, some decision will have to be reached before work is progressed too far".

I think the above is self explanatory. If I have been communicating direct with the firm, it is because I thought it was up to me now to see that every thing be O.K. before signing the invoice and as to the size of the rooms, I also did it on good faith to spare you more troubles.

As I can see it now from your letter, there must have been a mistake somewhere about dimensions of storage rooms. I had given the freezing room dimensions as for two rooms, one for fish and the other for meat and also the dimensions for the cooling room. Any way just now I hesitate in going into the expenses of putting such a small storage rooms which I think will not be satisfactory for the amount of peoples here and the amount of food stuffs to be stored owing to the great distances from the rails, specially after the recommendations made by the diatitian made the cooks at the Lebret school this summer.

I hope you will understand my position and I am sorry ~~in~~ to give you so much trouble but I would like to do things right.

Yours very truly:

F. X. Lejeune

Ottawa, September 22nd, 1947.

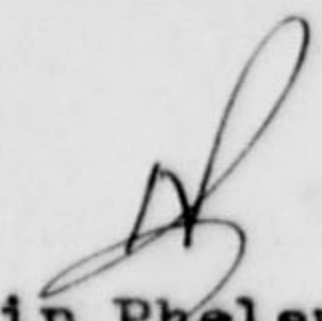

Dear Father Gagnon:-

We have your letter of the 24th ultimo and have interviewed Keyes Supply Company with reference to the refrigerating unit forwarded for the Beauval School.

We understand from the company mentioned that they will arrange to forward a motor and control to you. When this is received we would appreciate it if you would install the equipment.

While it may not be as large as you expected, it is to be of steel. The equipment should provide considerable refrigerating space for the school. As pointed out in a previous letter, vegetables, etc., should be stored in a root house.

Yours sincerely,

Philip Phelan
Chief, Training Division.

Gentlemen:-

Re: Purchase Order No. 11211

The above covers a refrigerating unit to be forwarded to Reverend F.X. Gagnon, Principal, Beauval Indian Residential School, Beauval, Sask. We understand that the principal of the school has been in communication with you regarding the above equipment.

The principal states very definitely that the motor and automatic switch did not reach the school but that in a letter dated August 11th you were endeavouring to trace it. His recent letter to us is dated August 24th and at that time the motor and switch had not yet arrived.

Recently one of our officials visited your office and understood that you were arranging to forward the motor and switch. If this has not already been done, I would appreciate it if you would give it your immediate attention so that the school management may install the equipment and forward the account for payment.

Yours sincerely,

Bernard F. Neary
Supt. of Welfare & Training.

Indian Residential School.
Beauval Sask.,

Oct. 1 1948.

Mr. H. S. Packman.
Meadow Lake Sask.,

Dear Sir:-

I am inclosing herewith 3 copies of requisition for school supplies and also desks. As you will see these desks are greatly needed immediately as some pupils have no desk.

The reason for this shortage is that we have more children than before and more are expected in the near future. So I hope you try to get these desk as soon as possible.

Yours very truly:

Attention: Mr. P. Phelan.
Re: Beauval Indian Residential School.

Dear Mr. Phelan:

The Beauval Indian Residential School is a fireproof building. The floors and walls are either of cement or brick. Unfortunately, the interior, with the exception of a few rooms was never plastered.

The principal is very anxious to have the plastering done during the coming fiscal year. The estimates vary from fifteen to twenty thousand dollars and I therefore ask that this amount be placed in the 1949-1950 estimates.

1: The floors in the whole school were never well finished and offer a sorry sight to any visitor. The Principal desires to cover them with linoleum and he would appreciate that a large quantity of some kind of linoleum be supplied during the coming year. Personally, I think that you should begin by supplying five hundred yards of linoleum. I leave the color and kind to your good taste. The kitchen floor is in a very poor condition and he would like to have, immediately, a sufficient quantity of tile to cover it. This kitchen measures 24' x 40'. Any color of tile would do but he would prefer that it be of the color of white marble.

2: The oven now in use is a "Daoust" model and is almost completely worn out. As the pupilage is over one hundred, he would like to have a new oven with hundred loaves capacity. This oven should be supplied, if at all possible to do so, in the very near future.

Indian Affairs. (RG 10, Volume 6301, file 650-5, part 5)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

October 16th, 1948.

6...../2

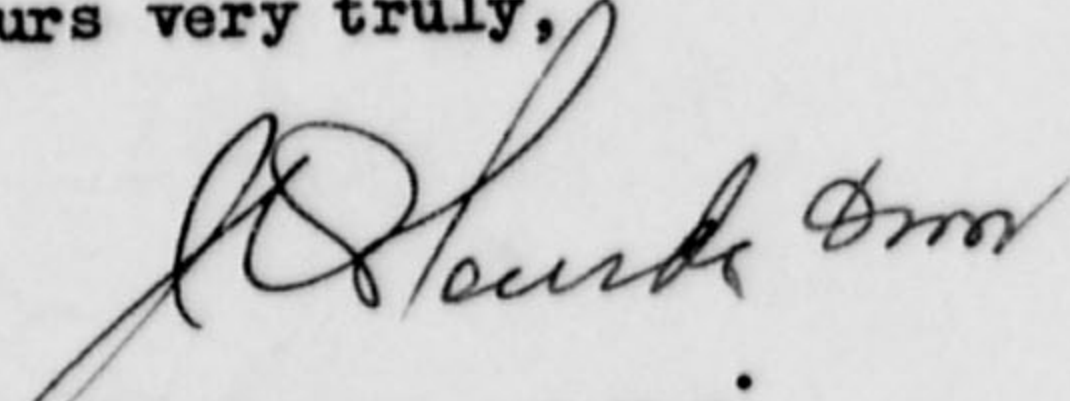

3: The following quantities of paint are also needed:

- a) 15 gallons of Aluminum paint.
- b) 25 gallons of outside white paint.
- c) 15 gallons of paste primer paint.
- d) 25 gallons of red shingles stain.

4: Four sewing machines all to be tailor, if at all possible to get them. The machines used in this school are all very old. Four of them have already been sent to North Battleford, but no word has been received as to their conditions. I hope that you may be able to supply the above.

I thank you in anticipation, and remain,

Yours very truly,

J. O. Plourde, O.M.I.

cc Mr. J.P.B. Ostrander

650-5 (E.1)

9th April, 1949.

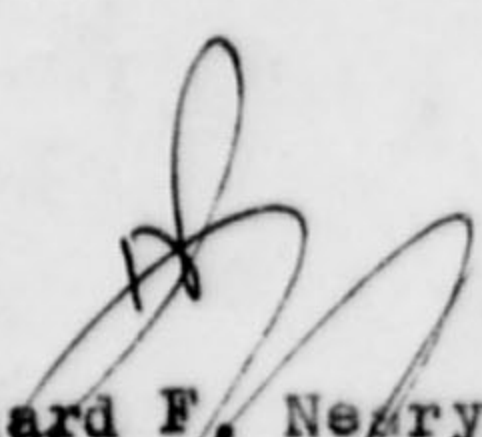

Mr. J.A. Davis,
Superintendent, Indian Agency,
Meadow Lake, Saskatchewan.

In the appropriation for the fiscal year 1949-50 we have provided an amount of \$5,000.00 for plastering the interior of the Beauval Indian Residential School. It is realized that this amount will not plaster the whole of the interior of the building, and consequently, you should confer with the Principal as soon as possible and decide the approximate number of square yards of plastering that can be done for the amount mentioned above.

You should secure the name and address of a competent plasterer and ascertain what he will charge per square yard. If possible, this price should include both material and labour.

As soon as we hear from you further consideration will be given to the matter. A copy of this letter is being forwarded to Regional Supervisor Ostrander.

Indian Residential School.
Beauval Sask.,

April 26 1949

Mr. J.A. Allen,
Indian Affairs Branch.
Ottawa. Ont.

Dear Sir:-

As I intended to buy a farm tractor for the Beauval Indian Residential School, I thought I could buy it through the Indian Affairs Branch in order to get a quick delivery and also to save as I understand you have a special price.

As I was inquiring about it to Mr J.P.B. Ostrander inspector of Indian Agencies at Regina, Sask., he told me that I would require a special permission in order to it from you, Mr Allen.

Therefore by the present I kindly ask this permission. If you grant me this request verily likely I could get the tractor bought by Mr J.A. Davis, Superintendent of the Meadow Lake agency, through the John Deere, local agent, and then turn over the money to him for the full amount paid for the tractor.

Thanking you in advance for your kindness.

Yours very truly?

F. A. Gagnon

Indian Residential School,
Beauval, Sask.

April 8, 1949.

Mr. J.A. Davis,
Superintendent,
Meadow Lake Agency.

Dear Sir:-

I enclose herewith a copy of a letter from the Canadian Westinghouse Co. Ltd. giving me some quotation on a voltage regulator which would be very useful to our electric plant here.

The school electric plant consists of a 25 kyllowatts generator with a water turbine and an oil governor. The function of the oil governor is to open the gates or to close them, depending on the amount of power required to start a motor or when more lights are required. Thus regulating the amount of water required to maintain the same voltage.

This oil governor is working well but is too slow; starting a motor or using electric welder brings the light very low, thus making it quite hard on the eyes and also on electric motors if too slow to start. Furthermore, the stopping of a motor or cutting lots of lights at the same time causes the voltage to raise, thus burning the lights. I am using a big case of lights every month.

After many consultations with electricians, I was told that the only way to overcome this would be to install a voltage regulator to draw the right amount of voltage as required by the sudden overcharge.

With the nice plant we have, I think it advisable to add this improvement. Therefore, I am asking you to recommend this purchasing of this voltage regulator to the Indian Affairs Branch to complete the unit and as an electrician will be on the spot next summer, it would be the right time to have this regulator installed.

Hoping to have an early and favourable answer.

Yours very truly, sgd. F.X. Gagnon, O.M.I.
Principal.

Re: Voltage Regulator, Beauval Res. School.

In connection with the above and your file
No. 866-316-11 ARC, dated April 14th, 1949, we have
completed and attached the requisition on Form 37 for
the required electrical equipment.

Will you kindly forward this to Ottawa so that
the equipment may be received in time to have the
travelling electrician install same when he is at
Beauval in this coming summer.

J.A. Davis

Regina, April 26th, 1949.

Indian Affairs Branch, Department of Mines & Resources, OTTAWA.

I am enclosing herewith requisition for a voltage regulator and attachments, totalling \$271.00, for the generating plant at the Beauval Indian Residential School, also copy of a letter from the Principal, F.X. Gagnon, O.M.I., to Indian Superintendent Davis, and quotation of Canadian Westinghouse Company Limited, describing the need for this additional equipment.

I discussed the matter with the Canadian Westinghouse Company, and there seems conclusive evidence that much of the difficulty in connection with the electricity at the Beauval School will be overcome by the supplying of this equipment. I would therefore recommend that it be ordered in accordance with the requisition.

Indian Residential School,
Beauval, Saskatchewan.

Dear Father Gagnon:

Your letter of April 26th regarding
the purchase of a tractor, has been brought to
our attention.

Please let us have explicit
information regarding the type of tractor you
require, and if possible, quote a catalogue
number. We are prepared to request the Departmental
Purchasing Agent to arrange purchase of it on the
understanding that when it is secured you will
refund the cost.

Yours sincerely,

Bernard F. Neary,
Supt. of Indian Education

Meadow Lake, Sask.,
June 10th, 1949.

J.A. Davis, Esq.,
Superintendent, Indian Agency,
Meadow Lake, Sask.

Dear Sir:

Re: Our trip to Beauval for inspection of the Indian
Residential School re: plastering requirements.

This work will be difficult due to the fact that water
proofing cement paint was placed on all walls and this would
have to be removed before plaster could be applied. This cement
paint takes all the suction out of the walls and would have to
be scraped with a metal brush and acids in order to remove same.

I beg to submit the following estimates of price that
I would be prepared to take the contract.

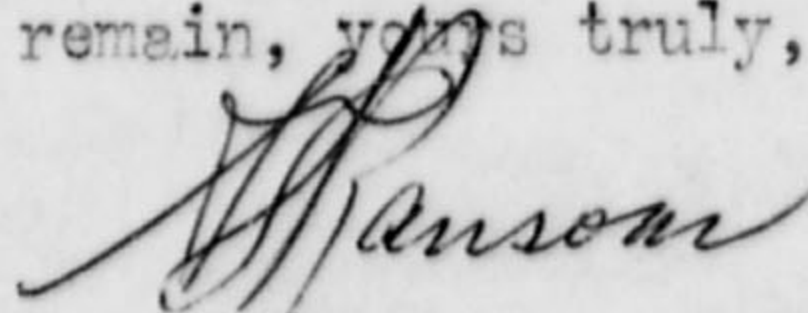

1760 bags of plaster and 480 bags of lime at a cost
of \$2313.20; 150 bags cement...\$202.50; nails, 1½ kegs...\$20.00;
Metal lath, 560 yards...\$336.00; labour--plastering 8000 yds at
60¢ per yard...\$4,800.00; freighting at \$1.00/cwt...\$1350;
cementing 4 hallways 80' x 6', 212 yds...\$130.00; making a total
of \$9,151.70.

X This offer does not hold good unless the cement paint
on the walls is removed. Would submit the following estimate
for the removal of the cement paint:

8000 yds. at 60¢ per yard...\$4,800.00.

This makes the total estimate \$13,951.70.

I remain, yours truly,

Charles Ransom,
Plastering Contractor.

PLEASE QUOTE

FILE 1558-6-12-
171

Regina, June 24th, 1949.

Indian Affairs Branch, Department of Mines & Resources, OTTAWA.

With reference to Department letter of the 9th of April, File 650-5 (E.1), in connection with the appropriation of \$5,000.00 for plastering the interior of the Beauval Indian Residential School, Indian Superintendent J.A. Davis, of the Meadow Lake Agency, recently visited the school, accompanied by Mr. Charles Ransom, a plastering contractor. Enclosed is a copy of the letter which Mr. Ransom has given to Mr. Davis in connection with the cost of plastering the whole building.

It will be noted that Mr. Ransom estimates an amount of \$4800.00 for removing the water proofing cement paint from the walls before they can be plastered, and that the cost of plastering thereafter will be \$9,151.70, otherwise an amount of \$13,951.70 for the completed job.

If only \$5000.00 can be made available this year I would recommend that nothing be done to the interior of the building at the present time other than the removal of the water proofing cement paint, and that an appropriation be made available for the coming fiscal year for the whole of the plastering job at the estimated price given.

Please instruct me in this connection.

Re: Beauval Indian Residential
School

We are in receipt of your telegram of August 30th in connection with the erection of fire escape at the above mentioned school.

I attach copy of your requisition dated June 27th, 1949. Purchase Order 47100 covered all the items mentioned on your requisition.

It is evident from the contents of your letter that Mr. Lidfors has increased his price, and now requires an amount of \$485.00 over and above the amount mentioned on Purchase Order 47100.

When we receive a requisition from an Agent giving as complete information as was shown on your requisition of June 27th, it is presumed that he has made full enquiries and is certain of the expenditure that will be incurred.

However, as we understand the erection of the fire escape is necessary, we are prepared to allow the additional amount of \$485.00, but we trust that in future you will make every possible endeavour

Requisition for School Material

650-5

Date September 8, 1949

For Beauval Indian Res. School Battleford MEADOW LAKE Agency

NOTE:-

To avoid delay, teachers should give full particulars regarding each article required.

The name, series, number of grade, and name of author and publisher of all books required should be given as fully as possible.

When ordering kindergarten material, the catalogue number of some well known firm should be given for each article required.

Only one item should be specified on each line of this requisition and no entry should be made under heading "Number Authorized".

Attention: Mr. B.F. Neary.

An explanation is due as to why we underestimated on our requisition for the installation of fire escapes at the Beauval R.C. Indian Residential School, No.650.

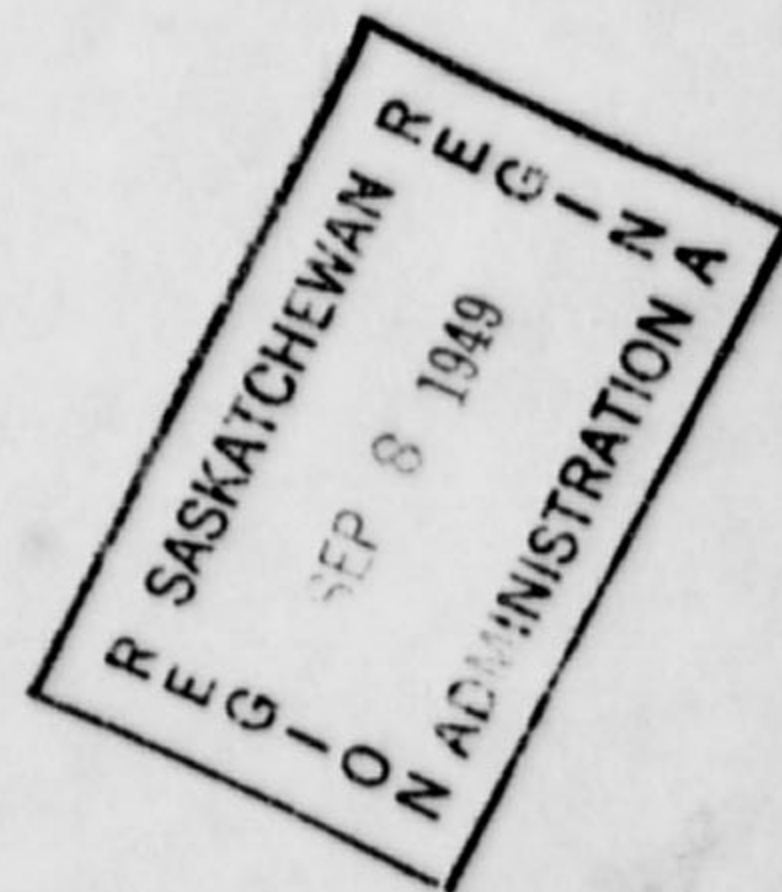

When Mr. Olof Lidfors submitted his estimation it was included in a total quotation of \$7,195.00 which amount included the proposed additions to this school as quoted on our 1950-51 Estimates, also tables, benches and cupboards. When making out the requisition we took the figures as shown for the fire-escape installations and included the 10 percent as Mr. Lidfors commission as this was the percentage quoted on the entire estimate. Unfortunately we did not consider the fact that it is far cheaper to install one thing when your crew is already on the job working on a larger project than it is to just take crew and materials from Meadow Lake and go all the way to Beauval for one small job. When Mr. Lidfors pointed this out we definitely could see what he meant but had previously been of the opinion that his estimate was so based that any amount of the work could be completed at that portion of the estimate without hardship to any party.

In future we will definitely watch all such items and in this way avoid these misunderstandings.

Indian Residential School.
Beauval Sask.,

October 4 1949.

Mr. Bernard F. Neary,
Supt. Education Division,
Indian Affairs Branch,
Ottawa. Ont.

Dear Sir:-

Since the 1950-51 estimates for the Beauval Indian Residential School have been forwarded to Ottawa through the regular channel, I have discovered something that will give trouble in the near future. Being authorized by His Excellency Martin Lajeunesse and Mr. J.A. Davis, Supt. of the Meadow Lake agency I have decided to write you direct in order to save time.

The Principal's or Fathers' house:

This house, formerly a student's house, was built by the Episcopal Corporation of Keewatin, The Pas, Man. in 1910 with two subsequent additions to it in form of a square, one part of the square is about 30' x 42' and the other part is about 26' x 45'. It is a frame building built on the sand without any foundation. The sills are rotten, which would mean that in order to jack it up, false beams would be required and I don't think that the building itself would stand as the walls are starting to bulge. Also brick siding would be required to make it more comfortable in Winter time. This building would cost too much to be repaired and as it has the inconvenience of being 500 yds away from the school which means a lot of walking back and forth to do our work, I believe it would be better to wreck it down and salvage all the lumber we can, to build a machine shed, which is greatly needed and also a lot of material such as sinks, toilets, water pipes, radiators and furnitures could be used in the new building.

New Father's house required:

So instead of repairing this old house, I would suggest that an addition be added to the Indian Residential School to serve as the Principal's residence and office. The present heating system of the Indian School could easily take care of these additions and it would mean great savings for fuel and labor and would also be more convenient.

Sketch:

For your convenience, I inclose a sketch showing the proposed additions to the Indian School. On the boys' side, full basement 30' x 42' inside measurement: for toilets, urinals, bathrooms, dressing room, special room for the grown up boys and also cloak rooms.

On the first floor right above this basement would be the Fathers' residence as shown on the sketch.

On the girls' side, also full basement, 30' x 42', for toilets, shower baths, dressing rooms with a special room for the grown up girls.

Above would be two class rooms as I have to take the boys' and girls' infirmaries from the second floor to the first to give more room to the Sisters so using one actual class room as a girls' infirmary.

Building Material:

The Indian School is a fireproof building built with cement and bricks. I would like very much to have the additions built out of the same material.

Indian Affairs. (RG 10, Volume 6301, file 650-5, part 5)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

2.

at as i have been adviced by a Meadow Lake contractor, reinforcing steel will hard to get next Summer and also the transportation of bricks would be pretty expensive. (Beauval School being 116 miles north of the end of rail and the roads are in bad conditions with no hope of getting them repaire in the near future. Winter time, would be the best time to have some material transported to Beauval, it is cheaper and easier.)

So I would suggest a full cement basement, the height as the rest of the building and for the first floor wooden frame with brick sidjngs, one layer of asbestos paper, one layer of shiplap, rockwool or similar material in the walls and ceiling, 2,6 studs, with plastered Gyprock inside. The floor could be made of fireproof tiles. The roof gravel and tar. This would make it practically fireproof and quite warm.

I expect to be able to send you the estimates on the cost of labor and material in about ten days time, in order to have the estimates figured for this coming fiscal year and have the material transported in Winter time.

If the sketch is not clear enough, although I am quite busy, I would be prepared to take a trip to Ottawa. In the meantime, I will appreciate an early reply to this request.

Yours very truly:

F. X. Gagnon

MEMORANDUM

October 11, 1949.

3571

DEPUTY MINISTER:

Attention - Director of Indian Affairs

Father F.X. Gagnon, o.m.i., Principal of the Beauval Indian Residential School, has written a letter to the Director of Indian Education, dated October 4th.

I am not acquainted with the contents of the letter but understand they deal with the finishing of this School to be done by next summer and the building of two additions for the staff. The Minister has received representations endorsing the suggestions from Father Gagnon, so I would appreciate a report on this matter for the information of the Minister.

Mr. MacKay

Memo for File

Re: Beauval Indian Residential School

Mr. J.A. Harrison, M.P. telephoned this morning with reference to a letter from the Principal of the Beauval Indian Residential School.

I promised him that we would give the letter every possible consideration when we are preparing our Estimates for 1950-51, and we would advise him later exactly what provision we found it possible to make.

Philip Phelan,
Chief, Education Division

Indian Affairs. (RG 10, Volume 6301, file 650-5, part 5)

**PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA**

Ottawa, October 17, 1949.

Memorandum:

DEPUTY MINISTER

Beauval Indian Residential School.

I have received Mr. Levy's memorandum of October 11 referring to a letter of October 4 sent to the Superintendent of Education.

Please find attached a copy of the letter sent by Father Gagnon, the Principal of this School. You will note that Father Gagnon is requesting the following changes to the Beauval Residential School:

- (a) The dismantling of the present Principal's residence and its replacement by an addition of 30 by 42 ft. extending the boys' side of the school;
- (b) A similar extension of 30 by 42 ft. to the girls' side of the school.

Both these additions would have full basements and extensive plumbing arrangements would be necessary. You will note also that both these additions will have to be made of cement and bricks, with reinforcing steel required also.

As this school is 116 miles north of the end of rail at Meadow Lake, Saskatchewan, it would be necessary to have all these supplies shipped in during the winter. No funds are provided in our present Estimates for this project and it is the first intimation which we have had that such additions are required.

Therefore, before proceeding with Father Gagnon's

Indian Affairs. (RG 10, Volume 6301, file 650-5, part 5)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

request, it will be necessary for us to take the following action:

- (a) To have our Educational Survey Officer proceed to this school and submit an inspection report as to the need for these additions.
- (b) If his report is favourable, then an engineer will have to be sent to prepare plans and specifications for the work outlined by Father Gagnon.

Our experience with similar requests has been that we must proceed cautiously and only upon professional advice.

You will note for example that Father Gagnon makes the following statement: "The present heating system of the Indian school could easily take (care) of these additions". We have heard similar statements made previously when additions to residential schools have been proposed by principals and church authorities. Usually some local furnace man is called in to advise on a heating problem which can only be handled by a professional engineer. In a year or two we are then advised that the new section of the building is cold and before long are faced with a heavy bill for the installation of an entire new heating system throughout the school.

Therefore I would recommend your approval for the action which I have indicated above before any further consideration is given to Father Gagnon's request.

Monsieur R. Ferrier, Surintendant de l'Ed. Indienne,
Ottawa, Ont.

Mon cher Monsieur,

Vu le grand nombre d'enfants qu'il faudra recruter pour
l'école de Beauval, je crois qu'il serait **opportun** de faire
parvenir au R.P. Gagnon, Principal, deux ou trois cents feuilles
d'applications pour admission.

Votre tout dévoué,

+ O. Charlebois, curé,

Vic. Apos. du Keewatin.

Ottawa, May 23rd, 1932.

Right Reverend Sir,-

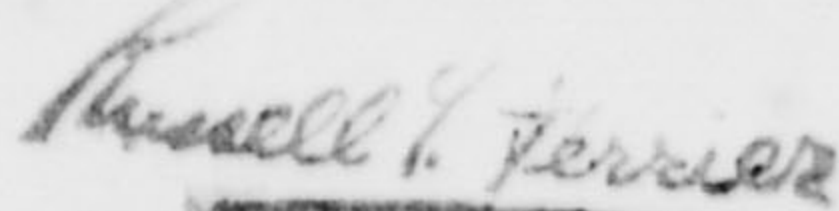

With reference to your letter of the 17th instant, I beg to say that a supply of application for admission forms is being forwarded to Reverend Father Gagnon, Principal of the Beauval Indian Residential School.

In recruiting pupils for this school, the Department desires that Treaty Indian children be secured. Provision has been made for a pupilage of 100 and it is felt that this number of Treaty Indian children can be obtained as it is understood that practically all the members of the Canoe Lake, Clear Lake, Portage la Loche and English River Bands are Roman Catholic.

I have the honour to be,

Right Reverend Sir,

Your obedient servant,

Russell T. Ferrier.
Supt. of Indian Education.

Rt. Rev. O. Charlebois, O.M.I., D.D.,
Bishop of Keewatin,
The Pas, Man.

INDIAN AFFAIRS
JUL 19 1932
RECEIVED

Beauval Indian Residential School.

Beauval July, 5th 1932.

To the Secretary,
Department of Indian Education,
Ottawa.

Dear sir:

Please find enclosed the Quaterly Return ended
June 30th. And I also ask you to discharge no. 0133 Pelagie Malboeuf
who is now 18 years old and ready to get married.

I am not sending the
report re vaccination as the doctor is gone on his trip with the Treaty party
But you will find on your file that this girl was vaccinated in 1929.

As soon as the Doctor will be back I will have to make his report.

Hoping this will be at your satisfaction,

I am, yours very truly,

F. X. Lagnon D. M. L.

Principal.

APPLICATION FOR ADMISSION

To the
Deputy Superintendent General
of Indian Affairs,
Ottawa, Canada.

August 31 1932

Sir,—

I hereby make application for admission of the undermentioned child into the Beauval Indian Residential School; to remain therein under the guardianship of the Principal for such term as the Department of Indian Affairs may deem proper:

Indian name of child Piwapiskus
English name Germaine
Age 13
Name of Band Beauval Lake
No. of ticket under which child's annuity is paid 24
Father's full name and No. Baptiste Piwapiskus 24
Mother's full name and No. Genevieve Larriere 24
Parents living or dead living
State of child's health good
Religion Roman Catholic
Does applicant speak English? no
Previously attended no school for no years.

Baptiste Piwapiskus
(Signature of Father)

NOTE—If mother or guardian signs, agent must forward full explanatory note.

I hereby certify that the above application for admission has been read over and interpreted to the parent or guardian and that the contents were understood by him or her and that I witnessed his or her signature to this document.

R. P. L. Morand the ms
(Signature of Missionary or other Witness)

I recommend the admission of the above child, who is of good moral character and is eligible to be admitted as a grant-earning pupil.

Agent

*Principal or other official of the school must not sign as witness.

NOTE—All the above particulars must be fully given, especially the "Name of Band," "No. of ticket under which child's annuity is paid" and "Religion." The minimum age for admission is seven (7) years, except in the case of an orphan, destitute or neglected child. When application is made for the admission of such cases, full particulars should accompany the application.

Indian Residential School.

Beauval September 3th,. 1932.

Re: Julie Gardiner.

6287
~~6742~~
This child Julie Gardiner is a daughter of Ambroise Gardiner and Helene Bouvier, both Halfbreed. Ambroise Gardiner died many years ago and left his widow and few children. Since that, Helene Bouvier married to a traety Indian Oliver Piwapiskus from Canoe Lake Reserve.

The child Julie Gardiner is living with her mother and father in law on the Reserve. Therefore Julie although not annuitant is eligible for admission to the School, "living the Indian mode of life on a reserve and being a charge to the Department". So, according to your circular November 9th, 1923, this girl is eligible to be admitted as a grant earning pupil.

Hoping these explanations will be satisfactorily,

I am yours very truly:-

Indian Residential School

Beauval October 8th., 1932.

Dear Sir :/

Re: Louis, Vital and Victor Morin.

These three boys whose father and mother are Felix Morin and Angele Daignealt are of mixed blood and not annuitant but they are "living the Indian mode of life on a reserve" Clear Lake Reserve.

Being also a charge to the said reserve and therefore to the Department, according to the Indian Act., they are eligible for admission to the schools.

It is understood that preference is given to annuitant children and I hope next summer the school will be full with treaty children.

Yours very truly.

To the Deputy Supt. Gen.
of Indian Affairs.
Ottawa

F. X. Gagnon O.M.I.

Beauval Indian Residential School

Beauval Sept., 3 1932.

Re: Ernest Durocher.

This child Ernest Durocher is the son of Jimmy Durocher who died many years ago. Since that his wife a halfbreed married a treaty Indian of the name of Johnny Piwapiskus from Canoe Lake Reserve. Therefore this child although not annuitant is eligible for admission to the school, living the Indian mode of life on a reserve and being a charge to the reserve. So, according to your circular November 9th, 1923 this boy is eligible to be admitted as a grant-earning pupil.

Hoping these explanations will be satisfactory,

I am Yours very truly:-

F. X. Gagnon O.M.I.

F.X. Gagnon O.M.I.

O203	G. Piwapiskus	24	L. Morin
		25	V. Morin
		26	V. Morin

You will notice the certificate of health is not filled in. I tried hard to have Dr Weatherhead from Ile a la crosse to examine children, but being away all summer with the treaty party, he told he could not come now. As it is getting late in the Fall and possibly no more mail before December, I did not want to delay any more.

There is also a few ticket no. missing I could not get them but I will forward them as soon as I will get them.

Yours very truly.

To the Deputy Spt. Gen.
of Indian Affairs.
Ottawa.

APPLICATION FOR ADMISSION

To the

Deputy Superintendent General
of Indian Affairs,
Ottawa, Canada.

August 29 1932

Sir,—

I hereby make application for admission of the undermentioned child into the General Indian Residential School; to remain therein under the guardianship of the Principal for such term as the Department of Indian Affairs may deem proper:

Indian name of child Durocher
English name Ernest
Age 9
Name of Band Leauve Lake
No. of ticket under which child's annuity is paid no annuity paid
Father's full name and No. Jimmy Durocher
Mother's full name and No. Marie Louise Rivapiskus 34
Parents living or dead mother living
State of child's health Good
Religion Roman Catholic
Does applicant speak English? No
Previously attended No school for years.

Jimmy X Rivapiskus
(Signature of Father)

NOTE—If mother or guardian signs, agent must forward full explanatory note.

I hereby certify that the above application for admission has been read over and interpreted to the parent or guardian and that the contents were understood by him or her and that I witnessed his or her signature to this document.

* R. P. L. Morand J. P. Q.
(Signature of Missionary or other Witness)

I recommend the admission of the above child, who is of good moral character and is eligible to be admitted as a grant-earning pupil.

Agent

*Principal or other official of the school must not sign as witness.

NOTE—All the above particulars must be fully given, especially the "Name of Band," "No. of ticket under which child's annuity is paid" and "Religion." The minimum age for admission is seven (7) years, except in the case of an orphan, destitute or neglected child. When application is made for the admission of such cases, full particulars should accompany the application.

August 31 1932

Sir,—

I hereby make application for admission of the undermentioned child into the Beaver Lake Indian Residential School; to remain therein under the guardianship of the Principal for such term as the Department of Indian Affairs may deem proper:

Indian name of child Pivapiskus
English name Germaine Pivapiskus 3
Age 13 0 70 3
Name of Band Beaver Lake
No. of ticket under which child's annuity is paid 24
Father's full name and No. Baptiste Pivapiskus 24
Mother's full name and No. Genevieve Lariviere 24
Parents living or dead living
State of child's health good
Religion Roman Catholic
Does applicant speak English? no
Previously attended no school for no years.

Baptiste Pivapiskus
(Signature of Father)

NOTE—If mother or guardian signs, agent must forward full explanatory note.

I hereby certify that the above application for admission has been read over and interpreted to the parent or guardian and that the contents were understood by him or her and that I witnessed his or her signature to this document.

* R. P. L. Morand J. M.
(Signature of Missionary or other Witness)

I recommend the admission of the above child, who is of good moral character and is eligible to be admitted as a grant-earning pupil.

Agent

*Principal or other official of the school must not sign as witness.

NOTE—All the above particulars must be fully given, especially the "Name of Band," "No. of ticket under which child's annuity is paid" and "Religion." The minimum age for admission is seven (7) years, except in the case of an orphan, destitute or neglected child. When application is made for the admission of such cases, full particulars should accompany the application.

Beauval Indian Residential School.

Beauval January 3th., 1933.

Dear Sir:-

Please find enclosed the Quatterly return ending December 31 th.,
I am very pleased to tell you that the children are all well, except one
girl, who is actually sick with a severe cold, and that they all enjoyed
to be in school.

I ask to discharge Raphael Opikokew Register no 23 from
Canoe Lake Band no 14. and also Clementine Est'aldhenen no. 0172 from
English River Band 22.

The boy was expelled from school on account of his
bad character and bad conduct, he was a very bad example for the others.

The girl being pretty near 17 of age had to go and help her
mother for house-keeping. Her mother being alone, her other daughter being
in school, and also not feeling very well, she need her.

Hoping this satisfactory;

Yours very truly:

F. X. Gagnon O.M.I.

Indian Residential School.

Beauval January 3 th., 1953.

Dear Sir:-

Re Albert and Eleonore Aubichon.

Pleased find enclosed the application forms for the admission to this school of Albert and Eleonore Aubichon. Their father and mother are halfbreed and therefore not annuitant. But according to your decision in September last, I was authorised to take these children, -this was done through our representative in Ottawa, Rev. Father F.A. Marcotte.

Therefore last fall I wrote to their father to advice him that his children were accepted and to bring them. But being away from home the season was too advanced when he got my letter. After that there was no way of communication, so at Christmas he brought his children along after 5 days traveling with dogs sleigh.

So, I could not refuse according to the instructions received last fall and also according to the Indian Act: "While it was not considered that the children of half-breeds proper to Manitoba and the Prairie Provinces should be admitted into Indian Schools and paid for by the Department, it was conceded that all children, even those of mixed blood, whether legitimate or not who live upon an Indian reserve and whose parents on either side live as Indians, even if they are not annuitants, should be eligible for admission to the schools....."

As I do not abuse of this act and that preference is always given to treaty children, and considering too that these children are living on the English River reserve, and live the Tchepweyan mode of live are eligible for admission to this school.

Furthermore, their father althou

Indian Affairs. (RG 10, Volume 6302, file 650-10, part 2)

ARCHIVES PUBLIQUES
CANADA**

2.

half-breed claims that he never got the scrips and he is willing to take treaty any time. He already made application. Mr. Murison from Regina on his paying treaty trip a year ago last summer, took all the informations about his case and he was promised to be adviced. But unfortunately, he never got a word about it.

So, for these reasons, i sincerely beleive that these children are children to whom the law applies and therefore eligible to be admitted as grant-earning pupils.

Yours very truly:

F. X. Gagnon O.M.I.

Mr. J. D. Sutherland
For Supt of Indian Education.

Beauval Indian Residential School.

Beauval, December 22th., 1932.

Dear Sir:-

With reference to your letter of the 6th instant re Victor, Louis, and Vital Morin, I am sure that there is a mistake about the application forms I sent to the Department on November the 8th. These forms were sent only as certificate of Health and not as admission, as all these children were approved by you. Refer file I32-I-10, October 20th, 1932.

In your file to you will find a letter covering explanation why I asked the admission of these three boys although of mixed blood, ~~the~~ eligible for admission to schools according to the Indian Act.

Hoping these explanations will be satisfactory I can assure you that I am making special effort to have only Treaty children only. Very likely I will admit a few children at Christmas and next summer I intend to recruit up to Portage La Loche.

Yours very truly,

F. X. Gagnon O.M.I.

APPLICATION FOR ADMISSION

September 11 1923

Sir,—

I hereby make application for admission of the undermentioned child into the Beauval Indian Residential School; to remain therein for such term as the Department of Indian affairs may deem proper; and I hereby consent that the principal or head teacher of the institution for the time being shall be the guardian of the said child, viz:—

Indian name of child Lemaigre
 English name Maria Thieau
 Age 5
 Name of Band Portage La Loche
 No. of ticket under which child's annuity is paid 5
 Father's full name and No. Celestin Lemaigre 8 (La Moyle)
 Mother's full name and No. Elise Herman
 Parents living or dead Father dead
 State of health Good
 Religion R.C.
 Speak English or not no
 Present state of Education nil
 Previously attended no school for no years.
 Signature of Parent or Guardian Elise x Herman

I hereby certify that the above application for admission has been read over and interpreted to the parent or guardian and that the contents were understood by him or her and that I witnessed his or her signature to this document.

I hereby approve of the admission of the above child and certify that he is eligible to be admitted as a grant-earning pupil.

* Joseph Bourlouis
 Signature of Witness

S. T. Macdonald
 Supt. or Agent

*Principal or other official of the school must not sign as witness.

NOTE—All the above particulars must be fully given, especially the "Name of Band" "No. of ticket under which child's annuity is paid" and "Religion." The minimum age for admission is seven (7) years, except in the case of an orphan, destitute or neglected child. When application is made for the admission of such cases, full particulars should accompany the application.

Why offer signed by
Canadian when father
living. what relation is
to be shown

Others OK.
JP

As this school was much under the number for which grant was allowed, I lectured all the North Bands on the school subject when paying Annuity, this was followed up by a visit from the Principal with the above results, four other applications had to be returned for correct names and will be forwarded later. I would recommend that the above applications be approved.

The Secretary,
Dept of Indian Affairs,
Ottawa.

Beauval November 29th, 1933.

Dear Sir:-

I am just in receipt of your letters of 3rd and the 13 th. instant about the admission of the new children. Regarding Joseph Montgrand.

After information I found that his father and mother are both dead and i cannot understand why I wrote that his mother only was dead. Any way it is a fact. For the relation with Gabriel One Eye, his guardian, Father Penard who was in Portage La Loche for many years, told me that Gabriel One Eye is his cousin, but his wife must be Joseph's aunt.

If this explanation is not satisfactory, please notify me, and I will get from the Father at Portage La Loche. To day, I did not want to wait so long for an awnser, because, you know yourself where is Portage La Loche.

Hoping this is satisfactory,

I am,

Yours very truly,

F. X. Gagnon O.M.I.

F.X. Gagnon O.M.I.

Beauval # 10
Indian Residential School.

Beauval May, 21st 1934.

Dear Sir:/

I have just on hand your letter of the 26th ultimo with reference to that F. Billette 0198. This is due to a mistake made by my secretary. F. Billette died last summer during the Holidays apparently with T.B. at Peter Pound Lake, about 100 miles north from here. It is only in August, that I heard about her death and I told my secretary about it, but as her name had to appear on the September Report, my secretary kept her name on the list for the report and also for the December Return by mistake.

Being very busy around New Year's, I did not check the report very closely, unfortunately and on the each return, that name was not on the list.

As we received a grant on the December Return for 92 days after her death, I would ask you to kindly deduct this amount on the next return or if you wish a cheque will be mailed to the Department for this amount. I am very sorry that such a mistake happened and I hope that these explanations will be satisfactory.

Yours very truly,

F. X. Gagnon O.M.I.

Mr. J.D. Sutherland,

NOTE FOR FILE:-

F. Billette - No. 0198 of the Beauval Indian Residential School died in August, 1933.

Through oversight, grant was requested for this girl for 92 days on the December quarter return and this should be deducted from the aggregate attendance for the June quarter. (See letter of May 21st, 1934, from the Reverend Principal of the Beauval Indian Residential School).

A handwritten signature in dark ink, consisting of several overlapping loops and a long horizontal stroke at the bottom.

132-1-10.

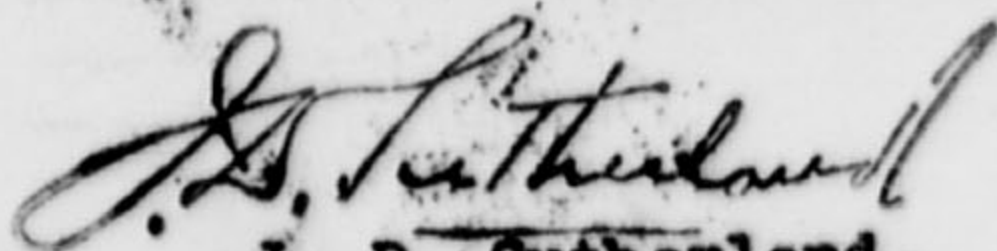

Ottawa, May 29, 1934.

Rev. Sir:

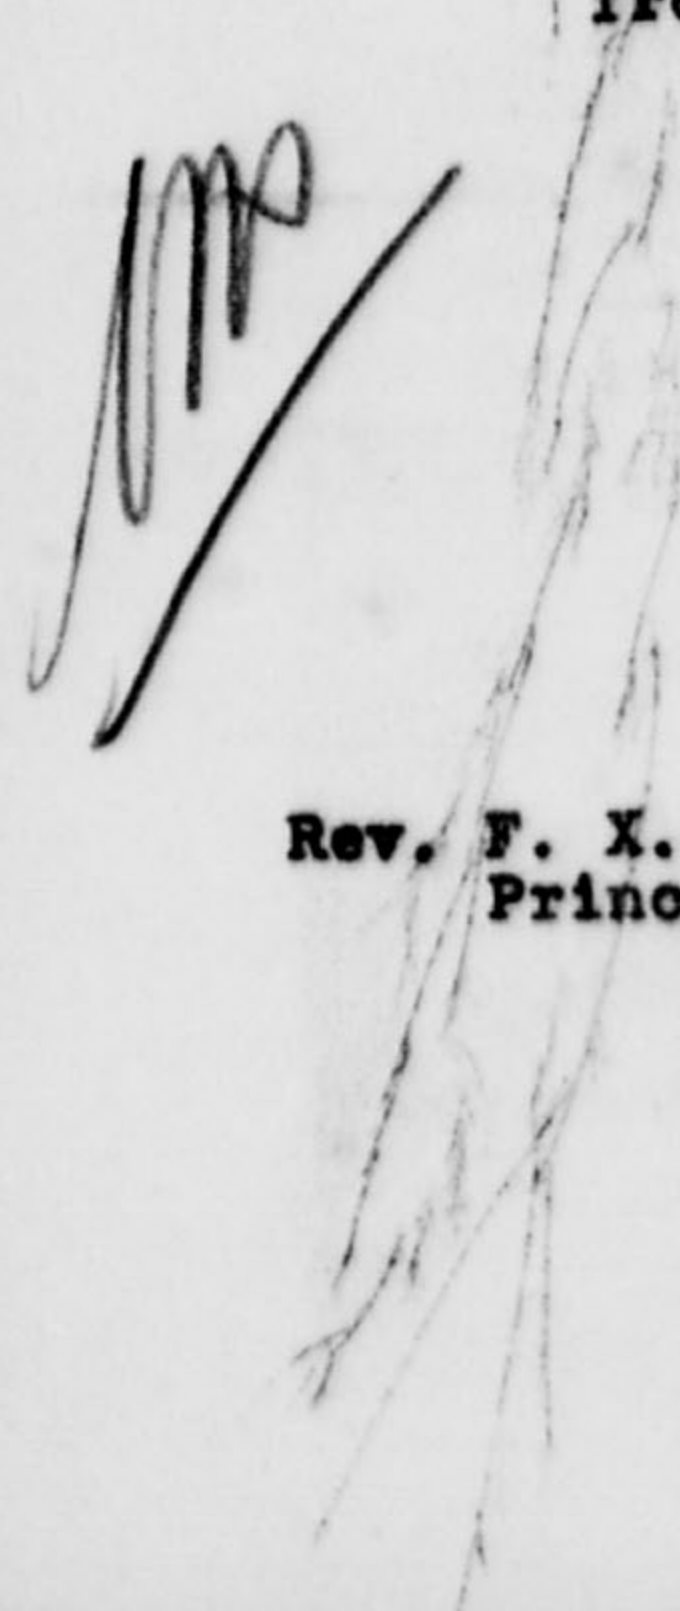

I beg to acknowledge receipt of your letter of the 21st instant, with reference to F. Billette, No. 0198.

When preparing the June quarter return of the Beauval Indian Residential School, you should make a special note at the bottom of the return regarding the mistake that was made in asking grant for this girl for the quarter ended December 31st, last, and 92 days should be deducted from your aggregate attendance for the June quarter.

Your obedient servant,

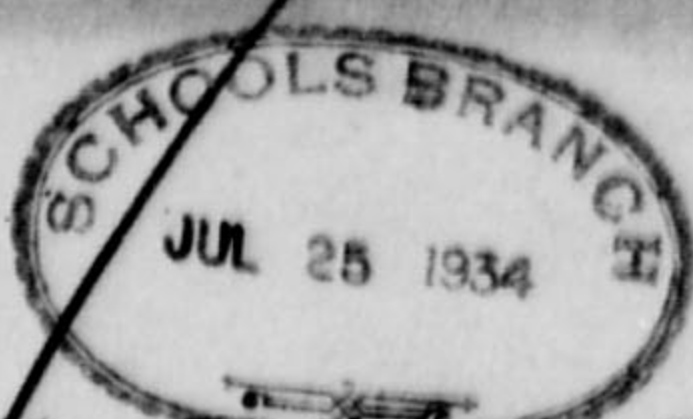

J. D. Sutherland,
Acting Supt. of Indian Education.

Rev. F. X. Gagnon, O.M.I.,

Indian Residential School.

Beauval, July, 19th., 1934.

[Handwritten signature]
Dear Sir:-

To comply with the Indian Act, let me ask your permission to keep the following Children, who are sixteen years of age or over:

Marguerite Mispunas no. 0143.

This girl is actually sixteen years old. She is orphan, and she has no close relation who could take care of Her. She was going to get married this summer, when she got sick in March with T.B. Glands of her neck are enlarged. As she seem to pick up a little, I kindly ask you the permission ^{To keep her} untill she get married.

Bernadette Opikokew. no. 0151.

This girl is actually 15 years old, but being orphan, I consider it will be detrimental to have it discharged from school this year, I would ask you to keep her at least one more year.

Madeleine Piwapiskus. no. 0152.

This girl is also fifteen years old, orphan and in the same case as the above.

Sarrazine Mc Intyre. no. 0159.

This girl is sixteen years of age. Being quiet, obedient, she has always been a good example to the other girls by her moral character. Although a little shy by nature, she is intelligent and succeed fairly well in her classwork. So, I would be glad to get the permission to keep her one more year to see if nothing else could be done for this Child.

Yours very truly,

F. X. Gagnon, D. M. L.

Harold W. Mc Gill.
Deputy Superintendent General. F.X. Gagnon O.M.I.
Principal.

Indian Affairs. (RG 10, Volume 6302, file 650-10, part 2)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

Ottawa, July 26, 1934.

Rev. Sir:

With reference to your letter of the 19th instant, I beg to say that in view of your recommendation the Department approves the following pupils remaining in the Beauval Indian Residential School for at least another year:

No. 0143 - Marguerite Mispunas
 " 0151 - Bernadette Opikokew
 " 0152 - Madeleine Piwapiskus
 " 0159 - Sarrasine McIntyre.

In accordance with the instructions contained in the Deputy Superintendent General's circular of the 15th ultimo, you should, at the end of June in each year, forward to the Department a list giving the names and register numbers of the pupils in the Beauval Residential School who are sixteen years of age and over. In the case of those whom you consider should remain for a further period, permission should be requested. The Department realizes that there are often very good reasons for keeping certain pupils in a residential school after they reach the age of sixteen years, and representations in this regard made by yourself will receive the careful consideration of the Department.

Your obedient servant,

Philip Phelan,
 For Supt. of Indian Education.

Beauval, Sept. 20th., 1934.

Dear Sir:-

Re: Ivonne Piwapiskus.

According to the Indian Act the minimum age for admission is seven years. Nevertheless, exception in the case of an orphan is always admitted by the Indian Department.

This case Ivonne Piwapiskus is one of them. Her mother died a year ago last summer and his father is actually in the Hospital.

So, I strongly recommend the admission of this child to School.

Yours very truly,

Mr. S. L. Macdonald,
Indian Agent,
Battleford, Sask.,

Dear Sir:-

Re Therese Lariviere no 39 Canoe Lake Band.
As you will see from the Application for admission of
Therese Lariviere, this child is only 5 years old.

Being a case of orphan and destituted and almost neglected child, you know that her father is unknown and her mother froze to death last winter.

Her guardian, Marin Lariviere is about 80 years old and unable to sustain the child.
So, according to the Indian Act, this child is eligible to school.

Hoping these particulars will be satisfactory,

I am,

Yours very truly,

F. X. Gagnon O.M.I.

F.X. Gagnon O.M.I.

Bishop's House, Le Pas, Man., Jan. 16th, 1935.

The Secretary,
Department of Indian Affairs,
Ottawa, Ont.

Dear Sir:-

I wish to submit to your attention the fact that a substantial error has been made in the Quarterly Return of the Beauval Indian Residential School for the Quarter ended September 30th 1934.

In receiving the Grant for September Quarter and comparing the same with the Grant for June 1934 there was such a difference that it was obvious that a mistake had been made. I therefore asked the Father Principal to send me the copy of his September Quarterly Return and I found out that in the Aggregate No. of Days pupils in residence during the Quarter he did not include the days granted for vacation.

You will find herewith a copy of the September Quarterly Return as it should be and if you do compare it with the one of June it will prove correct. I therefore kindly ask the Department to pay us the balance due on the last September Quarterly Return.

I wish to point out also that the same mistake has been made on each September Quarterly Return since 1930. If it is not too late to put up a claim I would be very glad to submit to you a duly copy of the above mentioned Quarterly Returns.

Yours very truly,

Martin Lajeunesse

Vicar-Apostolic of Keewatin.

Indian Affairs. (RG 10, Volume 6302, file 650-10, part 2)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

Ottawa, February 11, 1935.

Right Reverend Sir,-

I beg to acknowledge the receipt of your letter of the 16th ultimo, enclosing an amended return for the Beauval Indian Residential School for the quarter ended September 30th, last.

Arrangements are being made to allow the balance which you claim for the September quarter of 1934, but it will not be possible to consider making payments for the other September quarters.

This matter emphasizes the importance of extreme care being taken in preparing the quarterly return. The September quarter return, in particular, should be carefully watched and grant should be requested for each pupil for the actual number of days such pupil is in residence during the September quarter, plus the forty-three (43) days' holidays for which grant is allowed. For instance, if a pupil is allowed home on holidays on July 1st and returns on August 13th, grant should be requested for 92 days. If, however, a pupil allowed home on holidays on July 1st does not return until September 1st, grant should be requested for such pupil for 73 days (30 days in residence during September plus 43 days' holidays). In cases such as the latter, a note should appear opposite the pupil's name in the column provided for that purpose, stating the reasons for the absence.

I have the honour to be,

Right Reverend Sir,

Your obedient servant,

J. D. Sutherland.
Acting Supt. of Indian Education.

Rt. Rev. M. Lajeunesse, O.M.I.,

Indian Affairs. (RG 10, Volume 6302, file 650-10, part 2)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

Ottawa, October 23rd, 1935.

Reverend Sir,-

The Department is in receipt of the September quarter return of the Beauval Indian Residential School.

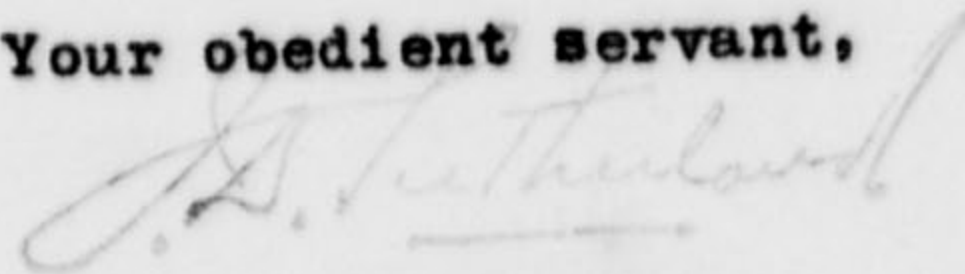

In preparing this return, the names of all the pupils admitted during the September quarter were placed on the last page of the return. This was a mistake as the names of the new girls should have followed the names of the other girls on the return, while the names of the new boys should have been placed on the last page of the return.

As a result of this mistake, the pupils are wrongly numbered and, therefore, on future returns, the pupils admitted during the September quarter should be numbered as follows:-

No.	50 - J. D. Lemaigre
"	51 - Louis Nauraye
"	52 - J. L. Piche
"	53 - Ambroise Stevenson
"	54 - Bruneau Earnest
"	55 - William Earnest
"	56 - Emile
"	57 - Alex Dawatsace
"	0220 - M. C. Dawatsace
"	0221 - Christine Dawatsace
"	0222 - M. Therese Piwapiskus
"	0223 - M. Darazele
"	0224 - M. Opikokew
"	0225 - Christine Piwapiskus
"	0226 - S. Mongrand
"	0227 - J.D. Eleonore Lemaigre

Application forms and certificates of health should be forwarded for the sixteen (16) pupils mentioned above.

Your obedient servant,

J. D. Sutherland.
Acting Supt. of Indian Education.

Rev. Victor Bleau, O.M.I.,
Principal,

October 5th, 1935.

Re-Approval for Admission.

Dear Sir:-

I wish to bring to your attention the following cases and would like you to approve their remaining at the School for another year:

Marguerite Mispunase No.0143; this case was approved on July 26th 1934 (Ref-132-1-10). Marguerite is 18 years old. She is an orphan; both parents dead; no close relations. Good character; she exercises a beneficial influence on others. Last winter, she was ill; she is not yet very strong but is gradually gaining in strength. As she is, she is not in a state to be married; and she would be compelled to do so if she were discharged from the school. We hope the Department will grant her the well-deserved favor of remaining with the Sisters for another year.

Sarrazine MacIntyre No.0159; this case also approved on July 26th 1934 (Ref.132-1-10). Sarrazine is in her 18th year. Very talented girl, serious, of excellent behaviour, and inclined to devote herself for the welfare of others. The Principal in accord with the Sisters of the School, hope that later on when she has returned to her Reserve, she could be of valuable assistance in post-school activities which they propose to organize and which shall be explained to you later. Another year at our School would enable us to prepare her for this purpose. So, for the sake of our cause, I solicit your permission to keep her, as a special favor for this child of rare endowments.

C. Lariviere, No.0166; 16 years. Good character. She is an orphan, and quite destitute. On these grounds, we request that she remain at school for another year.

E. Piwapiskus No.0185; 16 years old. Good girl; poorly endowed; much room for improvement. No opportunity for early marriage. She also is an orphan. We therefore request that her stay at school be prolonged another year.

P. Grandfaraud No.0193; 16 years old. Good moral character as shown by previous reports. Not ready for married life, because of a state of general weakness, which is steadily improving. Another year at school would be very beneficial to her, and we trust the Department will grant us this.

M. Doré.No.0195; 16 years old. She has attended school very little on account of ill health. But now, according to the Doctor's testimony she is in a state to attend, and would greatly benefit by another year at school.

Awaiting a favorable reply to these requests, we beg to remain

Yours respectfully,

Mr. S.L.Macdonald,
Indian Agent,
Battleford, Sask.

Rev. Sir:

The Department is unable to find the September quarter return of the Beauval Indian Residential School. We are under the impression that this return was sent back to you with letter of October 23rd, last.

Please let me have a copy of your September return at the earliest possible date, and, at the same time, you might forward your December return.

Yours truly,

J. D. Sutherland,
Acting Supt. of Indian Education.

Schools

Beauval Indian School,
Beauval, Sask.,
January 4th, 1936.

Dear Sir:

I am in receipt of your letter, advising me in regards to the Quarterly Return. Your advices have been strictly followed, and I hope that the present Report will be satisfactory in every way. Applications have also been sent to Mr. MacDonald, and they should reach you within the next few days.

Due to an error on my part, Victor Sylvestre, 40- age 8- PeterPondLake 65- admitted 21/8/33, was discharged. I would ask you to kindly cancel discharge, and reinstate Victor Sylvestre as a pupil of our School.

To conform with the latest regulations issued by the Department, we are forwarding you a detailed account of the death of two of our pupils:
Leon Gunn 28- age 10- EnglishRiver 68
Magloire Billette 41- age 8- PeterPondLake 65.

I would also wish to bring to your attention a special requisition for Sports' Equipment and other items needed by the School. This requisition has been sent to Mr. MacDonald, who shall forward it to you.

Thanking you for all favors, and expecting a favorable reply to our request, I remain

Respectfully yours,

Victor Bleau a.m.i.
Principal

Ref. No I32-I-10

Dear Sir:

I am just in receipt of yours
dated January the third.

As requested, I enclose copy of
the Sept. Quaterly Return.

Having been away for over two weeks,
I am giving you a late answer. However I hope this will
in no way interfere in the good relations I wish to maintain
with the Department.

Yours very truly,

Victor Blane
Principal

Mr. J.D. Sutherland,
Acting Supt. of Indian Education
Department of Indian Affairs
Ottawa, Canada.

Ottawa, February 4, 1936.

Dear Sir:

With reference to your letters of the 14th ultimo, you may inform the Principal of the Beauval Residential School that the admission of the following children is approved:

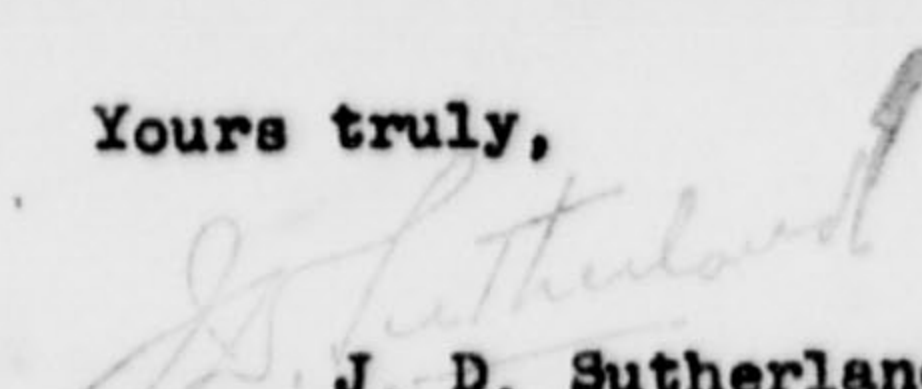

Elie Red Iron
Christine Piwapiskus
Norbert Billette
Emile Nezoroche
(Didzaire)

Margaret Darazele
Christine Dawatzare
Elizabeth "
Alex "

The death of Leon Gunn, No. 28, and Magloire Billette, No. 41, is regretted. If these pupils died at the school, Form 414 - Memorandum of Inquiry into the Cause and Circumstances of Death - should be completed and forwarded to the Department.

The Department has not yet received an application form for Alfred Kohan, No. 60. The necessary form for this boy should be forwarded as soon as possible.

Yours truly,

J. D. Sutherland,
Acting Supt. of Indian Education.

APPLICATION FOR ADMISSION

To the
Deputy Superintendent General
of Indian Affairs,
Ottawa, Canada

September 5th, 1935.

Sir,—

I hereby make application for admission of the undermentioned child into the Beauval Indian Residential School; to remain therein under the guardianship of the Principal for such term as the Department of Indian Affairs may deem proper:

Indian name of child. Ambroise Stevenson
English name. Ambroise Stevenson
Age 11
Name of Band. Water Hen Lake
No. of ticket under which child's annuity is paid 20 (Jones Obichon)
Father's full name and No. Benoit Stevenson Obichon
Mother's full name and No. Elmiere Maurice (Obichon)
Parents living or dead. Both dead.
State of child's health Good.
Religion R.C.
Does applicant speak English? No.
Previously attended No. school for years

His
Henri Daigault (Guardian)
(Signature of Father)

NOTE—If mother or guardian signs, agent must forward full explanatory note.

I hereby certify that the above application for admission has been read over and interpreted to the parent or guardian and that the contents were understood by him or her and that I witnessed his or her signature to this document.

I recommend the admission of the above child, who is of good moral character and is eligible to be admitted as a grant-earning pupil.

Gustave P. Larose
Signature of Missionary or other Witness

S. J. McEwen
Agent

*Principal or other official of the school must not sign as witness.

NOTE—All the above particulars must be fully given, especially the "Name of Band," "No. of ticket under which child's annuity is paid" and "Religion." The minimum age for admission is seven (7) years, except in the case of an orphan, destitute or neglected child. When application is made for the admission of such cases, full particulars should accompany the application.
Form No. 21.

OFFICE OF INDIAN AFFAIRS
INDIAN AGENT
Battleford. Sask.
Feb 15th 1936

Sir:-

I beg to forward attached, application for admission to the Beauval School, from Ambroise Stevenson, age 11, from No.20 Water Hen Lake Band and would recommend, that the application be approved.

This application was twice returned to Beauval for further information as to this boy was and I finally had to make inquiries at Water Hen and Green lake and it seems, that Benoit Stevenson, was known as Jonas Obichon, but has been dead for many years and his widow, now dead was paid as No.20, The boy has since been cared for by Harry Daignault a Non-Treaty Indians, and can be recognized as his guardian. The boy is now an Orphan and the school is the proper place for him.

Your obedient servant,

S. J. McDougal
Indian Agent.

Orig. on... 132-7-10.

Ottawa, April 14, 1936.

Right Reverend Sir:

Referring to conversation with Your Lordship, during your recent visit to the Department, regarding the age limit for the discharge of those boys who are 14 years of age from the residential schools conducted under your auspices, in order that they can be returned to their parents, to acquire a knowledge of hunting, trapping, etc., I have to say that this meets with the approval of the Department. The Indian Agents at The Pas, Norway House, and Battleford are being informed and requested to advise the Principals of the Guy, Cross Lake and Beauval Indian Residential Schools accordingly.

It is not intended that all the boys, upon attaining 14 years of age, shall be granted discharge, but only those cases which the Principals consider to be in sufficiently good health to accompany their parents on their hunting and trapping trips. It is thought that Indian boys should have acquired sufficient education for their future needs by the time they reach 14 years of age and that it would be to their future advantage to acquire a knowledge of hunting and trapping, on which their future livelihood will, to a great extent, depend.

I would suggest that Your Lordship discuss the matter with the Principals of the above named schools and advise them that careful selection should be made by them of the boys whose discharge they would recommend at 14 years of age.

I have the honour to be,

Right Reverend Sir,

Yours truly,

J. D. Sutherland,
Acting Supt. of Indian Education.

Right Rev. M. Lajeunesse, O.M.I.,
Bishop of Keewatin,
The Pas, Man.

Indian Affairs. (RG 10, Volume 6302, file 650-10, part 2)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

Ottawa, April 14, 1936.

Dear Sir:

His Lordship Bishop Lajeunesse, during a recent visit to the Department, discussed the matter of the age limit for the discharge of the boys from the Indian Residential Schools conducted under his auspices. He recommended that those boys who are in good health should be given their discharge when they reach 14 years of age, in order that they can be returned to their parents or guardians, with a view to acquiring a knowledge of hunting and trapping, which will be the main source of their future livelihood.

The Department considers that it would be in the interests of the boys to be granted their discharge at 14 years of age, as they should by that time have acquired an education sufficient to meet their future needs. You may, therefore, inform the Principal of the Beauval Indian Residential School that, when he considers that a boy, upon attaining his fourteenth birthday, should receive his discharge, he should make application to the Department, through your office, in the usual manner.

It is not intended that all boys upon reaching 14 years of age are to be discharged, but, as stated, only those who are in sufficiently healthy condition to accompany their parents or guardians in order to acquire a knowledge of hunting, trapping, etc.

I would request that you advise the Principal accordingly.

Yours truly,

J. D. Sutherland,
Acting Supt. of Indian Education.

Beauval Indian Residential School,
Beauval, Sask.,
July 3rd, 1936.

Mr. J.D. Sutherland,
Acting Sup't of Indian Education,
Ottawa, Ont.

Dear Sir:

Again on the present return we have entered the name of Albert Kokan, but as you will notice, we have not counted him in the various totals.

A correction has to be made regarding his name: His name is Albert Kokan and not Alfred as listed on previous reports.

This boy belongs to the Fond du Lac (Athabasca) Band; as his parents are at present hunting somewhere in the north, it has been impossible for us to ascertain what his Teaty Number was. But he is certainly a Treaty child.

Our assurance that he belongs to the Treaty, and also the fact that we have boarded and clothed him during the term, would seem to entitle us to receive the grant allowed every Treaty child. However, owing to the irregularity in the information legitimately required in this child's case, we do not press or urge payment of grant, but would be very grateful if you would consider this boy as a grant-earning pupil.

Respectfully yours,

Peter Blum
Principal

APPLICATION FOR ADMISSION

To the
Deputy Superintendent General
of Indian Affairs,
Ottawa, Canada

August 14th, 1926

Sir,—

I hereby make application for admission of the undermentioned child into
the Beauval Indian Residential School to remain
therein under the guardianship of the Principal for such term as the Department
of Indian Affairs may deem proper:

Indian name of child.....
English name..... Beatrice Didzere (Nez croche)
Age..... 7
Name of Band..... Peter Pond Lake
No. of ticket under which child's annuity is paid..... 94
Father's full name and No..... Joseph Didzere 94 (Nez croche)
Mother's full name and No..... Clementine Desjarlais
Parents living or dead.....
State of child's health..... Good.
Religion..... Roman Catholic
Does applicant speak English?..... No.
Previously attended..... school for..... years

Joseph Didzere
(Signature of Father)

NOTE—If mother or guardian signs, agent
must forward full explanatory note.

I hereby certify that the above application for
admission has been read over and interpreted to the
parent or guardian and that the contents were
understood by him or her and that I witnessed his
or her signature to this document.

I recommend the admission of the above child,
who is of good moral character and is eligible to be
admitted as a grant-earning pupil.

* Joseph Biste
Signature of Missionary or other Witness

S. L. Macdonald
Agent

*Principal or other official of the school must not sign as witness.

NOTE—All the above particulars must be fully given, especially the "Name of Band," "No. of ticket
under which child's annuity is paid" and "Religion." The minimum age for admission is seven (7) years,
except in the case of an orphan, destitute or neglected child. When application is made for the admission
of such cases, full particulars should accompany the application.

OFFICE OF
INDIAN AGENT

Battleford. Sask.
January 12th 1937

Dear Father,

Per your request with the Quarterly School returns for December, I have attempted to fill in the numbers or Band number, where omitted and the following is the result.

0201, J.Gardiner, Canoe Lake, we have no Indian of this name on our records.

0206, E.Aubichon, English River, no such name on our records.

0204, Clara Yazalew English River, this is #104.

In this case, you show Pupil 0239, as No.104 English river, as there is no Marguerite or others in this Band named LaLibertie, I think No.0239, should be Marguerite, Darazale No.6 English River.

26, E Morin, P.P.L, we have no Indian by the name of Morin at Portage La Loche.

53 A Stevenson, this boy is From No.20 Water Hen Lake and not Meadow Lake

60 Albert Kokan, there has never been any application for this boys admission and one should be completed as required by the Dept as he is evidently not of this Agency, his Band and Treaty Number should be obtained from his parents Treaty Ticket.

62, Not Known and we have no such name on our records.

67 Is from No.15 Water Hen Lake, not Meadow Lake.

Many of the difficulties as above are through change of names and the Pupils should always be put on the Rolls in the Name in which the Application was approved, as many, have trade names, church Names and Treaty Names and unless the Number is taken from their Ticket, when application is made, it is in many cases almost impossible to trace them.

Many of the above are evidently before my time or yours and I have no records to trace them by or account for the names.

Yours very truly,

S. I. McDougal
Indian Agent.

Sir,

I beg to forward herewith Quarterly School return from the Beauval Residential School for the Quarter ending March 31st, 1937.

The following is an extract from the Principal's letter, for advice of the Department, and it will be noted from this that applications for admission will be forthcoming as soon as they can be certified by the Doctor.

" I am enclosing the Quarterly Return. Though it has been made as usual very conscientiously, I feel uneasy while sending it in, on account of being unable to supply you with the information you and I are requested to give, by the Indian Department.

Re: Pupil No. 0228 Florence Matchee. Certificate of health has been sent to Dr. Lavoie to be signed.

The same has been done for:

No. 0349 Marguerite Laliberte
No. 62 Marcel Nikotsace
No. 64 John Gunn.

As soon as Dr. Lavoie has filled them in he will send them direct to you. At the same time he will also be sending you application forms for Pupil No. 0241 Agnes Bell, and also for Pupil No. 70."

Your obedient servant,

S. J. Macdonald

Rev. Sir:

I have to acknowledge receipt of the March quarter return of the Beauval Indian Residential School.

When preparing your quarterly returns in future, please note that all pupils must be shown under the heading "Class of Study". The different columns of the return should be correctly added and the totals placed at the bottom of each page. These totals should be carried forward to the last page.

We have already requested that these instructions be carefully observed, and it is regretted that returns incorrectly prepared in future will have to be returned.

Yours truly,

Philip Phelan,
Chief, Training Division.

Rev. Sir:

In checking the June quarter return of the Beauval Indian Residential School, which is returned herewith for correction, it is noted that the names of the following pupils are shown on the March quarter return but do not appear on the June return although no request has been received for their discharge: -

No. 0176 - T. D. Nauraye
 " 0189 - O. Didzene
 " 0193 - T. Grand-farand
 " 0206 - E. Aubichon
 " 0222 - M. T. Piwapiskus
 " 0237 - M. E. "
 " 13 - Francois Bell
 " 37 - L. Montgrand
 " 56 - E. Nezevehe
 " 61 - P. "
 " 62 - Marcel "
 " 65 - L. Bull
 " 0228, 0239, 62, 64.

If these pupils have been discharged from the school, please forward the usual request for their discharge.

The name of No. 67, Ernest McCallum, is shown on the June quarter return, but does not appear on the March return. Please advise if this pupil was re-admitted to the school during the June quarter.

Please make the necessary corrections on the return and mail same to us at the earliest possible date.

PUBLIC ARCHIVES
 ARCHIVES PUBLIQUES
 CANADA

Beauval, Sask.,
Indian Residential School,
July 26th, 1937.

Dear Sir:

I have your letter of July 8th, and wish to report that the pupils listed as missing from the June quarter return did not appear on that return for reasons as follows:

- ✓ 0176 - J. D. Naurayé
died, report on death forwarded.
- ✓ 0189 - O. Didzere
died, report on death forwarded.
- ✓ 0193 - P. Grandfaraud
had reached the age limit.
- ✓ 0206 - E. Aubichon
was needed at home.
- ✓ 0222 - M. T. Piwapiskus
died, report on death forwarded.
- ✓ 0237 - M. E. Piwapiskus; died, report forwarded.
- 13 - Francis Bell; had reached age limit.
- 37 - L. Mongrand; died, report forwarded.
- 56 - Emil Nezéroche; " " "
- 61 - P. Nezéroche; " " "
- 62 - M. Nikotsace " " "
- 65 - L. Betcheldekedhi; " " "
- 0208 - M. S. Opikokew; " " "
- 0239 - Marguerite Laliberté, and no. 64, John Gunn,
are both listed in the report, as my copy shows.

I am sorry that the June report was unsatisfactory. But I had thought that, as far as the pupils who had died were concerned, the report which Dr. Lavoie forwarded to the department on their deaths would be a notice of their discharge from the school. On receipt of your letter I made a special trip to Isle a La Crosse and ascertained from the Doctor that these reports had been forwarded. As for pupil no. 0193 P. Grandfaraud, 0206 E. Aubichon, and 13-Francis Bell, application for their discharge was not sent in due to a mistake of my clerk, since I thought it had gone in after the March report, as I had instructed at that time.

Pupil no. 67, Ernest McCallum, was shown on the March report but was wrongly numbered 68. This boy, as a matter of fact, has been at the school all year.

Indian residential School

Beauval Sask.,

October 4 1937

Dear Sir:-

Re Martin Durocher.

This little boy is only five years old, but the reason for i Ask for is admission to the school, is that he is an orphan, his father was killed a few years ago by a tree and his mother being remarried, does not seem to have the child with her.

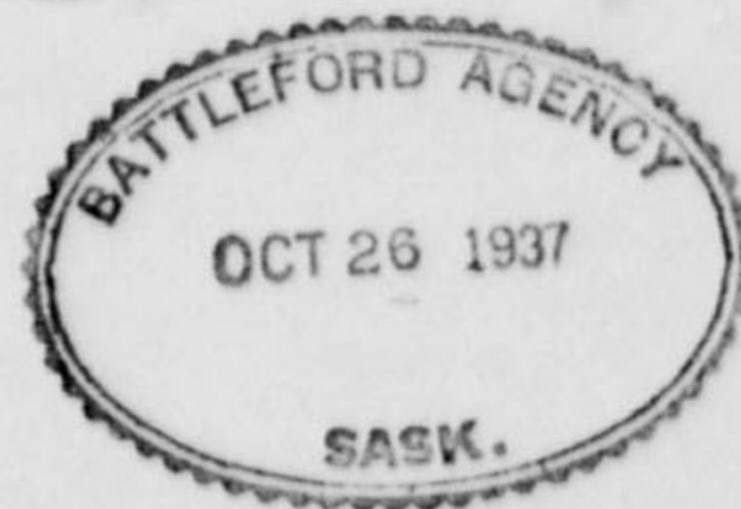

So, therefore i ask for his admission to the school

Yours very truly,

F. X. Gagnon O.M.I.

Dear Sir,

As the following children have not returned to the Beauval Indian Boarding School, Rev. F.X. Gagnon has made a request that they be discharged from school:-

Blaney

0228	Florence Matshee-	Meadow Lake Band
66	Daniel	" " "
67	Ernest MacCallum	" " "
54	Bruneau Earnest	Water Hen Lake
55	William Earnest	" " "

in fact these children are too far away to be transported too and from the school to their reserve during holidays, and I would recommend that their discharges be approved. In fact it would be better if the children if their parents wished to send them to the Delmas Boarding School.

Yours truly,

S.L. Macdonald

Ottawa, November 13, 1937.

Dear Sir:-

With reference to your letter of October 26, you may inform the Principal of the Beauval Indian Residential School that the admission of the following children is approved:

Bernadette Coulloneur	Salomon Billette
Eleonore Nezcroche	Martin Billette
Vitaline Opikokew	Victor Marcelard
Theodore Iron	Gilbert Iron
Rodrigue Iron	Martin Durocher
Louis Opikokew	

You may also inform the Principal that the discharge of the following pupils is approved:

No. 0228	- Florence Matshee
" 66	- Daniel Matshee
" 67	- Ernest MacCallum
" 54	- Bruneau Earnest
" 55	- William Earnest

The names of the following children were shown on the June quarter return, but did not appear on the September quarter return, although no application has been received for their discharge:

No. 0192	- C. Coulloneur	No. 3	L. Piwapiskus
" 0220	- M.E. Dawalsare	" 14	A. Grandfarand
" 0229	- Pauline Didzere	" 16	F. MacIntyre

No. 22 - S. Lariviere
38 - A. Mongrand
42 - S. Darazele
43 - S.A. Lemaigre

No. 44 S.E. Lemaigre
46 Arsene Piche
59 Elie Red Iron

Please advise regarding the above.

The name of 0173, C. Estaldgenen, was shown on the September quarter return, but did not appear on the June quarter return. No application has apparently been received for this girl. Please advise regarding her.

You should point out to the Principal that the Department feels that sufficient care is not being exercised in preparing the quarterly returns. It is most important that they be completed in a proper manner. Full directions regarding the preparation of the returns is given on the back page of the quarterly return form.

Under separate cover, we are forwarding a supply of admission and discharge forms. One more of these forms giving the information required should accompany each quarterly return in future. I trust that the Principal will arrange to have the returns more carefully prepared in future.

Yours truly,

Philip Phelan,
Chief, Training Division.

Battleford, Sask.

Dear Sir:-

Re September Quarterly return.

I have yours of the 17th, November, including copy of the Chief Training division, about the quarterly return. And I take this opportunity to thank him for the remarks he kindly made to me. I hope the next quarterly return will be completed in the proper manner. Lack of information was the cause of this trouble.

Discharge of pupils:

- 0192 C. Couillonneur, needed at home, mother sick.
0220 M.E. Dawalsare, died at home during holidays from the consequences of the epidemic.
0229 Pauline Didzere, sick at home, very poor health.
22 J. Larivière, Limit age reached.
38 A. Mongrand " "
42 J. Darazel Died during epidemic
43 J.-A. Lemaigre, needed at home limit age reached.
3 L. Piwapiskus, limit age reached.
14 A. Grandfaraud died during epidemic.
16 F. Mac-Intyre limit age reached.
46 Arsène Piché, limit age reached.

Miscellaneous.

- 44 J.-E. Lemaigre is present and was supposed to be on the September return. He came late to the School on 21st of October. So his attendance should be 62 days. I would appreciate very much if the Department would refund me, as I paid ...

Your file: 524-108

Ottawa, December 14, 1937.

Dear Sir:-

With reference to your letter of December 10, you may inform the Principal of the Beauval Residential School that the discharge of the following pupils is approved:

No. 0192 - G. Couillonneur
" 0220 - M.E. Dawalsare
" 0229 - Pauline Didzere
22 - J. Lariviere
38 - A. Mongrand
42 - J. Darazel
43 - J.A. Lemaigre
3 - L. Piwapiskus
14 - A. Grandfaraud
16 - F. MacIntyre
46 - Arsene Piche.

The re-admission of No. 0173, G. Est'aldhenen is also approved.

Regarding J.E. Lemaigre, No. 44, it is not possible at the present time to pay the school grant for the period he was ~~not~~ attending during the September quarter. You may, however, advise the Principal that when he is preparing his December return, he should request a grant for this boy for the period October 21st to December 31st, plus 62 days not previously allowed in the September quarter. A special note should appear in the column opposite his name, giving the date and file number of this letter.

Yours truly,

S.L. Macdonald, Esq.,

COPY.

Beauval Indian Boarding School.
Feb. 2nd. 1938.

Mr. S.L. Macdonald,
Indian Agent,
Battleford. Sask.

Dear Sir,

Ambroise Stevenson did not come back to school this year and Rev. Father Bleau told me he has been discharged. This is the reason why his name does appear on the Sept. Return and was not shown on December Return.

In case this was not done. I am asking for his discharge, this boy being absent this year and next year he will have reached the age limit.

Re the register number for new pupils, my copy of the December Return shows the following numbers, the same as in September return.

S.V. Mangeurielard.	No. 77.
Gilbert Piwaspius	78
Martin Durocher	79

However, if Mr. Philip Phelan wants me to use the other numbers I will use them.

Hoping this is satisfactory, I remain,

Yours very truly,

(Sgd) F.X. Gagnon.

Principal.

Dear Sir:

It has been decided to allow an amount not exceeding \$200.00 for transportation of children to and from the Beauval Indian residential school during the current summer.

The Indians should be encouraged to transport their children and, if necessary, the Principal may be authorized to supply them with food while they are en route to and from the school. Receipts should be obtained for all food supplied and these receipts should be attached to proper voucher forms to account for the expenditure requested in connection with transportation of children.

Yours truly,

Philip Phelan,
Chief, Training Division.

Dear Sir,

Replying to your letter No. 132-1-10 of the 25th. ulto. asking why the following pupils were not discharged from Beauval Indian Residential School:-

No. 174 M.A. Piwapiskus.
0183 A. Piwapiskus.

the Principal reports as follows:-

No. 174 M.A. Piwapiskus was kept in school for the summer on account of his father being hard up and unable to take care of his daughter. But she will be discharged at the end of the holidays.

No. 0183 A. Piwapiskus is an orphan and not very healthy, therefore her father asked me to keep her until now. She will also be discharged in September.

Yours truly,

PLEASE NOTE
FILE 235-108.

Battleford, Sask.
September 18th. 1939.

Dear Sir,

Rev. F.X.Gagnon, Beauval, writes me as follows:p

"This year, I have two girls of sixteen years of age that I would like to keep in school for the following reasons: 0173 Cecile Estaldhenen 16 years old is neglected child, having nobody to take care of her. So, if discharged, it will mean a great detriment to the girl, while in school she is learning very good and also she is a good example to the other girls.

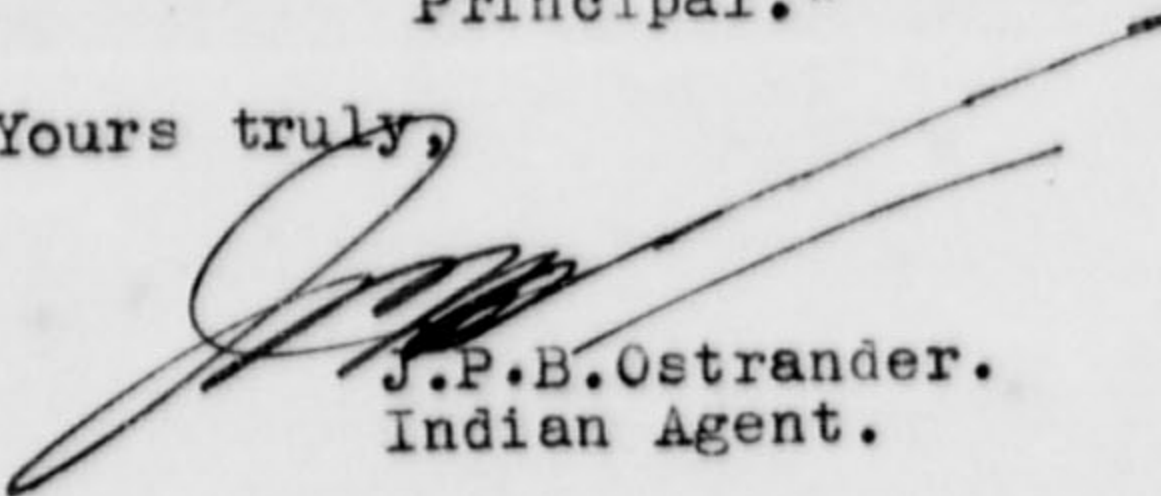

✓ 0196 Marie Rose Tchyalkwo although her parents are both living her father has been sick for the last couple years and unable to support his family. Therefore, they asked me to keep her in school for another year.

Hoping these reasons will be satisfactory, I am.

Yours very truly,

(Sgd) F.X.Gagnon. O.M.I.
Principal."

Yours truly,

J.P.B.Ostrander.

Indian Residential School.

Beauval Sask.,

August 17 1939.

Mr. J.P.B. Ostrander,

As you will notice, Marquerite Piche, is only 3 years old, but being an orphan, ~~has~~ father is dead, and her mother said that since she came back from the hospital, she ~~was~~ always lonesome and not able to eat the Tchypweyans' food, but apparently the reason was not there. It is likely that she did not care for the child any more. So seeing that, she cripple and destitute child, I brought her to school, knowing that the sisters would be kind enough to take care of the child and also replace her mother. Therefore, I ask the Indian Affair Branch to accept her as a grant earning pupil in school.

Yours very truly,

F. K. Laguarda d.m.l.

Ottawa,
December 4, 1939.

Reverend Sir:

The Department has received accounts showing that you expended an amount of \$1042.30 in transporting children to and from the Guy residential school during the past summer. Very careful consideration was given to this account and although we had previously decided to only allow \$200.00 I agreed with Rev. J.O. Plourde, O.M.I., that an amount of \$250.00 would be paid. A cheque for the latter amount will go forward.

While the Department is only paying a portion of the expense incurred we are concerned with the very heavy amount expended for transportation as shown by your letter. In the interests of both the school management and ourselves it is desirable to keep all expenditures as low as possible. This is especially true at the present time due to conditions of which you are aware and which make the future rather uncertain.

Is there no other method of transporting the children which would reduce the expenditure by a substantial amount? It is felt that the parents should be sufficiently interested to come to the school and take their children home for holidays. It is realized, of course, that it might be necessary to incur an expenditure for returning them to the school. As intimated above it is doubtful what amount the Department will be able to allow next year for transportation costs. It is, therefore, necessary that all Principals should give this matter very serious thought. Children from more distant Reserves might be kept at the school all summer unless the parents are sufficiently interested to come to the school and take the children home without cost. I should appreciate hearing from you when you have had an opportunity of reviewing the whole situation.

Yours truly,

Rev. F.X. Gagnon, O.M.I.,
Principal,
Indian Residential School,
Beauval, Sask.

APPLICATION FOR ADMISSION

To the

Director of Indian Affairs,
Ottawa, Canada

December 25 1939

Sir,—

I hereby make application for admission of the undermentioned child into the ~~Indian~~ Beauval Indian Residential School; to remain therein under the guardianship of the Principal for such term as the Minister of Mines and Resources may deem proper:

Indian name of child Jean Baptiste Estaldhenen
English name Jean Baptiste Estaldhenen
Age 8
Name of Band English River
No. of ticket under which child's annuity is paid 102
Father's full name and No. Noel Estaldhenen 102
Mother's full name and No. Sophie Aubichon 102
Parents living or dead Both living.
State of child's health Good
Religion R. C.
Does applicant speak English? No
Previously attended No school for years

Noel Estaldhenen
(Signature of father)

NOTE—If mother or guardian signs, agent must forward full explanatory note.

I hereby certify that the above application for admission has been read over and interpreted to the parent or guardian and that the contents were understood by him or her and that I witnessed his or her signature to this document.

I recommend the admission of the above child, who is of good moral character and is eligible to be admitted as a grant-earning pupil.

* Paul Payer
Signature of Missionary or other Witness

Agent

*Principal or other official of the school must not sign as witness.

NOTE—All the above particulars must be fully given, especially the "Name of Band," "No. of ticket under which child's annuity is paid" and "Religion." The minimum age for admission is seven (7) years, except in the case of an orphan, destitute or neglected child. When application is made for the admission of such cases, full particulars should accompany the application.

Jan. 22 1940.

Dear Sir:-

S. Gagnon
I acknowledge receipt of your letter of the 4th. ultimo, regarding the transportation of children to and from the school and I take this opportunity to thank you for the kind interest shown to the school in sending a cheque to the amount of \$250.00, which is very appreciated.

At the same time, I am pleased to assure you that the transporting expenditure will be reduced next summer and I expect to reduce it more before a couple years.

At present, I believe it is almost impossible to change the transporting method of children, as, no doubt, you are aware that the Indians of the North do not yet understand the benefit of education as well as their brothers living in the prairies and too radical a changement would mean that these Indian children will be without education.

Furthermore, the Indians do not have the proper equipment to undertake such a trip on big lakes and I am of the opinion that it would cost the school more by feeding of supplying the Indians with provisions for the return trip than the present system, which saves me ^{year} lot of trouble.

As already mentionned, this I expect to save on the amount as well as on the cost of fuel by using a new kind of motor on my barge. By using Bishop Breynat's plane I will also reduce the cost of air transporting of children. And likely, this season will be the ~~XXXXXX~~ time, I need a plane for this purpose as new roads actually under construction will permit to adopt a cheaper way of transporting the children.

For this year, I would be satisfied to receive the same amount as last year for this purpose.

Yours very truly,

F. X. Gagnon O.M.I.

Ottawa,
February 1, 1940.

Reverend Sir:

I am in receipt of your letter of the 22nd ultimo with reference to the cost of transporting children to and from the Beauval Indian Residential School.

It is noted that you hope to reduce the expenditure for this service but that for the year 1940 you will be satisfied to receive the same amount as last year; namely, \$250.00.

Your request will be kept in mind but at the present time I am not in a position to state whether or not such an amount can be allowed. Due to present conditions it is inevitable that our appropriation will be reduced and consequently matters have reached a stage where everyone interested in Indian education must do everything possible to reduce expenditure. The question of funds at our disposal for the fiscal year 1940-41 is still further complicated at the present time on account of the recent dissolution of Parliament and it will be several months before we will be in a position to definitely state what amount will be available for transportation during the summer of 1940. You will, therefore, see the necessity for making immediate plans to have the children transported free of cost as far as possible.

Yours truly,

Rev. F. X. Gagnon, O.M.I.,
Principal,
Indian Residential School,
Beauval, Sask.

Indian Residential School.
Beauval Sask., March 1 1940.

Mr. J.P.B. Ostrander,
Indian Agent,
Battleford Sask.,
Dear Sir:-

Herewith are enclosed 4 application forms
for the admission to the Beauval Indian School
of the following children:

0259 M. Delphine Lemaigre.
104 John Wolverine.
105 Mathias Grandfaraud.
106 J. Mathias Lemaigre.

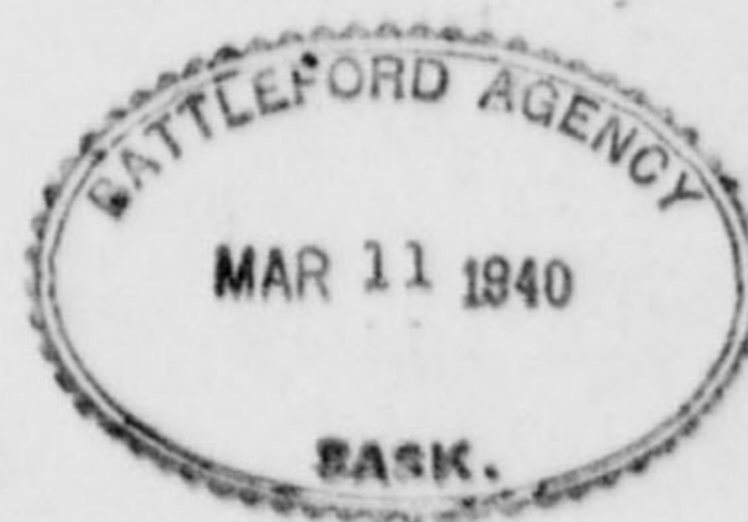

You will notice on the forms that M. Delphine Lemaigre
and J. Mathias Lemaigre are under age. These two
children were taken to school at the recommendations
of both the missionary at La Loche and Dr. Lavoie
on the ground that these children did not the proper
care at home. Although not orphan they are considered
as destitute, as their father is a nuisance and unable
to sustain his wife and children. Apparently, he has
a charge against him and I am told that he gambles
everything he owns.

Therefore I consider these two
children as destitute and therefore eligible to school.

Yours very truly,

F. X. Gagnon O.M.I.

F. X. Gagnon O.M.I.
Principal.

Beauval Sask.,

March 31 1940

Mr. J. P. B. Ostrander,

Indian Agent,

Battleford Sask.,

Dear Sir:-

You will find enclosed herewith the quaterly return ending March 31 st. together with the form 411 where I ask for the discharge of the following children:-

26	Victor Morin
64	John Gunn
70	Norbert George.

Victor Morin was sent home for his conduct, which was not a good example for the other children.

John Gunn is kept at home and not likely to come back, while Norbert George is just back from P.A. Sanatorium where he spent two years. Although he seems to be healthy, his father does not care to send him to school.

Yours truly,

F. X. Gagnon. O.M.I.

Ottawa, April 18, 1940.

Rev. Sir:

I desire to acknowledge receipt of the March quarter return of the Beauval Indian residential school.

Four new pupils were shown to have entered this school on February 6, 1940, and grant was requested for each of them for 85 days. In the case of these four pupils, grant should have been requested for each of them for only 54 days, namely: February 23 days and March 31 days.

C. Estaldhenen, No. 0173; and M. R. Tchyasikwe, No. 0196, are shown to be 16 years of age. Is it your intention to apply for their discharge at the end of June, 1940?

The discharge of the following pupils is approved:-

No. 26 - Victor Morin,
64 - John Gunn,
70 - Norbert George.

Yours truly,

Philip Phelan,

May 13, 1940.

Reverend Sir:

I desire to refer to your letter of January 22 and my reply of February 1 with reference to the cost of transporting children to and from the Beauval Indian Residential School.

There has been a drastic reduction in our appropriation and consequently for the summer of 1940 we will be unable to allow at the Beauval School a larger amount than \$125.00 for the transportation of pupils. As pointed out in my letter of February 1 you should make plans as soon as possible to have the children transported free of cost.

Yours truly,

Philip Phelan,
Chief, Training Division.

APPLICATION FOR ADMISSION

To the

Deputy Superintendent General
of Indian Affairs,
Ottawa, Canada

August 18 1940 193

Sir,—

I hereby make application for admission of the undermentioned child into
the Beauval Indian Residential School; to remain
therein under the guardianship of the Principal for such term as the Department
of Indian Affairs may deem proper:

Indian name of child..... Jonas George
English name..... " "
Age 7
Name of Band..... English River Band.
No. of ticket under which child's annuity is paid..... 87
Father's full name and No..... Alexandre George 87
Mother's full name and No..... Elisa Deneyou 87
Parents living or dead..... Both living
State of child's health..... Good
Religion R. C.
Does applicant speak English?..... No
Previously attended No school for..... years

Alexandre X George
(Signature of Father)

NOTE—If mother or guardian signs, agent
must forward full explanatory note.

I hereby certify that the above application for
admission has been read over and interpreted to the
parent or guardian and that the contents were
understood by him or her and that I witnessed his
or her signature to this document.

I recommend the admission of the above child,
who is of good moral character and is eligible to be
admitted as a grant-earning pupil.

* Fernand Prefontaine
Signature of Missionary or other Witness

[Signature]
Agent

*Principal or other official of the school must not sign as witness.

NOTE—All the above particulars must be fully given, especially the "Name of Band," "No. of ticket
under which child's annuity is paid" and "Religion." The minimum age for admission is seven (7) years,
except in the case of an orphan, destitute or neglected child. When application is made for the admission
of such cases, full particulars should accompany the application.
Form No. 21.

Dear Sir:-

Referring to your letter, dated May 13 th. 1940,
in which you mentioned that the sum of \$125.00 had been
allowed for the transportation of children to and from
the Beauval Indian Residential School, may I point out
to you that, up to now, I did not yet receive this
amount. As it is about the end of the fiscal year,
I thought it would be the right time to mention it you.

Yours thankfully,

F. X. Gagnon O.M.I.

Ottawa,
March 18, 1941.

Reverend Sir:

As you mention in your letter of the 13th instant the Department promised to allow an amount not exceeding \$125.00 toward the transportation of children to and from the Beauval Residential School during the summer of 1940. However, present regulations do not permit our paying this amount as an outright grant. Before payment can be made it will be necessary for you to submit a receipted account from the transportation company showing that you expended at least \$125.00. As soon as this is received payment will go forward.

Yours truly,

Philip Phelan,
Chief, Training Division.

File 132-1-10

Dear Sir:-

This is to acknowledge receipt of yours of the
26th ultimo, regarding the application form for Jean
Henry Henault, no 114 which apparently has been mislaid.

I had to send the copy of the admission to be
signed by the Indian Agent at Fort Chypweyan.

On account of brake up, I made and sent my
quaterly return ending march 31 st by this mail,
hoping the admission form would have reached Ottawa
by the time you receive the return.

Yours truly,

F. X. Gagnon O.M.I.

COPY.

Indian Residential School.
Beauval. Sask.

August 24th. 1942.

Mr. J.P.B. Ostrander,
Indian Agent,
Battleford. Sask.

Dear Sir,

I am just back from the North to pick up the children to school. As usual, I have encountered many difficulties. First of all, I had made arrangements with the C.P.R. Air Line to bring the children from White Fish and La Loche. In the meantime, the company has closed Prince Albert Air Base. So these children could be not be transported.

At the other points some parents have been kicking about the school, complaining about a few things, but in all this I found out that those who were complaining did not want to let their children go to school.

With all the expenses occurred in this trip I have only 60 children in school. I expect a few more at a later date. The Indians are showing great indifference towards the school, or they do not force their children to go to school. In other words, the children are their own masters. If they want to go to school, it is alright, if not, it is still all right with them. Most of the time, just at the time, that a child would start to learn something, they do not send him back to school. Thus, the Branch is spending money for very little result.

So on account of this, I believe that something should be done to put in force the Indian Act regarding compulsory attendance. I am sure if this would be done once or twice, there would not be any more difficulties about recruiting children in the future. So I wish you could do some thing in that line.

I am enclosing a list of pupils that are not coming back to school and also of those who are of school age to help you.

Before making any attempt to get the children from La Loche I will wait for an answer. So I do not make any useless expenses.

Yours truly,

(Sgd) F.E. Gagnon. O.M.I.

PLEASE QUOTE
FILE 135-108.

132-1-10
Battleford, Sask.
September 3rd. 1942.

Dear Sir,

Enclosed please find copy of letter received from the Rev. Father F.X.Gagnon, of the Beauval Indian Residential School, regarding compulsory attendance at his school.

As the area covered by this school takes in a large territory, I would not be in favour of going to any great expense in compelling children to attend. However, I am leaving the matter in your hands to what action you would suggest should be taken.

Yours truly,

J.P.B.Ostrander.
Indian Agent.

Re: Irregularity of Attendance -
Beauval Residential School

Dear Sir:

I have for acknowledgment your letter of the 3rd instant and also copy of a communication relating to the marginally-noted subject, received by you from the Reverend Father Gagnon.

It is scarcely possible to overemphasize the importance of having the accommodation provided at our residential schools occupied to the fullest extent in a period as critical as the one in which we find ourselves. It is important, also, that the average pupil's course of study should not be interrupted until he has gained mastery of the subjects to which he has been devoting his attention. It is a sheer waste of human energy and money to permit an Indian pupil to attend school for three or four years and then allow him to abandon his studies and proceed to forget everything he has learned. The Department is aware, of course, that there is this year an acute labour shortage in the province of Saskatchewan and that it may be difficult to arrange for the return of the senior pupils on the first of September. However, we are anxious that you should do everything humanly possible to assist the Principal in securing his full quota of pupils. If Indian parents are deliberately ignoring the appeals that have been made to them from time to time to encourage their children to attend school, the desirability of imposing the penalties for which provision has been made in the Act should be carefully considered. The Department will be governed largely by your recommendations.

Yours truly,

Mr. J.P.B. Ostrander,
Indian Agent,
Battleford, Sask.

Mr. J.P.B. Ostrander,
Indian Agent.
Battleford Sask.,

Dear Sir:-

You will notice that no 39. Joseph Montgrand was discharged last October when his mother and father were sick. Since then, they have both died and Joseph being orphan ask me to take to school again.

Ordinarily, I should have all the application forms filled and sent to you. But I just happened to forgot to have him examined by Dr Lavoie when he was in at the end of August.

In order to not delay my september report, I thought I would send it like this awaiting an occasion to take Joseph to Ile a la crosse to have his papers filled in and signed by Dr. Lavoie.

Yours truly,

F. X. Gagnon O.M.I.

Mr. J.P.B. Ostrander, Indian Agent, Battleford,
Sask.

On the March quarter return of the Beauval Indian Residential School A. Dazai, No. 0274, is stated to be 7 years of age. On the application form for this girl you stated that she was born on February 12, 1933, and consequently must have been 10 years of age in February of this year. Her age on future returns of the Beauval School should appear as 10 years. Please notify the Principal accordingly so that the necessary change may be made on future returns.

You may also inform the Principal that the Department approves the discharge of the pupils numbered as follows:

No. 0249
" 0250
" 0265
" 63

No. 81
" 101

Indian Residential School.
Beauval Sask.,

Sept. 14 1944.

Mr. J.P.B. Ostrander,
Indian Agent,
Battleford, Sask.,

Dear Sir:-

You will find inclosed herewith the admission forms for the following children:

0281	A. Tchiyasikwi.	131	L. Tchiyasikwi
0282	A. Sylvestre	132	F. Campbell
0283	T. Billette	133	A. Mangeurdelard
0284	F. Tchiyasikwi	134	E. George.
0285	A. Tchiyasikwi	136	W. McCallum (Quintal)
0286	V. Piche		
0287	E. Durocher		
0288	F. McCallum		
0289	D. McCallum		
0290	E. McCallum		
0291	Y. McCallum		
0292	C. McCallum		

You will notice that 0281 Adeline Tchiyasikwi was discharged in March, Her former no was 0255. When Dr. Lavoie came to examine the children I forgot all about her. If the Department want me to have her examine, I will do it at the first occasion.

Yours truly:

F. X. Gagnon O.M.I.

F.X. Gagnon O.M.I.
Principal.

P.S. No. 0284 and 0286 are only 5 years old, but as you will see, they are both orphans. No 0284 Mother is in hospital T.B. and 0286 Mother had to put the 3 kids in school in order to make her own living.

INDIAN AFFAIRS BRANCH

PLEASE QUOTE
FILE 108.

Battleford. Sask.
September 27th. 1944.

Department of Mines & Resources, Indian Branch, Ottawa. Ont.

Referring to your letter No. 105-1-10 of the 22nd. inst.
I am enclosing the following applications for admission into
the Beauval Indian Residential School for your final decision:-

0766	Yvonne McCallum, Age 7, No. 40 Water Hen Lake Band.						
0705	Cecile	12,	"	"	"	"	"
#234	Wilfred	10,	"	"	"	"	"
0765	Elmire McCallum,	14, No. 14	"	"	"	"	"
0779	Flora	8,	"	"	"	"	"
0766	Delia	10,	"	"	"	"	"

For your information these children were attending the
Thunderchild Residential School, Delmas, and parents apparently
requested Father Gagnon to take children to his school where they
are now. Until I received applications I had no idea said
children were at Beauval.

Father Gagnon advises me that Water Hen Lake Reserve was in
his territory a number of years ago. After the disastrous fire the
Indians of Water Hen Lake Reserve would not allow their children to
return to Beauval. Only recently members of this Band have been
visiting Beauval, and have found a modern fire proof building and
are now anxious for their children to attend.

Regarding the last paragraph of your letter, Father Aggin
is well aware that the MacCallum children are not members of Meadow
Lake Band, as he would give you the impression they are. They
are members of Water Hen Lake Band.

J.P. B. Ostrander.
Indian Agent.

Ottawa,
October 31, 1944.

Dear Father Gagnon:

We have received several letters from the Reverend Principal of the Thunderchild Residential School protesting strongly against the admission of six children named MacCallum to your school. It appears that these children were regularly enrolled at the Thunderchild School and were allowed home on holidays and, instead of returning to Thunderchild, they went to Beauval. I feel certain that you were not fully informed of all the circumstances, or you would not have accepted them at Beauval. I think you will agree that it is impossible to handle admissions to Indian schools if parents, instead of returning children to the school where they were enrolled, place them in some other institution. Certainly it has not been our practice to sanction such methods. Under the circumstances it would be appreciated if you would return the children to the Thunderchild School.

Yours truly,

Philip Phelan,
Chief, Training Division.

Rev. F.X. Gagnon, O.M.I.,

Mr. J.P.B.Ostrander,
Indian Agent,
Battleford, Sask.,

Dear Sir:-

Please find enclosed herewith my quaterly return ending December 31 st 1944. with requisition for school material and small requisition for drugs which are greatly needed.

You will notice in my return that I have admitted 4 girls from the Big River Reserve at the request of E.S. Jones, Indian Agent for the same reserve. I should get the approval for admission any time now. And I expect to be very busy next week, i just made it and I hope it will be O.K. as these have never been to Delmas and all the other schools down south are full

Yours very truly:-

F. X. Gagnon O.M.I.

May 18 1945.

Mr. C. S. Bell,
Acting Indian Agent,
Battleford, Sask.,

Dear Sir:-

The Police at Ila a la Crosse has been drawing my attention on new regulations regarding boats as to the number of articles that would be needed for the transportation of the school children from and to the school.

Here is the list:

- 1 Approved Lifebuoy,
- 1 Approved Life Jacket of each on board. If more than 12 passengers are carried approved buant apparatus is needed, sufficient to accomodate 50% of the number of persons on board.
- 2 Fire Buckets,
- 2 Tetrachloride Estinguishers of 1 1/4 qurts Cap. of the hand pump type.
- 1 Extinguisher 2 gall cap. to discharge froth.

Could ask the Department to procure these articles and have them sent in time for the 15 th. of June if these articles are available at allnow. If not, could get a special permit from the police untill these articles can be procured.

Yours very truly,

F. X. Gagnon O.M.I.

Mr. C.L. Bell,
Acting Indian Agent,
Battleford, Sask.,

Dear Sir:-

The only girl that is of age to be discharged
this year is no 0224 Marie Opikokew.

As she is doing fine at school and could
learn some more yet, I would kindly ask the Department
to keep her in school for one more year or until
she get married.

The reason is that is father has a fairly
big family to support and for one reason or another
does seem to be able to support them properly.
The children therefore showing propension to T.B.

So by staying in school where she will
receive proper care she will be in a position to
overcome this propension.

Yours very truly,

F. X. Gagnon

Ottawa, May 6th, 1946.

Mr. C.S. Bell, Acting Indian Agent,
Battleford, Saskatchewan.

With reference to the March quarter return of the Beauval Indian Residential School, you are requested to direct the Principal's attention to circular letter of December 29th, 1944, #150-87, which states, "Form IA 411, covering the admission and discharge of pupils from a residential school should be prepared at the end of each quarter, and forwarded at the same time as a quarterly return."

According to the return, there have not been any admissions or discharges at the school during the March quarter, however, in order to complete our record, form 411 should be forwarded regularly, even though it is a NIL return.

Philip Phelan,
Chief, Training Division.

W.E.H.

Battleford, Sask,
August 23rd, 1946.

P.E. Moore M.D.
Supt. Indian Health Services, Dept,
Health & Welfare, Ottawa.

Dear Dr. Moore:-

Re Mrs. Stanley Matchee #83 Meadow Lake.

The above mentioned woman was examined at the T.B. Clinic Meadow Lake and found to be in an advanced condition of T.B.

I have since seen this woman and have arranged to send her to the San. as soon as possible. She has a family of five children running from an infant to a boy of fourteen.

The two eldest children are enrolled in Thunderchild Residential School and the third child is almost of school age.

In order to help her in getting to the San. and arranging family matters I would recommend the following.

1. That John Baptiste aged 14 be discharged from Thunderchild Residential School. He is a big boy for his age and is needed to help his father.
2. The boy Joseph aged 11 be transferred from Thunderchild Residential School to Beauval Residential School where he would be a companion for his brother Stanley aged 5 whom the parents desire to place in Beauval.
3. The two younger children we are placing with reliable Indians on the Reserve.

For the sake of the children and the other Indians this woman should get to the San. as soon as possible and I took it upon myself to suggest to the farm Instructor on Meadow Lake that he send Joseph and Stanley to Beauval, when they were around gathering the other children for that school.

The health of all concerned is of more importance than the question of which school the children are to attend.

P.W. Head M.D.
Medical Superintendent.

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

132-1-10 (W.T. 1)

Ottawa, 8 October 1946.

Mr. C.S. Bell, Indian Agent, BATTLEFORD, Sask.

With reference to your letter of the 27th ultimo, the Department approves the admission of the following children to the Beauval Residential School:-

Charles Piche
Tobie Jos. Lemaigre
Ernest Thos. Lemaigre
Ovide Wolverine

Joseph Geo. Cardinal
Donald Fiddler
Albert Fiddler

You also forwarded the application for Sarazine Wolverine. Our records show that this girl was originally admitted to the Beauval School on Aug. 14, 1936. Her name appeared on subsequent returns until June, 1945. She was not shown on the return for the quarter ended Sept. 30, 1945, nor on subsequent returns although no application was received for her discharge. It is presumed that she was allowed out of school for some reason and at the present time has been re-admitted. On future returns she should have the same register number as previously, namely 0232.

You should point out to the Principal that each quarter return should be accompanied by a copy of Form I.A. 411 giving information regarding the pupils admitted and discharged during the quarter. Pupils' names should not be removed from the return until the Department has approved the discharge.

Philip Phelan,
Chief, Training Division.
